Mr. Praisident-Having land the honor of cutting the first dirt on the Railroad, Michael O' Sullivan has got a word to say to yer honor on this occasion before presenting the shovel. And first and foremost does yer honor know how many shovels full it takes to make a Railroad sixteen miles long? And do you know what it is to throw gravel all day to get the mate and paraties for the blessed childer? If you do, you know what it is to have a swate sleep at night and the praivalege of going to work again the next day. Now for the shovel. If any body has got a better bit of wood and steel than this let 'em keep it bright with hard work, and good lnek to 'em. I hope yer honor will keep the nate little shovel bright for the good it has done. Michael O'Sullivan dug the first shovel full of dirt on the Essex Railroad and wheeled it off and dumped it into the dock .-But then he didn't do it with this shovel. Not at all, at all, yer honor; Patrick O' Hannegan just took the tool without laive and has got that same old shovel, diggin? with it this blessed day on the great Railroad in Michigan, but this shovel, yer honor, is good as two of it and betther too; and if it didn't dig the first shovel full, it did a good many afterwards. [Much applause.] Yes, yer honor, it is not the first shovel full that deserves all the credit of making a Railroad, and it's Michael O' Sallivan that thinks it's more raysonable to look after the shovel that digs the last dirt on the Essex Railroad, and may yer honor not be long in finding it. [Immense ap-

The President received the shovel, which bore undisputed marks of hard service, and handed it to the Mayor of Boston, he being present as an invited guest, and having with him the eelcbrated shovel used by himself, John Quincy Admus and others, at the first excavation for the Boston Water-works. O'Sullivan's shovel was then passed around to the other distinguished personages on the platform, hy whom it was examined with much Salem. [Long continued cheers.] curiosity, and afterwards returned to the owner to earry in the procession.

The services at the platform having been concluded, the Procession was immediately formed in the following

Order of Procession.

Music
by the Bell Ringer of the Salem Depot,
with a hand bell.

The President and Directors of the Road, in Carriages.
The Mayor and Aldermen of the city, on foot.
The President of the Eastern Railroad, in a sulky.

The Gloncester Train of Cars, drawn by Lobsters. "Senators to Congress"—from Middleton. The "Essex County Volunteers" for Mexico, in a cab. Petitioners for the Malden and S. Reading Railroads, in directors.

in dirt cars.

The Procession being formed, murched through the principal streets, keeping time to the music of the Bellringer, who it is said by good judges of such matters, never acquitted himself better than on this occasion .-We are glad to learn that efforts will be made to obtain the services of the distinguished individual above mentioned, who is expected to ring the bell at the Depot in such a manner that the Malden and South Reading petitioners will not be able to hear it—the bell being intended for the sole benefit of the friends of the roud. The new bell will be of a large size, and cast from metal composed of two thirds copper, one third zinc and antimony, the remainder being pure silver.

The Procession having arrived at the Railroad Station the individuals composing it seated themselves in the train of cars provided for the purpose of carrying them over the road. These cars were tastefully decorated with flags and banners, and were compactly filled. As the ears emerged from the northerly part of the tunnel, the passengers were greeted with immense cheering from the multitude which had assembled on Forrester St. The train then passed over the road at a rapid rate, eucountering nothing worthy of notice except large numbers of pigeons at North Bridge, and being enthusiastically cheered by the inhabitants of Carltonville, as it for valuable public documents.

passed through that place. On its arrival at the Mill dam, it halted to receive a large delegation from Blubber Hollow, headed by Zaehariah Scrub, Esq., who addressed the President of the road in a neat and pertinent between Salem and Danvers, the whole company gave small but intelligent audience, the evening being too un- hour and twenty minutes, on Monday, in a most specious doing this I wish to commend the tone and the specious small but intelligent audience, the evening being too units arrival at the Grove St. Depot, it stopped to receive have been present. His subject was old King Lear, to pass this Resolve. The principal reasons urged by creet advocates of the Malden route, who this important event, and the city of Salem was early the Lord Mayor and Corporation of New Dublin. His and it was treated with all that keen perception of the the Colonel were, that they were of the Volunterr Milithronged with people who had come in from the country | Lordship Patrick O' Sheeny, Esq. apologised to the Pres- character and knowledge of the design of the author of tia of the State, enlisted and commissioned under our bearing arrogance which they charge upon ident for not making a formal address in behalf of the the play together with the peculiarity of style and man-authority, and destitute of the equipments necessary to citizens of New Dublin, by saying that "although he ner of the speaker which make his lectures so irresista- fit them for service in the field. Col. C. also urged the had got a nate little spacke in his pocket, he couldn't bly attractive. There is so much to interest and charm isolated position of Massachusetts, standing, as she alspike that same, by rayson of a had cowld, but he would the hearer in the depth of meaning contained in the wise most always had, antagonist to the Federal Government, like to have his honor rade it himself." This we freely admit we state of his Lordship's health, and acknowledged the vided attention of the audience, who seem to sit open Councils of the Nation, and which none had yet been importance of the services of the inhabitants of New mouthed in the most wrapt thoughtfulness until some able to acquire, without first defying the opinions of the Dublin in grading the road.

where it was received with great cheering by an im- and the same silence and attention succeeds. mense crowd which had assembled to await its approach, There were also representations from various settle- ence. ments in Danvers, such as the 'Plains,' 'New Mills,' The Mayor then rose, and in a brief speech compli- Blind Hole,' 'Pilfershire,' 'Devil's Dishful,' and the 'Arab country.' After they had been severally introduced to the President and Directors of the road, the following letter from a soldier in the regular army, writwhole company ascended to the spacious hall in the Depot building, and partook of a sumptnous entertainment provided by the Corporation.

After the entertainment, the cloth being removed, there were several speeches from different gentlemen and volunteer toasts from the guests, which were drank in pure water, the celebration being conducted on strict temperance principles. We regret that our space will not per- bly on the march with the army to meet Santa Anna at the ground was first broken in excavating for the Rail- mit us to report the speeches, which were all of a very road,—would now take place. Upon this Michael interesting character and were rapturously applauded.— We have room only for a few of the sentiments.

The President of the Road concluded his speech with the following:

-Salem and Danvers-Originally one in name, they should always be one in feeling as they are in interest. Let the tics that joined them in their youth, gain new strength from the iron bands that unite them in their manhood. [Great cheering.] By the Mayor of Salem:

The Essex Railroad-Whether its northern terminus shall he at Audover, Manchester or Montreal, it will be the channel by which the seaboard and the interior will be mutually benefitted.

The Contractor who built the road, being called upon, gave the following:

The Master of Transportation on the Eastern Rail--The friend and Kinsman of the Essex Railroad. By the Mayor of New Dublin:

The E-sex Railroad-It was chartered aisily, let it be completed spadily. [Tremendous applause.] By the Mayor of Carltonville:

The Chairman of the Legislative Railroad Commitec-Always high in the regard and confidence of the inmunity, still he is constantly Rising. Steam and Electricity-If Ruilroad Corporations

would guard against dangerous shoeks, let them be always provided with suitable Conductors. The Malden Railmad-May the present attempt to

nise it from the rains of its full, be attended with entire success. [Applause by the friends of the road, and hisses from the opposition.] The Glaucester Railroad-Equally celebrated for its

Non Conductors and its Break-men. [Groans.]

The Georgetown Ruilroad—"Hush! my dear, lie still nd slumber." [Drank in solemn silence.] The Leather and Shoe Manufacturers of Danvers-

May they have all the women in the country to shoe and the men—to boot. [Loud stamping.] The Naumkeag (Cotton) Mill-A fair grist to the Corporation.

owners, and good toll to the fair millers. The Bell Ringer of the Salem Depol-Destined to

make a noise in the world, he has proved himself in war,

After the applause had subsided, the Corporal rose, and with a bland smile playing on his open and expressive countenance, modestly remarked that his humble understood the force of the writer's remarks, it was his services to the public did not deserve the high praise that order, under the direction of the principal Contractor for Luilding the road, assisted by the Master of Transportation on the Eastern Railroad.

Order of Preserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services to the panne did not deserve the high praise that he was simply a dealer in the following services the high praise that he was simply a dealer in the following services the high praise that he was simply a dealer in the following services the high praise that he was simply a dealer in the following services the following servi order, under the direction of the principal Contractor for had been awarded them; that he was simply a dealer in should not be obliged to die by it. [Great applause.]

Many other sentiments were given which were 'inaudible to the reporter,' and from the same cause some of the foregoing may be incorrectly reported and fail of doing justice to the distinguished individuals by whom they were given, who will please accept this as our apology. It is unnecessary to say that much of the effect produced at the time on the guests at the table, by the delivery of the sentiment, is lost to the reader.

At a late hour in the afternoon, the company left the hall, and a greater part of them were again seated in the cars, and left the Depot amidst loud cheering from the multitude. Thus ended the imposing ceremonies and festivities of the opening of that portion of the Essex Railroad connecting Danvers with Salem. It will long remove that some of the classes bright know that there is the corresponding premiums. Last year's petition for a sixtuations.

ed our notice in reading the proof, and instead of three hundred sides it should have been three hundred thousand sides, which is the actual diminution from the house market compared with the last year, by importing less and exporting more.

From the Seat of War.

We have permission to place before our readers the ten the day before the march from Monterey. It is from the same source as the letter we formerly published, the writer boing a native of this village, and having friends eral years in the army, and followed the fartunes of the gullant Taylor in the Florida War, at Palo Alto, Resica

Montcrey, Mexico, December 10th, 1846. Dear Mother-I am still enjoying the blessing of good health, and hope all of you do the same. I take this est battles ever fought on the American Continent.

I have not received any letter from you since the one to hear from you often, as soon as we get to Victoria.-If the Mexicans do not shoot me before that time, I will Worth's Division, and is now under Gen. Twigs. Genria. I have not time to write any more now, so good

THE ESSEX RAIL ROAD.

In another column we have given an account by an eve witness of the ceremonies at the opening of this Road on Monday last. We learn that it has been well patronised during the week, conveying on an average of their property wantouly destroyed. more than 250 passengers per day, It is estimated that there have been at least 100 arrivals and departures from the Harmony Grove Depot daily. There has been some complaint particularly by ladies, on account of the want of shelter at this exposed and bleak situation, but we learn that the evil is likely to be speedily remedied by the

FOR THE COURSER. PUBLIC SCHOOLS. Our attention was arrested by a communication in a tion and improvement of these valuable institutions, it would be fortunate for the community. If we rightly ains to show the necessity of a larger appropriation in suppensation paid in some of our schools, is about the same as that paid in the public schools in the City of Salein.-But then it is said, they have more assistan's than they do here; and consequently the task of the teacher easier. Possibly there may be such a thing as too much assistance in the management of a solvol. The progress of the pupil must depend chiefly on his own exerions. What is most wanted of a teacher is to guide these exertions in the proper direction. If a teacher has the skill to keep the entire school in order, and properly employed; it is by no means certain, that 60 or 70 scholars can not make as much improvement under the direcars can not make as much improvement under the three tion of one competent teacher, without assistants, as wards its establishme with. We know that these assistants are a relief to the will give a like sum. principals-but we are not quite sure that they are in all Railroad connecting Danvers with Salem. It will long be remembered by all who enjoyed the sight of the splendid procession, or witnessed the impressive ceremonies of which we have now given a very imperfect account.

Errata.—in the article in our last under the head of that attends the public schools. We have sometimes along that attends the public schools. We have sometimes an error compared with most other towns of its size in the county. The whole amount now used for this purpose is along \$6000—being about \$4 for each scholar that attends the public schools. We have sometimes oneried in looking into these schools whether the advances

In Stonington, Como., 15th inst., Mr. Joseph Pousland to Miss Eliza Thayer, both of Salem.

Singing Class.

Mr. HUBBARD respectfully gives notice to the ladies and geutlemen of Dauvers, that he will open a School, for the purpose of giving instruction in Vocal Music, on FRIDAY EVENING next, at 7 o'clock, at the Vestry of the Unitarian Church. Tickets for the course of 24 lessons, may be obtained at the door.

"Parus Contloren \$150. Ladies \$1. Terms—Gentlamen \$1 50. Ladies \$1. The regular evenings for the School will be Thesday

A CARD.

Mr. and Mrs. J G. Richardson retern their sincere thanks to their many friends, for the docutions tendered them at the "Visit" of the 15th inst. The substantial and valuable character of the gifts, the good wishes and hearty sympathy of those present, the evidences of regard by soveral who were absent, excite in the ilonees an unfrigned desire that their henefactors may be privileged to perform many generous deeds to ohers, and at the same time become the recipients of the richest bounties of heaven.

Danvers, Jan. 1817.

Essex street, April 25, 1816.

Teeth at Cost, until Mch. 1, 1847! Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston.

OR the purpose of introducing more extensively in many important respects, an entire new plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases o two or more teeth, but is peculiarly and especially adapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of some parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blucks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing out the cheeks and lips to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concerned, are thus fully met by this made, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work .- especially in whole and half sets Another advantage of carved work,—and one of great importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to re-move them, will invariably become offensive and taint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its insta-bility, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understond and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, where great difficulty in execution is overcome. They cannot fail to excite admiration from all who are pleased with close imitations of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen.

TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six mouths if perfect satisfaction is not then given, the teeth may scientific manner, and on the following terms, viz. For filling common sized cavities with gold, \$1; For other kinds of Filling, from 50 cents to \$1; For set ting on gold pivot, \$2; For Cleansing \$2; Extracting 25 cents. Examinations and advice gratis. All oper ations warranted.

Carved work in block for whole and half sets will be got up for other dentists on reasonable terms. S. STOCKING, Surgeon Dentist. Aug. 15.

ABDOMINAL SJPPORTERS.
NEW ENGLAND

TRUSS MANUFACTORY, BOSTON, MASS.

JAMES FREDERICK FOSTER Continues to manufacture all the various approved TRUSSES, at his Old Stand, No. 305 (opposite No. 264) Washington street, entrance in Temple Avenue, Boston where he has been for the last ten years—and his residence and business being both in the same building, he can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the Truss business than any other person engaged in it

in this city or any other.

Also—Aldominal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back Boards, Steel Shoes, for deformed feet. Trusses repaired at one hour's notice, and made to answer often times as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feels confident in being able to suit all cuses that may come to him. Cenvex Spiral Trusses, Dr. Chase's Trusses, formerly sold by Dr. Leech; Trusses of galvanized metal that will not rust, having wooden and copper pads, Read's Spiral Truss; Runtell's du; Salmon's Ball and Socket; Sher man's patent French do; Bateman's do, double and single Stone's Trusses; also, Trusses for children, of all sizse Dr. Fletcher's Truss, and Marsh's Truss, Dr. Hull's Truss. Thompson's Kachet Truss, and the Shakers' Rocking Trusses, may be had at this establishment. Whispering Trubs and Ear Trumpets, that will enable a person to converse low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses, waited on by his wife, Mrs. Caroline D. Foster, who has had ten years experience in the business.

CERTIFICATES.

From Dr. John C. Warren, of Boston, at one hour's notice, and made to answer oftentimes as well

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persous afficted with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, 2nd ingenious in accommodating them to the variety of cases which occur. I feel nywelf called upon to recommend him to my professional brethren, and tu the public, as a person well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robbins, Rosbury.

Since the death of Mr. John Beath, Ihave used, in preference to all other Trusses those made by Mr. J. F. Foster, of Boston.

P. G. ROBBINS, M. D, Boston, April 27th, 18-16.

The undersigned is familiar with the ability of Mr. J.

F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favora

bly compare with that of other artists.

Since, I have taken Lornaine's Pills and now every body tells me that I am well; I feel as well as ever I did. J. E. S. McKEY.

Portland, Me., Nov. 7th, 1813 Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable, cer could have quite a number of highly respectable, cer ficates from our citizens.

and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtues of Lorraine's Pills, I had no faith whatever, but 1

taken but eight pills! my Rheumatism had entirely left me, and I have remained well ever since. N. B. I never took more than one pill at a time

took them, and it is a solemn fact that when I had

N. B. I never took and that on going to bed. Yours respectfully, W. M. HALSTAL

Unable to raise the Hands to the Head!
Sir—For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the brain or vital organs. My pains were violent—all medicines recommended did no good. At last, I tried LORRAINE'S VEGETABLE PILLS, which Unable to raise the Hands to the Head! gave mmediate relief, and have entirely cured me.

Respecifully, your ob't serv't,

JAMES CODSON, Esq. Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured !!

Loweri, Mass., April 20th 1944.

Sir,—For the last few months I have been afflicd with a severe pain in both sides, at times so hard that I could scarcely get my breath. It is a pleasure to feel well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr Lorraine's Pills. J. BROOKS,

Sir: I could (1) the whole of the Sentinel with similar letters to the above, but believing the above extracts will serve for useful purposes for the present

New Eugland Office and General Depot, No 10 Brattle Square, Boston.

Lynn, Dec. 17th, 1843 Sir; I have sold all the prils I last had of you please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase they are becaming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them fluds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for the lady, were is now cured and able to wash meet. ineally years, is now cured and able to work most of her time, after having taken 3 boxes only of Lor raine's Pills!! I might name many other cases where the cures have been as great, but have not time.

Yours respectfully, J.E. F. MARSH

DANVERS, (MASS.,) SATURDAY MORNING, JANUARY 80, 1847.

NUMBER 45.

DANVERS COURIER: PUBLISHED EVERY SATURDAY MORNING, IN LUNT'S BUILDING, -UNDER ASHLAND HALL, At One Dollar and Fifty cents a year, IN ADVANCE.

GEO. R. CARLTON, Editor. Book, FANCY AND JOB PRINTING 1 Books, Pamphlets, Cards, Ball Tickets, Billets, Circulars, Show Bills, Deeds, Labels, Blanks, all kinds, Auction Bills, Hand Bills, Billheads, Catalogues, Bank Checks, Bills of Lading, etc., etc., executed at short notice, and on the lowest terms.

Poetrn.

[From Blackwood's Magazino.] HONOR TO THE PLOUGH. Though clouds o'ercast our native sky And seem to dim the sun, We will not down in languor lie, Or deem the day is done: The rucal arts we loved before, No less we'll cherish now, And crown the bunquet, as of yore, With Honor to the Plough.

In these fair fields, whose peaceful spoil To faith and hope are given, We'll seek the prize with bonest toil. And leave the rest to Heaven We'll gird us to our work like men Who owe a holy vow, And if in joy we meet again, Give Honor to the Plough.

Let Art, arrayed in magic power, With Labor hand in hand Go forth, and naw in peril's hour Sustain a sinking land. Let never Sloth nonerve the arm, Or Fear the spirit cow; These words alone should work a charm-All Honor to the Plongh.

The heath redress, the meadow drain. The latent swamp explore, And o'er the long expecting plain Diffuse the quickening store: Then fearless urge the furrow deep Up to the mountain's brow, And when the rich results you reup, Give Honor to the Plough.

So still shall Health by pastures green And nodding harvests roam, And still behind her rustic screen Shall Virtue find a home: And while their hower the rauses build Beneath the neighboring bough Shall many a grateful verse he filled With Hunor to the Plough.

STRIVE ON!

Strive on-the ocean ne'er was crossed, Repining on the shore; A nation's freedom ne'er was won When Sloth the hanner bore.

Strive on-'tis cowardly to shrink When dangers rise around; 'Tis sweeter far, though linked with pain, To gain the vantage ground.

Bright names are on the roll of Fame, Like stars they shine on high; They may be hid with brighter rays, But never, never die!

And these were lighted 'mid the gloom Of low obscurity, Struggling through years of pain and toil, And joyless poverty.

But strive-this world's not all a waste, A wilderness of care; Green spots are on the field of life, And flowerets blooming fair.

Then strive-but, oh, let Virtue be The guardian of your aim! Let pure, unclouded love illume The path that leads to fame!

History of Astronomy. No. 5.

The course of history leads us again to the remote North. Passing over Europe, to see what is being acand gargeous structure, on a small island in the Baltic

By the labors of Copernicus, the heavens were divested of their ponderons Crystal Spheres; and a beautiful, were his labors, and eternal as were destined to he his fashioned by the Creative hand, from repudiating its simple truths, and entering upon the former devious way.

Tycho Brahe, to whom belonged the gargeous structure before mentioned, was born in 1546, at Knudstrop life to astronomical contemplations, at length I have in Denmark. Although destined by his parents for a far brought to light, and have recognized its truth beyond different profession, the mind that was captivated each my most sangaine expectations. It is now eighteen eve by the star-lit heavens, could not withhold itself months since I got the first glimpse of light; three months from endeavoring to read this beautiful page of Gad's glory and wisdom more closely. In the face of all oppo- most admirable to gaze upon, burst out upon me. Nothsition and much family persecution, he renounced the ing holds me; I will include my sacred fury; I will tristudy of the Law, and gave his whole soul to the cultivation of astronomy.

Although much had been done to establish the true and circular, had been left massailed. It required some of this absurdity. And in the person of our noble Dane, for posterity has blessed his name and embalmed it in holy we find a man every way prepared for the task, -as if remembrance. heaven, so long ontraged by the folly of her sentient creatures, had determined to vindicate her laws, and force upon the unwilling mind, the simple truths so long and so vainly written in characters of light and beauty upon her broad arch.

It was the pleasure of Tycho to speud a large portion of the night, seated in his splendid observatory at Urainaburg, in observing the motions of the moon and planets. Unlike Copernicus, he delighted far more in thus forming an Alphabet of the heavens, whereby others might be able to read the history of the past, than in determining the great laws and principles of the language. It was the crowning excellence of this celebrated astrone-He had no peculiar theory to support, for indeed his obwhich they unlocked, were not even comprehended nutil cers, saying. the great law which they served to establish, was disworld, nor did he court the approhation of those by knocking at the door,' whose munificence he was thus settled as a prince, otherwise than by worshiping at the pure altar of truth .--Tycho is not renowned so much for what he has himself as they did, into the hands of that distinguished man, Kepler, have decked for him an enduring niche in the temple of Fame. And yet he was persecuted; -- persecuted, too, because he would not fall down and worship at the shrine of Aristottle,-persecuted, because he dared to speak and publish what he knew to be the truth. And all day. he drooped and died, an exile from the land of his birth,-away from his beloved Heuen,-away from his georgeons Urainahurg-the theatre of the play of his dearest uffections—the spot with which were associated his labors and his glory! He died a martyr upon the altar of truth. Well might be exclaim in the last throes of poor human nature, "I have not lived in vain."-Most true! And of all the abservers of the ancient world, he alone, is worthy to stand beside the famed Hipparchus-twin names which should never be disso-

While in exile at Progue, and smarting under recent persecution, there was placed in the hands of Tycho a volume, the production of a young man, than which nothing more absurdly funciful ever dropped from the pen of an author. And yet beneath this fairy garb was canched the elements of a master spirit,-a man whose star was destined to shine side by side of his, whose farreaching tube first unveiled the mysteries which he be-Gratz, he accepted of an invitation from Tycha Brahe, to settle with him at Prague; and it was the union of these two minds, so distinguished and yet so diverse,a union, comented under circumstances so peculiar, and

of ashes, salt, gypsum, nitre and clay. The latter in- received from the labors of Copernicus and Tyche, no provements around it except a small field of corn and gredients should be as pure as possible, and constitute progress had yet been made in developing the general punkins. As we drove up to the door a whole troop of laws of the system, and scarcely an idea had been form- uaked children ran out to look at us. A pale auncish three bushels of salt; 10 lbs. nitre; 8 bushels ashes, ed of the power by which the planets were retained in looking woman was sitting at the door charming; she (unslacked) and one of gypsum. This should be placed their orbits. The labors of assiduous astronomers had in a heap in the untum under cover, and turned several supplied the materials for this purpose, and Kepler handed us each a rough wooden stool to sit down upon. times before using it in the spring. As an application to arose to lay the foundation of physical science. Receiv and said, corn it is invaluable, especially in the hill, and on soils ing from the hand of Tycho the careful observations of Why, Doctor, is this Mrs. Boggs? I thought you the open window, leaning over the window sill, stood a

life the protracted labors of two. And from this volume of observation he deduced the following laws:

1st. The orbit of the earth and all the other planets are ellipses, having the San in the common focus. This was assailing one of the dogmas of ancient authority, which had been confirmed by the accumulated testimony of astronomers for thousands of years.

2nd. A line joining any planet with the Son, will pass over equal spaces in equal times; or in more technicomplished for science, the eye is arrested by a singular cal language, the radious vector of the earth or any oth-

er planet, describes equal areas in equal times. 3d. The square of their periodical revolutions is e

qual to the cube of the ir distance from the Sun. The joy of the great astronomer upon discovering this haraoonions and simple system established. But vast as third law, was almost aubounded. "What," says he, "I prophesied two and twenty years ago; what I firmly loctrines, they did not entirely forcelose the royal road believed long before I saw Ptoleroy's Harmonies; what ing abject he was! His arms were cavered with mail up ta astronomy, so long the highway of the great ones of I had promised my friends in the title of this book which the earth; nor prevent one of the noblest minds ever I had named before I was sare of my discovery; what sixteen years ago I urged as a thing to be sought; that for which I joined Tycho Brahe, for which I settled in Prague, for which I have devoted the best part of my since the dawn; very few days since the quyciled sun, nuph over mankind by the honest confession that I have stolen the golden vasca of the Egyptians, to build up a tahernacle for my God for from the confines of Fgypt .-system of the heavens, yet the province of the second If you forgive me I rejoice; if you are angry I can bear dogma of antiquity, that all celestial motion is uniform it, the die is cast, the book is written, to be read either now or by posterity, -- I care not which, I may well wait person to give himself to careful observation,—to record a century for a reader, as God has waited six thousand the most trivial motions of the heavenly bodies for a long years for an observer." And well might this "Legislator succession of years, to furnish the data for the overthrow of the skies," as he has in reverence been called, rejoice,

From the Philadelphia Saturday Post. Trials of a Physician's Wife. August 14th, 18-. Well, I have had my patience

ticed this day! I thought this morning that I would get a large washing done this day, and as I have only one small help, I generally take a pretty active part myself. My husband started off early on a long ride; so now, hinks I, what a fine day I shall have to get along with my work-na dinner to prepare, nothing to interrupt me; so to work I went in good earnest, collected my clothes, mer, that he noted things precisely as they occurred. | put on my very warst old wrapper, heated a kettle of water, and had just got my hands into the sads when servations often went against all known theories; and Dolly (who is always looking everywhere but at her the principles which they illustrated, and the truths work) came running to me with her eyes as big as son-

'Oh, Mrs. Boggs, there's the finest carriage at the gate,

Pity me, ye housekeepers! what was I to do? -they feared it was slightly tongue tied, 'poor little dar- her.' Used to it, indeed. ling.' I told them the doctor would probably be gone

baby.

balty-talk to the little darling. Oh, what a long, long get her warmed up. day it was to me. That young mother was certainly the Her husband sat reading, and never spoke except to the bally. It was near night when the Doctor returned, and the kitchen to my chamber. When, hark! another knock lent thing for this use.] He then dug a trench four feet youd the reach of mussisted ken. This visionary young on examing the count is to after eating their supper with ing the matter with it. So after eating their supper with us, they left without even thanking us for our trouble .-am worse tired than if I had done my large washing.

AUGUST 17th-I have just returned from a long rid hetween elements so strangely dissimilar, that has bless. with my husband, and have been much amused with ed it do not exceed the cost of barn daug, far you had ed the world with a knowledge of three of the most incalled at was a new little cabin, built in the middle Notwithstanding the necession which astronomy had large prairie, with no other house in sight, and no imseemed much pleased to see the doctor, invited me in,

see, ma'em,' turning to me, 'the Doctor often comes to | Shall I ever forget my feelings at that moment? Dolly see us, and I axed him to fetch you 'long, but I reckoned was clinging to me, grouning most pitifully-the lamp

you was too proud to visit poor folks.'
'How is Andrew?' said the Doctor.

'Oh he is right smort.' 'Does his hand begin to heal?'

'Oh yes, a heap.' Where is he?

'Well, I reckon the little sarpent has gene and hid himself. I'il call him.' So running out to the fence with her apron thrown ov-

er her head, she set up such a scream of 'Andrew, O, Audrew Jackson, I say, come right straight here, and this time of night?' let the Ductor fix your hand.' But the General had no notion of it until he was drag-

ed in by two of the larger hoys; and then what a lookto his elbows, and his head was much lighter colored than his face.

'Mercy sakes!' said the mother, 'you're the dirtiest brat. Fetch me that cloth off the churn, Maliny Ann, Boggs, he is dying—they are rubbing him to keep him till I wash off his land.'

After some struggling, the hand was cleaned, so that the Doctor could dress the wound, and while he was en-slipped out in her night-clothes, and with nothing around gaged with it, the woman endeavored to entertain me.

ome tea with us?' said she.

'No, I thank you; the Doctor has several patients to

aid you was mighty fond of pic.'

I dared not refuse after that. 'I have got some first rate. Betsy Jane, hand me a

snife; why ain't it clean? go 'long and wipe it.'

And Betsy Jane did wipe it-on the same cloth that had already done more than its duty-the same that had heen round the churn, and was used to wash off An- searcely a well person in town. The Doctor is comthrew's sore hand. The pie was ent and handed to me, pletely worn out; and if we feel ever so badly, it is no and there I sat holding it, and wondering how I should use to complain, for the Doctor has no time to attend to get clear of it. I put it near my lips two or three times, his own family! I was startled last night by the stroke but the very thoughts of biting it made me shudder. I of a riding whip against my window. I listened a moreally thought the Doctor would never get through with ment without answering, when the window west thrown that hand. However all things must have an end, and up, and the wash head of a man was thrust in without we bid good bye to the really kind woman, and I sprang ceremony. into the buggy still holding the horrible piece of pie in my hand. I carried it until we were out of sight of the cubin, and then it became food for the Gophers.'

We next called on an old woman who said she had an awful agereake,' and wanted to know if it would not belp it to grease it overnight with new hog's lard. The Doctor left her some ointment, and while he was putting up some medicine for her, I trembled lest she too should offer him a piece of pie. I wish my husband would not tell people that I am fond of nie.

SEPTEMBER 2d. 'Oh, for a lodge in some vast wilderness? Yes, anywhere or anything that the complaints of these poor shivering ague patients (might never reach me more!' I am but half recovered from a spell (as covered. He sought not the adulation and praise of the and the greatest lady in it, and the nicest gentleman a they call it here) of it myself, and I can sympathize with any poor soul that ever had a shake. One who has not lived on one of our Western rivers, can form no idea | Pheladelfy for him. receive them just as I was. Dolly invited them in, while of the distress occasioned by this disease. Whole famu-I looked through the window to see if I could make out lies are stricken down at once, and although not often fadirectly done for science, as for what he has furnished who they were. The lady stepped very slewly out of tal in its effects, still it destroys all energy, both of heavy others the means of accomplishing. He was peculiarly the carriage, holding the tinicst baby close in her arms, and mind, and one feels at the time as if all comfort and fitted for an observer, and his life farnishes an important as if afraid to trust it a moment even to her lauskand. happiness had left him forever. And then one prects cpoch in astronomical history. His observations, falling They came in and introduced themselves as Mr. and with so little sympathy from the old settlers. If you Mrs. S-, from a neighboring town. They had atter the least complaint in their presence, they will heard Dr. Boggs well spoken of, and had brought their laugh, and say, 'why, didn't you expect to have the ager been considered, to use a common phrase, 'run out.'haly (the first of course) to have him look at its tongue when you came here?' or, 'Oh, you will soon be used to The fruit on those trees—the St. Michæl, for instance.—

> SEPT. 4th. What a horrible night I have passed-I «Well,' said the lady, deliberately taking off her things, do believe people like best to come for the Doctor during I guess we will wait until he course, as I would rather the night. It has been nothing but rap, rap, at our door, ride home in the dark than miss having bind see the every mght for a week past; there is no chance for sleep in this house; and last night in particular-I really had What a prospect for me! What should I get for dinner my nerves tried. The Ductor was called out into the was my first thought, and my poor washing was the country just after dark, and did not expect to return until tienlineist, over the signature of J. B. W., of New next-it unst all be put by for the day. So I excused near marning. I felt lenely, sick and nervous-several York, gives an account of his mode of renewing the myself for a moment, ran into the kitchen, lifted off my persons called before ten o'clock for medicine and advice, health and vigor of one of the exhausted trees according large kettle of boiling water, set away my tubs, started At length all seemed quiet, and I was about to retire, Dolly off to buy, beg, or borrow same butter, mixed up when Dolly, who had brought her bed into my room, some bisenit, washed my hands and brushed my hair, that I might not be alone, began to grow with a chill.cleared away and then changed my dress, walked into Then I was obliged to go out into the kitchen, build up the parlor with a smiling face, and commenced talking a fire, make some tea, and heat some irons to try and I was just in that weak state that I know many have

seemed quite comfortable and inclined to sleep; so after reduced. locking all the doors and fistening all the windows, I tried to compose myself to slumber, but the room was deep. He then put in an equal quantity of fresh soil, I arose and opened the window—the moon was shining for many years. Ho applied to each tree two bushels of I sat there for some time, hoping to hear my hashand's burgy; but not a sound was heard in the village. The pulverized. All these were well intermixed, by spiding longer I sat there the more lonely I began to feel so leav- over several times. The next summer the trees grew ing the window open, I again lay down on my bed, and | luxuriantly, and formed new and handsome heads-the was just sinking into a doze, when the most piercing summer following they blossomed moderately and the scream caused one to spring to my feet; and there, at succeeding season they have a fine crop of excellent fruit. twenty years, he was thus enabled to unite in his own didn't mean to fetch your old woman out to see us. You female figure 'all dressed in white' uttering screams.

gone out, and there stood that white, spirit-like figure in the bright moonlight, wringing its hands and still screaming! At length I caught the words.

'Oh! Mrs. Boggs, has the doctor got home ? My hesband is dying, dying! and mobody can save him. O! tell me where I can find a Doctor!'

Pity now took the place of fear-I recognized her roice; it was Mrs. T-, the wife of the man who had been taken that night with a congestive chill.

'Why, Mrs. T-, what brought you here alone at

'Oh, my husband, my poor husband-he will surely

But why did not some one else come for the Dos

'Oh, they said he was not at home-but I was deter

mined to know for certain-no one knows I am here; they think me in bed, but how could I sleep? Oh, Mra alive-he is cold.

And the poor woman shivered as she spoke-she had her; a heavy dew had fallen, and her hare feet were Won't you take off your things and stay and take perfectly wet. I handed her a shawl and a pair of overshoes, and coaxed her to go home. I told her the Doctar would certainly he home soon, which proved to be true-and did I not even ask him to stay with me Well, won't you eat a piece of pie? Doctor Boggs until daylight, but herried him off to the sick man. By good fortune he was not too lute-the man's life was saved, and his poor life was happy, but the Doctor says there was a great reason for the fears of my white robed visitor.

SEPTEMBER 8th. Worse and worse-There is now

'I say, hallow, are you all asleep?' 'What's wanted?' said I.

'The Doctor; is he at home?'

'No sir.' 'Thunder and stars! he never is to home when I want

I am sorry, sir-but he will be here by surriso.

'Sunrise! why, my woman will be dead before that time—she's got the cramp most awfully.' Perhaps I can give her something that will relieve

er until the Doctor can visit her.'

'Yes,' said my rough visitor, and how would I know but it was pisen? No, no, you don't catch this child taking none of your stuff to her.'

'Shall I tell the Doctor you wish to see him, when he comes?'

'No, sir'ee-I'll have a Doctor to-night if I ride to

And away he went, leaving the window wide open.-Surley I am getting used to it-for the next moment I was sleeping soundly, only again to be disturbed. Who would be the wife of a country doctor?

RENOVATING OLD PEAR TREES.—It is known to most people that many of the old varieties of pears have is very scarce, and of poor quality. By many they have been given over, and ceased to be cultivated.

Downing, the author of 'fruit and fruit trees of America,' suggests to a friend that the cause of this depreciation was this: The peculiar elements necessary to form the pear, had become exhausted from the soil, and the tree in fact had nothing to make fruit of.

A correspondent in the November number of the Herto the made recommended by Downing.

The writer says that in October, 1843, he took in hand two large thrifty Virgalieu pear trees that were twenty or thirty feet high. He scraped off all the rough bark, and coated the trunk of the tree over with soft soap, put on with a paint brush. He then cut out one third of all most insipid, uninteresting creature I have ever seen, and been in, the veriest trifle startled me. I was nearly one third, by heading back the principal limbs, covering the poorest branches, and shortened the head of the troo I was obliged to keep up conversation with her for hours. frightened at my own shadow, or the sound of my own the wounds with shell lac solution. [Shell lac dissolved footstep. I dared not look behind me as I hurried from in alcohol, or in other words, shell lac varnish an excel--I went trembling to the door, and found a neighbor's wide, around the ball of the roots, very much as if he hoy standing there in tears. His father had taken a con- were going to transplant it. A ball of the roots about gestive chill, and they thought he could not live till six feet in diameter, were left untouched. All the roots morning. I promised to send the Doctor as soon as he that extended beyond this ball, were cut off, thus rereturned, and once more entered my hed room. Dolly ducing the roots about as much as the branches had been

> This trench was four feet wide and twenty inches close, and the heat so oppressive that I could not rest - from a good pasture, where the sod had not been broken bright—the musquitons came around me in swarms; still ciuders from a blacksmith's forge, two bushels of charcoal pretty well broken, and two pounds of potush well

SUBSCRIBE. SUBSCRIBE.

The only sure method of obtaining a copy of our paper is by subscribing. We mention this fact more particularly for the benefit of such persons as were disappointed in obtaining a copy of our last number. We usually print a certain number of papers, sufficient only to supply our subscribers and a haif dozen transient purchasers, of course therefore, when there is an extra demand, as was the case last week, for some five hundred copies we cannot furnish them.

There are, we are confident, many persons who invariably obtain the privilege of reading our paper by borrowing it, who are able and ought to enter their names on our subscription list, but, while they can peruse their neighbor's paper gratis, will continue to lend their assistance to a hundred city papers, and when invited to encourage our humble efforts, will reply "they take so such injustice we enter our solemn protestation, and if in the far distant future, we are ever fortunate enough to be elevated from our present obscure position to a seat in the Legislature, we mean to introduce a state-pennypress-killing-high-turiff-newspaper bill, the principal feature of which shall be to tax the city papers so heavy to such persons as do not subscribe and pay for the paper printed in their own town, as entirely to prohibit their circulation among such unnatural and ungrateful citizens.

One Way to prevent Thieves.

A correspondent relates the following novel method which was resorted to by a friend of his, to catch several fruit-stealers, by whose depredations he was some-

Some years ago, a farmer in Vermont who had taken pains to have an orchard of grafted fruit, (a great rarity at that time) had for two or three years had the most of his fruit gathered for him before he was quite ready to attend to it himself. Accordingly his sons resolved if possible to catch the thieves and put a stop to their depredations. It was a beautiful moonlight eve about eleven o'clock, after having watched several successive nights without making any discoveries, one of them who was secreted behind a large maple which stood near the bars, saw three of his neighbor's sous enter the orchard bearing bags and baskets, evidently prepared to carry off a large share of its best productions. He suffered them to pass unmolested and commence shaking the trees, when he slipped from his hiding place, walked up to them, and after giving them a cordial greeting began to throw apples into their baskets. They were thunderstruck, but finding that he insisted on having their bugs filled, very reluctantly lent their helping hands .-He conducted them from one to another of the best trees till their hags and baskets were filled, and theu kindly assisted in carrying them home, bid them good night, and left them. It is needless to add that the apples were half. The Bowling Green (Ky.) Argus says—

The following paragraph we take from the London "Daily News," of Dec. 22nd, just received by the Steamer Hibernia :---

"The tenor of the advices from the United States for some time past gives reason to hope that Maryland may, before much lapse of time, be found among the honorable dividend-paying States of the Union. For this desirable consummation no one has labored with greater assiduity and perseverance, or more powers of argument and than Mr. J. J. Speed, the able and highly same meritorious cause, the name of Mr. Peabody, a the flames. well known and not less respected American merchant resident in this city, himself a native and citizen of Maryland, and deeply feeling the discredit yet a taching to his purent State from the nonfulfilment of obligations."

our citizens the pleasant reminiscence of a companion of from Halifax.—Boston Traveler. their youth now so honorably distinguished; by informing them that the Mr. Peabody referred to in the prewhere he became highly esteemed as a citizen a chant, and his earnest efforts for the credit and honor of the State of his adoption, probably led to the misconception of the place of his nativity. After leaving our town schools, Mr. P. ripened into manhood under the pupilage and as a clerk in the store of our venerable townsman, Capt. Sylvester Proctor. The declining years of Mr. Proctor and of his late respected consort in particular, have frequently been cheered by substantial testimonials, as well as expressions, that their early little domestic homilies and precepts to their pupil are to this day cherished by him in grateful and pleasurable remembrance. It is pleasant to us, in the lives of individuals as well as in generations of men, to recurve a line of time, especially when it will circumscribe an area of exemplary usefulness and honor.

TOWN MEETING.

A warrant has been issued calling a meeting of the Town, for the purpose of taking action on some important husiness, among which is the Order of Notice from the Legislature concerning the petitiones for a Railroad from Danvers to Malden, also a similar notice concerning \$20,000 to the Volunteers. the petition for a Railroad from Salem through Danvers to Lowell.

We are indebted to Hon. Amos Abbott for a copy of the Speech of Hon. R. C. Winthrop, in the House of

Among the sufferers by the late fire in Boston, we notice the name of our late townsman, Andrew

IF We understand that the petitioners in behalf of a Railroad from Salem through Danvers and South Reading to Lowell, have seemed the services of J. W. Proctor, Esq., of this town, and E. H. Derby, Esq., of Boston, as their counsel.

A novel elopement took place in North Adams, Mass. about new year's. The male is a smart black fellow, the female a respectable white girl. They were married at New London.

The news by the Hibernia has had an exhilerating effect on the flour market, says the Boston Journal, and prices have gone up about seventy-five cents on a barrel. Some holders even ask a a dollar per barrel ad-

JOSEPH W. BATCHELDER, Esq., of Topsheld, has been appointed a Justice of the Peace for the County of tilling at 17c, 5 mos.

Command of the Regiment.—The Hon. CALEB CUSHING, of Newburyport, having been chosen Colonel of the Regiment of Volunteer Militia raised in this State for the Mexican war, has accepted that office, and he has been duly appointed and commissioned for the command of the Regiment. Col. Cushing on Thursday resigned his seat as a member of the House of Representatives of this Commonwealth, and is now prepared to enter up-

. A precept was ordered, by the House, to be issued to the town of Newburyport, anthorising the election of a ker and others petition for a Railroad from Salem to member of the House, in the place of Mr. Cushing, re- Methuen, with a branch from North Reading to the

Railroad from Newburyport to Georgetown.

We understand that measures are being taken to have the stock on that road taken up, with great hopes of success. Should the road be constructed and a road obtained from Danvers to Boston, it will be but a few years before all the Newburyport travel will pass through Danmany papers they can't afford it." Now against all vers, a road from Danvers to Georgetown only being

> PARDON OF THE ANTI-RENTERS .- Gov. Young of New York has pardoned all the persons who are now confined in Prison, for offences growing out of the late Anti-rent rebellions in that State. The whole number of those to whom this act of Executive clemency has thus osen extended is eighteen, who had been convicted of different crimes, from murder and manslaughter down to riot and assembling disguised and armed, and sentenced to the State or County prisons, for terms varying from that of life to two years. The pardon is unconditional, except in the cases of Boughton, O'Conner, Van Steenburgh and Earll, who are not restored to the rights of

GAS LIGHTING.

The Boston Daily Advertiser and Traveller have recently described an apparatus, invented by Mr. Crutchet, by means of which an illuminating gas is produced from any common oil, or fatty substance, and, as is asserted by those who have had it in opperation several years, a light is produced which is 60 per cent cheaper than that from coal or rosin. The light produced is of the softest and most pleasing kind, and is said to be entirely free from the objections existing against gas produced from coal, or from coal and rosin.

Danvers and Salem Coaches .- It will be seen by the ed for from Framingham to W. Boylston. advertisement of Messrs. Symonds and Teel in another column, that they have been obliged to make an alteration in their coach arrangement and will in future make bnt 4 trips daily, each way.

PORK PACKING .- The folling off in Louisville this season is something rising one-third. In several towns in Indiana, about one-half. In Ripley, Ohio, from 21,-500 last season to 8,800 this. In Tennessee, fully one

"The pork season has now closed, and from all the information we can gather, there will be a heavy diminution from the supply slaughtered last seasen in the enire West, Last year there were slaughtered in this place and vicinity 13,500 liogs, and this season only 6500, and they some five per cent. lighter than those of last year."

The fire is stated in the Chronotype, to have originated from a "drunken row" in the bowling saloou, in which the stove was upset, and the parties were too drunk or too much engaged in their quarrel to extinguish was in contemplation to train all the able-bodied ted from a "drunken row" in the bowling saloou, in respectable barrister of Bultimore. We might add also which the stove was upset, and the parties were too as a most earnest and honorable fellow-laborer in the drunk or too much engaged in their quarrel to extinguish

We have copied the above from the English paper. to pool £500,00 of which £190,000, in gold, is consigned correct an error, and to recal to the minds of some of to Harnden & Co. The Hirbernia also brings £20,000

Massachusetts Legislature.

Correspondence of the Salem Register.

March 2, is agreed upon as the last day upon which orders of notice are returnable, instead of Feb. 20, as first proposed.

Richard Bond and others, petition to be incorporated for the purpose of erecting a Hotel in Haymarket Square, on the important command which has been delegated to and Thomas West and others, back up this petition, the object of which is, to erect a commodious Hotel contiguous to the Boston and Maine Railroad Depot-Eliab Par-Lowell Railroad at Wihnington.

Mr. Fowler, of Danvers, presented the petition of M. Oshorn and others of Danvers, in aid of that of Southwick and others, of Boston, for a Mutual Fire Insurance Company, intended to insure tanneries and similar risks.

There has also been a Special Joint Committee appointed to enquire into the adequacy of Probate Salaries, of which Hon. J. W. Lowe, of the Senate is from Essex County, and Mr. Brooks, of Medford, from our Congressional District. Hon. J. C. Perkins has proposed to require annual returns from Registers of Probate, of their duties and income, similar to the returns required of Registers of Deeds. It is also proposed to give guardians of lunatics &c., authority to lease for a term of years the roperty of such lunatics, &c.

W. M. Boardman and 123 others, of Saugus, petition n favor of the Danvers an Malden Railroad, and Sidney Spaulding and 1705 others, of Lowell, Lilley Eaton and 205 others, of South Reading, and Fitch Poole and others, of Danvers, severally petition in favor of the Salem and Lowell Railroad.

That the part of Methuen called New City, asks to be incorporated as the town of Lawrence, by the petition of Charles S. Storrow and 456 others.

It is proposed that the night-time of crime shall extend rom one hour after sunset to one hour before sunrise.

Such powerful demonstrations are made in the shape of memorials, &c, against the Hawkers' and Pedlers' law as will, doubtless, lead an to an essential modification or repeal of that Law.

The petition of C. A. Dearborn and others, of Danvers, to he annexed to Salem, has been referred, from the files of last year, to the Committee on Towns.

On Wednesday, Joseph Buck and others, of S. Readng, petition in favor of the Salem and Lowell Railroad, and Wm. Hawkes and others, of Marblehead, in aid of Danvers and Malden Railroad. A Railroad is also ask-

It is proposed to compel all parents and guardians to educate their children. Also to give every town a Representative every year.

ARRIVAL OF THE HIBERNIA!!!

TWENTY DAYS LATER FROM EUROPE! ton, on Monday morning, at 7 o'clock, having made her passage in a little over mineteen days.

The news by this arrival is of considerable interest.

We make the following extract from the second edition of the Boston Times, and Evening Traveller.

ENGLAND.

The news from England contains many items of interest. Parliament was to be called together on the 10th of January; and Lord John Russell had issued circulars to his supporters in the House, requesting their presence at the opening of the session, as measures of great importance were to be immediately considered. The wretched condition of Ircland will probably be one of the subjects, which will attract the consideration of men at work in the dock yards, to the management of heavy gins and musketry, to fit them to man fortifica-tions and block ships; also that it was in contemplation Specie by the Hibernia.—We are informed by the to increase the grupy, by the addition of infection in the pursers of the Hibernia that she brought from Liver-regimen s of the pursers of the Hibernia that she brought from Liver-regimen s of the pursers of the Hibernia that she brought from Liver-regimen s of the pursers of the Hibernia that she brought from Liver-regimen s of the pursers of the Hibernia that she brought from Liver-regimen s of the pursers of the Hibernia that she brought from Liver-regimen s of the pursers of the Hibernia that she brought from Liver-regimen s of the pursers of the Hibernia that she brought from Liver-regimen s of the pursers of the Hibernia that she brought from Liver-regimen s of the pursers of the Hibernia that she brought from Liver-regimen s of the pursers of the Hibernia that she brought from Liver-regimen s of the pursers of the Hibernia that she brought from Liver-regimen s of the pursers of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she brought from Liver-regimen s of the Hibernia that she bear and the Hibernia that she brought from Liver-regimen s of the Hibernia that she bear and the Hibernia that she had a she had Specie by the Hibernia.-We are informed by the to increase the army, by the addition of fifteen new England had been unusually severe, the most so that England had been unusually severe, the most so that had been experienced for many years. The frosts and built? Salem can monopolize the lumber, lime, coal and West India trade, without once counting leather,

its receipt.

"The last message of President Polk, which was regiven to the process of reasoning in which the President accounts for the Mexican war. One passage has been the war was not undertaken with a view to conquest .-We can call to mind no similar document during our time which has been less favorably received in England: indeed, the critics of some of the papers are marked by a coarseness of invective but rarely seen in the columns has taken possession of the United States, is even less popular in England than was the annexation of Texas. [European Times.

IRELAND.

The unprecedented wretchedness of Ireland seems to be attracting much attention. In the single county of Mayo a district less than 50 miles square, no less than thirty-two deaths are alleged to have occurred from star vation. Considerable collections have been taken up in the English churches for the relief of the suffering Irish and Parliament it is belived will take early and compre hensive measures for affording effectual relief to the starving pensantry. O'Connell's popularity continues to wane, and O'Brien's to increase.

The latest dates from Paris are to the 1st of Jan. The French papers discuss, with considerable interest the operations of our troops and squadron in Mexico,-They seem a little doubtful of the ultimate success of our arms in that country, urising mainly from the fatigue and sickness and distress which our troops must experi-ence in their attempts to subjugate the country. Con-gidentials are stirred. iderable quantities of American flour have been received at Paris via Havre.

The government mills in Plymonth are employed night and day in grinding corn for the relief of the destitute poor in Ireland and the Highlands of Scotland.

The Austrian Government forbids every pensent, in Gallicia to leave his dwelling after sunset, to hold any communication with his neighbors, or to attend any asge; and the whole country is militarily occupied. report that the house in which Shakspeare was born, has been purchased for removal to America, has received direct contradiction from the trustee of the tes-tamentary estate to which it belongs.

Intelligence from Persia bring distressing accounts of the continue approsecution of the Nestorians of the mountains, by the Kurds.

To Mend Cracked Stoves .- Cracks in stoves and moniac and water make a harder and more durable

It is stated that Monroe Edwares, now in Sing P. S. 1000 bbls Fredericksburg Flour, extra Knox Sing State prison for forgery, is in the last stage of quick brand, sold for expect at supposed \$7 per bbl, cash.

Sing State prison for forgery, is in the last stage of quick times, to go to the free States, had in fact emancipated that two million of balls were shipped from that consumption and that he cannot live many weeks.

Illusion All.

As we by steam o'er railroad go, "The world is all a fleeting show," And strange fantastic motion; The trees, hills, monuments move round, Each other on wave-rolling ground, Like ships upon the ocean.

Tis curious-though solemn-very, To see in yon grove Cemetery,* The monumental stones Fixed in the earth to mark the place Where rest the dead-each other chase Around-while the shrill tones

Of the steam whistle and the bell Remind us of that trumpet yell-That all-astounding voice, Which one day will the dead awake, And earth unto its centre shake, With a confused noise!

The gulf too, that now lies between The railroad and that moving scene, Does symbolize, right well, That which divides the shore of time From the eternal world sublime, Where the immortals dwell.

And as the cars swift glide along, Careless as do earth's heedless throng, Along time's slippery shore; The thoughtful cannot fail to feel That should a brittle rail or wheel Break,-all with them were o'er!

And yet the trustful, well trained mind Would there no greater danger find Than elsewhere.—Dodge it as we will The arrow that must lay us low Is tracking us where'er we go Its errand to fulfil.

*Harmony grove Cemetery seen from the cars on the Essex Railroad.

Corresponden ce of the Courier.

Lawrence, Jan. 27, 1847. Mr. Editor-There is a mist on the minds of many in this place, in regard to the various petitions before the Legislature, for Railroad charters to connect directly or indirectly with this place. There is a deep interest felt on the subject of the Essex Railroad here at this time. The citizens of this place wish the most direct road to Salem, and entirely disconnected from any other road. They are suffering evils from the inadequacy of the upper route to do the transportation to this place, which they wish to see remedied. I have always The steamer Hibernia, Captain Ryrie, arrived at Bos- thought till recently, that the Essex Road would get no sympathy from gentlemen connected with the Essex Company, but such is not the fact. They feel as deep an interest in this matter as any citizen, and have reason to, from the delays they suffer in their transportation, the amount of which you can infer from the fact that their transportation bill amounts to \$800 per month, (mostly lumber) without reckoning the brick transportation; and of this item you can judge a little from the happily the Malden route should not be char dent of that Road, that he wishes 150 thousand bricks We call on the advocates of the Malden route per day delivered at this place for 100 consecutive days. Will you inform me about this matter, how the thing stands down with you.

What can Salem people bo thicking of, that they do not take hold of this matter with more earnestness. Do they realize the amount of lumber, lime, bricks, $oldsymbol{W}$ cst vast trade that will open when the Manchester road is there were reports of passengers being frozen to death shoes, wool and the thousand other articles that will ne-THE PRESIDENT'S MESSAGE.—This important document reached Liverpool on the evening of the 29th alt. in the packet ship John R. Skiddy, from New York. For some days previous much anxiety was evinced for Somerville—granite for their piers in the piers. Somerville-granite for their piers in the river, from Quincy; the Neck could have a monopoly, nearly, of ceived in this country a few days ago, has been assailed by the whole of the press, and ugly names have been cd here, since from ten to thirty thousand feet will not cd here, since from ten to thirty thousand fect will not go barefooted. Why then cannot the Salem capitalists wake up, or do they prefer to see their wharves overgrown with grass? I yesterday heard a gentleman who does business between here and Salem, say that if an entirely independent road was built, he would engage himself to transport 1500 tons yearly over the road, and that the annexation of California of which Com Stockton give me all the true information there is on this subject give me all the true information there is on this subject n your section—tell them that the embryo city is fast developing its form and features, and that at no distant day, it will be the shire of the new County of Merrimack, Lowell and Haverhill being the extremes.

FOR THE COURIER. DANVERS AND MALDEN RAILROAD.

on Tuesday afternoon of next week, on the orders of subject. Within the last seven years, the town notice from the Malden and Lowell roads. We hope the friends of the Malden road will remember the meeting and be present. All that can prejudice their case Commonwealth as to appropriations it now range this year, it appears to me, is division among the people the ffticth-In taxable property it ranks about the of Danvers. The people of Danvers are by a very great majority in favor of the Malden road, and all the fear is, that some may inadvertently lend their aid to another project, thinking it will promote rather than injure the prospect for the Malden Road. Let this be carefully guarded against, and the town of Danvers present a solid and united front in favor of the Malden Road, and a charter will be obtained.

ANOTHER SLAVE CASE. In the New Orleans Bul. letin of the 6th instant, occurs the following notice of a legal decision:

A decision of the Supreme Court, recently rendered in the case of Spalding rs. steamer Missouri, is believed to be the first in this State, where a steambeat has not been held liable for carrying off a slave. A singular fact was disclosed, viz: a slave so white that he would pass anywhere for a white man, and that he was supposed to be such when he was taken into the employ of the steamer, and carried out of the State. The slave had been permitted to hire himself on boats trading to stove-pipes are readily closed by a paste made of ashes till he close to leave, and the court expressed great and salt with water. Iron turnings or filings, sal am-doubts whether his master could exercise any acts of moniac and water make a harder and more durable by Messrs. Winthrop and Gould for the plaintiff, and by

eyton and Smith for the defendants.

The intimation by the Court will be observed, that

For the Courier.

Mr. Editor: I noticed a Jesuitical article in reply to an article I wrote for your paper Your correspondent says that a road fi South Reading, will not be in violation of the Lowell and Boston Road. To be sur a road from Danvers to Lowell will, and well to explain that the petition is from I ell. There are not two petitions as some South Reading from Danvers, and one South Reading. The petition is one and a road from Danvers to Lowell. If a re to South Reading from Danvers, a petition to that effect, and orders of notice issued. edges as a matter of course that the project ed by the Lowell Road, and adds, "wheth this movement will be gratifying to the Es or not we have not the means of determin fect of the project, if it will have any, wi the Malden Road, and whether such a const be "gratifying" to the Eastern Railroad or termined from the disposition of the Easter ward the Malden Road. Is it that that

has no means of determining. If it is, he b at their opposition to it the last two years. Your correspondent then sneers at the M because it has failed twice. Supposing it ha ty times and we have a right to it, and it w interest of the place, shall we give up on t I trust not. The Eastern Railroad was the getting its charter, and then by the united friends; and it is not too much to say here, not been for deserters from the cause of the ject, it would have been chartered and built Your correspondent closes with the motto, things, hold fast to that which is good." I ha tions to proving all things but I do think we si faster by holding fast to something. If the pe vers are to be divided on the question of a F Eastern Railroad, a road to North Andove South Reading, a road to North Reading, s Muldon, they will probably get neither. stand, divided we fall."

FOR THE C TOWN MEEETING.

We hope there will be a full attendance and judicious expression of the views of the subject of the several lines of Railroads pe which pass through our territory. Let the discussed with candor, and especially let the such that the town shall not much longer be of a land conveyance to Boston. It will be all to have the bitter reflection that we are year cheating ourselves out of such reasonab dation. While it is admitted that the Malder number the most advocates in this section o it is also true that there are a great number zens who have a strong preference for the Sc ing route, and who are entitled both from the and character to respectful attention. We glad to see the Malden road built, and would hand and pocket, for it if we could have grounds for believing in its success. We woul ing that the town should give its strong and de ference for that route if it would at the same the honest acknowledgment that the South Rea would also accomodate our travel to Boston. er that the town is suffering from the delay in a suitable land route to Boston, and it is but a feasible route is offered to us it ought to be We ask them to adopt such a course in town r shall tend to unite the vote of the town. If, o er hand, they are determined rashly to tramp feelings and wishes of their fellow citizens v differently from them, they may meet a reacthem remember that there is a large section of whose inhabitants feel indifferent to either r who will be likely to take sides with the oppre ty. Our fears may be groundless, but with th edge we have of former movements we have h hensions that if our citizens are not careful of the the town may be subjected to the charge of he

FOR THE CO PUBLIC SCHOOLS.

Mr. Editor-It is gratifying to perceive that of your correspondents are willing to withdraw ention from affairs of state, and concerns speculation, and to devote themselves for a m the wants of the community nearer home. Y purpose in view I hope to be pardoned in a few suggestions to what others have said, in reour public schools. Is it desirable that the school be continued through the year? If it is, the should be raised by taxation money sufficient purpose. But it will be immediately answered, some Districts, they now have quite as much m is wanted for the support of their schools. An will not be right to increase the assessment upon the accommodation of a few. There is force a pricty in this remark and the rights of all she Mr. Editor-I see that a Town meeting is to be held properly regarded in any action that may be had vanced their appropriation for schools about one on a scholar. In comparison with other towns tieth. We know no good reason why this town not contribute for the support of schools, as much other town of similar ability. As things are now ed, all those Districts which desire to have a seh tinued through the scason, and to retain the same ers, have to burden themselves with a contributhis purpose. Unless therefore, authority can be ed, to raise money in districts by a tax, in add what is raised by the towns, (which is a fair sub the consideration of Legislators,) there would see a propriety in increasing the town appropriations several years, there has been voted \$3 for each between the age of 4 and 16. If you would se sum sufficient to support our principal schools the year, even at the present wages of teach cents at least should be added to the annual app

NOTICE. THE subscriber offers his services to the public for Posting Books, Making out Bills

JAMES FREDERICK FOSTER

Continues to manufacture all the various approved TRUSSES, at his Old Stand, No. 203 (opposite No. 264) Washington street, entrance in Tample Avenue, Boston where he has been for the last ten years—and his resideue and business being both in the same building, he can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the Truss business than any other person engaged in it in this city or any other.

Also—Abdemued Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Uteri—Trusses, for Prolapsus Uteri—Trusses, for Prolapsus Otteri—Trusses, and people of every class are willing to come forward and announce, in the most public manner, that they have been cured of long standing complaints—after all other medicines had failed. In act there can be no doubt but that Lorraine's vegtable Pills is the best medicine ever offered to the public.

See, a few public statements of men of truth ad very sold by Dr. Leech; Trusses of galva nized metal that will not rust, having wooden and copper pads, Read's Spira Trusses, Rundell & du. Salmon's Ball and Scotts.

sold by Dr. Leech; Trusses of galvanized metal that with not rust, having wanden and copper pads, Read's Spira Truss; Rundell's du; Salmon's Ball and Socket; Sher man's patent Fie ich do; Bateman's do, double and single Stone's Trusses: also, Trusses for children, of all sizes. Dr. Fletcher's Truss, and Marsh's Truss, Dr. Hull's Truss. Thompsan's Kuchet Truss, and the Shakers' Rocking Trusses, may be lead at this establishment. Whispering Tubes and Ear Trumpets, that will enable a person to converse low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses, waited on by his wife, Mrs. Caroline D. Foster, who has had ten years experience in the business.

C. E. R. T. I. F. D. A. T. E. S.

Fram Dr. John C. Warry, of Roston.

From Dr. John C. Warren, of Easton.

Having had occasion to observe, that scane persons afficted with Hernia, having suffered much from the want of skilful working in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some points of observation of his work. myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of those instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to those important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Baston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well inted.

From Dr. Robbus, Roxhary.

Since the death of Mr. John Beath, Thave used, in preference to all other Trusses these made by Mr. J. F. Foster, to manufacture trusses these made by Mr. J. F. Foster, of Boston.

P. G. HOBBINS, M. D.

Beston, April 27th, 1936.

The undersigned is familiar with the ability of Mr. J. F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favorably compare with that of other artists.

MECHANICAL AND DENTAL

MECHANICAL AND DENTAL SURGERY. Secth at Cost, until Mch. 1, 1847:

Office, No. 266, opposite to No. 307, Washington

Street, corner of Avon Place, Evston. rough the control of the poorer chases, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases o two or more teeth, but is peculiarly and especially adapted to whole and half sets, where the alvedar or dental ridge has become uneven and irregular, by the absorbing of so he parts more than others. In all such cases, it will be readily seen by each or when a parts. such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for estaring that which has been removed by absorption, and for bringing out the cheeks and lips to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concorned, are thus fully met by this made, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought block-work, to remedy the defec s above referred to that so many are unsuccessful in giving satisfaction in their plate-work.—especially in whole and half sets Another advantage of carved work, -and one of grea importance too, is its cleanliness. Unless the teeth time. with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to remove them, will invariably become offensive and tain the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each touth should meet its opposite in the most exact manner in musticating food; otherwise, the whole work will prove a source of continual nunoyance, by its instability, falling drawn, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, where great difficulty in execution is overcome. They cannot fall to expire admiration from all who are placed. not fail to excite admiration from all who are pleased neighbors, with close imitations of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen,

TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a whole set, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six months if perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be refunded. Old plate work that has been warn with much inconvenience, will be exchanged for ew, on paying a small difference. All other branches a Dentistry, such as Filling, Setting on Pivot, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz.

For filling common sized cavities with gold, \$1; For set—winethem. M.T. DOLE. nov will be attended to in the most thorough, faithful and other kinds of Filling, from 50 cents to \$1; For setting on gold pivot, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and mivice gratis. All oper ations warranted.

Carved work in block for whole and half sets will be get up fer other dentists on reasonable terms. S. STOCKING, Surgeon Dentist.

June 1st; 1844

Sir,-In February last, I took a sudden cold, after which a hacking cough constantly annoyed me, and , combined with my other maladies, rendered me ruly miserable, as everybody told me that I was in a consumption. Since, I have taken LORRAINE'S PILLS and now every body tells me that I am well ;—I feet as well as ever I did. J. E. S. McKEY.

Portland, Me., Nov. 7th, 1843
Set: Please send us one gross of Lorraine's Fills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contra ry, they have been praised loudly. I think we ould have quite a number of highly respectable cer ficates from our citizens. Respectfully yours,

E. MASON.

Chelsea. Jan-3d, 1844 Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winer, have had some of the best physicians of Boston and could get nothing that would relieve me more can temporarily. I heard of the wonderful virtues f Larraine's Pills, I had no faith whatever, but 1 the contraints a rins, I had no faith whatever, but it is a solemin fact that when I had taken but eight pills! my Rhenmatism had entirely left me, and I have remained well ever since.

N.B. I never took more than one pill at a time ind that on going to bed.

oing to bea.
Yours respectfully,
W. M. HALSTAL

Unable to raise the Hands to the Head!

Sir-For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the brain or vital organs. My pains were violent—all medicines recommended did no good. At last, I tried LORRAINE'S VEGETABLE PILLS, which gave mmediate relief, and have entirely cured me. Respecifully, your ob't serv't, JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

Sir. I could ' the whole of the Sentinel with smilar letters to the above, but believing the above extracts will serve for useful purposes for the present

1 omit more. New England Office and General Depot, No 10 Brattle Square, Boston.

Lynn, Dec. 17th, 1843
Sir; I have sold all the pills I last had of you please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand univalled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One leave whether the parts for the place of the pills of the

Doctrn.

"SPEAK NOT TO HIM A BITTER WORD,"

Would'st than a watalerer reclaim, A wild and restless spirit tame; Check the warm flow of youthful blood, And lend a lost one back to God? Pause, if thy spirit's wrath be stirred, Speak not to him a bitter word-Speak not-that bitter word may be The stamp that seals his destiny.

If widely he hath gone as ray And dark excess has marked his way; 'Tis pitiful-hut yet beware," Refurm must come from kindly care, Forhid thy parting lips to move, But in the gentle tones of love, Though sadly his young heart hath err'd, Speak not to him a bitter word.

The lowering frown he will not bear, The venum'd chidings will not hear; The ardent spirit will not brook, The stinging tooth of sharp rebuke: "Thou would'st not good the restless steed, "Po calm his fire or check his speed; Then let no augry tonce be heard-Speak not to alm a bitter word.

Go kindly to him-make him feel. Your heart yearns deeply for his weal, Tell him the dangers thick that hy Around his widely devious way; So shalt then win him, call him back. From pleasure's smooth, seductive track And warnings thou hast mildly given, May guide the wanderer up to Heaven.

Miscellann.

FOR THE COURIER. History of Astronomy.

Na. 6. While Kepler was reading these lessons of the skies at Prague, and inscribing his name high upon the immort tested those immutable truths which the Almighty had tal inge of fame, Galilen was busily employed in extend- permitted him to be the first to establish. What a moring the houndaries of the Solar System. To him, with- tifying picture of moral depravity and intellectual weakout doubt, helongs the honor of inventing the Telescope, ness! If the unholy zeal of the assembly of Cardinals And what an era does it constitute in the science of as- has been branded with infamy, what must we think of tronomy! What new and nutold wonders harst upon the venerable Sage, whose grey hairs were intwined the mind of man! He, who before was confined to earth, with the chaplets of immortality, qualing under the fear now clant his glad wings and sourced opward a thousand of man; and sacrificing the convictions of his conscience miles. No invention of ancient or numbers times is so and the deductions of his reason, at the altar of a base extraurdinary in its nature as this. To be enabled to see a bady, thousands of miles distant, as plainly as though it were brought within one mile of us, is indeed glance of his indignant eye round the circle of his judgeswonderful; and even to the philosopher who understands the principles upon which it acts, it must ever be looked God to witness the truth and inaustability of his ordinious, apon as one of the most elegant applications of science.

Galileo had no sooner completed his telescope and di- and Science would have enjoyed a memorable triumph." rected it to the heavens, than a world of wunders burst upon his enruptured light. Pointing it to the muon, he was charmed by a view never before gazed upon by morgreat, though superstitions philasopher. Let the sterling so powerful as at this moment, Should be be wounded

was charmed a view never bearing gazed upon by norhal man. The sea whileted his spots—Venus her plases, and Jupiter his expanded of the first invest of moons.
At had heen urged against the System of Copernicus,
that if his doctrines were true, Venus would appear with
all the different phases of the Moon,—that she would sometimes annear horned, sometimes gibbons, and some times full. But to the unassisted eye no such phenomena is perceptible. To this Copernicus, in the true spirit of a noble mind, answered, that if ever man should be able to see her better they would find this the case; and could the le man have looked through the wonder revealing tube of Galileo, what joy would have filled his soul in witnessing the fulfilment of his prophesy.

The celestial revelations of Godleo, created a great sensation in those ignorant and superstitious times. "Many doubted; many positively refused to helieve so novel an annuancement. All were struck with the greatost astonishment, either at he new views of the universe thus offered them, or at the amhacity of Galileo in invent- of the poets, the spring of the South—and never beam- pier so, ing such fahlus!' What a picture does this present of ed April Sau on a landscape of more quiet leveliness, an depravity of truth and the cultivators of science, lurge, tregularly built old mansion was surrounded by a line from her childhood, pronounced her in the presence would not even deign to look through the telescope of Guilleg as though fearful they should discover something it the heavens that should overturn the laws of the waves between forest crowned banks, and from its easaniperso! Says Galileo to Kepler, "O my beloved Kenher haw I wish we could have one hearty laugh togeth-

he pertinuciously refuses to do. Why are you not here? to Charleston. It was a scene over which the gentle on the soft ere he could follow Mr. Shubrick from the hould you hear any noise be perfectly still, and en What shouts of laughter we should have at this glorious affections that bless a seme, and the refused taste that room. Their horses stood at the door, and ere they deavor to keep the others so—your best chance of esfolly; and to hear the Professor of Philosophy at Pisa.

of the body, to enlighten, to warm, and to nourish it; Shubrick's reputed wealth and known patriotism had rennus,-two unpropitious, Mars and Saturn,-two lumina- and the most hostile visitor heen sent away in manners ries, the San and Moan, -and Mercury alone undecided if not at heart, a friend. Mrs. Shubrick would often and indifferent. From which, and from many other have been condemned to complete solitude for mouths by phenomena in Nature, such as the seven metals, &c., the absence of her husband, and the cessation of these which it were tedious to enumerate, we gather that the hospitalities for which her abode had duce been noted number of planets is necessarily seven. Moreover," but which it was impossible to continue in the disorgancontinues this wonderful man, "the Satellites are invisi- ized condition of social life in her neighborhood, had i his to the naked eye and therefore can exercise no in- not been for the companionship of Caroline Shubrick, the fluence over the earth, and therefore would be useless, young sister of her husband. increase the number of the planets this whole system and trembled at the stroke from which she would no falls to the grannd"! No, noble Sizzi, far better that flee, and she could not, like her sister, have averted evi edge as art thou, than that such beautiful, harmonious ed them to meet it tranquilly by her own seronity. Such and consistent systems, and withat so useful to mankind, as she was, she was loved deeply, devotedly leved by should be disturbed! But fear not, noble man, for who the young and ordent Reginald Elliot, and before that can controvert such deep and pungent reasoning? Who dark and dreadful year had closed, Caroline had learned would for one moment dore to question the soundness of to tremble for a life dearer to her than her own. Mr. the philosophy, which teaches that the head of man is Shubrick loved Reginald too, but to his entreaties that the pattern after which is fashianed the wonders of the he would consent to his immediate murriage with his skies? Rest thou, immortal champion of truth, in the sister, he replied with a decided negative. conscious security which thy head shall gain thee!

Compared with the men of his age, Galileo was a ridian Sun surrounded by flitting queteors.

But a dark cloud was gathering over Galileo, which spread itself and grew more imminent every hour. The the language of scripture, they commenced a persecution against the great man, which resulted in his signal disgrace and the abjuration of his truthful views. After various interdictions, he was finally cited to appear at Rome, where he was formally tried before the Inquisition and convicted of heresy. In the language of Dr. Brewster, "At the age of screnty, on his hended knees, and with his right hand resting upon the Holy Evangelists, did this patriarch of science avow his present and past belief in the dogmas of the Romish Church; abandun as false and heretical the doctrine of the Earth's motion and the Sun's immobility; and pledge himself to denounce to the Inquisition, any other person who was ever suspected of heresy. He abjured, cursed, and desuperstition? Had Galilea but added the courage of a martyr to the wisdum of the sage,-had he carried the had he lifted his hands to heaven and called the living the bigatry of his enemies would have been disarmed,

But let us not, in our security-in these days of religious toleration, be tou severe in our judgment upon the virtues—the brilliant talents—the devotion of his better days to the cause of science, hide from an undue severity this excessive weakness in the character of the poor olind old man; west the tuttering, the hoary sage descend to the countless future, surpred by the morner angol its unjestic grandeur, bearing on its capstone the immortal name-GALILEO GALILEI, X. Y. Z.

WOMAN'S POWER.

A TALE OF SOUTH CAROLINA, BY THE AUTHOR OF COMQUEST AND SELF-CONQUEST.'

It was spring-not the drizzly, cold, comfortless seawide piazza and as you trod its circuit, you looked forth of her brother and sister, the wedded wife of Reginald from its western side on the Santee rolling its placid Elliot. It was an hour of deep and solemn feeling. On tern, on flowery lawns and stately shruhs, with here and his bright, brave spirit fear was a stranger, and his heart she beat ever him—for a moment her countegance were there a lofty and spreading tree, heyond which the wide was at this moment too full of hope and love to have an expression of deep thought, and then her eyes seem-

embellishes it, might have been supposed to preside, yet slept that night they had accomplished more than half laburing before the Grand Duke with logical arguments, more than once of late had its sleeping echoes been rude- the distance to the American camp. as if, with magical incantations, to charm the new plan- yawakened by the fierce shouts and denunciations of 'I will soon see you, love-for I will be myself the unbridled soldiery, and the heavy, hurried tread of arm- herald of our first victory,' had been the parting word The following from un astronomer, contemporary with od men been heard in its halls, for we write of 1780, of Reginald to Caroline. They were the dictates of Galilco, will show the kind of logic with which he had the Reign of Terror in Curolina, when British troop to contend. Says this sage philosopher, "There are garrisoned her forts, and rouned almost unresisted seven windows given to animals in the domicil of the through her fields-when no home was sucred from the head, through which the air is admitted to the tabernacle inquisition of their avarice, or their vengeance. Mr. which windows are the principal parts of the microcosm dered his home peculiarly liable to their most unwelcome or little world—two nostrils, two eyes, two cars and one visits. But that home was guarded in his absence by a mouth. So in the heavens as in a macrocosm or great spirit so diguified and commanding, yet so still and gentle, world, there are two favorable stars, Jupiter and Ve- that hitherto the rodest had been charmed into courtesy,

and therefore do not exist. (!!) Besides as well the Jews | Caroline was a gentle and lovely being, with a heart and other ancient nations, us modern Europeans, have a- capable of the decreest womanly develon. She could dapted the division of the week into seven days, and have died for or with one she level, but her courage was have named them from the seven planets. Now if we all that of passive endurance—she would have shrunk the world should plod on, as guiltless of scientific knowl- from her loved ones by her self-posession, or have nerv-

'It must not be, Reginald, while the executioner the one side, or the cannun hall on the other are ready moral giant amid a race of men pigmies,—a bright me- to cut the tie as soon as formed. There is no time for assuming new responsibilities. He aven knows those we

have press but too heavily But at length a bright day hegan to dawn upon the Church at Rome had taken the alarm. Professing to harrassed and exhausted patriots. The battle at the discover in the System of Copernicus a contradiction of Cowpens in January, 1781, taught the British that they were not invincible, and inspired the oppressed, but unyielding Americans with new hope; and the arrival of Greene, and the spirited manner in which he opened the campaign, raised that hope ulmost to a triumphant certainty. As he advanced into the state, her sons everywhere shook off the yoke which they had worn so imputiently, and vented in action the deep indignation which had for months been burning in their hearts, which their facs might ever have read in their flashing eyes and on their stern and gloomy brows. On the twentieth of April, Greene was at Canaden, only lifty miles from Mr. Shuhriok's home, and that gentleman could no ly, openly battling for the right. Not till then shall 1 feel myself a freeman,' he said to his wife-and though glawing-her soft earnest eyes met his fully and firmly, 'Go, then, my hasband and fear not for us God her, he murmired feebly, 'no danger, love.'

will protect us. Not thus did Caroline receive the announcement from Reginald Elliot that he was to accompany her brother.-With maidenly delicacy she turned from him, but not till he had read the agony in her eye, and seen the convulsive quivering of her lip. Throwing his arms around ber, he drew her half resisting form to his side, and as he pressed his lips to her pallil check, urged her with join him in entreating her brother to sanction and perpetunte, by the holiest of all bands, the tie hetween them. Elequent as he was there was one plen he dared not urge which Caroline's heart had often presented, but never sudness by the gentle ninisterings of warmanly tenderness, and yet should deeper wee await her-should he to the countless future, support by the morrey angel refused his last equest, and would she not find a deep charity of wight that shall detract from his honor or his glory; -- and may the proud doine of Science still rise in joy in bearing his name, and thus belonging to him even in his grave? Such were the thoughts which at length ter through the shrubbery. I sure you ma'am, I se overcome timidity had made here hitherto acquiesce si- dector enough for dis arm myself.' lently in her brother's will, She accompanied Reginald

er, I would be his in life and in death.' Mr. Shubrick was distressed, and looked for counsel

'She is right, love,' said Mrs. Shubrick in answer to

ophy, when I have repeatedly and urgently requested and willow-oaks for nearly half a mile entered through her husdand on lips pale with terror and the agony of loftier serenity enthroned upon her brow. to look at the moon and planets through my glass, which a handsome gate into the turnpipe or regular mail route parting, and he was forced to lay her unnerved form up- Say nothing of any apprehensions you may have, and Madam.

youthful confidence. In three days after that parting he was engaged in battle; yet there was no victory to report, and the action which gave encouragement to sanguine spirits seemed to him almost disgraceful, because it was followed, by retreat. Weeks followed, during which the Americans were gaining and the British losing ground without any decisive movement on either side. At length, on the twenty-second of May, came the gallant but unsucessful attack on the British force at Ninety-Six, and Greene again compelled to retire, withdrew to the Santee Hills. That he could maintain himself thus in the very centre of the state seemed even to Reginald equivalent to victory, and he resulved to be the herald of hope if not of triumph to Caroline. He communicated this intention to Mr. Shubrick, and proposed that he should accompany him, but he endeavored on the contrary to dissuade him from the project.

'It is a great temptation, I acknowledge, Reginald, vhile we are lying idle here, so near our home-but it would scarcely be prudent, with straggling parties of the enemy constantly reaming about this section of the country. We must be careful of ourselves for our country's sake—America cannot afford to throw away a single sol-

'Oh! I will be as careful as even Caroline could desire—careful for her dear sake—but in truth there is no danger. You know I commanded the foraging party yesterday-I purposely pursued the road homeward, and though I went nearly half the distance there, I not only saw no trace of the enemy, but could hear of none.'

Mr. Shubrick still shook his head, but youth and love are not easily counselled, and obtaining leave of absence for a week, Reginald set ont accompanied only by a trusty servant, who had been his attendant from boyhood The sun was little more than an hour high, and Mrs Shubrick and Caroline were seated in the Eastern piuzza -at that hour the coolest part of the house-when their attention was attracted by seeing a black boy emerge from the woodland which screened the fields and negro louses from view, and ran with breathless speed toward the gate at the head of the avenue. Before he reached it they became aware that two riders were rapidly approaching it from the public road. Onward they came, faster, faster-they passed it-Caroline rose from her chair-she approached the end of the piazza, and gazed down the steps, and passing the shrubbery with the fleetness of a deer, entered the avenue heyond. She was followed, though more sedutely, by Mrs. Shuhrick, for even she had now become certain that the foremost rider was Reginald Elliot, and there was an air of unusual relaxation in his remarkably erect and vigurous form .- red coat up do road as he hin a comin home. When she reached Carolina, Reginald was already helonger repress his desire to be once nore in arms, bold-side her. He had been assisted from his horse by his plantation—you can go over the dam, you know—and servant on whom he was compelled to lean for support. The hue of death seemed setting on his brow, yet a the culor on her cheek might have grown a shade less smile full of happiness was on his lips, and as Caroline

'No, missis, I sure you dere's no danger,' said the Caroline seemed well nigh as incapable of comprehending his words as the fainting Reginald.

But what does it all mean, Paul ? What is the matter with Mr. Elliot?' asked Mrs. Shubrick.

'Why, you see ma'am-'tis only dat he is lost too much blood,' he pointed to the sleeve stiff with goreall the warmth and eloquence of impassioned feeling, to but he'll soon come round Miss Caroline-he aint in de can't be notin' with dere.'

'But he is bleeding still, Paul, Here,' she called to how inexpressibly dear would be the wife's privilege of Paul-help Paul to carry Mr. Elliot into the house-let wetching beside him, soothing his pain and cheering his them take him to my room, Caroline-it will be better than carrying him up stairs-and mount one of these horses, " ac cried to the boy who had opened the gate, and ride quickly for Dr. Stevens-quickly sir.

Please ma'am don't sent for de doctor till I can sponk to you,' called Paul, who was already bearing his mas.

Mrs. Shubrick ordered the boy to wait while she followto the parlor in which sat Mr. and Mrs. Shubrick, and ed Paul to enquire if he had any better reason than his though the words in which she answered her brother's confidence in his own surgery, for not desiring the presappeal were few, they were full of expression-broth ence of Dr. Stavens. She found Reginald Elliot on his bed sufficiently revived to be conscious of Caroline's presence. Paul was preparing bandages and lint at a table somewhat removed from the bed, and to her questions he replied-'you see, ma'am, I bery much ufraid son thus misnamed in this northern region, but the spring that look—it is a womanly feeling, and she will be here done will be here before long—do one what firms the spring that look—it is a womanly feeling, and she will be here. ed at Massa was a officer, and I seed him stand on de the pride and arrogate of the human mind, and the morthan that in the midst of which was situated the resistant all Reginald's arguments or persuasions. The next ing—so I tink he's only gone for some mor men to come than that in the midst of which was situated the resistant all Reginald's arguments or persuasions. al depravity of the human heart! Men, professing to be dence of Mr. Richard Shubrick, of south Carolina, The morning a neighboring clergyman, who had known Caroland. Now, if we had to hide, de doctor will only ho in de way, and I 'sure you, ma'am, I'se drest worse wounds dan dis since I've been wid de army,'

Mrs. Shubrick glanced at the pale face of Reginald Elliot, and the scarcely less ghastly one of Caroline as

spe is here.' She was leaving the room, but, as she reached the door, turned back to ask-have you all you want?

'Yes, ma'am,' said Paul, who had already ripped up nis master's coat sleeve, and exposed the shirt saturated with blood. The effusion seemed now to have ceased, and although Mr. Elliot still lay with closed eyes and perfectly motionless. Mr. Shubrick saw that there was a tinge of color in his lips at least, and that his fingers had closed over Caroline's hand.

She beckoned Paul tu her-'I think,' she whispered, that if the bleeding hus stopped, there can be no dunger to Mr. Elliot in leaving his arm far a time as it is,-Should he he sought for, he will be safer in his present state, because we can keep him more quiet,

Paul had great quickness of perception, and as she concluded, he said with animation, 'you right, Missesyou right-lie better so----'

Mrs. Shubrick left the room, and Paul approached Caroline, who, with her eyes fixed on the face of Reginald, seemed unconscious of everything but of his

'Don't be scared now, Miss Caroline, for I sure you dere nint no danger, and if Massa can only get a good, long sleep, he'll wake up right well. Only we must keep ebery ting still here-we musn't move or say a word if dey make eber so much noise out dere.'

Caroline would not after this have moved or spoken or her life-there she sat motionless as a statue-her and clasped in that of the sleeping Reginald, whose every breath she watched. Her consciousness seemed hound to the t room- -that bed. Paul had seated himself at a respectful distance from her. He too was still, and soon he slept, for when were any of his race still without sleeping? At length he was aroused by the sudlen tread of men. The sound passed up stairs and over various parts of the house. He listened with intense solicitude-the sounds came nearer-they approached the very door of the room-they paused-a few earnest though not loud words were spoken, and then the steps eceded, and soon all was still again. Reginald slept on undisturbed, and Caroline, though she had lifted her eyes anxiously to his, had neither moved nor spoken.

Mrs. Shubrick's first act when she left the room to which Reginald Elliat had been taken, was to direct one of her own servants to mount one of his horses, and teading the other to return as rapidly as possible to the road with them, and pursaing that till he had entirely passed her husband's place, to turn in a dense wood, make his way as far as he could through it, and there forward for a moment, then, without a word, sprang fisten the horses and leave them. These orders given, she seated herself with apparent quietness, but real solicitude, at a window that overlooked the road, to await the arrival of her expected visitors. She had not waited long when a servant hoy rushed in exclaiming, in evident nlarm-Missis, de British da comin-Cudjo see de

> 'Very, well, Harry-I want you to go to Dr. Stevens ask the doctor to come over here as early as possible in the morning.'

The cruelties which had occasionally been excercised hung over him uttering words of endearment, which ex- by the British and Tory troops toward the negroes, in and there was no trembling in her voice as she replied. | cept in that moment of terror would never have escaped order to extert from them some confession prejudicial to their masters, made Harry very ready to obey this order. In like manner Mrs. Shubrick despatched on varifaithful Paul, addressing bimself to Mrs. Shubrick, for ous errands all the members of her household, who had witnessed the arrival of Reginald. The last sont had scarcely set out when the tramp of horses, the jingling of and loud voices of men, told that the bour of trial had come. In a few minutes a young officer, wearing the uniform of a lieutenant, and followed by several soldiers, walked into the room in which Mrs. Shabrick sat, the door of which was purposely left open. She least danger, I 'sure you, ma'am-de ball lodge in dis rose to receive them with such dignified courtery that arm, you see, and you know yourself, ma'am, dore they were shamed into civility, and when after receiving and returning the salutation of the leader, she asked to what she was indebted for the konor of his visit, he retwo of her own servants, who had come near to listen to | plied.... I regret, Madam, to be con pelled to put you to any inconvenience, but I must obey the orders by which I am sent, to apprehend an arch rebel and traiter, who is known to be in your honse-I must trouble you for your keys, and will be obliged to you to order one of your servants to guide us in our said, taking a small

basket from a tuble near her, of every pantry and closet in the house-the chambers are not locked-I fear it will be impossible to send a servant with you, for the sight of a soldier usually terrifies them so much that I doubt if your arrival has not sent them all off the place, I would guide you myself, but your search will probably bo less restrained without my presence.'

That presence was indeed felt to be a restraint, and officer and men alike moved more freely when they had passed from the room in which she was. For the next half hour they were heard stan:ping from room to room, opening closets, bureans and wardrobes, moving bedsteads-tumbling about boxes, and putting everything into such disarrays as it would require days to remedy, At length, with a quick flutter, at her heart, Mrs. Shinbrick heard them returning. The officer now entered alone, leaving his men at the door. Again Mrs, Shubrick rose to receive him, placing herself between him and the door of the room in which Reginald lay..

I must again intrude upon you, Madam, though only for a few minutes. This room and the adjoining one are Here at Padan, is the principal Professor of Philos- curriage road passing through a double line of sycamores room for sorrow; but Caroline received his first 'kiss as ed suddenly irradiated with more beautiful light, and a ed. In one of them the rebel must be concealed, forwe tracked him to your door. Permit me to pass you,

The officer looked at her with a suspicious eye, but her glance quailed not beneath his, her delicate cheek neither paled nor flushed, and he said-'duty, Madam. knows no such reserves, but I feel assured I may trust the Warrant:your word and if you will assure me that the man I seek is not in that room, I will not enter it.'

'I will answer no question-it would only establish a precedent for future occasions-but again I tell you, sir the following preamble and resolution was submitted by that this is my chamber and to a man of lioner the Wm. D. Northend. chamber ef a lady would be a sanctuary even to his own bitterest foe, sacred as the alter of Heaven. I trust to ing assembled to act on an order of notice from the Legyour honor, therefore, to make no attempt to enter here, but should you persist in doing so, it shall be only over my corpse that you accomplish your purpose.'

Emphatic as was her language-earnest as was her manner there was nothing in either that permitted manner there was nothing in either that permitted of Boston, unencombered by a ferry, and whereas they him for a moment to forget that it was a LADY, delicate large long sought to obtain such an avenue, believing in and gentle, who thus addressed him. He saw that her spirit was unconquerable, that she would indeed die where she stood rather than submit to an indiguity or betray a friend-he could not use physical force toward such a woman and he relinquished his purpose, saying to her with something of reverance in his manner-'your intrepidity, Madam, gives you security; from me you shall meet no further annoyance.3

He was true to his word and immediately withdrew his men and returned to the detachment to which he belouged. This was a small party that had been sent out from Ninety-Six for supplies, the commander of which had thought Reginald Ellipt's capture an object of sufficient consequence to delay his march for this domiciliary

'She is a heroine, sir,' said the young lieutenant to his commander-and were muskets put into the hands of a hundred such women, our only safety would be in re-

'You mistake-with muskets in their hands woman would became to us but a weaker kind of man,' replied the commander, and he replied truly-woman's power is over the spirits of men and it must be maintained by spiritual, not by other means.

The 'surences of Paul proved quite correct. The ball which had entered Reginald Elliot's arm had opened a vein in its passage, and the flow of blood from this was so much increased by his rapid motion on horseback. hat it was many weeks before he recovered entirely from the languor and debility it occasioned-but as Caroline was his nurse through those weeks, and as it was a season of comparative inactivity to the American forces in Carolina he could not greatly regret it. He was sufficiently recovered to be present at the battle of Entaw Springs, a battle which soon left to the invader no spot in Carolina on which his foot could safely and securely rest

It was a victory indeed-a glorious victory, of which Reginald Elliott was, as he had promised, the herald to Caroline-a happiness which he thought cheaply purchased by another severe though not dangerous wound.

DEATH OF MONROE EDWARDS .- Col. Monroe Edmore wide than enviable, died at the Sing Sing State Prison at an early hour on Friday morning. He has Bank Stock, which is held as a fund by that corporation. been declining in health ever since his incarceration, but After some debute in which Messrs. R. S. Dauiels, E. W. for the last two years he has failed so perceptibly as to Upton, Nath'l Pope, J. W. Proctor, Dr. Osborne, cause general remark among those acquainted at the prison. His disease, it is said, was consumption brought refer the whole matter to a committee who should conon by the practise of a habit prevalent amongst prisoners sider the whole subject and report at some subsequent in all the State prisons. He was warned of his danger a meeting. Voted, that the Board of Selectmen constitute long time since; he acknowledged his fault but persisted that committee. in the practice until he was past the reach of medical aid. For a number of weeks past he has been delirious at times; when, however, he conversed, he was elo- mittee, who sheuld report at the annual Town Meetquent upon the history of his past-life, and his plans for the future; he would not contemplate the fact that he A. Danvers Conrier.

SATURDAY MORNING. FEB.-6, 1847.

TOWN MEETING.

At a meeting of the town, on Tuesday afternoon last. the following disposal was made of the several articles in

The Order of Notice from the Legislature, on the petition of Benj. Goodridge and others for a Railroad from Danvers through Lynn to Malden was first taken up, and

"The inhabitants of the fown of Danvers in town meet ers, for a Railroad from Danvers to Malden, respectfully time it took him to pen his useless suggestion, for as soon represent their views in the following preamble and re

Whereas the citizens of Danvers have long felt the necessity of a direct Railroad communication with the city to be of vital importance to the interests and continued prosperity of the town; and whereas a petition is now presented to the Legislature by Benjamin Goodridge and others for that route of road which is alone unexceptionable to the citizens; be it therefore

Resolved, that the town of Danvers most heartily apthe utmost importance to the interests and prosperity of its citizens, and that this Resolve and preamble be presented to the Legislature in testimony thereof."

J. W. Proctor moved that these resolutions be laid on the table, with a view of referring the whole matter to a special Committee, who should report a series of resolufeelings of the town in regard to railroad accomodation, and which should include an expression of the views of the town in regard to the 6th article in the warrant, which was to see what action the town would take on Lowell; and should also represent the feelings of the ing to his sober consideration, the following excellent town concerning the Malden petition.

This motion was sustained by Dr. A. Nichols and F. ejected by a large majority.

The question then recurred upon the adoption of the Resolution. Mr. Proctor moved so to amend them, that they should read, "approved by a majority of the town," instead of "alone unexceptionable," and expressed a willingness in case this amendment was adopted, to vote lowing statement in regard to the condition of the Bunks for them.

Dr. Osborn moved to insert instead of "alone unex ceptionable," the words "most unexceptionable." This motion he afterwards withdrew.

Mr. O. Kimball moved to insert instead of "a majoriy," the words "two thirds."

The amendments however were refused, and "the question" being loudly called for, was put and decided in the affirmative. Their being 125 yeas to 3 mays.

The next clause in the warrant, was to see whether the town would authorize the selectmen to commence a suit wards, whose crimes have given him a reputation far against the Danvers Mutual Fire Insurance Company for the amount of taxes assessed against that Company, on John Page, and A. A. Abbott took part, it was voted to

In regard to the petition of W. D. Northend and others it was voted to refer the subject to a special coming. Messrs. W. D. Northend, J. W. Proctor, and A.

On the petition of John Whitney and others praying versed with the sick man when on his death bed: Ed- that a street running from Chesuut to Foster street, be wards paid no regard to what he said, appearing to be in accepted by the town, as a continuation of Summer moment he appeared to come partially to his senses, and leatmen, and there being no specified width or length

The 6th article in the warrant then came up for conand the patients left in charge of attendants. Towards sideration, which related to the Order of Notice conmorning it became evident that the sick man could not cerning the petition for a railroad from Salem through long survive; indeed, he appears to have suffered death Danvers, South Reading, and so on to Lowell. The

> Resolved-"That the route from Salem through South Reading to Lowell, as prayed for, by T. P. Pingree, and others, would, if chartered, not only open a direct communication to Lowell, and the interior country, but that portion of the road, between Danvers and South Reading, would also, in the absence of a more direct route, afford the business of Danvers, its best medium of communication with the City of Boston.'

> After considerable discussion and some warm debate on the merits of both railroad projects, the resolutions were rejected by a vote of 84 to 22.

Mr. Poole then moved that the subject be referred to the Representatives of the town in General Court. This motion was also rejected and the meeting then dissolved without taking any action on this clause in the war-

Free Lecture.—We are requested to mention that Mr. H. N. Hudson will deliver a free lecture on Muesday Lecture to commence at 7 o'clock.

Health of Children.-It is worthy of remark that of Salem, under the charge of Mr. Chas. Northend, there has been but one death in the space of five years.

We are indebted to Hon. D. P. King, for copies of several interesting speeches on the Mexican War, delivered in the House of Representatives.

Expose of the Sons of Temperance.-We shall publish, by request, in our next number, an exposition, entire, complete, and impartial of the mystery, secrecy and corruption of this order, copied from the Pittshurgh Dispatch, the tendency of which we almost think will be to convince the public generally and everybody else in particular, that all secret societies are corrupt and rotten mirationof the marvellous.

Lady's Album .- We have received from the publishers, Messrs Cochran, Cole & Co., Bostou, several num-IF It has been reported that orders have been re- bers of this magazine, which is printed in good style, ed at the low price of \$1.00 per annum.

We regret the effect of a recent modest allusion in our columns to an article which appeared in a late Observer, in which the suggestion is made by a correscondent, through the editor of that paper, that copies of the Agricultural pamphlet he left in Salem, as some of vers, is a subject of deep interest to our citizens, and the members of society in Salem, cannot obtain it convenienty at the office where it was printed. The editor of the Observer has strangely mistaken and misinterpreted our remarks concerning his suggestion.

Now we have no doubt that his correspondent (if he has as the Observer says, taken an active part in the proeedings of the Essex Agricultural Society) well knew that copies have always been furnished by the Treasurer of the Society, at the Commercial Bank in Salem, applithe Observer might have informed him in one half of the as the pamphlet was printed, notice was given in our paper where copies might be obtained. If, however, the editor did not observe this notice, he well knew who was the Treasurer of the Society, and that he was the Chairman of the Committee on Printing, and was a proper person to apply to in regard to the matter, and there could certainly be no reason for telling the public. through the columns of the Observer, that the Danvers Courier Office was so far off that a member of the Soproves of the Railroad proposed by Benjamin Goodridge ciety could not get a copy of the pamphlet. Besides we and others, as essential to the public convenience and of ly adds nothing to the propriety or innocence of the suggestion for we have nothing to do with the delivering of the pamplilets to members of the Society, any more than the Salem Observer. But after all the most amusing part of this miniature tempest is the attempt of the Obtions embracing a general and correct expression of the server to palm offan idea which he cannot find the ninety-ninth part of a shadow of reason for, in the article in our paper, viz: that we supposed that he grudged us the printing of the pamphlet,—this insinuation is entirely voluntary by him, and we can account for it in no an Order of Notice from the Legislature, on the petition way so easily as that by some mishap of his he has let of T. P. Pingree and others, for a Railroad from Salem the cat out of the bag. But we have said more already through Danvers, South Reading and other towns to than we intended and close our remarks by recommendadvice, which was once gratuitiously administered to a poor, and obscure country editor by an overbearing city oole, and objected to by Messrs. W. D. Northend, R. father, of the same profession. It is as follows:-"it S. Daniels and E. W. Upton. The motion was finally would be well if newspapers as well as individuals should pay descrence to the rule of measuring their insinuations by the amount of their knowledge.'

> FRESH HALIBUT. The first of the season. The sch Centurian, Bailey of this part, arrived at Boston on Monday, from Georges, with seventy halibut, weighing about 4000 lbs., for which eight cts. per lb, was obtained .-Gloucester Telegraph.

Mr. Sims, of South Carolina, said in the House of Representatives, on Friday, that the South will have some of the Mexican territory, and, more than that will have slaves there! in the House, on Tuesday, Mr. Delano, (whig) declared that the war is waged for the acquision of slave territory, and that the war would end as or could be acquired by it.

FOR THE COURIER. RAILROADS IN DANVERS.

The probable effect on the business of the town, of the construction of the different Railroad lines through Danvers, is a subject of deep interest to our cuizens, and project, so called, this winter, and of cought to receive that candid and deliberate attention consent of the Eastern Road. The only which its importance to the welfare of the town demands. Eastern Road will favor the Reading pr At present we have but one chartered Railroad in our defeat the Malden road. They know well limits, and this gives great promise of usefulness to both ing road cannot be chartered against the Danvers and Salem, when it shall be completed as contemplated by its charter. We are glad to hear that Boston, they will prevent the chartering nearly every obstacle to its speedy completion is remov- Let this ruse be understood and the per ed, and that all that is required to enable its Directors to ceived by the plans of the Eastern Rail put the whole line under contract, is a comparatively cation being made to him. If he did not, the editor of triffing addition to its subscription for stock, which will no doubt be promptly effected. We may therefore look upon this important enterprize as successfully accomplished, which opens a direct communication with the important manufacturing towns of Andover and Lawrence, and, eventually by another road to be chartered by the New Hampshire Legislature, to Manchester in that State. The large number of passengers passing over the small section of the road already opened, has astonished its most sanguine friends, and shows conclusively the greatly increased amount of travel caused by Rail-

> when it shall be in the full tide of successful experiment. But the route which has engaged most of the attention of our citizens, and which is regarded as much the most important to the town, is that by which we may have a communication with Boston without the obstruction of a ferry. This is considered of the very first importance, and all join in the wish for its speedy accomplishment. Nor do we think its importance is overrated. We conceive it to be of so much consequence that its consideration requires the most careful and deliberate attention, and it should be without any other feeling than that of zeal for the public good. It ought to be looked at in all its bearings. It is useless to shut our eyes from seeing and our ears from hearing any thing unpleasant which may perchance be opposed to our wishes and wills, but which nevertheless we are conscious unhappily exists. It is thus we should be willing to look upon the present position of our favorite Malden Railroad project. It has had two trials before the Legislature, with the advantages of a great share of public favor and most able counsel. To be sure, it has from the beginning been unfortunate in the mistakes made by its friends, for the town of 'Lawrence.' which, however, they are not to be blamed, as the same might have occurred under any other management. It has been twice defeated, and it is to have a third trial to any change. before almost the same judges who so unjustly, as we helieve, condemned it before. It would be very remarkable indeed, if it should now be successful, yet we hope it may be.

road facilities, and is a good earnest of its prospect

We come now to the third project, the South Reading route. This project was also before the Legislature last winter, and we believe it is a fact not generally known to our citizens, that after the Malden road was defeated, the Chairman of the Railroad Committee, Mr. Hopkinson intimated to the Malden pctitioners in the most direct and positive manner, that THE DANVERS PEOPLE COULD HAVE A CHARTER TO SOUTH READING, IF THEY WOULD ACCEPT IT. There is no doubt of this, or that Mr. Hopkinson's assurances could be carried out. Why is it, then, that we are at this moment deprived of a land route to Boston, and a Depot almost in Lowell Health Insurance Co., capital 200,000 the centre of that city? Simply from the feelings on the cral other bills. part of the petitioners, of just indignation that their chosen route was not accepted, and also from the fact Pingree, John Kinsman, Amory Holbrook, & that our Lyun friends, who had, from the first, been as- Briggs Iron Company---capital 300,000, sociated with us and zealously engaged in promoting the Lanesbora,' Berkshire County. success of the enterprise, were not to be selfishly about doned in this hour of defeat. This was a highly honorable feeling on the part of the Danvers petitioners and is criminal cases. not to be hastily condemned, although its result has been indefinitely to delay the great object of our wishes. We may here remark that almost all who have with any care Health Insurance Company;' by Mr. Fowler examined the two rontes, admit that the business of Dan- vers, of the First Universalist Society in Esse vers with Boston may be accommodated as well by one as to tax their pews; by Mr. Lee of Manchester,

Things were in this position at the time of agitating vers and Malden Railroad; the subject for the winter campaign. It was known that Dickens. We see by a notice in this number that they the fatal objection in the minds of our very conservative has been taken from our last year's files and have concluded to publish the illustrations of this num- Senators, was its near approach to the Eastern Railroad the committee on fisherics, on motion of Hon. ber in the next one and hy, this arrangement, they will at Lynn. This objection would not apply to the route kinss be able to issue each number in about three days after it by South Reading. It is believed that in this state of things our Lynn friends would have had the magnanimity to say to us if we had applied to them, "take your proposition of Mr. Upton of Danvers, to allow own route to Boston while you can obtain it. You have to each School District throughout the State. stood by us in two trials, we do not ask or wish your own to be deprived of the accomodation you want by continuing with us at the hazard of another defeat."-We say we think they would have said this, and that under the circumstances it would not have been an un- keeping of Gun Cotton, and other explosive s easonable request from the Danvers petitioners. It was however thought best to make another trial for the Malden route, relying for success on a change in the Senate, and means were resorted to, to effect this change, which whatever may be thought of their character, were eminently unsuccessful. The old conservative Senators, with few exceptions, occupy their seats, and are to reverse their own votes and eat their own words, or come to the same decision as last year.

Matters are in this position when it is found that the South Reading route is to be again presented, fortified with great, influence and numbers in Lowell, who ask that it may be continued to their city. There is doubt to be sare whother that portion beyond South Rending can be obtained this winter, but no doubt is expressed Friday the 23d day of April next. This pread intelli- in regard to the line to South Rending from Danvers .-Neither can there be regsonable doubt of its construction and its advocates have the ability and express themselves as determined to build it. It was with these views and under these circumstances that some 150 of our citizens ventured to put their names to a petition for this routc. We will pass over the maledictions and scorn with which their rashness has been attended from some of those who Eastern Railroad. The Train which formerly left are in favor of "granting all railroads," and look into the future. It begins to look now as if this is to be the very last chance for obtaining either route. The shrewd managers of the Eastern Railroad see that they cannot satisfy the public by transporting merchandise over their ferry, and while we are dreaming about impracticable schemes we shall awake some fine morning and find that ity at the stem, for a pear. The flesh rich, juicy they have pushed a branch of their road, at immense expense, through Chelsea and over Charles river to a De- core. Having barely looked at it before was pot along side of that of the Boston and Maine Railroad, and possibly the Fitchburg road may be connected with them. If this scheme is carried into effect, we may consider Danvers completely shut out, to a dead certainty, from any better accommodation than this will afford us.

Quite a number of counterfeit bills upon the Nashua oun as it was known that no more s vac territory was to be (N. H.) Bank, of the denomination of \$5 have been New Hampshire, others that they came on the passed within a few days. [Boston Traveller.

DANVERS AND MALDEN RA We see by the last Courier that Mr. for the Eastern Railroad, and also couns Road the last winter, is employed by the Lowell road, or that if chartered will not know if they can divide the friends of a

For the Courier, Taxation of Mutual Insurance Companies.

Mr. Editor-There was one subject brought before the Inte Town Meeting which is of so much importance that I am glad it was so disposed of that we may hear from i again. I mean the taxation of stock held by Insurance Companies. There certainly appears to be some doubt, from the remarks on both sides of the question whether uch property is legally taxable in towns, but at the same time there seems to be no doubt at all al' the justice of taxing it. I can conceive no valid reason why such an amount as may be accumulated in the treasury of a fortunate Mutual Insurance Company should not be subject ed to taxation as well as other property similarly situated It is the duty of our Assessors to hunt up oll the property they can find, from which to obtain a contribution to support the expenses of the town. If a laboring man or a widow has a few hundred dollars laid by for a rainy day, it is taxed and why should the thensaids owned by an incorporated company escape ? I hope the hoard of Selectman will have the question tested. It will be worth the cost, even if the decision would pave the way for a general law taxing such property, and 30 or 40 dollars a year is worth having in the town treasury .--We wish, however the question had been referred to a special Committee of spersons not interested in the Company and who would give it special attention until it could be settled. We do not object to the Selectmen on account of any supposed bias in favor of the Company, as the very act of hringing it before the town shews their devotion to its interests. But their various other daties may cause them to give this subject less attention than it really deserves. We trust that they will not fail to pursae it to a decisive point.

FROM MEXICO AND THE SEAT OF WAR.

The late mails bring as interresting intelligence, both from the army, and rumors from the rity of Mexico.—How far the latter are to he depended upon we cannot judge. The telegraphic despatch to the New York papers states that it was runored in Washington, on Sunday, that "the Mexican Congress had accepted the United States proposition for peace, and had authorized the appointment of peace commissioners to meet similar commissioners from the United States Gavernment."—We are not told what is the natherity for this frame? We are not told what is the authority for this framor, or the made by which the accounts on which it purports to he founded were received.
We have forther an account of an advance movement

of our army, and the occupation of Victoria. This needly in the main correct. - Boston Daily Advertiser.

It appears that Gen. Tuylor was at Victoria, the capital of the State of Tanasulipas, with the divisions of Generals Twigg Quithan, and Patterson, amounting to nearly 6000 men, on the 4th of last mouth Victoria is about 200 miles from Monterey, and about the same distance from Tampico. The advance division moder Gen Quitman, entered the town without resistance. The latters received state that the next move of the force occapying Victoria would be for Tompico, and it is probable that from that point, the collected army will be ombarked with the view of uttacking Vern Cruz. It is known that large preparations of transports and stores are collect-

mg in the vail.

The Wushington Union, of Monday pight, gives a semiofficial contradiction of the runner given whove, that the
Mexican Congress had accepted the U.S. proposition for peace. - Salem Gazette.

The chief scene of their operations was in the cellur, where the safe was kept, in which was deposited all the most valuable of the stuck. Upon this safe they commenced operations in the same manner that a corps of engineers would sap a citidal; they hered into it in all directions; drew the hots with wrenches, (one of which was broken, and left behind) and finally after defacing

and with an amount plitful story of destitution, suckness, &c. prevailed upon him to give him three dollars in money, with some other articles. The beggar had been gone but a short time, when he returned and impaired whether they had seen a small book which he had lost. It was not be laund, though in the course of the day it tor of Lynu Academy.

that appear to be facts.

EMEMBER also, that, Lorraine's Vegetable Pills have in their composition two of the most valuable medicines in the world, viz: Sarsaparilla and Tomatoes. These two articles need no praise, neither do the elebrated Lorraine' Pills, when they have

ter, have had some of the best physicians of Boston and could get nothing that would relieve me more han temporarily. I heard of the wonderful virtues f Lorraine's Pills, I nad no faith whatever, but 1 took them, and it is a solemn fact that when I had taken but eight pills! my Rheumatism had entirely left me, and I have remained well ever since.

N. B. I never took more than one pill at a time

N. B. I never touk me...
and that on going to bed.
Yours respectfully,
W. M. HALSTAL

Unable to raise the Hands to the Head!

Sir—For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the brain or vital creaps. My pains were violent. the brain or vital organs. My pains were violent,—all medicines recommended did no good. At last, I tried LORRAINE'S VEGETABLE PILLS, which gave mmediate relief, and have entirely cured me. Respecifully, your ob't serv't,

JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured!! Lowell, Mass., April 20th 1944.

APTH 20th 1944.

Sir,—For the last few months I have been afflicated with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * * It is a pleasure to feel well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr Lorraine's Pills. J. BROOKS.

Sir. I could fall the whole of the Sentinel with similar letters to the above, but believing the above extracts will serve for useful purposes for the present New England Office and General Depot, No 14 Brattle Square, Boston.

Sir; I have sold all the pills I last had of you please send another lot immediately. The sale o Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. I sell more and more every day. more every day. As a curative medicines and purifier form fullness. The difficulties to be overcome in fact I have noticed, that no one that has used them cerned, are thus fully met by this mode, and it is not finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for the time, for the time, for the time of the house and bed, a great part of the time, for the time, for the time of the house and bed, a great part of the time, for the time, for the time of the house and bed, a great part of the time, for the time of the house and bed, a great part of the time, for the time of the house and bed, a great part of the time, for the time of the time her time, after having taken 3 boxes only of Lor raine's Pillst! I might name many other cases where the cures have been as great, but have not

A hacking cough coustantly annoyed me!

Boston, Mass., June 1st; 1844

Sir,—In February last, I took a sudden cold, which a hacking cough constantly annoyed me, combined with my other maladies, rendered me truly miserable, as everybody told me that I was in a consumption. Since, I have taken Lorraine's PILLs and now every body tells me that I am well;—I feel as well as ever I did.

J. E. S. MCKEY.

Portland, Me., Nov. 7th, 1843

Sir: Please send us one gross of Lorraine's Pills, when hey should be than any other pills which when a hacking cough constantly annoyed me, and consumption. Since, I have taken Lorraine's Pills, and now every body tells me that I am well;—I feel as well as ever I did.

J. E. S. MCKEY.

Portland, Me., Nov. 7th, 1843

Sir: Please send us one gross of Lorraine's Pills, when hey are sidence and business being both in the same hoiding, he can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the last ten years, and business being both in the same hoiding, he can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the last ten years, for Prolapsus Utcri—Trus-abding annoyed me, and the sieve has been for the last ten years and in residuce and business being both in the same hoiding the can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the last ten years for Prolapsus Ut

consumption. Since, and now every body tells me that as well as ever I did.

Portland, Me., Nov. 7th, 1843

Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable cerificates from our citizens.

Respectfully yours,

Chelsea. Jan-3d, 1844

The resonant of my case for the part of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel my self called upon to recommend him to my professional brethren, and to the public, as a purson well fitted to their wants in regard to these important articles.

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persous afficted with Hernia, having suffered much from the want with Hernia, having suffered much from the want with element for the want myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel my self called upon to recommend him to my professional breather, and to the public, as a purson well fitted to their wants in regard to these important articles.

From Dr. John C. Warren, of Boston.

From Dr. John C. Warren, of Boston.

All launes...

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robbins, Roxbury.

that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robbuss, Roxbury.

Since the death of Mr. John Beath, Ithave used, in preference to all other Trusses those made by Mr. J. F. Foster, of Boston.

Boston, April 27th, 1846.

The undersigned is familiar with the ability of Mr. J. F. Foster, to manufacture trusses of the vanious kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will lavora bly compare with that of other artists.

J. V. C. SMITH,

Editor of the Boston Medical and Surgical Journal.

MECHANICAL AND DENTAL SURGERY.

give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases of two or more teeth, but is peculiarly and especially a. depted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of so ne parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressions for each case, it preserves for restring that pressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing out the cheeks and lips to their natural and unicerned, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrought that so many are unsuccessful in giving satisfaction in their plate-work .- especially in whole and half sets Another advantage of carved work,—and one of greating importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect man.—GOODS, ner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to remove them, will invariably become offensive and taint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instability, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, where great difficulty in execution is overcome. They cannot fail to excite admiration from all who are pleased with close imitations of nature, and would inspire a confidence in their merits, that the wearing of them would only tend to strengthen.

TERMS.

TERMS.

Up to January 1, 1847, the following lerms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six months if perfect satisfaction is not then given, the test way. Up to January 1, 1847, the following lerms will a strictly observed for all cases of plate work from a single tooth to a whole-set, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one half the if perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be refunded. Old plate work that has been wrn with much inconvenience, will be exchanged for ew, on paying a small difference. All other branches of Dennistry, such as Filing, Setting on Pivot, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz. a For filling common sized cavities with gold, \$1; For other kinds of Filling, from 50 ceuts to \$1; For set. It is no gold pivot, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and advice gratis. All operations warranted.

Division for bringing you. Austian Bills, Hand Bills, Billhemls, Catologues, Bank

Doctrn.

From the Portsmouth Journal THE GIFTS. BY C. H. HILBRETH. Two simple gifts she gave to me, And bade me long retnin, And constant keep her memory, Till we should meet again; The gifts she said a lesson bore, I neest not read in vain.

With simple threads the maiden wrought An Anchor and a Star; An enthlem one of present hope, The other-bapo ofar; And this the motto that she chose,-"Le bon temps viendra."

In darker lines she traced a bow-The arrow on the string; This was the lesson that she taught The arrow's flight to bring; Che sara sara-were the words Upon the arrow's wing.

The gifts to me this mooning bear A lesson ever true; Let hope forever o'er thy path Daily her flowers renew: Hope ever in the present time, And trust the future too.

Believe that lours of joy will be, When pleasures thou wilt share; If grief embareth for a night, Joy shall the morning hear: Trust that "the happy time will come," Rewarding all thy care.

But if the light of hope shall fail In darkest nights of ill; If, sinking in life's harren sands, Lost he her gentle rill, Not grief, nor tears con bid it flow;

"What will be, will bo"-still. The flowers that claim thy tenderest care, May never bloom for thee; The pleasures, foully deemed thy awn,

Another's than may'st see; Yet have it with determined will: It is thy destiny.

Such are the lessons, stern and grave, Those gentle gifts have brought; And many a bank hath less therein Than those few words have tought; Than those few words, fair girl, thy hands In silken letters wrought.

But may'st thou meed no stuic lore To calm thy gentle breast; May there all kind affections meet, Be joy thy constant grest; And happiness my heart will fill, . Knowing that thou art blest.

Miscellany.

From the Pittshurg Dispatch. EXPOSURE OF THE ORDER OF

SONS OF TEMPERANCE.

As much curiosity is already felt in this community and this section of country relative to the secrets of the Sons of Temperance a secret and very dangerons order, which has, of late arisen in our milst, we seize the present opportunity of publishing to the world an expose of the whole offsic, sent to us by a member of the order, in good standing in one of the Division and also a Templar —an exposure of which a 'new wrinkle' of the order it was music, and I caught the air, which was 'Walk in.' will probably follow. Here it is:

INTRODUCTION .- In bringing forward this work, I commenced singing, do not desire to be understood as wishing to cust any estigma on the Temperance cause, as it is on account of my attachment to the cause that I make this exposure, helieving that it is a blessing cast in our midst for the brnefit of all mankind-but my aversion to anything bordering on the ridiculous or hypocrisy urges me to unfold such facts as have come under my observation, and reveal them to the public. I have never had a desire to become a member of any secret society until I read the late exposure of the 'Order of Odd Fellows,' which Cuntained so many improbabilities that I thought I would Join the 'Sims of Tomperance,' being a temperance man, and should I like that, I would then become a

cember of the Odd Fellows, and by that means enlighten myself as to the truth or falsity of the accusations brought against that order. A friend accordingly offered my name, and it passad, and I prepared to go the next meeting night to be initiated.

MY ENTRANCE. -On the evening of Wednesday, the 17th of June, 1846, I proceeded with my friend to the corner of Wood and Third streets, where the Hall of the city Divisions was located. On my arriving at the bense, my friend soul to me, 'Any little thing you see here, which does not meet your views, pass it over and say nothing about it, and do not murning, or show

I said I did not anticipate anything derogatory to my feelings, and he replied he had no doubt of it. We ben entered the door, and passed up stairs, my friend previously going through some motions with the door keeper. We reached the door of the first room and here unother keeper was stationed. My friend now held up his left hand, and linked the little finger on the right hand into the little finger of the left hand of the keeper and then spoke together for a short time. While waiting bere where he had left me, he entering the meeting room to inform the Division that I was ready, and tuprepare them for my appearance, I became much alarmed hy many of the members papping up to the door keeper and asking him whether there would be any initiated to night, and being answered in the uffinative, they all gave me a very strange look, and entered the room, apparently lighted. I say this so much alarmed me that I several times was about to rush out into the street, but was prevented by the sentinel at the door. Four taps at the door brought out a person having in his hand a handage. They said, it is our custom to blindfold those almut to be initiated, and accordingly placed the bandage over my eyes. I was led into the ANTE CHAMBER-Not a sound was heard for the first few minutes, but shortly a voice whispered, 'See bis nose.' Now, what they meant by this I did not know, but another voice whispered, though loud enough for me to hear, 'It's in blossom, and will toake a fine appearance when we ripen it.' Similar expressions were made, and as I knew there was nothing the matter with my nose, I thought they were alluding to some one else. We now stopped, and the bandage heing removed, I lnoked around and was surprised at the neatness and order which characterized the room. The officers were all at their stations, and the members were standing around me with the various emblems of the Order. After suadry preliminaries had been gone through with, and different managevres, the Patriarch said to me: 'The oaths which you are about to take are of a solumn and sublime nature, and should be taken by you with all the solemnity suit-

San of Temperance.' The first eath is THE OATH OF ALLEGIANCE.-You swear that yon will continue in this Order as long as circumstances will permit, using your utmost endeavors for its advance-

the hemefit of the Order.' I laid my hand on the hook as directed, and said, 'I swear.

'Record it, Scribe;' said the Patriarch, and then proeeded to administer,

THE OATH OF SECRECY .- You swear to preserve inviolate the scenes which you have witnessed, or those which you shall hereafter witness, and the oaths which be found again in the room of a 'secret society.' you take shall be held sacred, and let not even the slightest hint be thrown out, not even to your wife, lest

'I swear. Record it, Scribe,' said the Patriarch.

she hetrny you.'

TEMPERANCE OATH. This was the most imposing outh of the three. I was desired to get on my knees, and this oath required the utmost solomnity. All in the room knelt, except the Patriarch, who desired me to pronounce the oath which I found recorded on th parchinent hefore me, and I accordingly commenced, mildst the stillness of death, this onth:

Before my brothers round me here, Before the fundain and the spear, Before the book and Parchment too...

(Here each one whispered 'hush,' which made it still more solenin.)

I swear whatever else I do, I'll drink no more.'

the right arm, and linked together the little finger of the left hand, and cried with one voice, 'Ho swears.'

Record it Scribe,' said Patriarch. At this time all was still again, except a sound as if in the distance, and as it neared I could distinguish that At this time, by a signal from the Patriarch, they all

Wolk in, walk in, the next room on top, Walk into the upper room, to take your last drop.

The Patriorch now commenced singing the following, accompanied by music in the distance:

Oh! will you fail now in your oath, And divulging all the things you shall know;
Or will you still be nothing loth,
To contribute to pay what we owe?

The brothers all join in as follows: Oh no! he will not leave us,

Nor by his parting grieve us: Full well we know where'er he'll go, He will not thus deceive us.'

The Patriarch then commenced singing the following: When other hearts the spell shall know,

The ouths that to us bind you, 'V' we swear no motter were we gu, 'Wo'll sluy you where we find you.'

Chorus by the brothers-

Hark, bork, hark! Hark to the Patriarch's onth, Your life he'll sarely take,
And should your wife be lengued with you,
We swear to kill you both, All for the Order's sake."

All this time I was perfectly enchanted it was so different to what I bad expected. The slow and solemn manner in which the masic was performed and the feeling with which the words were repeated so entranced me, that I was chained, as it were to the spot. My eyes had not wamlered about the room as before, so enraptured was I with the ceremony. But now the bandage was placed over my eyes again, and I was led Order. The Patriarch presented the goldet to me, and away, the music playing and the brothers singing-

"Walk ix, walk in the next room un top, Walk into the apper room, and take your last drop."

As the music gradually receded, the effect was enchanting, and as I left the mom I heard a voice singing something like the following:

"Oh, there he gues, with his blossomed nose---. The rest was last in the distance.

All was now bustle, each one crying out, as he hurried to the upper room, 'the drop-the drop." A few words said by my friend, and we were in

THE SECRET CHAMBER, OR THE CHAMBER OF 'THE LAST BROP.' The bandage was now removed from my eyes, and I found myself in a brillicatly illuminated room, and all the persons whom I had before seen standing round me were here. Everything was in perfect order. In front velvet, on one of which stood a Bible and a Goblet. I of me were placed two tables, covered with crimson perceived that there was reddish liquor in the Goblet. but what it was I did not know. On the other was laid the Golden Pen and Parchment. The different emblems their gorgeous appearance. A curtain at the back part of the room attracted my attention, but what was behind it I could not imagine. At last the Patriarch came up to me and said, we are now about to initiate you in the Secret Chamber, and he asked if I was ready. I answered 'I am,' and immediately the lights were extinguished, but in an instant were relighted, and I perceived that the curtain had been raised. The scene which I heheld completely overpowered me, as I beheld a scaffield with all the apporatus for an execution. The patriarch told me to ascend the steps of the scuffold, to take such oaths as would be administered to me. I said I would rather not get on the scaffeld, and what I was to ing the occasion. And should perils assail you, or misfortunes encompose you on all sides, still let your faith be do I could do where I stood. He said 'Do you murmar?' I said I had cause to narumr. He said if it beunshaken; he firm as a rock, and proud to be called a came necessary he would use harsh means, I ascended The officers uscended also, and after a few minutes of

dumb show the patriarch said to me: You swear that you will not use intoxicating liquors ent, and place such mesons as you can at its disposal for ns n heverage except with the permission of this Division, or at the weekly meetings of this Division.

Overcome with fear, I answered 'I swear.' You swear that you will let name drink of your how except a brother of the Order, who has the permission of

the Division of which he is a ucember.' I again answered, trembling, 'I swear,' inwardly resolving that should I get out of this place, I never would

You swear that you will drink in the presence of no person except he be a brother of the order.'

I swear. You swear that should you be charged with drinking while a member, you will fearlessly and boldly deny it and hurl back the lie in the teeth of him who made the charge, except he be a brother of the order.'

'I swear.' 'You swear to help a brother in distress, and him

ılone.'

one, not even excepting your wife, as a woman cannot keep a secret.

During the administration of these oaths I trembled from head to foot at the hypocrisy which here took place. At the end of each oath, the brothers said 'He swears.

I was told that there was but one more ceremony to

At this time the invisible music was heard again, but I was so much overcome with the scenes in which I had become an unwilling actor, to pay much attention to it, over the surface of a barren soil. He tried the experi-The lights were lowered, and the Order arranged themsolves in a circle, and I was taken down the steps of the over a plat of ground from which the natural soil had scaffold, and placed in the centre of the ring. The Patriarch came forward bearing in his hand

THE GOBLET .- This was a large vessel, and full as t now was, very heavy. I could see that it still contained the liquid before mentioned. The music now became more andible and the Patriarch commenced singing the following, accompanied by the music: THE DRINKING SONG.

Only once a week can the goblet smile on you.
Then drink away, drink away, all drink merrily,
Only once a week can the goblet smile on you.
Then drink away, drink away, all drink merrily,
Only once a week can the goblet smile on you,
And once a week, you know, is but very little too." The members then joined in the following chorus: "Then happiness 'twill bring, as we drink and sing, While the goblet flows free round this Mystic Ring?'

next brother, who raised it to his lips and drank-it was ton Bee. then passed round until all had tasted of it hut the Patriarch. He always drank last. Before the Patriarch drank of it, he handed it to me. Though I had been told that the goblet contained hrandy, I did not believe it, and now that they had all tasted of it, I had no doubt but it was merely molasses and water, no smell being noticed but the incense which they born in this scene, and that it was a part of the ceremony to deceive me into the helief that it was brundy, and by thus tempting me prove whether I was worthy to become one of the said 'Drink, and with this last drop renounce the use of all intoxicating liquors as a beverage, except in accordance with the permission of the Division.' I sail, 'What does the goblet contain?' He answered, 'It is hrandy, and it is to hind you to the oaths you have taken, that you must drink it.' I said 'As I have taken an eath to drink no more intoxicating liquors, it is but right that I should refuse this.' This seemed to exasperate the Patriarch, as he turned to the brothers and said, Propare the trap!' and they instantly commenced fixing something under the scuffold, and I now perceived that it was a trap. After these things had been completed, the Patriarch said to me in a loud voice, Your answer now decides your fate-the last drop of the scaffold or the last drop of the goblet?' I was terribly frightened at this, and I was compelled to choose the goblet, still thinking that it was only molasses and water, I took the goblet and drank, but oh! horror! my tougae refuses its efit of a temperance cause, and who had dashed many a flowing bowl from the hand of an inebriate, and caused him to rejoice in the home of his childhood, I say, I had tasted of the bowl, and with that taste came back all my former love for it, and in an instant I had drained it to the dregs; I had partaken of 'the Last drop.' The Patriarch made an attempt to grasp from me the goblet, but it was too late, and he was greatly enraged at me, inasmuch as all had taken their partion but him; and I have no doubt the disappointment was great. It soon passed over, and becoming bewildered by the portion I had taken, knew no more until I awoke the next morning. It is an erroneous impression that a goat is used hy this Order, as no such thing was seen by me.

SIGNS AND GRIPS .- The manner of distinguishing each other is by giving two winks in rapid succession and immediately placing the left hand thunh in the mouth. This is called 'giving the wink!'

The manner of giving a brother warning when he is doing wrong, and that he will be detected if he persists, by rubhing his eyes first with one hand and then with termed 'Mind your eye!'

The sign by which they are in distress and need as- out." sistance, yet do not wish to speak out, is by touching him, at least. But if young Joe Sachasin would give the pocket and giving two winks and two squerzes of him money enough, he had no doubt but he could pray the hand. This is an important secret, and should be him out of Purgatory. remembered by every hody.

The regular grip of the Order is, hy grasping the hand squeezes and three winks.

The manner of gaining admittance is, by linking the little fingers, and giving three light tops with the heel, and giving the Pass word, but this is often changed, and there is no use in any particular word. Sometimes it is, Hosto Presto, Brandy, Root Bear, Ipse, Dixit, Lignumvitoe, Scourge-in Grundy, and a number of other words.

I have no doubt but most of these signs, &c., will be changed, now that they have been exposed.

CONCLUSION .- There are many little things which I have passed over or forgotten, as they would take up You swear to keep these things sacred from every more room than they would be worth. But one thing I get him out." which the members of this Order attend their meeting.—

> TAN BARK FOR MANURE. Capt. Leonard Stone, of Watertown, tells us he has

seen remarkable effects from the spreading of tan bark ment of spreading a quantity, say half an inch think, father one berry smart Indian-wherever he get his head been removed. He says the ground soon swarded over glittering heap into his bag, 'and started hot foot for bis and yielded a harvest of grass.

His is a clayey soil, and almost any substance that would render it more porous and lighter would impove it. Substances in themselves worthless may so operate on clayey soil it must operate rather favorably than otherwise as soon as it commences rotting .- Ploughman.

STRONG CURIOSITY. A few nights ago, a well-dressed person knocked at a door in Derne street, and obtained as they came along, offered to assist him in the search, allow "two," to prevent any disappointment.

This was concluded by some strange and grotesque and asked what he was looking for. He evaded a reply movements, and the Patriarch came forward with the and conjecturing it was something valuable, the penple goblet in his hand, and said to me, "though seemingly loitered round to see it found. After an hour's search, contrary to what you expected, the goblet which you the man exclaimed that he had got it! "What is it?" see before you contains brandy, or in other words, the cried several in a breath, "It's a cent, 'said the man a "Last Drop." The scaffold also signifies the same, or little ashamed;" I did n't care' anything about it, but 1 the end of the betrayer!' He gave the goblet to the wanted to see where the darned thing went to.'-[Bos-

URIE

FATTENING CATTLE .- At a large meeting of the Newcastle (England) Farmor's Club, an account of which we find in the Agricultural Guzette, Mr. Glover, the Secretary, spoke of his mode of self-feeding cattle. He said he was particular to have his cattle fed at stated times. The cattle he said "know perfectly well when meal time arrived, and were restless and noeasy when disappointed of their food," He thought cleanliness and a good supply of litter never should be neglected. To keep the skin clean, and use the currycomb freely, tended to fatness." He remarked also that

food should also be given with regularity as to quantity. "They should not be exposed to alternations of hunger and surfeit. The food of the cuttle should also be varied, as much as possible. Like human beings they were foulof variety and copricions in their appointes. Two pounds of oil cake, five pounds of barley meal and five pounds of hay chaff, with a plentiful allowance of Swedish

turnips, had been recommended as a daily allowance.'. He shoke of the use of lin seed oil in feeding, which be said had had been attended with much success. "The oil wase sprinkled on good oats straw, layer after layer, at the rate of p gallon of oil to a week's allowance of straw The straw to be frequently turned over, and kept two days before used by which time the oil would be absorded and there would be a slight famentation in the food."-

He described also, the mode of making Worne's Compound which is highly esteemed for fattening cattle. "He put 116 lbs. water into a boiling rauldron, and when boiling 5 minutes, stirred into it 21 lbs. linseed mea Then 63 lbs, crushed barley was sprinkled upon the boiling mucilage, by one person, while another rapidly stirred the mixture. This occupied another five minutes." It is then left to cool—if there is much are it should be used the next day, or by excluding it from the air may be kept longer. The quantity given to each bullock per day is 8 pounds with hay or straw in addition.

"SMART INDIAN."

On an Island in the Penoliscut river, about six miles above Bangar, in the State of Maine, resides the remannt of a once powerful tribe of Indians. The Penobscots, from whom the river takes its name. These Indians are Roman Catholics, and very much under the control of their Priests who contrive by one device and another, to filch the most of their precarious earning 1 from the poor Red-men. The old Chief having died, bis son, who succeeded him, was very anxious to know in what situation the old man might be in the world of Spirits. And accordingly applied to the Priest, who told him that "Old Joe Sochasin, his father, was very deep in Purgatory," that he could only be relieved from his present torments, by the prayers of the Priest; that the other until he is satisfied that all is right. The is it would take a great deal of money to do this, as "he would be obliged to pray very hard to get the old man It would take as much as fifty dollars to start

"Well" said Joe, "'spose you begin and try 'um' and he laid down on the table a pile of dollars. The old of each other, as if shaking hands, and giving throe slight Priest mumbled over a prayer, but shook his head-Jee hid down another dollar, and the Priest told his beads once more, "How you get 'em along' soid the sou, "you no start 'em yet, heh?" "No start him," said the Priest. "Your fether one very bad Indian, he love Occaby too much." "Try 'em hard, now," said Jou and he added to the glittering pile already on the table from a bug he held in his hand. The old Priest repeated his mummery. "No start 'em now?" inquired Joe. "He just begins to start" said the Priest but he is the toughest old sinner that ever I undertook to get out of Purgatory; it will take a good doal more money to

Another dollar was laid down, and the same mum bling of prayers continued for a while longer, when the hypocritical Priest told the dutiful son that he had got lie to judge; it is not for fear of being fined, as they have his head out, but there he stack fast, and he could not no fines for non-attendance. You can imagine then, the get him another inch unless he laid down more money; cause of their almost universal attendance. With this was done while the young sanhop kept his sharp cya I conclude, hoping that no one clse will be entrapped by alternately upon the old Priest and the pile of dollars, the worth of which he well knew. At every prayer he laid down a dollar, and then inquired "how far you got em now?"

The Priest at last announced that he had got his head and shoulders out. "You berry sartin ?" "Yes," said the Priest, "very sartin !" "Well then," said he, "Aly and shoulders through he sure to go." and swept off tha wigwam, leaving the astonished old Priest with his mouth open, and his pockets empty. - Lynn Forum.

A QUIETUS FOR CROSS BABIES. By this we do not mean knocking their heains out against the bed post, not suppose there is much intrinsic value in tanbark, yet or any thing of the sort. Nor do we mean giving then in addition to its mechanical operation in opening a paragoric, Daffy's elixir, Dally's carminative, black drop or any other poison. The only requisite to quiet a squalling squealing, miscrable little wretch of a bahy, is, that it should have a nose. In the midst of its screaming, press your finger gently and repeatedly across a cartilage of hat useful organ, and in less than two minutes it will a light to look after something which he said he had lost be sound asleep. The paper from whence this important on the side-walk. Several passengers, one after another discovery is derived, says, "in one minute," but we will

SATURDAY MORNING. FEB. 13, 1847.

COL. CALEB CUSHING.

The following extract of an Address, which was de livered by Mr. Cushing, before a Literary Society, in Brown University, in 1838, is a swift witness of the hollow-hearted, time-serving, mis-named patriotism of this gentleman. We wish that it might be read by every soldier under his command.

"Ambition, interest, revenge, rouse the ever-watchful passions within us; the trumpet sounds to arms, and its notes thrill through the kindling frame; all the surpassing pomp of martial glory glitters before us, to dazzle the senses. and to madden the soul. enses, and to madden the soul; "the rapture of burns in our bosoms, and the emulous love of glory hurries us forward into the field, where Death gathers his great harvest, and Havoc lords it over the smoke and the clash of battle. We resemble the ball in the Spanish arena, phrenzied by the scarlet shawl that is fluttered before him, and rushing blindly on the knige of the matador. We resemble the race-horse in others of the countries of Europe, where he is placed on the course unincumbered by bridle or rider, but with streaming ribbons on his head, and little bells with jagged points suspended over his back. He might, if he would, stand still at the starting-post, for there is nothing to force him from it; but the bugles ring—the gazing multitudes shout—he is animated or startled by the sights and sounds about him—he begins to move—his movement shakes the bells, which jingle in his ears and prick his flanks—and he dashes forward in the race for life or death, self-im pelled and self-spurred to the goal. Is NOT THIS A TRUE PICTURE OF OUR OWN LIVES? also, in the sanguinary wars which from time to time convulse the world, the self-immolated victims of our own headling passions and unreasoning animal instincts? Oh, when will civilized communities learn that ten upon the works and genius of the great Poet and Drawar, even upon those rare occasions when it is hallowed by a just and high cause, is after all but a necessary crime and the scourge of our kind! When will they eonspire, not in overreaching and encroaching one upon the other, but in bringing their choicest oblations, the flowers and fruits with which the bounteous hand of Heaven begems the unspoiled earth, and the aspirations of a fraternal concord to lay them lovingly on the altar of Peace?"—[Hon. Caleb Cushing, M. C., in Bibilical Repository, Jan. 1839, pp. 193, 194.

We question whether anything else would so effectually eat out whatever zeal has led the men under his command to enlist in this disgracful conflict, or would so severely try their courage, when facing their Mexican preparing for an inhuman onslaught, as to have their as follows:

"Fellow soldiers and countrymen,-After much fatigue, and suffering, you have at length reached the place. of your destination, and I am now about to assign to each of you your place, from which you can with the most ease and success murder and be murdered. I hope and expect each soldier will evince shch an abundance of bravery, as \$7,00 a month and as much rum as he wants will inspire within him. I doubt not you are aware that in your present capacity, your are fulfilling the greatest and highest object for which you were created, viz:to kill thousands of your brethren, that you may the more easily enslave thousands more, and at the same time, present yourselves living targets. For my own part it is "ambition, interest, revenge," that rouses me. "The surpassing pomp of martial glory glitters before me, and dazzles my senses and maddens my soul; the 'rapture of strifc' burns in my bosom, and the emulous love of glory hurries me forward into the field, where Death gathers his great harvest and Havoc lords it over the smoke and clash of battle. I resemble the racehorse in some of the countries of Europe, where he is placed on the course unincumbered by bridle or rider, but with streaming ribbons on his head, and little bells with jugged points suspended over his back. He might, Snitchey, who had but one partner, he should not fail to if he would, stand still at the starting-post, for there is nothing to force him from it; but the bugles ring-the gazing multitudes shout—he is animated or startled by Heraud, &c.; not forgetting that Cleopatra of reviewers the sights and sounds about him-hc begins to movehis movement shakes the bells, which jingle in his ears and prick his flanks-and he dashes forward in the race for life or death, self-impelled and self-spurred to the goal. Is not this A TRUE PICTURE OF MY OWN LIFE ?"?

And now fellow soldiers, in conclusion let me indulge "that war even upon those rare occasions when it is hallowed by a just and high cause, is after all but a NE-CESSARY CRIME, and the scourge of our kind."-Oh, how black my fellow soldiers, is the crime of this war and how wicked those who commit it.

God grant that you and all who compose the civilized communities of earth, may soon "conspire, not in overreaching and encroaching one upon the other, but in bringing their choicest oblations, the flowers and fruits with which the bounteous hand of Heaven begems the unspoiled earth, and the aspirations of a fraternal concord, to lay them lovingly together on the altar of Peace!"

Battalion, attention! Ready! AIM! FIRE!!

FAMINE IN IRELAND.

By the foreign news, in this day's paper, it will be seen, that the accounts of the destitution in Ireland grow even more appalling. It is indeed horrible to read the descriptions of the distress. A committee of the women of the county of Cork have published an appeal to the women of America to send them aid and to prevent Ireland from becoming "one vast Lazar house of the dying add the dead." Men are seen by hundreds, lean as skeletons, and staggering along the roadside from very weakness, and multitudes of corpses are found upon the mountain wilds, where the women and children perish by hundreds. All local means are inefficient for the general distress. Meetings have been held in New York, Philadelphia, Washington and Boston for the purpose of taking measures for the relief of these starving poor and a considerable contribution has been obtained, for this purpose, but it is entirely insufficient to afford anything like relief from the horrors of their present condi-

The Massachnsetts Regiment of Volunteers, under command of Col. Cushing, were marched on board the transports on Thursday, to he conveyed from Boston towards Mexico. Company B. composed of Irishmem, were marched on board at the point of the bayonet, they having refused to obey the order to embark. We understand they demanded two months advance pay. Query? Had patriotism any part or lot in this matter.

At a meeting of the Stockholders of the Portland, Saco & Portsmonth R. R Co. held yesterday at North Burwick, Mo., it was voted to make a perpetual lease of their road to the Eastern, and Boston and Maine R. R. Companies, who are to assume all its liabilites and its Hudson's wit. Like all vain men, Mr. H. is blind, and entire direction, and pay therefor six per cent in semiannual payments .- Reg.

MR. HUDSON'S LECTURES.

We were about preparing in our mind some remarks on the above lectures, when we were presented by a friend oring to increase their mirth by impressive pauses, and tirely, the necessity of any criticism from us, and conveys we think a correct idea of the lecturer and his lectures. We will however, express our earnest desire in behalf of Mr. Hudson, which is, that he may yet be so deeply impressed, with the vastness of the work he has fortunate as to possess even a tithe of that goodness of undertaken, and make use of a plain, straight forward. heart and loftiness of character which adorns the lives manly utterance, of his thoughts, instead of resorting to and writings of some of the men who have come within a silly method for exciting nirth. But enough. With the scope of his harmless maledictions.

FOR THE COURIER.

Mr. Hudson's last Lecture.

Mr. Hudson has expended much time and labor in the study of Shakspeare, and as a natural consequence is an enthusiastic admirer of his genius. Indeed any one, who could find his writings of interest enough, to engage attention and study for years, must love and reverence his Hydra headed attributes. Mr. H. has sufficient intellectual taste to enjoy, and perhaps appreciate his genius; but I think, not more than many who make less pretension The larger proportion of those who read Shakspeare, are unable, from the want of time and opportunity, to compose the impressions they receive from a perusal of his works, with those, which have been felt and communicated to us by great minds in different parts of the world. To such, Mr. Hudson's lectures could not be interesting, were it not for those absurd peculiarities, which destory Are not we the otherwise pleasant effect. In a word, Mr. Hudson's lectures are a very good, harmonious and well selected compilation, of the many critiques, that have been writmatist. Originality cannot be considered a prevailing feature of our lecturer's discourses. This conviction has forced itself upon us, despite the unqualified praise that has been heaped upon Mr. H. for the possession of this very faculty. We do not find fault with him on this account; we cannot blame a man for not doing what he is unable to do; no more can we blame a man for not exercising a faculty he does not possess.

It is with a feeling "more of sorrow, than of anger' that we reflect upon this deficiency. A feeling of sorrow and regret, that a man, who has spent years in the study of Shakspeare, could not have given us some new and brethren (for so they are, for ought they know,) and valuable thoughts upon so noble a subject. The great difficulty, seems to be, that Mr. H. has spent more time Colonel address them, in the tone of the above extract; in studying Shakspeare's Commentators, than in studying Shakspeare himself. Instead of speaking out freely and boldly, what he has thought, and what emotions he has himself experienced from reading these plays, he gives us the thoughts-and emotions of others.

But either consciously or unconsciously, he has so in corporated into his own being, the opinions of other and greater minds, that they seem part and parcel of himself. So when he reads Shakspeare, he gets insensibly worked into a "fine frenzy," and snatches his pen, to note down his conceptions. But unfortunately for the world, his conceptions are only emotions, which find expression through the thoughts of other men. Mr. H. speaks, not of himself, but of others, with whom he agrees, and whose conceptions consequently there can be no necessity for amending. We would advise him to use the formula of Mr. Dickens' lawyer Snitchey, who upon the utterance of any sentiment, would say, "I speak for Craggs and myself"-thus graphically expressing the manimity of opinion existing between the members of the firm. We think it would add greatly to the effect of his peculiar manner, and essentially aid him in his attempts to excite laughter, if he should occasionally say,-I speak for Schlegel and myself-or, I speak for Hazlitt and myself, &c. Only to show his superiority over mention other distinguished members of the Hudson, & Co. establishment, as Goethe, Southey, Coleridge, Mrs. Jameson

Seriously, however, we should in common with many others, enjoy these lectures very much,-despite their want of originality, and even of his manner, which seems at least affected. l is very disagreeable—were it not for his egotistical, and often, narrow-minded digres- lor, South Danvers; F. A. Fabens, Boston; Wm. D. sions, upon the times, people, and customs, with which Joplia, Andover. the hope that you will soon learn as I did long ago, he diversifies the evening's entertainment, and which, are as uncalled for, as they are spiteful, and in bad taste.

> It is remarkable that a man, who is as familiar with Shakspeare as Mr. Hudson, should not know enough of expense of the sentimental man of our day, whose case ern farmers the worn out lands of Old Virginia are beginhe considers well nigh hopeless. And again, was it ning to blosson like the rose. [Trenton Gazette. equally unimportant, and tedious to us, to hear Mr. H. pronounce those interested in the cause of humanity, as Bible speaks also of jus-tice.

> That class of persons who look less reverentially upon worse than Voltaire, because he openly avows his hostility to Christianity. Not to speak irreverently, I think Ten sacks make a ton weight, 2,240 pounds; the bushel Mr. Hudson, must have received his religious prejudices from that old lady who believed that the scriptures, old 3 1-2 bushels, equal to 224 pounds—10 sacks make a and new, came down from Heaven ready bound in calf ton. for the use of us poor sinners. Mr. H. stopped his lecture again, to inform us that he thought it highly improper and out of place, to pray at the corner of the

> SEC. 12. Be it further enacted, That no other Rail Road than the one already granted, shall within thirty years from and after the passing of this act be authorised to be made, leading from Boston, Charlestown, or Camoridge, to Lowell, or from Boston, Charlestown, or Cambridge, to any place within five miles of the northern ter-mination of the Railroad hereby authorised to be made.

> > FOR THE COURSER. RAILROADS IN DANVERS.

Mr. Editor-I noticed an elaborate article in your last, upon "Railroads in Danvers," from a professed friend It will be seen by a notice in another column of the Malden road. It has been in my humble opinion by just such friends that the road has been defeated for two winters, and the fewer such the road has, the better. It appears to me that a man cannot be actuated by that eventually it will pay for the right feelings who will express friendship for a project, have ever been in favor of a road in and in the same breath endeavor to annihilate it. That the article referred to is artfully drawn, there can be no neighborhoods been so much regarded. The Sabbath School children of the 2d Unique doubt, and that the grounds taken are as untenable as a Railroad, it never can be wise to turn or to the left to accommodate a half dozing the same of the left to accommodate a half dozing th at the Town Hall, to overflowing audiences. They Malden project is the one and the only one, in which our people are and have been interested, it has seemed needless to compare its prospects and advantages with any other counter project; but as such a comparison has been instituted by your correspondent, it may be well to examine the grounds upon which it has been made, and to explain more fully than has been done the prospects and with the importance of this being done. advantages of the project which is proposed to be substituted for the Malden project.

It is well known that the South Reading project so called, was started by Mr. Livingston of Lowell, and that strated the necessity of what we have so was held at the town rooms, on Wednesday evening its object is to get a new avenue from Lowell into Boston last, Mr. A. P. Phillips, was chosen Chairman, and the against the provision in the charter of the Boston and following persons appointed a Committee for this part Lowell road, which provision is, that no road shall be the present month. One by the way of chartered from Boston, to terminate within five unless of Lowell, within thirty years from the date of their above to go through Salem. The other

to Salem but really for a road from Lowell into Boston. Hon. Daniel Webster, standing upon the provision in

"We stand upon constitutional rights and legal provisions; upon a contract made with the Commonwealth, we will not here express any preference for upon the strength of which we have expended our monproposed routes, abstractly considered; but if it is morally certain, in the present state of the contract will not here express any preference for proposed routes, abstractly considered; but if it is morally certain, in the present state of the contract will not here express any preference for proposed routes, abstractly considered; but it is morally certain, in the present state of the contract will not here express any preference for proposed routes. ey; -and under the constitution of this State and of the ton, Jr. Josiah Lane. No 6. William Price, Geo. W. United States, under the laws of this Commonwealth, and the charter granted to us by it, we come to solicit nobody, to implore nobody, but to assert plainly our rights under that charter, those laws and the right of property, and to oppose every body and whomsoever may seek to invalidate or infringe them."

The petition was not granted and so plainly unconstitational was it, that Mr. L. dared not bring it up the tion for a road to Boston from Lowell, within 2 1-2 Lowell to Salem, and to make it appear more plausible fortune to own property near the Lynnfichl Hotel. But the question may be asked have not the Lowell people a right to a road to Salem? We say yes, and a route is offered which will be shorter than the one proposed and day last, the following gentlemen were chosen a Board of which is free from Constitutional objections, i. e. a road Directors for the ensuing year:-Jona. C. Perkins, Jas. to connect with the Lowell road at Wilmington or some Kimball, Dan'l Potter, Sam'l D. Tilton, Sam'l S. Stand- other convenient place. So the whole issue is resolved ley, Jas. C Stimpson, Stephen Whitmore, jr., of Salem; to the question whether a new road shall be granted from Jas. Kidder, E. Boston; Larkin Woodbury, Manches- Lowell to Boston against the charter of the Lowell road. ter; Luther Wait, Ipswich; John Gilley, Marhlehead; It is not too much to say then, that the proposed road Warren Prince, Beverly; Stephen Foster, Reading: cannot be chartered, or even if chartered, could not be used without the consent of the Lowell road.

But it is said, we can drop the Lowell part and ask for a road from Danvers to South Reading. Grant this for argument's sake. Can such a road show business to warrant its construction, or is there a probability that it could be chartered, if it could show such business?

A road to Boston, via South Reading, would require the construction of some three or four miles less road than one via Malden. But as the route would be two miles longer than by the way of Malden, of course the running expenses will be increased correspondingly as will also the amount to be paid to the Boston and Maine Road, which two items will more than make up the difference in the cost of construction of the road. Therefore the actual annual expenses will be more on a road by the way of Reading than by way of Malden; and the income on the Malden road will be almost double what it will on the Reading road, from the Lynn and Saugus travel and business. We do not believe the business of Danvers alone, could support either road. It certainly would not begin to support the Reading road, if we are obliged to be drawn in from Reading by the Engines of weighs 280 pounds, and 7 sacks 1,960 pounds, equal to the Maine Extension Road, as would be the only way some portions of holy writ than he, are condemned as 10 American barrels. The bushel of fine Liverpool salt that could be done, as there is only a single track to that

But your correspondent takes the fallacious ground that of ground alum salt weighs 64 pounds, the sack contains there is more chance of a charter to Reading than to Malden, and quotes to support it the remarks of Mr Hopkinson in the Senate last winter. Truly Mr. H. Joel Giles, "Esq., "a Beston lawyer," one of and finest minds and most honest hearts here FOOD OF THE EMIGRANTS. We have been shown a specimen of the food which the Irish Emigrants usually bring with them to support life while crossing the Atlantic.

TWENTY DAYS LATER

vids from Enrape.

The new measures proposed by the government are of the atnost importance. The parts are to be inapediately opened for the free admission of foreign corn of every kind, by which the duty of four shillings sterling will be kind, by which the duty of four shillings sterling will be absolished. The navigation laws are to be suspended, by which core will be admitted in vessels of every number of which core will be admitted in vessels of every number of the best of the surface of the abolished. The navigation laws are to be suspended, tion; and sugar is to be allowed in distifleries. These me seres will be carried, as the price timists have promised to give them their support. They have been forced 1847. A warrant has been duly issued against from the government by the awful condition of the people | the estate of

Food of every kind is scarce and dear in England, Ireland and France, notwithstanding the humense quantities slipped from the United States.

The corn and provision markets in Ireland and Eng and are exceedingly animated, and prices are still kep up at the extreme rate quo ed by previous arrivals.

The European Times says, however, that

"The whole of the available British navy will be occapied in bringing food from every quarter of the world where it can be had, to arrest the starvation of which Ireland is the scene.

"The promptimale with which the government is determined to act in this matter is already making itself felton the food markets. The price of grain has already experienced a slight check, and it is believed by many practical men that all the provision markets, from the time forward, will assume a downward tendency. In fact it is known that several experienced merchants have agreed to facuish, in a month or two from the presen ime, large quantities of corn at sixteen, and even eighteen shillings per quarter under the current rates. The farmers are already taking the alarm, and so far from keeping back, are now engaged in forcing their produce on the murkets."

In consequence of the high price of malt, the London brewers have raised the price of malt liquors, and gin, rum, and whiskey have also advanced, considerably.-Bread has also advanced, 11d being charged for the 41h

It is discovered that the city of London has been sinking gendually for some years. The water in the Thattes is rising in the same ratio.

IRELAND.

The condition of the coputry around cork is most appolling, starvation being universal, deaths from want of food frequent and fracfully on the increase, whilst despair has seized upon, the public mind from the apparent adisposition of the government to exert itself for the preservation of the people.

The prices of food have now risen to a point which places it for beyond the rench even of those amongst the laboring classes who have employed, and this most unfortunate condition is mainly attributable to the obstinate refusal of the government to establish food depots throughout the country.

A Ruman Catholic clergyman (the Rev Mr Bagley)at a recent meeting in Brantry, said, I have record of the facts, and I could give you the names of the individuals. I know men to be working two entire days upon the public roads, without ever tasting a morsel of food. They known many of their lamilies obliged to go to hed for two successive nights without tasting a morsel of food, and Iknow that, not many days since, Tim M'Curthy on the Strand and his family, for 48 hours had not enten a morsel of food, but, as they said themselves, they drank the cold, black water; and when some charitable hand reached assistance, two of the children fainted on tasting the food A terrible disease, almost amounting to a plague, has

broken out in some of the poor houses in Ireland, The deaths in the work house of Scarilf, County Clare, from this cause averages from 4 to 12 daily.

A correspondent of the Marris Jerseyman says: "I am satisfied that screenings of anthracite coul are a good protection of peuch trees against worms. I placed a bux around each tree, two feet square and six inches deep, and filled it with the coal; and they have no indications of worms about them.

151 Essex street, Salem.

Remember in all cases that you are not deceived by thing that appear to be facts.

REMEMBER also, that, Lorraine's Vegetable Pills have in their composition two of the most valuable medicines in the world, viz: Sursupurilla and Tomatoes. These two articles need no praise, neith er do the celebrated Lorraine' Pills, when they have

once been taken.

Physicians, and people of every class are willing o come forward and announce, in the most public manner, that they have been cured of long standing complaints—after all other medicines had failed. In act there can be no doubt but that Lorraine's vegtable Pills is the best medicine ever offered to the

Sec a few public statements of men of truth ad ve-

good satisfaction, better than any other pills which good satisfaction, better than any other pine which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contra ry, they have been praised loudly. I think we could have quite a number of highly respectable cer fficates from our citizens.

Respectfully yours, E. MASON.

Chelsea. Jan-3d, 1844 Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston and could get nothing that would relieve me more han temporarily. I heard of the wonderful virtues f Lorraine's Fills, I nad no faith whatever but 1 took them, and it is a solemn fact that when I had

taken but eight pills! my Rheumatism had entirely lest me, and I have remained well ever since.

N. B. I never won and and that on going to bed.

Yours respectfully,

W. M. HALSTAL N. B. I never took more than one pill at a time

Unable to raise the Hands to the Head!

Sir-For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places destroyed by utcertion, and I feared it might reach the brain or wiel angent. the brain or vital organs. My pains were violent—all medicines recommended did no good. At last, I rried LORRAINE'S VEGETABLE PILLS, which gave mmediate relief, and have entirely cured me. Respecifully, your ob't serv't, JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

Assevere pain, in both sides cured!! Lowell, Mass., April 20th 1944.

April 20th 1944.

Sir,—For the last few months I have been afflicad with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * It is a pleasure to feel well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr Lorraine's Pills. J. BROOKS.

Six: I could (!) the whole of the Sentinel with similar letters to the above, but believing the above extracts will serve for useful purposes for the present

New England Office and General Depot, No 10 Brattle Square, Boston.

Lynn, Dec. 17th, 1842;

Sir; I have sold all the pills I last had of you please send another lot immediately. The sale of Lorraine's vegetable Rills is rapidly on the increase they are becoming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact I have noticed; that no one that has used them finds any fault with, them, they have more than absorbing of so ne parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bring-form fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is confined any fault with, them, they have more than others. In all absorbing of so ne parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared expressions of the jaw, that carved work in blocks, prepared e fact I have noticed; that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has heen confined to the house and bed, a great part of the time, for twenty years, is now cured and able to work most of her time after having taken 3 boxes only of Lor her time, after having taken 3 boxes only of Lor raine's Pills!! I might name many other cases where the cures have time.

Yours respectfully, JE.F. MARSH;

A hacking cough constantly annoyed me!
Boston, Mass.,
June 1st; 1844
Sir,—In February last, I took a sudden cold, after which a hacking cough constantly annoyed me, and provided mental trush miserable, as everybody told me that I was in a consumption. Since, I have taken Lorrante's PILLs and now every body tells me that I am well;—I feel as well as ever I did.

Portland, Me., Nov. 7th, 1843
Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persous afflicted with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in conse-

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of seuding patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

MECHANICAL AND DENTAL SURGERY.

Teeth at Cost, until Mch 1, 1847! Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston.

OR the purpose of introducing more extensively will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the public generally an apportunity of testing the practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases o two or more teeth, but is peculiarly and especially addapted to whole and half sets, where the alveolar or their plate-work .- especially in whole and half sets Another advantage of carved work,—and one of grea importance too, is its cleanliness. Unless the teeth are moulded to fit the plate in the most perfect manner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to remove them, will invariably become offensive and ingle teeth is, its perfect articulation. Each tooth aminethem. should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instability, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of Clam Chowders will be served up on Tuesday, Thursday and Saturday evenings. press; with upwards of 300 illustrations. Subscriptions received and numbers delivered as published, hy jan 23:

To the Honorable the Senate, and the House of Representatives for the state of Massachusetts, in General Court assembled,

HE petition of the undersigned, a committee of citizens appointed for the purpose, respectfully represents, that the public convenience requires a Railroad to be established between the town of Danvers, in Essex county, and the town of Malden, in Middlesex county.

We therefore petition your Honorable bodies, that we may be incorporated under the style and title of the Danvers and Malden Railroad Company, for the purpose of constructing and using a Railroad, to commence at of constructing and using a Railroad, to commence a some convenient point in the South Parish of Danvers OR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of

BENJAMIN GOODRIDGE and others.

COMMONWEALTH OF MASSACHUSETTS. In Senate, Jan. 29, 1847.
On the Petition aforesaid, Ordered, That the Pe itioners cause an attested copy of their Petition with this Order thereon, to be served on the Clerks of the towns of Danvers, Malden, Lynn, Saugus, North Chelsea, and also on the Clerks of the Eastern, Boston and dental ridge has become uneven and irregular, by the absorbing of so ne parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that dental ridge has become uneven and irregular, by the Maine, and Essex Railroad Corporations; and the Clerk publication to be at least four days before the twenty-fifth day of February next, that all persons interested

may then appear, and show cause, if any they have, why the Prayer of said Petition should not be granted. Sent down for concurrence.

CHAS. CALHOUN, Clerk. In the House of Representatives, Jan. 29, 1847. CHAS. W. STOREY, Clerk.

Poetry.

A STORM. SONG.

Would thou wert near me, Ella! The night is grand and gloomy, no stars are in the sky, But the giant storm is passing, in might and majesty; No pale noomlight beams through the night, but the giant starm is there,

And his back steed's mane is dripping min, he paws the upper air; And all his train are dropping rain that follow through the nir:

Would thun wert near!

11 Would thou wert near me, Ella! The tall oaks bending stately, accept the gauntlet cust: The shock is past; and maked all that stands before the

blast: Their helms and greaves of natural leaves around dis-

jointed lie. And heard are grouns and bitter moans, with the victor storm's rade ery;

Would thou wert near!

Would then wert near me, Ella! In gazing from my casement into the wild black night,

I hear wild voices near me, as of demons in the air, And there I see each naked tree, float round me every

But dindy see the forest tree unspurging every where: Would thou wert neur!

Would then wert near me, Ella! "Tis like the angry ocean contending with the storms; I hear the thundering hillows, I see their mighty

forms: With radest shocks upon the rocks they dash in fierce

And I hear the toll of fug-bells roll, that warn from far awny:

The mournful knull which the fag-bells tell of the breakers far nwny;

Would thon wert near!

Would thou wert near me, Ella! For Life is such a tempest, as giant-like, and drear, -Of ever-changing passions which strive against us

Of doubts and tears, and trembling fears, that bow the prend heart low;

The guiding lamp, quenched by the damp of storms pleting the prospect.

that round us flow:

Would thou wert near!

VI Would thou wert near me, Ella! Then thou should'st tell me sweetly of gentle love and truth.

And of the magic needle, that ever points at truth; Of the beacon-light that burns by night with never lessened rny.

Fog-bolls that roll to the storm-tossed soul their warning far away; Of bell notes clear that whisper near of the breakers far away;

Would thou wert near!

Cambridge, Mass. 1846.

HOME AT LAST. A shivering child, one winter's night, (The snow was deep and cold the blast,) Hugging her ragged mother tight, 'Mother,' exclaimed, 'we're home at last!' And as she spake, poor little one, A ruined but she stoud before, Whence, ever since the morning sun,

They strayed to beg from door to door. Ye're home at last! Sad home is this,-All lone without, all cold within;

DANVERS, (Mass.,) SATURDAY MORNING, FEBRUARY 20, 1847. The adder here might lark and hiss-Her poisonous web the spider spin-

But there's no fire to warm, no light, And crevices are ynwning wide, Through which the starm, this freezing night, May lay you stiffened, side by side,

And yet this wayward child has been By many a gorgeons house-and past Where mirth and music cheer the scene, Nor envies-for she's home at last! Thus may the heart be trained below To love the cot wherein was cast Its fare of poverty and woe, Like her's who cried, 'we're home at last!'

Miscellann.

From Graham's Magazine. Courting by Proxy,

A TALE OF NEW YORK.

Young Mr Alunzo Rush was dreadfully in love-as, indeed, which of us is not? Everybody has a passion, though fortunately, the objects are infinitely various.but after his grandmanma told him he oaght to marry as we shall see, is not withant its perplexities.

Mr. Alonzo was a darling boy, an orphan and the heir fare washed by her own hands, in warm water, every of the power of excet sounds, and repeated the idea And nonghi but bitter grouns and bitter moans are heard morning. Even after he called himself a man, she of trying them upon the heart of Miss Alida before he buttered his mufins, and tucked up his bed-clothes with ventured upon words, as Hannibal, (wasn't it?) having a solicitude above all proise. Thanks to her care and rocks to soften, tried vinegar before pickaxes. Having attention, he reached the age of twenty one in safety, often encanatered bands of music in the streets at night excepting that he was subject to colds, which alarmed his venerable relative extremely; and excepting also that he showed annuaccountable liking for the so-By the fitful and uncertain gleam of my dim chancher ciety of a little tailoress who had always made his clothes during his minority.

and what made his situation the more puzzling was that resolved himself to lie, perdu, in a convenient spot his grandmamma, in her various charges, had entirely ready to speak if the young lady spould appear on the omitted to specify the lady to whom his devotion aught to be paid. She even urged him to choose for himself --What a responsibility!

"Only remember, Alonzo,'? said the good lady, "that half an hour or so, when, observing no demonstration you will never be happy with a girl that does not like from the house, and feeling rather chilly, they consulted muffins, and that it is as easy to love a rich girl as a poor their employer as to the propriety of continuing.

one. 'Yes,' responded Mr. Alonzo, with rather an absent ed up yet! (The youth understood the true object of zir; 'yes, and as to muffins-' here he sunk into a rev- serenade.) Play away till you hear samething.'

erie. 'Grandma!' exclaimed the darling, after some pause,

'couldn't you ask Parenthia Blinks hero to tea?' 'Certainly, my dear,' said the good lady, and she eral kinds of cake, and various other good things.

Miss Parenthia Blinks, who found it political always to accept an invitation, that she might do as she pleased before, all ran away forthwith. when the time came -a practice fully adopted by many fashionables.

exact quadrangularity; in the centre a large basket heap- he made on ignominious retreat, Of the beacon-light is dimmed by night; we see not ed with cake, and at the sides two mountains of toast. We dare not describe the dreams of our here that

'What is the matter, Mr. Rush!' exclaimed the I-am -sick-' said Alonzo, making a rush fix the

street door. The lady was the elder sister of Miss Alida, diminve, ill-forned, and with such a face as one sees in a

Alonzo reached his grandmannna's and the first person he met as he dashed thra' the hall was the hitle tailor: ss.

We know not if he had made a Jepth dive yow in the course of his transit; but he caught the hand of his numble friend, and said with startling energy? 'Mary! will you marry me?'

I! I!' said the poor girl, and she hast into tears. But Alonzo, now in carnest, found no lack of words; and the result was that he drew Mary's arm through his and half led, half carried her straight to his grand-

namma's sofu. 'Grandma!' said he, 'this shall be my wife or nobody. have tried to love a rich girl, but I love Mary without trying. Give us your blessing, grandma, and let's

The old lady, speechless, could only hold up both hands; but Alonzo, inspired by real feeling, looked so different from the satillness durling he had ever seemed, that she felt an involuntary respect which prevented her opposing his will very decidedly. It was not long before he obtained an absolute permission to be happy in his own way. Wise grandmamm-say we.

Mary was always a good girl, and riding in her own carriage has made her a beauty, too. She is not the only lady of the 'aucune' family who flourishes within our hounds. As for our friend Alonzo, he smiles instead of sighing, as he passes Humming-Bird Place.

ANECDO TE. The following amusing adventure, given by a corespondent writing from Builido, actually took place in the town of M____, in Ohio, two years ago. It would have made even the late Isaac Hicks laugh at a solemn meeting on the Seventh-day. Tarmer had two daughters, very interesting young ladies, yet in their teens, who were romantie in their notions. Their father was an aristocratic member of the Baptist church spied out by, one of the belligerent brothers of Miss Al- and of course was very particular as to the 'company' ida, and recognized as the hero of the serenade a l' Es- his girls should 'keep.' Now it happened that these two pretty girls became acquainted with a couple of young backs, clerks in an adjoining village, and, to use a common phrase, 'took quite a shinin' to 'em.' To this the old gentleman was very much opposed, as he intended to match his daughters himself. But ' 'twas no use' talking to them; while week after week wore away, and found the young men constant visitors. At length affair. I heard of your boquet, but I explained, and in order to enforce obedience, the old man found himself you need not mind. Write a note yourself—that will driven to the necessity of lacking up the foolish children who had presumed without his consent to fall in love with a couple of poor tradesnien. The sweet girls were accordingly confined on Sunday afternoons in the back bed-roum in the second story, which fronted the barnyard; a very romantic 'look out.' Under the windows was a pile of stones, which had been left after repairing the cellar-wall in that corner. For two or three successive Sabbath evenings, the usual period of visiting their 'Ob, yes, certainly,' said the obliging Harry, and he juamoratas, the lovers had climbed by means of the enveloped it, comme il faut, and directed it to Miss sheets of the bed, which were let down from the window by the heroic girls, up to the apartment of their impris-

quiring a reply; and, by the aid of his friend Harry, Mr But this claudestine courtship could not be continued Alouzo Romeo Rush kept up his side of the correspon- without being at last discovered. One lovely Sahbath, tlence with so much spirit, that, in the course of a week just at twilight, the father, coming in from the barn, or two, he was invited to call at the rural residence, with thought he saw something rather ominous hanging out of an understanding on all sides that this interview was to the back window; so he walked noiselessly around to be at the end of protocols, and the incipient stage of de- ascertain the 'nature of it.' There hung the fatal 'flag finitive arrangements which would involve the future of surrouder; and the old man giving it a slight jork, commenced the ascent. He was lifted gently from off his feet, and felt himself gradually 'rising in the world.' 'Twas a very heavy weight, the daughters thought; and mamma washed and combed him, and the little tailor- to tell the truth, it was a corpnlent 'bady corporate' at ess brushed his clothes, picking off every particle of which they were hopefully tagging away. But lo |-his lint with her slender fingers, and thinking, when she head has reached the window still; and now, just as his old white hat appeared above the window, his affectionate daughters 'drapped him like a hat potato'; while the 'Thank you Mary,' said he, very kindly, and, as he two knights of tape and scissors, who were not far off, looked at her, he could not but notice the deep blush enjoying the scene, 'made hasty tracks from the settlement, leaving nothing behind them hat bodily misery, horror-stricken damsels, and their own coat tails, stream. ing on the cool night air!'

Thrilling Scene,-A gentleman living in the western part of the city, experienced a truly exciting event, and became suddenly and unexpectedly the hero of a startling scene the other night. He had retired to bed at his usnal hour, his wife being sick, and fortunately, as it seems, under the necessity of taking medicine during he night, which, with a lamp, match box, &c., were placed upon a small table near the bed. At about two o'clock as it afterward proved, his wife awoke and discovered that the lamp was ont; and wishing for her medicine, awoke her husband, requesting him to reach to the table and hand it to her. He was, it seems, lying on the left side, and the table directly before his face; accordingly extending his right head to feel for the bottle, he placed it upon the head of a man upon the table. With admira Hark!—n footstep—a lady—and in another instant hie presence of mind, he instantly tightened his grasp, house which had suffered but little change since the which fell just before him in the mornlight. This he Mr. Alonzo had taken a small hand without venturing and, firmly holding on, at once called out. 'There's a man in the room!' His Wife screamed, and cried aloud prepare a speech, so he held the little hand and medita- for assistance upon others in the house, but unwilling to

exclamed sternly to the man, 'If you dare move. I'll blow your brains out.'

The noise occusioned by such an occurrence, with the crying and screaming of one or two children in the room who had been woke up by it, soon brought in two or three of the other members of the household with lights when our excellent friend was discovered holding in the vice like grip of his right-his own good left hand! Under the intercepted circulation caused by the pressure of his head, stretched out upon the table, the unfortunate cause of this frightful scene was just coming to itself, the grin of the other hand almost starting the blood from the tips of the imprisoned fingers. The supposed burglar was released instanter, and our worthy friend, with his daring and presence of mind, at marvellous discount, slid as has yet been published: under the blankets to enjoy his laugh by himself .- Balt.

Danvers Courier.

SATURDAY MORNING, FEB. 20, 1847.

MR. HUDSON'S LECTURES.

Mr. Hudson's lecture on Tuesday evening last was well attended and we believe gave general satisfaction. We think there would never have been much cause of the Savior, his chief study and admiration for years, ancomplaint had he avoided in all his lectures, as in this, all attempts to ridicule or condemn other men's opinious, conscienciousness or genius.

The following communication from a highly respectable source, seems to demand from us a full explanation and defence of our position, which we shall give as briefly as possible, in the notes which we have attached to it, for convenience sake, by showing where we agree and disagree with this article:-

Mr. Editor-The perusal of the criticism in your last paper; accompanied as it was with an editorial endorsement of approbation, (1) created much surprise, when I recollected the encondums that had been heaped upon the same gentleman from the same source. (2) I say the same source, because whether the editorial fountain be supplied from one or many springs, we have a right to expect from it, consistency in opinions. (3). We are not among the number who would approve entirely all that Mr. Hudson says, or his manner of saying it;—but we cannot doubt his ability to criticise, or his pre-eminent power of language in the expression of his conceptions. (4) Nor can we doubt his originality as a writer. We do not pretend to have read all the commentaries on Shakspeare, named by your correspondent;—but we have read enough to know, that Mr. Hudson's lectures are not copied from these, and that they are as full of uriginality of thought and expression as can reasonably be expected on a subject that has been so much canvassed and by such able minds. (5) Nor is it to be expected or desired in Lyceum lectures, that they should be entirely original in thought, any more than that ser-mons from the pulpit should be so, if the views presented are such as are well calculated to instruct the hearers-(6) Upon re-examining the critique, we think the writers of it are less annoyed by Mr. Hudson's views of Shakspeare's opinions, than by his views of their own opinions;—and that they would not have joined issue with Mr. Hadson, for what he said of Shakspeare, had he not at the same time exposed to ridicule their own extravagancies. Whether this was done in good taste or not, we will not inquire; but that it was done in good faith, we have no reason to doubt. (7) If those who undertake to criticise Mr. Hudson's performances shall be 'so fortunate as to possess even a tibe' of the talent which distinguishes his productions, they will have made acquisitions in knowledge far beyond any thing to be suspected from their communication.

1. We said in regard to the article in our last, that "it conveyed a correct idea of the lecturer and his lectures." and that it removed the necessity of any remarks from us. Of course we did not mean that such one of his lectures that he believed the devil himself portions of the article as was intended solely as a review of his lecture on "the Mind of Shakspeare," would apply to all his previous lectures, but simply such parts as which to detect a bigot and hypocrite, than by his de- shipped from Norfolk within four weeks. referred to his manner and style. We thought it did nouncing as insincere and false, everybody but himself him justice and therefore did not think it necessary to and his. multiply words.

2. We think our correspondent is alarmed most at our independence, and has consulted more his own priwill find there, but little to defend him in his assertion. tained original and powerful descriptions, and many pithy sayings, rich in meaning, wit and sarcastic humor, yet for all that, we do not see why we should be accuslack of wit, especially if it adduces its proof, in defence of its position. We think there are many men in the furturate in such a Laureate. world who have not been as consistent as we in their and others had they possessed a roman consistency.

shown that there is no inconsistency of opinion in the articles which have appeared concerning Mr. Hudson .-Our opinions of these Lectures have been expressed freely, as they will be always, on any subject which cannot be "hought up" by any clique or corporation.

glishman, and as a great genius. His good qualities belong to the man, his bad to the Englishman and the peer; his genius is incommensurable.

"All Englishmen are, as such, without reflection; distractions and party spirit will not permit them to unfold themselves in quiet. But they are great as practical

when he speaks out his own feelings as a man.

grenter poetic power.

pistol beneath his pillow, shrewdly enough, however, pression, but we do say, that his lecture on 'the Mind of Shakspeare,' contains many borrowed thoughts, and had this correspondent carefully perused "Schlegels Lectures on Dramatic Literature,-"Hazlitt's Lectures on Shakspeare,"-"Mrs. Jameson's Work, on the female. character of Shakspeare,?' Wilhelm Meister's Appren ticeship, by Goethe, and the "London Monthly Magazine," he would not have been so positive in his assertion, for he could not help thinking that Mr. Hudson was aware of their existence. The cause of his surmise would be obvious. Be this as it may, Mr. Hudson does not claim for himself originality of thought, in these lectures, trains have been too crowded for the comfort of the pas- ple to understand this ruse and not te be deceived by the at least so says a writer in the Democratic Review, of sengers. 1845. We will copy a short extract from this article, which is we suppose as favorable a notice of the Lectures

> .Mr. Hudson puts life into this empty creed, by bringing home to his audience the principles and mode of thinking and acting of his great author. Others have done it before, nor does the lecturer claim anything on the score of novelty or originality, as the latter is gener-ally understood. It is because his thoughts are old, he says, that they are likely to be true.

We think this settles this point conclusively.

6. This proposition may be true in the main, though we think it inappropriate as an illustration, and will substitute what we consider a better one. Suppose a celebrated lawyer, who had made the life and character of nounces on a certain evening, he will give a lecture on the "Mind of Jesus of Nazareth," and obtains a respectable and promiscuous audience, and then occupies most of the time appropriated to the lecture, in reading to them Paul's epistles, or St. Mathew's, St. Mark's or St. John's Gospels, and occasionally aims a thrust at some political or moral movement, which does not suit his fancy, would not his audience be disappointed?

7. We have probably experienced as much delight in listening to much that has fallen from the lips of Mr. Hudson, as his most enthusiastic admirers, and we do not join issue with him for what he said of Shakspeare, except when he uses him as authority for his own ultraconservative and anti-reform "behind-the-age" notions. We cannot but believe that he will have to shut many eyes besides his own before he can convince the world that the king of poets did not believe in, encourage and anticipate social, moral and religious improvement, in his masterly productions. By the rule which our corespondent has adopted, we presume that the uncalled-for and unjust digressions from the subject of the lecture agrees with and pleases his own peculiar notions. Whether this is a legal judgement we cannot say, but it is certainly in keeping with a warning of the

Savior,-"judge not lest ye be judged,", &c., Finally, we will state what we expect from any lecturer who announces his intention to lecture on a particular subject, it is this, - to confine himself to his subject and nothing else. It is true he can take advantage of his position and introduce mean insinuations, about, and extravagant praise, or abuse of anything, however foreign to his subject, which he may choose, but we doubt the propriety of his so doing, and we do not think that any lecturer under the circumstances we have named, (if the audience be a promiscuous one) has a right, nor is it proper for him to mention his own peculiar opinions, whether they be right or wrong, agreeable or obthe subjects he proposes to treat. More than this, we think it weak and unmanly for a lecturer, under any circumstances, to go out of his way, to accuse any man or be made until the 10th of April. men, of a lack of consciousness, unless he can bring better proof than his own assertion. Mr Hudson said in respected and feared a truly consciencious man, and he might have added, that there was no truer sign by

REBUKE OF THE PRESIDENT.

On Saturday last, the Senate of the United States, which, as our readers are aware, has a large 'democratic' majority, passed a vote, expelling Mr. Ritchie, the editor of the Union,' from the floor of the Senate, by a vote of 27 to 21. This was evidently done as a rebuke to the President himself, whose organ and mouth piece the 'Union' avowedly is,

We mentioned, in Saturday evening's Gazette, the notion of Mr. Yulce, the 'democratic' Senator from Florida, for excluding Mr. Ritchie from the floor of the Senate. This was the occasion on Friday, of a remarkable personal and political discussion. Mr. Turney of Tennesee took up the cause of the official editor, vindirennessee took up the cause of the omeial editor, vindicated the justice of the assault upon the Senate, upon
which body he charged a deliberate purpose to obstruct
Mexico, to be used by him in the event that said treaty the measures for the prosecution of the war.—Salem when duly ratified by Mexico, shall call for the expendi-Gazette.

Hampton, N. H. vs. Jerome Harrit of Cambridge, Mass., formerly of this village. The case was Phlegmonous, Erysipelas. The application ordered was a solution of Sugar of Lead in rum and water which was continued for 8 or 10 days. The trial commenced on Thursday afternoon, and continued the remainder of the week. In the course of the Trial several physicians were examined or their depositions read. The case was argued by Christie for the Defendant and Marston and the case was continued to the next term .- Ames. bury Transcript. '

Most Shocking .- Some one has forwarded us, ments, one of which we have taken the pains to examine. We find upwards of five hundred human beings offered for sale, in "lots to suit purchasers," and in parallel columns advertisements of family Bibles for sale, Missiona ry Conventions, to be addressed by ministerial agents from the North, with notices of some twenty or thirty but exclaim in the words af Whittier-

"What! preach and kidnap men? Give thanks and rob thy own afflicted poor? Talk of Thy glorious liberty, and then Bolt hard the captive's door!"

CURIOUS LOGIC.

In a late Courier, I noticed a short communication

signed "D" which commences as follows:-"We see by the last Courier that Mr Derby, counsel Ject, so called, this winter and of course with the con-

The writer thence infers that the Eastern Rail Road March next. favors the South Reading route and warns the good peoplans of that corporation. Let us examine this precious specimen of logic by stating a similar case. It is this .-Mr. Russell who was last year counsel for the Malden of an original tale, entitled "The opening of the Grana- Railroad, is this year employed by the Essex and North Reading roads to oppose the South Reading and Malden coads—and of course, (according to "D's" logic,) with Pedlars' law still come in—the remons SALEM ADVERTISER .- We notice that this paper the consent of the Malden Railroad !!! This, Mr Edhas changed the conducting of its publication from itor is one specimen of the absurdities to which men are Messrs. Perley & Parsons, to Mr. Eben. N. DEATHS.

IJEA 1413.
In this town, Feb. 11th, John Alonzo, son of Mr. John II. Spiller, aged 2 years and 4 months.
Sweet bube, than wert too lair a flower,
To blossom here helow,
Thou lingerest but for an hour,
In this vain world of woe.

Yes, like an hour, thy life has seemed To us who loved thee well. And of thy death we scacce had dreamed, Ere we must say farewell.

No more thou'lt lift thy little head,

To take thy welcome kiss, For thou art numbered with the dead, Thy spirit is in bliss.

Farewell, sweet habe, we'll meet thee In fairer worlds above; Bright angels now surround thee, Thou know'st a Savior's love...—Com.

JAMES FREDERICK FOSTER

Continues to manufacture all the various approved Trusses, at his Old Stand, No. 305 (opposite No. 264) Washington street, entrance in Temple Avenue. Buston where he has been for the last ten years—and his residence and business being both in the same building, he can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for the Truss business than any other person engaged in it in this city or any other.

evening. He has more room and better conveniences for the Truss business than any other person engaged in it in this city or any other.

Also—Abdominal Supporters, for Prolapsus Uteri—Trusses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back Boards, Steel Shoes, for deformed feet. Trusses repaired at one hour's notice, and made to answer of tentimes as well as new. The subscriber having worn a Truss himself 25 years, and fitted so many for the last 10 years, feels confident in being able to suit all cases that may come to him—Convex Spiral Trusses, Dr. Chase's Trusses, formerly sold by Dr. Leech; Trusses of galvanized metal that wil not rust, having wooden and copper pads, Read's Spiral Truss; Rundell's du; Salmon's Ball and Socket; Sher man's patent Franch do; Bateman's do, double and single Stone's Trusses; also, Trusses for children, of all sizes Dr. Fletcher's Truss, and Marsh's Truss, P. Hull's Truss. Thompson's Knehet Truss, and the Shakers' Rocking Trusses, may be had at this establishment. Whispering Tubes and Ear Trumpets, that will enable a person to converse low with one that is hard of hearing.

All ladies in want of Ahdomical Supporters or Trusses, waited on by his wife, Mrs. Canoline D. Fuster, who has had ten years experience in the business.

CERTIFICA TES.

From Dr. John C. Warren, of Boston.

CERTIFICATES.

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persons afficied with Hemia, having snifered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some raouths of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recomment him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Roston.

Tohn C. Warren, M. D., Boston.

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given fell satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robbins, Rorbary.

Since the death of Mr. John Beath, Thave used, in preference to all other Trusses those made by Mr. J. F.

Since the death of Mr. John Beath, Ifhave used, in preference to all other Trusses those made by Mr. J. F. Faster, of Boston.

P. G. ROBBINS, M. D. Boston, April 27th, 1246.

The undersigned is familiar with the ability of Mr. J. F. Foster, to unmatacture trusses of the various kinds of supperters and other apparatus required by invalids, and fully believes that the character of his work will favora bly compare with that of other artists.

J. V. C. SMITH, Editor of the Boston Medical and Surgical Journal.

MECHANICAL AND DENTAL SURGERY.

Teeth at Cost, until Mch. 1, 1847 Office, No. 266, opposite to No. 307, washington Street, corner of Avon Place, Boston.

OR the purpose of introducing more extensively in many important respects, an entire new mode of preparing and mounting Mineral Teeth on plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to give to the public generally an apportunity of testing he practical value of his theory, but will offer a rare opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases o two or more teeth, but is peculiarly and cspecially a-dapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of some parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bringing out the cheeks and hips to their natural and uniform fullness. The difficulties to be overcome in whole and half sets, so far as the proper form is concern id, are thus fully met by this mode, and it is not possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrong't possible to accomplish it so perfectly by any other means. It is the want of this ingeniously wrong it be to the work, to tennedy the defects above referred to that so many are ausuccessful in giving satisfaction in their plate-work.—especially in whole and half sets Another advantage of carved work,—and one of great importance too, is its cleanliness. Unless the teeth great cures have been as great, but have not true, after the cures have been as great, but have not true, after the cures have been as great, but have not true. are monded to fit the plate in the must perfect man-ner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to re-move them, will invariably become offensive and taint the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its pipposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instability, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, we ere great difficulty in execution is overcome. They cannot fail to excite admiration from all who are pleased with close imitations of nature, and would inspire a conf d nee in their nurits, that the wearing of them

TERMS.

would only tend to strengthen.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and faish of the work are produced, to the satisfaction of the person for whom they were made, the charge will be simply the cost of the materials used in their construction, which will be less than one half the price usually paid; and after wearing them six months if perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be refunded. Old plate work that has been warn with much inconvenience, will be exchanged for ew, on ruying a small difference. All other branches of Dentistry, such as Filling, Setting on Pivot, Cleausing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most therough, faithful and scientific manner, and on the following terms, viz. For filling common sized cavities with gold, \$1; For other kinds of Filling, from 50 ceuts to \$1; For setting on gold pivot, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and advice gratis. All oper at one warranted.

LORRAINE'S PILLS. All pe sons require Facts.

Remember in all cases that you are not deceived by thing that appear to be facts.

EMEMBER also, that, Lorraine's Vegetable Pills have in their composition two of the most valuable medicines in the world, viz: Sarsaparilla and Tomators. These two articles need no praise, neither do the celebrated Lorraine' Pills, when they have

Sec. a few public statements of men of truth ad veracity

A hacking cough constantly annoyed we!

Boston, Mass., June 1st; 1844 Sir,-In February last, I took a sudden cold, after

which a hacking cough constantly annoyed me, and which a hacking cough constantly annoyed me, then, combined with my other maladies, rendered me truly miserable, as everybody told me that I was in a consumption. Since, I have taken LORRAINE'S PILLS and now every body tells me that I am well;—I feel as well as ever I did.

J. E. S. McKEY.

Portland, Me., Nov. 7th, 1843
Str: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault' found with them whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable cerficates from our citizens. ficates from our citizens. Respectfully yours,

E. MASON.

Chelsea. Jan-3d, 1844

Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston and could get nothing that would relieve me more han temporarily. I heard of the wonderful virtues f Lorraine's Pills, I nad no faith whatever, but I took them, and it is a solemn fact that when I had took them, and it is a solemn fact that when I had taken but eight pills! my Rheumatism had entirely

left me, and I have remained well ever since. N. B. I never took more than one pill at a time and that on going to bed.

oing to bea. Yours respectfully, W. M. HALSTAL

Unable to raise the Hands to the Head!

Sir-For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the brain or vital organs. My pains were violent— all medicines recommended did no good. At last, l tried LORRAINE'S VEGETABLE PILLS, which gave mmediate relief, and have entirely cured me. Respecifully, your ob't serv't,

JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

TO EVERY VIOLIN PLAYER! TO EVERY VIOLIN FLAYER!

THE AMERICAN VIOLINIST. This splendid instruction Book for the Violin has already passed through two editions—it is without doubt by far the most thorough work for the Violin ever published in this country. The Evening Traveller thus speaks of it:

"I. P. Jewett & Co, have just published a complete system for the Violin by J. F. Hanks, in a handsome quarto, of over a hundred pages. It is probably the most complete work of the kind in print." The sheets have been paged.

of over a hundred pages. It is probably the most complete work of the kind in print. The sheets have been corrected with laborious care by an accomplished violitist, and the atmost pains taken to make the work perfect. In the appendix will be found the whole of Otto's celebrated, and the ways ways was treatient to the control of the same of of

and now very rare, treatise on the construction, preserva-tion, repair and improvement of the violia."

Poetry.

E'en the old posts, that hold the bars, And the old gate, Forgetful of their wintry wars And age sedate. High capped, and plumed, like with hussars Stand there in state.

The dritts are hanging by the sill, The eaves, the door; The haystack has become a hill, All covered o'er The wagon loaded for the mill The eve becore.

Maria brings the water pail-But where's the well? Like magic of a fairy tale, Most strange to tell. .All vanished-curb, and crank, and rail-How deep it fell!

The woodpile too, is playing hide; The axe-the log-The kennel of that friend so tried-(The old watch dog.) The grindstone standing by its side, All now incog.

RE.

The bustling cock looks out aghast From his high shed, No spot to scratch him a repast-Up curves his head, Starts the dull hamlet with a blast, And back to bed.

Old drowsy dobbin, at the call, Amazed, awakes; Out from the window of his stall A view he takes, While thick and faster seem to fall The silent flakes.

CHEER YE EACH OTHER.

Cheer ye each other with words Of mild and of pleasing intent, Of life with delight and content; The smile of thy sister recall-Relieve then thy brother's alloy :-Be loving, and throw over all Thy sweetest emotions of joy.

Yes, cheer one another along In paths ye delight to pursue-A word to dishearten is wrong, To those who are striving to do. A breath is the pinion of thought, And thought is the breath of the soul, And spirit by spirit is taught With good or with evil control.

Speak cheeringly unto the sad, The wounded in heart and the poor-A word of affection is glad, And helpeth the wrong to endure. Disturb not the hope of thy friend, If sorrow it maketh to flee, But keep up the dream to the end-In joy let his spirit go free,

Deal gently with others that err-'Tis Mercy that saveth the lost, And all that thy love may confer Can never God's bounty exhaust. Oh! cheer one another along, And joy and affection impart-Unkindness of spirit is wrong, But blessed the cheerful of heart.

Each life is a link in the chain Of kindred humanity's race. And sympathy softens the pain And helpeth to bear it with grace. Then cheer one another in gloom. Since cheerfulness brighteneth care: 'Tis a short narrow road to the tomb-Oh! cheer one another till there!

Miscellann.

FOR THE COURIER.

The Opening of the Granary A TALE OF THE FIFTEENTH CENTURY.

Many long years have rolled away, so many, ally; the fear of the Duke's vengeance, even among Turnstall, he had risen to that of man-at-arms, under displeased with his attentions and did not thank her unthat we may safely estimate them by hundreds those who believed the tale promulgated by the merwe may sarely estimate them by hand on the same with the addition of chants (and they were now but few) being swallowed incapacitated by age, for taking the field, he had, with a large handful thrown into the account, by way of up in the wild wrath engendered by hunger. Some de-

which occasionally swept over Europe, carrying terhad been broken open and their contents distributed a- ing himself in a long series of conflicts which would exempted from its awful presence, again returned on its mong the tumultuous crowd which the occasion had have won him fortune and advancement under his grate- it was truly wonderful, by remarkable coincidences, its approach, and in a great degree prepared for its com- sued their operations and very shortly another and much fell at the great battle of Mortimer's Cross, a victory ing her whither she went, and then escorting her back ing;—War, the mighty war of the Houses of York and larger depusite was siezed and appropriated by a more which mainly contributed to plan the Earl of March on within the very shadow of the forbidden mansion; while Lancaster:-a fine couple, they are in sooth, these two, War and Famine, for disfiguring the green earth cripocean of honest enterprise. But these truths are many of them were the possessors of the grain, which tears of sorrow, as the reflection arose in her mind that so I shall leave to peace preachers and corn-law measures in behalf of their suffering townsmen. In Margaret was the only child of the fallen warrior, and vances had, in fact, been dismissed with the most uncerminstrels, (their peculiar province) the task of set- those times it was common for priests, bishops, mayors, one of the old Knight's daughters, to whom he had imonious refusal. Henry Clifford was the son of an imting forth the horrible bloodshed, bad legislation, &c and other high dignituries of church and state to engage with their attendant evils, (satisfied that they cannot in traffic, and this being the case at York, and moreover in a time of anarchy, division and civil war, it is not to exaggerate on the subject,) and come to those matters which are more nearly connected with the little story be wondered at, that the inhabitants, finding both law and I propose to tell. England, more than any other country religion against them, were ready for any ferocious exand the people of England more than any other people cess. Yielding to fear, therefore, what they would not concede on principle. Some of their number at last oespecially, have through all ages, borne the burden of pened their heards, and with a very ill grace began to those calamities, both natural and artificial, which have sell to the people; -a line of conduct which had the efever afflicted the human race; and it was so at the time fect in a good degree, of allaying the growing disturbanof my tale. Amid the various fluctuations of that sances. But not among this more timid portion was Master guinary civil strife denominated the 'Wars of the Ro-Roger Greene, enrolled; 'Roger Greene the great corn ses,' a bricf pause had occurred, a temporary lull in the wild storm that had so long rayed through Britain's merchant,' a phrase familiar to the ears of all. But it pleasant valleys, over her sunny hills, and along the behooves me, before I go any further, to give some account of the previous history of this individual, and tell banks of her gentle rivers-a time, in fact, when the who he was, and all about him, and all concerning him, one party, defeated, crushed, and overbone, for the and do it besides in another chapter. present, were compelled to furl the standard of opposition, and seek in dispertion and flight, the means of safety from utter annihiliation, while the other, wearied with Roger Greene had always been a resident of the city havoc, were glad of a short respite from the field, for the of York, where he now resided, having been born there, opportunity it gave them of rest and recruital to their together with a younger brother, Gilbert by name, and shattered forces. During the brief period which elapsed both of them only children of Sir Giles Green, a soldier ere the contending factions were sufficiently recovered to of some note, who was slain in one of the many battles commence anew, the undecided contest, the cultivation of the soil, neglected before, had been resumed by the patient peasantry, (suffering under any party) and the fields and plains were beginning to be restored from the miserable condition of sterility and nakedness in which the march of plundering armics had left them. A few

the exorbitant prices at which the coveted article was

give them battle. This plausible statement was to a

great extent, a fabrication, and the motive for its circu-

lation very palpable indeed, being designed to overawe

the people, and prevent their rising in army and obtain-

ing the food by force, by the idea of the fierce displeas-

ure of the Duke, and the cruel retribution, which, they

urged, he would in all likelihood take, (having the pow-

er so to do,) on the populace. The army, it is true had

of that turbulent age, while his offspring were yet in their early youth. Their mother having died some years before this event, the two orphans were now lef unprotected, being without relations except some very distant ones; -distant indeed, for they dwelt in a remote quarter of the kingdom; and to add to their misfortunes, years had flown, years of comparative agricultural prosthey were also cast upon the cold charities of the world perity; considering the unsettled state of the kingdom; unfurnished with that magic talisman, that oren sesame the toils of the husbandman had brought a substantial of potent power to bid the gates of influence and patronreward, and all seemed fair and smiling, when this forage unfold and receive with obsequious smiles and bows midible and unwelcome agent of divine wrath, came to the self assured applicant-Money. Soldiers in those glean a sad harvest of humanity, in the already well days were not accustomed to leave much property begathered field of a remorseless and gory predecessor.hind them, so, the two brothers, consequently, were not The fourth season of increase had passed, and the probothered with any troublesome law-precedings, such as ductions of the earth had been 'gathered into the garner.' taking out powers of administratorship, &c., and were The fifth vanished likewise, but the labor of the tille enabled to settle the estate, and share stakes with the 'returned unto him void,' no bounteous crops repaid his easiest dispatch The youngest, who inherited from his sweating toil, for an early blight had siezed upon the futher a strong predilection for warlike pursuits, took the ripening grain, and the hour of promise cut off his hopes military panoply of the departed soldier, saved with his and plunged him in the depth of wretchedness. The body from the field, and which was freely accorded by want of provision, in different portions of the kingdomt more especially in those quarters, which had been expos-Roger, who, in turn received a small sum of ready money, all that was left after his father's few debts, (chiefly to ed previously, to the merciless foraging of either army armories for making and mending) were liquidated. The (both alike unsparing) began now to be sensibly felt .-Consequently, wherever there was any that had escaped brothers then looked about them in search of some emwas sold, when sold at all, at rates that rendered it im- luckily, were not long in finding it. Gilbert offered himthat the well disposed and orderly inhabitants of the old cathedral city of York, whither I now intend to conduct the reader (if he will honor me with his company were more highly favored with respect to the neccessaries of life than the rest of their brethren in the country; from the fact that a considerable quantity of the various sorts of grain was lodged in some of the store-houses of that this circumstance, for a season just mentioned, namely,

CHAPTER II.

traffic in them increased, so that they became immediwas implied in this artful fiction, and, in a measure, it zens generally. Our friend soon ranked pre-eminent quiesced nothing doubting the current report, but latterly, absorbed in the anxieties and cares to which the finetuaas the scarcity of provision grew more apparent, mur- tions of trade, the gains, and the losses (for he suffered some severe reverses) exposed him, that he seldom because of his soberness of character, and steady apcreasing, like the preludings of a coming storm; There thought, heard, or saw much of his brother with whom plication to his business, discouraged all present efforts were not wanting in the mass, now rapidly approaching he had parted many years before—but an event was to win his niece's smiles on account, as he said, of the a state of riotous fomentation, some bolder spirits who about to occur to recal him to his memory. The years young man's limited means to maintain a family, and not connselled the expediency of helping themselves vi et which had fled, working such changes in the condition being yet settled in the world. In consequence of these armis in case the dealers should any longer refuse to sell of Roger, had not been without their effect on Gilbert; ideas of the old merchant, Richard was prohibited the their grain at prices within the means of the citizens gen- from the situation of a page in the service of Sir Henry abode of Margaret, who, it must be confessed, was not

length the civic officer became alarmed for their own wept for the untimely fate of the gallant soldier, one, safety for though us yet no bloadshed had happened, for who in lier retired chamber at the castle, shed bitter persmith was not the only one who professed an adorawas the reason why they had not previously taken some | she should look upon her father's living face no more.so, before he himself was slain; when this lutter event idle, profligate, fellow at heart, the leader of many a occurred she had arrived at the age of fifteen, and up to secret riot, and other law-less enterprises, when his serthat period had constantly resided with her grandfather vices were not required as a captain of troops, by either nt the castle; his pet and plaything and solace of his of the warring factions, which was the case at the presnge. But the days of the old knight were now number- ent time, his company of mercenaries having been dised; the death of his daughter had produced a shock banded, on account of the temporary overthrow of the which the declining health of the old man was ill able party to which he then adhered. It is to be presumed to sustain; and when, added to this, he received the intelligence of the fate of his son in law, whom he loved for he was too selfish and depraved to entertain a sina few days subsequent to the death of Gilbert. Not foiled as we have said in his attempts to propitiate either only for her father, then, did Margaret mourn, but also Margaret or her ancle by fair and open endeavors, (for for her mother and grandfather, a three-fold sorrow which inexorable fate had cast thus early and in rapid to his real character) he had for some time, apparently Margaret's early years had been spent in joy and happimiles which made its aspect gay; it grow strangely unofty, vaulted chambers, as she traversed them, seemed to her sick funcy to have acquired additional darkness to what they formerly possessed, as it they too, had gathered the pall and shroud to bewail the missing steps of those who were accustomed to thread them. It was therefore with a feeling, bordering on apathetic indifference, but rather of relief than otherwise, when Margaret was told a few days after the burial of the old knight that a message had arrived at the castle from her uncle in York, the purpose of which was a request that she would come and make her abode with him; the messenger whom Roger had sent, informed her, (being so charged by the merchant,) that her relative was ill in health, otherwise he would have come for her himself; bull dog upon the calf, which soon brought him to the that he needed some one to attend upon him in his sickness; that his present housekeeper (for Roger was a bachelor) was unfit from age and infirmity to discharge that duty adequately, and that the daughter of his lamented brother would be gladly welcomed beneath the roof of her lonely uncle if she chose to accept his offer of a home. It was not long before Margaret was domiciliated in her new residence, having completed with her relative's request, and soon grew to love him as a father, while he, on his part bestowed all the affection he could separate from his schemes of gain and profit and the keen researches of the purveyors for the factions, it ployment adapted to their respective inclinations, and, other worldly avocations on his niece. Margaret was well calculated to entwine herself about the heart of him his posterior artillery, throwing his heels every time self as a page, and was accepted by Sir Henry Thrn- one, even more enveloped then was her uncle in the occassioned great distress in many places, and compell- stall, a knight of some distinction, whose castellated mists and fogs which the love of gold gothers around its mansion was situated on a woody knoll within view of votaries: of a gentle and considerate temper she studied quest of roots &c., or whatever they might find to eke the tower of York, and Roger who was in no degree the old man's whims, and sought, and succeeded in quest or roots &c., or whatever they ingut min to each the lower of Lora, and Logo who was in the description of a commercial pleasing him by those solicitons attentions to his comfort before the butcher (ah! who would be one?) could secure out a scanty subsistence. It would appear at first view, martially disposed, and being moreover of a commercial pleasing him by those solicitons attentions to his comfort before the butcher (ah! who would be one?) could secure martiany disposed, and being moreover of a commercial processing in a specific data which true devotion only offers. Roger was gratified by his subject, he had first to secure this champion of freeand trading temper, bound masen as an apprentice to a watch trading temper, bound of himself, but his dom in the stable. were then consumed. Years passed away; in process of household; and frequently bestowed on her such entime, Roger's term of service expired; having during it comiums as these; "thou art a good lass Margaret, and acquitted himself to the satisfaction of the honest tra- a handy, thou knowest how to keep things together to der, who, it so fortuned, chanced to die soon after be- keep waste and confusion from the house, and by my ing full of days and civic dignities, (the reward of a well troth thou oughtest; thou wilt one day, perhaps, when I venerable town. But they were not much bettered by spent life,) and was gathered to his fathers. Thereup- am laid away in the earth, have important matters of on, Roger who had been liberally remembered in the thine own to guide, some money, it may be, to put out will of his grateful master, according to his last request, at a good investment not that I am rich by any means," held, and worse still, but little had been sold as yet, at stepped at once into the business, having the good will he said, suddenly checking himself, "that is not now, any price; the owners alleging as a cause for its with- of the stand, ie, the transference of the patronage of but the grain is rising to an unparalleled price and I have the customers to himself, a thing formerly bought and a large quantity, (with a chuckle) and shall not sell til tion for the supply of the troops of the Lancastrian Duke sold, freely presented to him by the old gentleman's wid- it attains its highest mark." These latter allusions in ow. To be brief, our merchant prospered in his call- reference to the speed and profitable fruition of his great from the city, and awaiting the arrival of the Yorkists, ing, being prudent, shrewd and diligent, and his gains speculation, only drew from Margaret, as might be extheir enemies who were on their march northward, to though slowly, were surely increasing, when he was in- pected, expressions of utter disapproval, and earnest enduced by circumstances; to forsake his shop, and com- treaties that he would withhold the food no longer from mence a more extended business. The cultivation of the people; whose sufferings she painted in terms of the several kinds of grains began now to be practised sincere and forcible eloquence, but without making any in consequence of a better system of agriculture, and impression on the inflexible mind of her uncle. These they rose at once, to be articles of indispensible demand; scenes had occurred often of late, and Margaret had ever been foiled in her attempts, perseveringly renewed to ately, as they have ever since continued, great branch- persuade, Roger to let the citizens have the necessaries es of commerce. Men began to speculate in them, suc- at a moderate rate;—better would it have been for him, received some provisions from the city occasionally, but cesfully,—among the rest, Roger—purchasing from the if he had early listened to her gentle appeals. The grathe merchants were under no such obligation or bond, as farmers around, and supplying army purveyors and citi- ces of Margaret's person fully equalled those of her ailed in its intended effect and justly. At first, the mul- among his brother dealers by the extended scale on of Richard Berney, the coppersmith's son, of the titude, whose wants had not become very pressing, ac- which he conducted his operations, and grew so deeply west Gate, and he had long entertained it, but he had vorable sentiments, for Roger, though he liked the youth

good measure, since one of those dreadful famines monstrations of this character had already tuken place in, to battle in the cause of Edward Earl of March, after- garet had many errands of Mercy among the poor in her several parts of the town. One or two small granaries wards Edward IV. At length after highly distinguish- immediate vicinity, when she was in the habit of visiting with relief unknown to her sordid uncle. Emboldened by success, the mob pur- ful future sovercign, if he had lived, he unfortunately Richard imprened to encounter her, on her way, attendformidable band than had yet before assembled. At the throne. There was one besides the after king who at the same time the merchant was commending himself for his worldly wisdom and prudence. The young coption of the fair Margaret, there was another, and one, less favored, by both, uncle and nieco; one, whose adbeen married many years, and who had died a year or poverished knight who had lived in the city; he was an that it was old Roger's wealth which he really coveted, as if he had been his own, nature could not withstand cere and honest affection, besides he was needy and in the accumulated load of grief, and the aged veteran died want of means to pursue his dissolute courses; being his plausible exterior did not blind their eyes in regerd succession on her young head. Gloom hung over the relinquished all efforts of that nature, but none the less castle, desolution reigned in the broken household, where in secret cherished schemes of accomplishing his designs by violence, and, in consequence of a compulsory marness; the venerable mansion seemed no longer as it was riage of Margaret with himself, eventually laying hands wont of yore, when lighted up by the kind and beaming on the merchants reputed riches. The miserable state of thuse civil times, gave impunity to almost any deed of familiar to the bereaved maiden; the dim passages and darkness, and it is probable that Roger's speedy death would not have been scrapled at in order to further the cunsummation of his projects. We shall see, as we proceed, the development of the rejected suitor's measures. To be continued.

A HORSE STORY.

A writer in the Buffalo Courier tells the following nnecdote of a horse. The incident occured in a town adjoining that city:

A Butcher, my neighbor, recently went to pasture, where the family horse was usually turned when idle, to get a calf which he had purchased for slaughter. Finding difficulty in otherwise catching him, he set a large ground, uttering most pitcous cries. The horse, which till now had seemingly paid no attention, aroused by the cries of distress, no sooner perceived the perilous situation of his helpless companion, than with ears leered, nws distended, mane and tuil erect, he hastened to his

The dog still continued his hold, despite the threatening aspect of the horse, when the noble fellow, fastening his teeth upon the dog, with one toss threw him completely over the adjacent fence! Meanwhile, the butcher had approached so near as to catch hold of the calf as he was raising, which the horse perceiving, he turned upon still nearer the butcher's head, until he also was glad to relinquish his hold. With what a proud and exulting air he pranced around his liberated charge, with head and tail erect, snorting defiance to all oppressors. In fact,

RATHER COOL.

An individual whose life had been spent, as Hood says 'far from the buzzy 'aunts of men,' and who had acquired a high degree of verdancy, was dining last summer at the table of one of our largest hotels, when perceiving a bottle of wine standing opposite to the gentleman on his right hand, and supposing it to be public property, he helped himself to a glass of it as unceremoniously as if t had been so much water. The owner of the wine, astonished at the rudeness of the proceeding, turned to the unsophisticated countryman, and with a look of utter amazement, remarked: 'Well, by Jove! that's cool!' Y-e-s,' was the reply, 'it's pooly cool; 'spect there's

GETTING 'EM MIXED.—We once heard an old fellow, famous all over the country for his tough yarns, tell the following. He was telling what heavy wheat he had seen in the State of New York.

My father, said he once had a field of wheat, the neads of which were so close together that the wild turkies when they came to eat it, could walk round on the top of it any where.

We suggested that the turkies must have been small

No sir, continued he; they were very large ones. I shot one of them one day, and when I took hold of his legs to carry him, his head dragged in the snow behind

A curious country you must have had to have snow in

Well I declare, said he, looking a little foolish, I've got part of two stories mixed.

DR. JOHNSON.

At the time when Sir. Joshua Reynolds resided in London, he one afternoon paid a visit with several others, among whom was Dr. Johnson, to a fashionable

Danvers Courier.

SATURDAY MORNING, FEB. 27, 1847.

HON. D. P. KING'S SPEECH.

We have read wish much pleasure the speech of our Representative in Congress, on the General Appropriation Bill. We are also happy to find that his efforts in behalf of sick and disabled seamen have been successful, \$12000 having been through his exertions, added to Parish. The following facts are derived from the Audi- mind was called to this subject and seizing intuitively the Bill for this especial purpose. This is but additional proof of the devotion of Mr. King to the especial intermuch care and labor, in a convenient and desirable inductive reasoning to deduce the inductive reasoning to deduce the inductive reasoning in a convenient and desirable inductive reasoning to deduce the inductive reasoning in a convenient and desirable inductive reasoning to deduce the inductive reasoning in a convenient and desirable inductive reasoning to deduce the inductive reasoning to deduce the inductive reasoning in a convenient and desirable inductive reasoning to deduce the inductive reasoning in a convenient and desirable inductive reasoning to deduce the inductive reasoning in a convenient and desirable inductive reasoning to deduce the inductive reasoning the inductive reason country at large. This speech contains a manly vindi- will be ready for delivery to citizens on Monday: cation of his course on the various questions concerning the War with Mexico, with a most mortifying expose of the present condition of the administration and the country in consequence of the War policy of the gov-

We wish it was in our power to publish the whole of this speech but as we could not do it without the omission of matter which gives variety and interest to a public journal, we must be content to lay before our readers an extract from that portion of it relating to the Mexican

months ago war was commenced, to acquire a portion of territory, which he calls that same country; and the territory, which he calls that same country; and the President's friends promised to conquer an honorable peace in three months. Six months ago the President asked Congress for \$2,000,000 to buy peace; now \$3, Six months ago the President 000.000 are asked for the same purpose; because, besides paying our own forces, it may be convenient to Santa Anna, to help him pay the Mexicans. We have had the best of the fight in every coutest—victory has always perched on our standard; but we have had victories without advantages, and are apparently no nearer to a close of the war than we were nine months age. We have not conquered peace, and shall not be able to do it, until more wise and energetic measures are adopt-We have not bought peace, and shall not be able to do it, until we have more crafty negotiators than the President or his Cabinet council. And when is peace again to bless our land? When shall the alarm of war and the din of battle cease? When shall be heard no more the wailings of agonized bereavement, and the sorrowing cry of mourners, refusing to be comforted? If we can neither conquer peace, nor buy peace, let us be magnanimous, and on terms of equity and liberality give

In this nineteeth century, in the Christian era, there is nothing which meets my idea of true honor or glory in the prosecution of any war. As distinguished from Pagan, Mahomedan, and Jewish, we call this a Christian mation. The advent of the great author of our religion was announced by choral angels, singing peace on earth and good will to men, and his parting blessing was, "my peace I leave with you." This war is not only immoral, but it is inglorious. Some of our orators and poethave called ours the most enlightened and powerful tion on the face of the earth. We have more than twenty millions of people. Our wealth and resources are unbounded—a full Treasury, an undoubted credit, a well appointed army and navy, arsenals and magazines full of arms and the munitions of war. Mexico has a population of some ten millions, of a mixed and miscellaneous character, Moorish, Indian, and Africau—a distracted government, an empty treasury, not a ship of war afloat, naked magazines and arsenals, and every way poorly supplied with the fit accourtrements of war. is no honor or glory in warring with such a people. The contest is too unequal. As soon would the monarch of the forest, when not humbled by pinching hunger, make fight with the feeble, fearful As soon would the bird of broad and rapid wing leave his pride of place, and pounce upon the half-fledged owl. It is only when man meets his equal man, that the crown can be worth the contest; in a scrub race there are no laarels worth winning or wearing. "Verteek meets Greek, then comes the tug of war." Mr. Chairman, do not pursue the hubble reputation where you know you can never overtake it; but, if you cannot conquer, nor buy, just give peace to poor weak distracted Mexico. That Mexico has been in fault no one Hall, in the South Parish in said town, on Tuesday. the unes have been equal to her faults: living in a whirlpool of continual revolutions, her anarchy and poverty have driven her to deeds which her best citizens have abhorred.

Some of our political friends, and many of our political opponents, fave kindly warned those who oppose the prosecution of this war, of the fate of those who opposed the war of 1776 and the war of 1812. There is no similarity in the cases. Those wars were for the rights of nations and mankind, and for justice and liberty. Then great principles were involved. We had an enemy every way our equal, except in a noble enthusiasm for the right, and a devoted love of country. A love of novelty, a spirit of wild adventure, a recklessness of danger, such as urges the horse to battle, may have seduced many young men to volunteer in this war of ag-gression, but the spirit of '76, the patriotism of the rev-olutionary fathers is not there. In those wars we laid up olutionary fathers is not there. In those wars we laid up a rich store of renown. I would not hazard our national fame and character in a struggle so doubtful and so unequal. I would not risk these proud trophies won by our brave soldiers and sailors. They are too precious to be trampled in vulgar dust, or to be draggled in inglorions gore. We have been warned that opposition to this war would make us unpopular. An honest, independent freeman will ask, is the measure right; not, will it be popular. He may be willing to court popular favor, but he will never become her slave. Popularity, he be popular. He may be willing to court popular lavor, but he will never become her slave. Popularity, he knows, may be gained with little merit, and lest by as little fault. In the morning it may put forth the fresh green leaves of promise—in the evening they may wither and die. Popularity is a frail staff. The consciouser and the. Formarry is a trait state. The conscious-ness of meaning right, and doing right, will sustain a man in this life, and at its close, be the ministering angel of peace and hope.

We are now the aggressors. The Mexicans are de-

fending their altars and homes, their wives and child-ren. They cannot, and they will not, yield. By an arbe alienated. They have sworn to support it; and, if not as strong and bold, they are at least as obstinate and determined as we are.

In modern times I think of but two instances of wars

waged like this. The great French nation, with whom war is a pastime, and the profession of arms almost a natural pursuit, have been fighting the Algerines more than sixteen years. They, too, have been victorious in every engagement; but they have secured nothing but the military passession of Algiere, and that they can where the cause of Education within the town.—

Wherefore, we respectfully Remonstrate against the the military possession of Algiers; and that they can maintain only by an army of 100,000 men, and an an-nual expense of \$20,000,000. Mexico is much farther from the United States than Algiers from France, has larger population, has more of the arms and arts of war, and, from the natural position of coast and defiles, and its pestilential climate, so fatal to strangers, is better pre-pared to sustain a longer defence. Shall this country continuo the war, with no definite prospect of its termina-tion, and no fixed object, but the robbing of Mexico of territory which must result in domestic feuds and perpet-

The Florida war raged for six years or more. the ftorida war raged for six years or more. It cost the Government, in money, \$42,000,000, besides the health, and blood, and life, of many of our citizens.—Here were only a few hundred poor Siminole warriors. If it cost \$42,000,000 to subdue these almost naked and unarmed children of the forest, how much will it cost to determined people of Mexico? If this contest with sav-ages occupied the fleots and armies of the United States it for two millions of dollars.

them had never before seen Johnson, but thinking such a dirty fellow could not possibly have any business with the family, he laid hold of the doctor's coat as he was going up stairs, and pulled him back saying. You fellow what's your business here? I suppose you want to rob the the thinking such a six years, how long will it require for the same forces to subdue the warlike, simi-barbarous Mexicans, taught strategy at our expense? But I do not wish to make the calculation. We have conquered the Mexicans in every battle. Ours is, or ought to be, the model republic of the warlike with Mexica as an affectionate preble magnaninaty—deal with Mexico as an affectionate pre-ceptor would deal with an obstinate but not impracticable pupil; and by address, by gentieness, by example, more eloquent them all other dicipline, teach Mexico to do We have beat the Mexicans in the field in every right. We have beat the Mexicans in the field in every fight. Let us show them and the world that we excel

more renowned. Let it be my country's good fortune to achieve this noblest and best of victories future papers.

TOWN AFFAIRS.

The Annual Town Meeting, for choice of Officers, &c., To Newton we are indebted for the establishment of will be held on Monday next, at Village Hall, North the great law of attraction. By the merest incident his ors' Report-which has been prepared by them after upon the three laws of Kepler, he was led, by a course of much care and labor, in a convenient and desirable inductive reasoning to deduce the following law; That

Orders drawn by the Selectmen, Orders drawn by Overseers, Orders drawn by Firewards,

Whole amount of Orders for year 1846, Paid into the Toeasurv by Overseers, Rec'd for State of State Paupers,

\$2972 27 Excess of payments over receipts, The average number of paupers at the Alms House'

during the year, is stated to have been 58. Deaths 4. Fourteen months ago the President congratulated the Average cost of supporting individuals at the house, exnation on the bloodless acquisition of Texas. Nine clusive of the interest on the cost of the establishment,

Entire cost of the poor, for the year, \$3458 00 Diminution of the Town Debt, about

of any impropriety in thought, word or deed, whatever.

lectures of Mr. Hudson, which, as it attempts to review omers had long seen the neccessity of another planet, some of our remarks in former papers, we have thought between the orbits of Mors and Jupiter, to complete, best to accompany with our reply, and for want of time mathematically speaking, our System. So truthfully and space we are obliged to defer the publication of both had they read this page in the "Book of Nature," and until our next number.

We have commenced on our first page to-day, the publication of an Original Tale, written for the Courier, which we doubt not, will particularly interest our read- of the perfection of science; for soon their research was ers at the present time. We regret however, that sever- crowned with entire success. But instead of one planet, Hark, in thine ear: Change places; and handy dandy, slight errors should appear in this and other articles, late- as was expected to be found, four were discovered, so which is the justice, which is the thief?' [King Lear, ers at the present time. We regret however, that severly, having escaped our notice in proof-reading.

TOWN OF DANVERS.

At a legal meeting of the Inhabitants of the town of some inherent cause. twenty-third day of February, A. D. 1847, the following Remonstrance was adopted by the town:

To the Honorable the Senate , and the Honorable the House of Representatives of the Commonwealth of

Massachusetts, in General Court assembled: Respectfully represent the Inhabitants of the Town of Danvers, in town meeting assembled, to act upon the Order of Notice from the Legislature, in relation to the Petition of Charles A. Dearborn and others, for an alteration of the boundary line between the town of Danvers and the city of Salem; and the annexation of a part of the inhabitants of Danvers to Salem; that the prayer of aid Petition ought not to be granted.

The following are among the reasons that may with ropriety be offered in support of this representation: 1. There is no public necessity whatever for the proposed alteration.

2. The identical line now proposed to be altered, was established about six years since, at the request, and for the accommodation of the City of Salem; and no new reason has since occurred for varying the same.

3. The alteration proposed, would take from Danvers, the smaller place, about one-tenth part of the tax-able property of the town, and annex it to Salem, which is now large and wealthy, without any corresponding equivalent therefor.

4. The irregularity spoken of in the present boundary lines, is attended with no practical inconvenience whatever other than what has always been experienced since Danvers was set off from Salem, a period of ninety five

5. The proposed alteration would transfer to Salem ticle of their constitution no portion of their territory can the largest and most important Burial Ground of the town:

be alienated. They have sworn to support it; and, if where a large part of the Inhabitants of the South Village not as strong and bold, they are at least as obstinate and determined as we are.

Ye will be a large that the support it is and, if are buried; and would make it necessary for them to seek some new place of deposite for their remains, or leave them to the rude assults of strangers.

prayer of said Petition, and hereby instruct our Representatives to oppose the same.

JOSEPH SHED, Town Clerk.

THE ANDRE PAPERS .- Mrs Sarah Underwood, New York, is now in Washington, having in possession, and intending to make a public exhibition of them, the original papers found upon the person of Major Adre, when arrested as a spy during the revolution.

CONTRACT TO CLOSE THE WAR .- A petition has seen presented to the New York Assembly, from Col. A. Jones, of Rochester, to let out the Mexican war by contract, the petitioner agreeing to give bonds to close

FOR THE COURIER.

History of Astronomy.

While the last rays of this splendid orb were lingering in beauty upon the temple of Science, and the western borizon was in a blaze with his descending glory, on the opposite heavens arose another luminary, and for his son, who has recently been attempting the elucidation of hour became lord of the escendant.

Newton received the torch of truth from Galileo, and transmitted it to his successors, with its light enlarged in virtue and moderation more than in arms. "Peace" and purified. Rejecting the mere hypothetical course of bath her victories no less renowned than war," ney, far reasoning so rife among the ancients, and confining himself to pure mathematical demonstrations, he has pene-We shall make further extracts from this Speech in trated further unto the domain of science than any had before dared to venture, or few since have been able to follow. Never perhaps before or since, was there in one mind a union of so many elements of greatness.

> distance from the centre of the orb, around which the \$8855 16 body revolves, increases. Never was the foundation of 5651 97 a science laid by a more distinguished mind, or perfected by a more masterly hand. Each of these philoso-\$17098 29 phers, Kepler and Newton, stand out far in the advance of their age; nor were their labors appreciated or even understood, till much of the darkness of ages had been dispelled by the bright corruscations of their minds. Many names there are emblazoned high upon the page \$14,026 02 of fame, but above them all is inscribed in living characters of light, the name of Sir. Isaac Newton. No mortal was ever more worthy of the high encomium,

'Nec fas propies mortali attingere Divas," for in the language of Pope.

"Nature and all her works lay hid in night. God said, let Newton be,-and all was light."

With Newton, commenced an era in Astronomy, distinquished above all others, not merely for the production of the greatest men, but also for the establishment of A Suggestion.—We would respectfully suggest to those important auxiliaries to science; the Royal Society the Eastern Railroad managers, that it would prevent of London, the Academy of Sciences at Paris, and the much inconvenience if they would have some sign on the Royal Observatory of Greenwich. From these vast cars which run to Marblehead and Danvers, by which sources of knowledge have flown unnumbered rills, to they may be distinguished. We have heard of several irrigate every field of the civilized world. The names of mistakes made by individuals who found, when the En- Hamstead, Hadly, Bradly, Hooke, Wren, Maskelegne, gine was in motion, that they were in the wrong train ! Pond, Airy, and a host of others, are written on Fame's It is common at other Railroads to have the name of the choicest leaf; and by their devotion to science, they train in a conspicuous place, of the cars, for the guidance have won for their native Isle, a coronet of unfading glo-

The telescope of Herschel has brought from the profun-We regret to learn that the comments we made in our dities of space, wonders, which for six thousand years editorial column of last week, upon the letter relating to had slept in the secret chambers of oblivion. To his Mr. Hudson's lecture, should have given porsonal offence far-reaching ken, stood forth the far-off neighbor of our to any one. We did not so intend them. We felt a social train, surrounded by his six bright guards. He little annoyed at being charged with inconsistency, and laid his impost upon the stars and they paid tribute to perhaps expressed ourselves with less caution, than upon his superior powers Though nominally confined to second thought would have been advisable. But we as- Earth, his home was amid the stars, and he has inscribsure the writer of the communication upon which we ed his name upon that orb which then bounded* the commented, that we did not intend to say any thing that limits of our Solar System,—and angels as they pass and should be just cause of offence to him, or to accuse him repass upon their errands of love and mercy to this lower world, stop wondering to see the name of mortal there!

One more important discovery, and the members of We have received a communication concerning the our little family stood forth, an unbroken band. Astronperfectly assured were they of the soundness of their theory, that by agreement the heavens were divided into parts, and a part and gued to each of the greatest Astronomers of Europe;—and the result furnishes another proof crowned with entire success. But instead of one planet, nearly at the same distance from the sun, and with or- Act iv. Scene vi. bits so nearly on a plan with each other, as to give rise o the conjecture—and by no means an improbable one t_that primarily they were one body rent in pieces by

Thus we have briefly sketched the progress of Astron_ omy. From the disc ence, has arisen by the persevering labors of the human mind, a system as beautiful as it is sublime. The sun, the great source of light and heat, forms, the centre and the soul;-throwing the broad arms of his attractive influence around his harmonious family, he sustains them each and all. All is harmony -all is peace. And tho' the visits of those hoary strangers, who after the long lapse of a thousand years, return to bathe in the bright rays of their central sun, may sometimes alarm the groundless fears of the ignorant, the man of science, sees in the system of the Universe every thing to excite his love and admiration. He discovers everywhere the wisdom and power of God! He marks the traces of his finger in the heauties of the night, and the glories of the day! Each star thus hung out in night's sparkling diadem, is a token of his glory—the exponent of his pow

And when we reflect that these lucid points, whose bright scintillations cheer the winter's eve., are probably suns to other systems as extensive as our own, and consider that by the aid of the most perfect glasses more than a hundred million of these central suns may be discovered; and that all this vast assemblage of worlds upon worlds, when compared with what lie beyond the utmost boundaries of human vision, may be but as a drop of the ocean; what overwhelming thoughts of the power of that Being who "spake and it was done, who commanded and it stood fast," force themselves upon the mind. The infinite flat went forth, and from the regions of chaos sprung forth into beauty and harmony, the infinile of Creation. Let us pause in awful silence before the grandeur of this stupendous work, and reverently worhip the Lord, Jehovah! Let us shrink into nothingness while contemplating the emblems of his power! Let holy aspirations go up from the altar of every heart, that he who formed and fashioned the Universe, who upholds the mysterious works of his hands by the "word of his nower," has prepared for us, his erring children, mansions of eternal felicity in the immediate glory of his

*Herschal, or Uranus, which for so many years has taken precedence on the "outer verge" of our system, has recently given place to the newly discovered planet of Leverrier,—the young French Astronomer This new planet, the place, size and distance of which were so accurately calculated before its existence was ascertained, is about 3,300,000.000 miles from the Sun, and about 220 times as large as our Earth.

FIRE!-A fire broke out in the bake house of Mr. William Hadley, in Commercial street, on Wednesday afternoon; and, owing to a difficulty in procuring water, was nearly destroyed. The building was ensured, we dollars .- Lynn News.

RADICALISM OF SHAKSPEARE.

Mr. Editor:-Will you allow an admirer of the undying Bard of Avon to cite, through the medium of one of your columns, a few of the many "radical" passages with which his wonderful productions teem? Mr. Hud-Shakspeare for the edification of us plebeions who "don't know nothin' and always did," repeatedly wandered out of the path indicated by the subject of his lectures, and indulged in criminating and vitoperative remarks upon individuals of the present age, who, whether right or wrong in the opinions they entertain, are prohably as honest and well-meaning as he claims to be;-and who are therefore entitled to decent and courteous treatment, per-son-nal-ly, from-those-who-exercise-an-undoubtedright to-criticise-their o-pin-ions. Mr. Hadson reminds me of Cotton Mather, especially in the multiplicity of

Of Mr. H.'s abilities, I entertain no mean opinion, al-Of Mr. H.'s abilities, I entertain no mean opinion, al-though his taste appears to me somewhat vitiated. If knowledge of the intended location of s he would cease catering to the appetite of the vulgar by offers one of the most fensible routes, a the contortions of his face, his catamount grins and hyæna laughs, and if he would only bear in mind that others, furnishing necessary Railroad faculties, as well as his honored self, are conscientious in their tern Railroad does not and cannot suppl views and predilections, he would give us something unfortunate location and terminus. really fine, unmarred by the features of a mountebank or the scowl of a cynic. I fear, (pardon, if I am wrong) that he stoops to the pranks of a baboon, to win notoriety. If he comes this way again, I, for one, hope he will give us more man and less monken.

My object, however, was not to write an extended communication; but to call the attention of the reader to proposed road, and that we do but expres ome of Skakspeare's radical and anti-aristocratic notions. If Mr. Hudson is ultra-conservative. Shakspeare was not! Witness the following extracts.

How finely he "hits off" the self-importance and inflated pomposity of a country justice,-showing that he had but little reverence for such consequential characters: tion the to proposed road, as the petitione

"Enter Justice Stallow. Sir Hugh, persuade me not; ty of the citizens of the Town and the p I will make a star-chamber matter of it. If he were twenty Sir John Falstaffs, he shall not abuse Robert

Stender. In the county of Gloster, justice of peace ad ceram.

[Merry Wives of Windsor, Act I.

How he makes us merry elsewhere with the vaporing and strutting of this same justice; and how supremely ridiculous does he make one of the distinguished person ages of the Court appear,-Sir John Falstaff, Knight! Like modern reformers, Shakspeare thought more of phi-lan-thro-py than what is so often styled jus-tice. -

He thought more of benevolence than of rites and cere "No ceremony that to great ones 'longs, Not the king's crown, nor the deputed sword, The marshall's truncheon, nor the judge's robe, Become them with one half so good a grace.

As mercy does." [Measure for Measure, Act II.

"Man, proud man! Drest in a little brief authority; Most ignorant of what he's most assur'd, His glassy essence,—like an angry ape, Plays such fantastic tricks before high heaven, As make the angels weep: who, with our spleens, Would all themselves laugh mortal." [Ibid.

"Great men may jest with saints: 'tis wit in them, But, in the less, foul profauation. That in the captain's but a choleric word, Which in the soldier is flat blasphemy."

"See how yon' justice rails upon yon' simple thief.

"A dog's obeyed in office." [Ibid. What a come-outer idea!

"Through tatter'd clothes small vices do appear; Robes, and furred gowns, hide all. Plate sin with gold, And the strong lance of justice hurtless breaks; Arm it in rags, a pigmy's straw doth pierce i

Get thee glass eyes; And like a scurvy politician, seem
To see the things thou dost not." [Ibid.

What an exalted opinion Shakspeare had of legal jusice and politics!

In one of his lectures, it will be remembered, Mr. Hudson clamed for Shakspeare the character of a prophet. Did the Bard, in the following passage, utter a price. prophecy concerning Mr. Hudson?

"This is some fellow, Who having been praised for bluntness, doth affect A saucy roughness, and constrains the garb, Qui e from his nature: He cannot flatter, he!-An honest mind and plain,—he must speak truth: An' they will take it so; if not he's plain. These kind of knaves I know, which in this plainness Harbor more craft, and more corrupter ends, Than twenty silly ducking observants,
That stretch their duties nicely." [Ibid. Blind Hole, Feb. 20. VERITAS.

Per order of the Trustees, W. L. WESTON, Cashier. North Danvers, Feb. 24, 1847.

THE CURRIER & TROTT RODBERY. We learn from the Boston Courier that two men by the names of Gore and Marks were brought to that city on Saturday forenoon from New York, where they were arrested or suspicion of having been concerned in the late robbery fThey were taking before the police court, and committe understand, at the Lynn Mutual office, for four hundred or want of bail in the sum of 15,000 each, for their apperance on Thursday next for examination.

GREAT RAILROAD MEETING

At a large and enthusiastic meeting of Lynn, held et Tewn Hall, en Saturday the following Resolutions were passed 6 in favor of them and eight against then were stockholders, the other two employ stockholders of the Eastern Railroad:-

FOR TH

Whereas a Railroad from Danvers to with the Boston and Maine Railroad. and permanent benefit to the Town of I as a petition is now pending in the Le charter of such a road, upon which the Legislature is a subject of general and to the Town of Lynn, therefore,

Resolved. That we the citizens of meeting assembled, being called accord act upon said subject, do most heartily his puns, humorous conceits, and digressive personalities, proposed road prayed for by Benjumin some of which are so clumsily "lugged in," and which thers, as highly essential to the public co disfigure the otherwise symmetrical and often truly ele- of the utmost importance to our welfare

> at comparatively small expense, and wi than sufficient business for its support, at

Resolved, That our fishermen and mar be greatly benefited by the proposed road prosperity in their branches of business moted through our community. Resolved, That the Ferry at East Bost

ess to and from said Ferry, are in thems of sufficient importance to justify our pronumerous portion of our female popula long felt the inconvenience of the crowd on passing to and from the boat and the d culty of the street to the depot.

Resolved, That the Stockholders of the sex Railroad Company can have no just of and that the opposition of these Railroad unjust and oppressive, inasmuch as it bri and influence of large and rich corporation with an industrious people.

Resolved, That we protest against the presented under the Essex Railroad (mo Eastern Railroad.) 'against all petitions from Salem or Danvers to the Boston ar ces from the same source untenantable ar the monopolizing spirit for the state of Ma er to approve of, and which its citizens s as an insult from any corporation, taking rights belonging to all freemen.

Resolved, That the Selectmen be a con tend the hearing on said petition, before t committee, to present to them this vote of and to urge in all proper ways the granting tion, and that our Representatives be required their utmost efforts in aid of the same.

FIFTEEN DAYS LATER FROM

Fall in the Price of Grain. The Royal Mail Sseamer Cambia, Ca was telegcaphed on Saturday afternoou, al and arrived at her wharf at about 4 o' made the passage in sixteen days.

Correspondence of the Salem Reg The Report of the Pauper Commissioner buted, is an elaborate document of 190 much interesting detail, and exhibiting quit struction of the Pauper laws all over the S

necessity of some more strict and definite tion. Of the town accounts examined by t tion. Of the town accounts examined by isoners, they report that 122 towns have \$5, 381 97, including the following from E Andover, \$93 07; Danvers, \$80 92; Es Georgetown, \$52 09; Gloucester, \$40 181 44; Lynn, \$25 55; Manchester, \$70 6\$40 87; Newbury, \$80 30; Rockport, \$2 bury, \$35 95; Topsfield, \$36 89; total inty, \$863 52. Of other towns in our Congrict, Chelsea, \$35 39; Malden, \$1 12. The grounds upon which the Commissionerser reject these claims, is that the parties and received an actual and entire support not received an 'actual and entire support'

The Report of the Commissioners up ing a State Manual Labor Institution for t Juvenile offenders, has also been distributed Juvenile offenders, has also been distributed an interesting document. An extensive co was opened with magistrates, &c., who all advantages of such an institution. Amon, lettess from Hon. Joseph E. Sprague, of John W. Proctor, Esq., of Danvers. The tract from the letter of Prof. Greenleaf, of decorate grapid, attention. deserves special attention:-

"For instruction, I would have the Bible sable daily reading book, to be read with the seriousness which is due to it as God's own will It is my firm belief, the result of mo years' observation, that to the daily and rethe Bible in our common schools, as the in lation of the will of God, we are more inde that is valuable in New England characte opinion that the rest of the instruction show fined to what is practically useful in comm as reading, writing, common arithmetic, common field surveying, &c."

It is proposed to limit the establishment boys, restricting their ages at the discretion and to provide accommodations for a maxim A lithograph plan of the farm purchased b missioness for \$9,000, is appended to the R located in Westboro', on the borders of a first the state of the

ontains 180 acres. Petitions have been presented, in the Sen

Lawrence, by Mr. Perkins.

In the Hause, petitions of John Marland and others, Lawrence, by Mr. Perkins.

In the Hintse, petitions of John Marland and others, In Albany, N. Y., Mr. Edward Chase, of Salem, Mass. for a Railroad from Ballard Vale to the Lowell Railroad to Whitney, of Westminstee, Mass. at Tewksbury, by Mr. Lord, of Salem; Sarah A. French, for divorce on account of insanity of her husband, by Mr. Lunt, of Newburyport; S. C. Phillips, for leave to extend his wharf in Salem, by Mr. Thorndike, of Beverly; John Proctor and 140 others, of Glouces-French, for divorce on account of insanity of her husband, by Mr. Lunt, of Newburyport; S. C. Phillips, for leave to extend his wharf in Salem, by Mr. Thorodike, of Beverly; John Proctor and 140 others. of Gloucuster, for repeal of State Pauper law, increase of capitation tax, and requiring all importers of foreigners to be responsible for their maintenance, by Mr. Lunt, of Newburyport; David S. Faulkner and 57 others, and Nathan W Holden and 57 others, severally of Malden, in aid of Danvers and Malden Railroad, by Mr. Upton, of Danvers; Caleb Wiley and 170 others, of Lynn, in aid of the same, by Mr. Caldwell; E. B. Phillips and 19 others, of Lynn, in aid of Marhlehead and Lynn Railroad by Mr. Washburn; Henry T. Ropes and 265 others, of Danvers, agoinst all the proposed Railroads from Salem ers, of Lynh, in aid of Marblehead and Lynn Railroad by Mr. Washburn; Henry T. Ropes and 265 others, of Danvers, agoinst all the proposed Railroads from Salem and Danvers towards the Boston and Maine Railroads, by Mr. Fowler; E-sex Railroad Company, also against the same proposed roads; and Erostus Adams and 350 others, of Salem, in aid of Salem and Lowell Railroad severally by Mr. A. Perkins. The Buston and Lowell Railroad also remonstrate against the Salem and Lowell

The special joint Railroad Committee, whose proceedings are looked at with some interest in your vicini-ty, have reported a bill in the Senate, allowing the Old Colony Rulroad to extend further into the city; while the House, upon motion of Mr. Lord of Salem, have adopted a provision restricting the Roston and Lowel Railroad against using steam as a motive power within the latter city—in the debate apon which, from intimations from Mr. Kellegg of Pittsfield, and others, we infer that any further cutrance to the city of Boston will be resisted entirely, or restricted in the use of motive power, as above.

In the House, a bill was reported authorising the Eastern and Boston and Maine Railroad Companies to hire the Portland, Saco and Portsmouth Railroad.

Petitions were received from Sannacl Smith and others for incorporation as the Berkshire Glass Company, by Mr. Perkins of Salem—John Clark and 76 others of Glourester, for repeal of the Pedlar law, and William Friend and 59 others of Beverly (North Parish) in aid of Danvers and Malden Railroad, severally by Mr. Baker af Beverly. The bill to incorporate the Cochiuate House Co. in Boston was indefinitely postponed by a decisive vote—and the Bill empowering the Supreme Court to restraine the ubuse of corporate powers by towns and cities, passed its debateable stage without opposition except from Mr. Hood of Lynn.

The Juliciary Committee are most laboriously employed. On Tuesday they had a fin I hearing upon the Hawkers' and Pedars' law. Hon. John C. P rk appeared in fivor of a rod fination of the law. Several gentlemen, personally interested, appeared for its repeal, and Samuel Wales, ir., the father of the law, appeared against the repeal, although he supposed it admitted of some modification. The result of the committee's deliberations will be appeared to the committee's deliberations will be appeared to the committee's deliberations will be appeared to the committee of the committe lbierations will prohably be some material modifications. but not the absolute repeal.

A bill is reported to rape il the South Reading Minis-A bill is reported to repet the Sout I Knaking Ministerial Fund; and is opportine y proposed to amend the Constitution so that our State Election may take place upon the same day of the Presidential Election, viz: the first Tuesday in November.

Mr. Perkins has presented, in the Senate, the petition of Benjamin P. Chamberlain and others, for incorporations to brill a Will Dura t North Eviden.

tion to build a Mill Dum at North Bridge.

Petitions have also been presented of Wm. N. Cleveland and others of Topsfield, and John C. Lunt and 981 others of Boston, i. f il Dunvers and M Llen Railroad. Eleazer We k, and others of L no, and the Eastern Railrord Co., severally against the same — James Foster and others of Beverly, in aid of the Salem and Lowell Railroad. Mayor of Salem for repeal of laws regulating the fisheries in Salem. The toyn of Danvers remonstrate against annexing C. A. Dearborn and others to Sa-

lem.
The petitioners for a Railroad from Marblebend to Lyne have withdrawn their last year's application to cross the Eastern Railrond to the proposed Malden Rail-road, and now ask to unite with the Eastern Railroad in

Lynn, near the "Astor House" depot.

The hearing upon the Salem and Lowell Petition Railroad commenced on yesterday.

LATEST ARMY NEWS.

By the Telegraphic Despatch of the Boston Post, we

Tampico dates of Feb. 6th have been received. The Louisiana volunteers, was wiecked about thirty miles sinth of Tampico. The solders and crew were all saved but destitute of clothing. The wreck was seized by eight

Gen. Scott was still at Brazos Santiago. The health of the troops at Tampico was good, with the exception of a Col. Price had a severe battle at Chihushua with a large graving of Addisou—just received hy W. & S. B. IVES, Salem. ROBROYS but the Americans finally triumphed over double force, and took possession of the town.

The ship Kotharine from New York with troops had arrived at Tampico.

Gen. Patterson had received despatches from Com-Conner, which were supposed to relate to a proposition for peace between Mexico and this country.

Lepers of Rhodes .- Mr. Daniell, an English gentleman, relates, that in a voyage from the main land to Rhodes, a little barque, containing lepers, was cast on shore-which gave him an opportunity for examining the character of that extraordinary disease, leprosy. There were seven persons in every stage of it. Three were far gone, a man and two women. The men were blind and speechless, and all three had lost the use of their extremities, which appeared to have been eaten awny .--To others had not lost the use of their hands, but their toes were gone, which almost prevented them from walking. A fine young man, and a well grown and rather handsome girl, at a distance appeared unharmed, yet on a nearer approach the bandages on one foot of the female and over one eye of the youth, demonstrated the fact that the plague spot was upon them. There appears to be no disease analogous to this ancient malady-for which there seems no remedy within the resources or

ACCIDENT ON NORWICH AND WORCESTER RAILROAD .- Early on Wednesday afternoon, as the freight train was passing through the town of Greenville, Ct, the snow plough was thrown off and the locomotive eame in collision. Mr John Driscoll, a workman on the road was at once killed. Another man was dangerously injured.

In the Virginia House of Delegates, on Saturday last, a bill was passed divorcing Wm. R. Myers. Before the vote Mr Hunter moved its indefinite postponement; four members had rectitude enough to vote for this motion. But seventy-three voted against it.

JAMES FREDERICK FOSTER

Continues to manufacture all the various approved TRUSSES, lat his Old Stand, No. 305 (opposite No. 264) Washington street, entrance in Temple Avenue, Boston where he has been for the last ten years—and his residence and business being both in the same building, he can be seen at home nearly the whole of the time, day or evening. He has more room and better conveniences for

ses, for Prolapsus Ani—Suspensory Bags, Knee Caps, Back Boards, Steel Shoes, for deformed feet. Trusses repaired at one hours notice, and made to answer oftentimes as well subject to the steel of the steel shoes. at one noors nonce, and made to answer oftentimes as well as new. The subscriber having worn a Truss himseif 25 years, and fitted so many for the last 10 years, feels confident in being able to suit all cases that may come to him Convex Spiral Trusses, Dr. Chase's Trusses, formerly yeld by De Leach Trusses of missing metal-shot will

convex spiral trusses, Dr. Chase's Frusses, tornierly sold by Dr. Leech; Trusses of galvanized metal-that wil not rust, having wooden and copper pads, Read's Spira Truss; Rundell's du; Salmon's Bail and Socket; Sher man's patent French do; Batenian's do, double and single Starte Brusses, also Chase of publisher of full sizes

Low with one that is hard of hearing.

All ladies in want of Abdominal Supporters or Trusses, waited on by his wife, Mrs. CAROLINY D. FOSTER, who has had ten years experience in the business.

CERTIFICATES.

From Dr. John C. Warren, of Boston,
Having had occasion to observe, that some persons afficted with Hernia, having suffered much from the want of skilfal workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

From Dr. Greene, Boston.

Sir: Please send us one gross of Lotrante's Interval and last. They have given very soud satisfaction, better than any other pills which is short time, they will be what last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time, they have been our market. I think in a short time, they which he will be constantly supplied with the best Net what are place of others. We have had no fault found with them whatever; but, on the contra quart, or will serve them up in the usual methods.

Respectfully yours,

E. MASON.

Chelsea. Jan-3d, 1841

Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been young with the Plannetism nearly the whole wing.

Shirts and Drawers.

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequent

quence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are H. B. C. GR*EENE*, M. D.

well fitted.

From Dr. Robbins, Roxbary:

Since the death of Mr. John Bea-th: I have used in preference to all other Trusses those made by Mr. J. F. Foster, of Boston.

P. G. ROBBINS, M. D. Boston, April 27th, 1346.

The undersigned is familiar with the ability of Mr. J. F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favora bly compare with that of other artists. bly compare with that of other artists.

J. V. C. SMITH,

Editor of the Boston Medical and Surgical Journal.

MECHANICAL AND DENTAL SURGERY.

Teeth at Cost, until Mch. 1, 1847! Office, No. 266, opposite to No. 307, Washington Street, corner of Avon Place, Boston.

OR the purpose of introducing more extensively Ascere pain, in both sides cured!!

Lowell, Mass., plate, the merits of which, it is confidently believed will be found to greatly exceed the usual method of preparing them, the subscriber has been induced to offer such term, for a limited time, as will not only give to the public generally an opportunity of testing the practical value of his theory, but will offer a rare convertunity for the proportunity opportunity for the poorer classes, whose means are too limited to pay the usual price demanded. The new principle is not only applicable to small cases o two or more teeth, but is peculiarly and especially adapted to whole and half sets, where the alveolar or dental ridge has become uneven and irregular, by the absorbing of some parts more than others. In all such cases, it will be readily seen by an examination of the jaw, that carved work in blocks, prepared expressly for each case, is necessary, for restoring that which has been removed by absorption, and for bring-ing out the cheeks and lips to their natural and unithey are becoming very popular. I sell more and mare every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fast have noticed, that no one that has used them possible to accomplish it so perfectly by any other means. It is the want of: this ingeniously wrought block-work, to remedy the defects above referred to that so many are unsuccessful in giving satisfaction in their plate-work.—especially in whole and half sets, Another advantage of carved work,—and one of gree importance too, is its cleanlines. Unless the teeth importance too, is its cleanliness. Unless the teeth time. are moulded to fit the plate in the most perfect man-ner, the finer particles of masticated food, with the liquors of the mouth, will, as a matter of course, pass between the teeth and the plate; and after being retained there a few days, it being impossible to remove them, will invariably become offensive and tains the breath. Another advantage of paramount importance which the carved work has over that of single teeth is, its perfect articulation. Each tooth should meet its opposite in the most exact manner in masticating food; otherwise, the whole work will prove a source of continual annoyance, by its instahility, falling down, and other inconveniences, only known to those who have worn them. There are other advantages in this style of work, that can only be understood and appreciated, by an examination of specimens that may be seen at the subscriber's office which the public are respectfully invited to examine for themselves. They consist of whole and half sets; and a variety of cases of smaller magnitude, we ere great difficulty in execution is overcome. They cannot fail to excite admiration from all who are pleased with close imitations of nature, and would inspire a confidence in their merits, that the wearing of them

would only tend to strengthen.

TERMS.

Up to January 1, 1847, the following terms will be strictly observed for all cases of plate work from a single tooth to a wholeset, viz. When a fit and finish of the work are produced, to the satisfaction of the person for whom they were made, the charge of the person for whom they were made, the charge will be simply the cost of the materials used in their laken the lower part of the shop recently occupied by Mr Jonathan Ward,

No. 24 St. Peter Street. price usually paid; and after wearing them six months if perfect satisfaction is not then given, the teeth may be returned, and the amount paid for them will be refunded. Old plate work that has been wnrn with much inconvenience, will be exchanged for ew, on paying a small difference. All other branches o Dentistry, such as Filling, Setting on Pivot, Cleansing Polishing, Regulating, Killing Nerves, Extracting, &c., will be attended to in the most thorough, faithful and scientific manner, and on the following terms, viz. For filling common sized cavities with gold, \$1; For For filling common sized cavities with gold, \$1; For other kinds of Filling, from 50 cents to \$1; For setting on gold pivot, \$2; For Cleansing, \$2; Extracting 25 cents. Examinations and advice gratis. All oper ations warranted.

Carved work in block for whole and half sets will be got up for other dentists on reasonable terms.

From the Odd Fellow.

Story's Poems.

THE Harbinger, a weekly newspaper published by the Brauk Farm Phalaux, is giving to its readers some of the ablest and most discriminating criticisms on Literature and the Fine Arts, that ever emanated from American pens. The number before the last has a review of the poems of R. W. Emcrson, W. H. Channing, and W. W Stery-lately issued from the Boston press-which we have read with much interest. The notice closes with the following gents-strung together from the productions of the latter noet-which cannot fail to charm all lovers of the beautiful. 'In point of rhythm,' says the critic, Story is far superior to either of the others. His is the true soul of rhythm; every thing is steeped in the free and never faltering inclody of feeling. Open the volume any where and read two lines; like a leaf dropped on a river, you sail down the page by an unconscious attraction, caught and possessed by something that commands you like good music, whether there be thoughts which you carry away or not So, too in respect to every thing pertaining to artistic mould and finish. You feel that ingredients have been perfectly fused, and rendered plastic to an overraling and habitual sense of heauty.-This is the charm of Goethe. Here is a middle region hetween speech and music, which poetry, the poetry of feeling rather than of thought, -most fully occupies. What could be more perfect than this?

Hours long have I sat silently, And watched the twilight fade,-While one by one the clouds grew gray In slowly deepening shade,

Until the moon, uprisen high, Falls over earth and sca,-And still I dream as I have dreamed. Of thee, and only thee.

Thy childhood-like the rosy cloud That floated sweet afur; Thy maidenhood-the silver pride

Thy womanhood-whose perfect love Shines gladly o'er my life, And, like the moon, makes beautiful Earth's harshness and earth's strife.

And are not these two little songs true pearl secre

NO MORE!

Flow on, sad stream, unto the sca! Thou flowest on as ever, But the heart most dear no more is hear, Forever and forever.

No more! I hear it in the pines, Through which the night winds roar, Those stars shall shine in eyes of thinc, No more, O, never more!

Sigh on! sad autumn wind, sigh on! She lies in the grass beneath,-I make my mean by her grave alone. For the violets have her breath.

O, lonely night! O, wandering moon! Hast thou no word for me? O, love and sorrow! O, day and morrow! Must ye forever be?

SONG.

O! heavy, heavy day! When wilt thou wear away, And bring her sweet returning ? O, weary, weary night ! When wilt thou take thy flight, And bring another morning !

O, stars that gem the skies! Ye shine not like her eyes, Where love is ever beaming! Pass on, O hateful day-Yet gentle night, O stay ! For she is mine while dreaming,

In dreams, she comes to me-In dreams, her eyes I sec-And bliss divine comes o'er me,-Then let my spirit creep To thy pavilion, sleep ! While Love flies on before me.

Miscellann.

FOR THE COURIERS

The Opening of the Granary. A TALE OF THE FIFTEENTH CENTURY. CONTINUED.

CHAPTER III.

Our merchant's abode was not in the most populor

portion of York, being situated at the bottom of a dark

and somewhat narrow lane that ran in a straight direc-

tion from the main street of the town towards the

intrinsic value, to have looked thus upon such a vast

quantity of the natural wealth of mother earth heaped

together: it would have led the soul into contemplation of

the goodness of that Providence which has thus kindly

provided the means of sustenance for the human race, to

have exalted it in admiration, and thence to adoration of

the great Source of all good. Not so with Roger Greene

he viewed the golden store before him with satisfation

indeed, but with no such elevated thoughts, as we have

imagined above; he saw in it, only the visible represen-

tation of so much shining coin, into which he foully

hoped, soon to hehold it converted. Long the merchant

feasted his eyes upon the well filled sacks piled up like

breastworks, to the roof, forming a solid wall around the

apartment; at last setting down his light, he proceeded

to ascertain, by untying, and examining as many of the

respect from the confined atmosphere in which they were

placed:-but no, the glittering grain, as it flowed through

hisfingers falling with a rattling patter back into the sack,

exhibited no appearance, whatever of disease or blcm-

ish, and the mcrchant, after having spent a considerable

time in this satisfactory inspection (a duty which he had

fer some days omitted,) took up his lantern, and with a

complacent grin of gratified avarice on his countenance

left the chamber and entered a small room adjoining .-

This apartment which was Roger's counting room, con-

tained a desk, with a high stool close by; also, one or

two other scats, tngether with a pair of scales of rude

construction in one corner. The grain dealer seated himself

at his desk and having opened it and drawn out a pon-

derons ledger, soon became, or appeared to become,

deeply immersed in its interesting contents. But he was

roused at length from his study or meditation be it which

it might, by sounds from without of an unusual nature.

which broke gradually on his ear. Keenly alive to any

state of frenzied excitement, that the old house keeper suburbs, where it joined an open road leading out into alarmed at his appearance, and conjecturing that he was the country. In the rear of his house, and at a distance pursued by robbers, was, for a time, so be wildered that of some rods was his granary, or store house, in which he was totally unable to answer, or even to comprehend was deposited, unknown to any, the immense quantity his frantic questions. of wheat, barley, &c., which he had been accumulat-"Where is Margaret, I ask again, idigt!" said Roger ing for some years. I said unknown to any, for Roger, iolently shaking the old woman; who, at last re-called having anticipated from several indications the coming omewhat to her senses, fanud voice enough to utter, or scarcity for a long period, and having collected from rather yell out, "she went forth at eventide master, to time to time this great store accordingly, had also forecarry some medicaments to neighbor Dawson's sick child, seen the state of lawless depredation, that would arise and has not yet returned; but the holy saints shield us, occasioned by the miseries of the people, and had theremaster, you are distraught! some demom bath possessed fore conceived the design, and the absolute necessity inyou. Friar John must be sent for,"-Roger waited not deed, for a secret depository, concealed from the knowto hear more, but grasning a venerable oaken cudgel ledge of his townsmen, and their consequent siezure, unwhich stood in one corner, sped from the house up a dark til it rose to such a price as would satisfy his gross cuand narrow street towards the spot whence the cries of pidity. This little scheme of the cunning merchant was Margaret (for it was indeed her,) had proceeded. a shrewd one, and reflected honor on his sagneity, if When the merchant reached the place, however, all not on his heart, but, unluckily for him, his secret was was still; he saw no one; he stood irresolute for a monot inviolate, with himself, having been recently revealment, not knowing which way to turn; then as a thought

ed to two persons, one of whom was unscrupulous estruck him, he dashed aside into a cross, lane that ran nough to turn this knowledge to his own advantage if he rom the other down into the purlicus of the city, and saw proper, but I must not auticipate. In order, furthust as be entered it, caught sight, as he thought of a er to keep his hoard hidden from the citizens, Roger had white garment, blending with other confused figures in an ostensible shop situated on the main street, where he the remote distance. Stimulated by this discovery had been accustomed to do his business, and which was Ruger pressed on with renewed speed clearling with well known to the natives of York, and where the nafirmer grip his trusty staff, and soon the space between ture of his truffic was easily divined by strangers who him and the flying party was so much diminished that came to the city to purchase, from the emblems over his he plainly perceived his niece in the arms of a half mildoor consisting of a group of wheat sheaves, with the itary figure whom he could not fail to recognise as Henmythological figure of Ceres in the back ground, holding ry Clifford, the ex-captain of the Lancastrians, while an sickle in her hand, -lette red signs being then unknown nother man, armed like binself with a righ was followto the world with many other useful teventions. The heels. Clifford sceing the impossibility of shades of night had began to gather around York, and further eluding the grain merchant, passed as the latter already the lights commenced twinkling from the diacame up and drawing his sword, cried out to his followmoud paned lattices and casements of the low browed er, "take the lady, Mathew, and carry her to the place houses and shops, when Roger Greene having received thou wottest of; I will shortly be there," then rushed from the shaking hands of the aged and deposed houseupon Roger with the intention of terminating the affair keeper, whom he yet retained, his old horn lantern, which at once. Nothing daunted, the latter, not waiting his she had lighted, issued forth from his mansion and took onset, so eager was he to beat down his antagonist and his way with cautious haste, not to his public store, but haste to the rescue of his niece, uplifted his club and the secret granary before mentioned. When he reached struck at his enemy with all the force that wrath and the door, he paused and cast a suspicious glance around. vengeance could inspire: but alas, Clifford, a ready fenup and down the street, and across the way, but observcer caught the blow upon his blade, and the baffled mering no one he noiselessly inserted the key in the lock chant, stumbling as he struck in his blind impetuosity, which being well oiled within performed its functions fell headlong. A few seconds more, would have ended ensily, and entered; then shutting the door softly, he Roger's days, for the foot of Clifford was already on his withdrew the shade of his lantern, and ascending a breast, and his sword uprising in the air, to descend with creaking and rickety staircase, passed through a narrow savage, malignant joy into his bosom, when unexpected succour arrived and changed the aspect of affairs. ber which contained that treasure on which his eyes gazassistance appeared in the shape of a third oaken emigel ed with rapturous and greedy delight. It was indeed a noble sight, and to a rightly constituted and philanthropic with a skilful arm and a vigorous body behind it, and afmind would have afforded much pleasure aside from its ter performing a scientific flourish in the air by way of invocation came down with such nuction that Clifford's

> ped in twain and himself stretched senseless on the ground. "Art linet, master Greene,?' enquired the young coppersmith, as he lifted the old man to his fect, for he had peen partially stunned by the fall."

> weapon, quickly interposed to ward off the blow, was snap-

"No, no, Heaven be praised, and you too, young man for your opportune help, but my niece, where has the other villain fled with hera;

"Margaret carried off, saidst thou?" cried the agitated

"Yes, yes, the rascal who lies there, with a confederite, were bearing her off, when I pursued and overtook them,--the rest you know."

"Tell me this instant," cried Richard to the Lancas young lady, and we let you go without further punish- nails driven into the black smoke stained panels that ceilpavement."

do you master Greene walk on the other side of him,

lest the knave should give us the slip.' In this order, and with the discomfited soldier between them, under his forced guidance, they passed were upon the point of reiterating threats of instant death if he betrayed them, when he pointed to a low browed, dingy looking house across the way, and told them that Margaret was there.

Enter quickly then, and bring forth the maiden to us, said Richard, impatiently, to the soldier when they had tokens of popular communion in the streets, for the safe

ty of his hoard kept him continually m a state of nervous reached the door of the mansion. 'And see that thou dost not deal falsely with us, vilapprehension, he hastily started up, and partially unclosed a wooden shutter which he had applied to the lain, cried Roger, or worse hap shall befull thee, than

noise which he now heard more distinctly, scenned to ing a barred lattice heside the entrance, "Ha! art thou is a perilaus one, and doubtful; hast theu weighed well proceed from about midway of the dark lane before men-planning treachery, knave? art preparing a surprisal, to the chances of success for us?",

tioned, and appeared to him like the shulling and drag- | bring an assault upon us ?' cried the coppersmith, but thou knowest the forfeit. 'By the Mass, no, I intend no betrayal,' whose lowering countenance, in which lurked covert hatred and malice belied his words, but if ye list not

to let me give the sign, ye may o'en seek admission as ed him Quickly reclosing the screen, he snatched up his best ye can. Enough' said Richard, 'give thy token, and that right

peedily, and delay us not. The Lancastrian captain, without further parley, apolied his mouth to a small crevice in the iron banded also to shade his light: this done, with augmented speed shutter, and whistled six times, distinctly, of a single note each, -the last three times in rapid succession.-Instantly the tramp of a heavy foot was heard coming towards the window, then the withdrawing of the strong bars within, after which a slide was pushed back, disclosing an aperture of about a foot square, out of which repulsive looking face, partially obscured by a straggling mass of red hair, was cautiously projected. Unbounded was the astonishment of Matthew Staples, the owner of the pleasant face and hair, and very disconcerted he looked, when he beheld his patron and cumleyer before him and in such evidently unwished for companionship. So stupefied and bewildered was he at first, by this unexpected result of their previous advenure that he returned nothing but a dull stony gaze to the command of Roger and the coppersmith, for him to unbar the door and deliver his prisoner into their hands. At length recovering from his surprise, he cast an earnest look at his master, and catching his eye, seemed to ask by the expression of his own, whether he could give him any help. Clifford answered the mute appeal by a significant glance, deprecating any present measure, and repeated the order just given: without a word Matthew left the lattice, and after the lapse of a minute or two, the sturdy bolts of the door were heard to shoot back;it upened, -a cry of jay, and Margaret was in the arms of Richard. We shall not attempt to portray the joy of the maiden on heing safely returned to her friends and they indeed, phused not for mutual congratulation, for od treasure at the very proment which he has tooked fordanger was not over, and their quick return indispensable not daring to leave their prisoner then, lest he hould collect a party of desperadoes and attack them,

> engeunce as he went. 'Re assured, son Richard,' said the old merchant, as will not forget thy services to me and mine this night: will not ask you to enter now, for Margaret needs renose after such cvil hap, and I am also sadly overspent the drap, attended by two father confessors, and about and wearied; may the saints bless thee and have thee in their haly keeping. Margaret said but little to her lover; her heart was too full for words, but the beaming eloquence of her eyes, upon him, in Richard's estimation made ample amends. A few simple and thankful sentences were all she uttered, and her hand-trembled in Richard's tools we shall want, and to fix on the most favorable time as she added a word of cantion to the coppersuith to be for the business, and, hy the way, Matthew, one piece on his gnard against the revenge of Henry Clifford.

they compelled him to return with them, under threats

of instant death if he raised any alumn by the way, to

to the merchant's house, when they released him to go

whither he pleased. The soldier availed himself of this

liberty by slinking off, breathing fervent vows of future

I fear him not,' said the stout hearted youth, 'let him | beware how he crosses my path, or worse chance shall befal him than he has yet experienced,'

After mutual adieus had been exchanged, they sepaa kiss which he had just heard outside the door.

CHAPTER IV.

It was about a week after the occurrences detailed in ty Clifford, with his worthy associate, Mathew tStaples, one from which Margaret had been rescued. Apparently these excellent confederates had just finished their evening meal, for a table stood in the centere of the apartment on which lay the bone relies of a joint of beef trian captain who was slowly recovering from the effects of drinking cups which contained the dregs of a dark ground. 'Lead on then,' said the coppersmith, 'and yeomany, remaining the strument of warfare more commonly wielded by the place, I saw the flickering light of a lantern for an instrument, and on then,' said the coppersmith, 'and yeomany, many, many, ponderous cut which stant, and then near the strument of warfare more commonly wielded by the place, I saw the flickering light of a lantern for an instrument, and the coppersmith, 'and yeomany, many, many, and the place, I saw the flickering light of a lantern for an instrument of warfare more commonly wielded by the place, I saw the flickering light of a lantern for an instrument of warfare more commonly wielded by the place, I saw the flickering light of a lantern for an instrument of warfare more commonly wielded by the place, I saw the flickering light of a lantern for an instrument of warfare more commonly wielded by the place, I saw the flickering light of a lantern for an instrument of warfare more commonly wielded by the place, I saw the flickering light of a lantern for an instrument of warfare more commonly wielded by the place, I saw the flickering light of a lantern for an instrument of warfare more commonly wielded by the place, I saw the flickering light of a lantern for an instrument of warfare more commonly wielded by the place, I saw the flickering light of a lantern for an instrument of warfare more commonly with the place, I saw the flickering light of a lantern for an instrument of warfare more commonly with the place, I saw the flickering light of a lantern for an instrument of warfare more commonly with the common of the place, I saw the flickering light of a lantern for an instrument of warfare more common of the place, I saw the flickering light of a lantern for an instrument of warfare more common of the place, I saw the flickering light of a lantern for an instrument of warfare more common of the place, I saw the flickering light of a lantern for an instrument of warfare more common of the place, I saw the flickering light of a lantern fo was, in all likelihood, the property of honest Matthew aforesaid. The two proprietors of these lodgings, themthe vessel of ale on the table.

a conversation which had scenningly been suspended for 1 time: 'By Saint Martin, Captain, but 'tis a bold enterprize, this of thine, to role old Greene of his sacks of from outward observation, and then, with every faculty I must give a signal to those within, first, or I cannot grain; and if it succeed as I hope it will, and we can sharpened by fear and suspicion, listened intently. The obtain admittance, answered the Lancastrian, approach-safely dispose of them, 'twill enrich us. But the plant

Why, art thou afraid? asked Clifford with a thou who hast been accounted the boldest fellow to this kind of work in York; hast thou lost thy courage, nan, and turned wonk, and driveller?'

By the Mass, no, said the other ruffian, but I go for caution. No harm comes of being prudent; never fear me: I would be as loth as yourself to give up such a profitable scheme. But you catch one up so short, when one would but plan for safety,'-and here the affronted Staples poured out and drank a huge bumper of ale to wash down his irritation, then turning to the fire ecame silent.

'Be not wroth with me, good Mutthew,' said his com anion, 'I meant no offence, and know in sooth that thy ournge is undisputed '

'Call me not good,' answered his ansoftened confede ate, thou canst not mean other than falsehood by applying such misplaced term. Me good, and the knave laughed so heartily at the idea that it restored in some neasure his good humor.

Clifford observed the change in his companion's mood and hastened to improve it, for a quarrel with him at such a time was what he most wished to avoid, though ordinarily reckless.

Well then, crafty Matthew, if that epithet suit thee better' said he 'I do not find fault with thy cautious surmises, but he well assured that I have considered the job in all its bearings, and have no misgiving of good luck. 'Thou art naturally cool and resolute, instead of rash and impetuous like myself, and, furthermore, hast not had the provocation, which I have had, to spur thee on to the execution of this cuterprize, aye, though the hazards were ten to one, and a swing from the cross tree all but certain,' and Clifford here ground his teeth as memory called up vividly the humiliation and shame which he had justly suffered at the hands of old Roger and the copper-

"Twill be a glorious revenge' he resumed as if in so'ilaquy 'thus to despoil the old miser of his long hoardward to for so many years; better by far than if I were to take his life, for he loves his wealth more than life, and in its loss will endure a living death hitter and agomzing: and as for the young upstart Berrey, I have provided for him too, he has supplanted me in regard to Margaret, he has—but, enough, his blood I will have at iny risk in good time. 'By my faith Captain,' said Staples, eveing his superi-

or with a malicious grin, while he smothered a covert chuckle, 'I do not wonder that you fly in a passion when f in conclusion of some previous conversation, that I you think of your last unlucky adventure, may Satar sieze me if I did not think you looked meek enough when I opened the lattice and saw you standing as if on to deliver your last dying speech.

'Forbear,' cried Clifford, fiercely, 'let not thy tongue wag so freely; old scores shall be wined off in blood, rust me, and let that suffice for this matter, it better behooves us to arrange our plans, to provide the neccessary of good news I learnt while I was abroad last night, augers well for our scheme.'

'Ha, what is that,' said thedelighted Staples, 'unfold it.' 'Briefly this,' answered the Lancastrian, 'that the old curmingeon Roger, bath been siezed with a violent illrated, Richard returning on his homeward path, and ness, which took him on the night when I attempted to Margaret entering the house, where she found her uncle carry off his niece. He holds his bed, men say, and the in a deep meditation, whether or not it was the sound of lecch has reported that it was the alarm and excitement of that occasion that brought on the fit,' but whatever the cause, the result is enough for us.'

"This is acceptable tidings, verily," replied Matthey but tell me, when was it, and how, that you made the the last chapter and at night, when the unlucky and guil- discovery of the old miser's hoard; and is there as much wheat in the building as Peter affirms? He swears by were seated in a back room of a house contiguous to the the Rood there are a thousand large sacks, if there is one, but I could not believe him,' the false-key maker is proue to marvellousness in his statements.

Peter has not gone beyond the truth a whit,' answered the Captain, 'there are indeed, as many as he says, which they had been discussing, together with a couple and it may be more:—but you were wishing to know when I found out the old merchant's secret; It was about of the blew, which the coppersmith had dealt him, "tell liquor, doubtless ale, which beyond question, was snp- a month ago, that one night I was returning from a supwere yet free from mould or rot or had suffered in any me this moment where your accomplice has carried the plied from a huge flagon that flanked the meat. Then had enjoyed, had produced in them the accustomed satis- I saw old Roger Greene examining the sacks of grain, as that their captive was about leading them into a trap, and faction which these welcome gifts generally impart. On if to see that they were unburt, and otherwise acting in the contrary, a dark and sullen scowl sat on each face such a manner that I had no doubt, the hoard was his, as they gazed musingly, and in silence on the crackling Between the surprise I felt, (having heard from report fuggots, for a long interval; a silence only broken when that the old man had but little grain for sale) and in coneither arose occasionally to replenish his empty cup from sequence of the roof's being slippery 1 missed my footing and stumbled; I quickly recovered, however, and Matthew was the first to speak, and his sinister visage got down hastily to the street, and just after heard the assumed a hideous smile, as he commenced; resuming door close, and saw ald Reger steal away in the darks ess, probably disturbed by the noise I had made.

'Ry Saint Paul, 'twas a blessed hap he saw you not,' said Staples, his eyes sparkling with a covetous pleasure at the prospects of the anticipated booty.

'It was indeed,' returned his associate, but with regard to this Peter, whom you have engaged to help us; do you know him? and can he be trusted?'

'And wherefore did you call him pious Peter, enquired the Lancastrian of his companion.

Because he would never engage in such business as we contemplate, on Saints' days and other holy occasions. No, no; Peter would say to those who applied to him for keys, or wished his assistance in person, 'provoke not the blessed Saints and holy Apostles; let all things be done decently and in order, or we shall not be lucky.

'A scrupulous varlet, truly,' said Clifford, with a sour smile 'but 'tis ne matter, so he be trusty and faithfu and fails us not at the pinch. But is it not even now nigh the time he promised to be here.'

Not yet,' answered Staples, 'it lacks a round hour when we may expect him. Father Peter said he could not finish all the keys until ten of the clock, but would use all needful dispatch. And now, hast thou thought Roger's grain after we have taken it from under his

nose. Aye, I have arranged all that,' replied his friend thou knowest the cave in Hornsey Wood?' Staples nedded. 'We will convey the sack thither in carts, which shall be in readiness at the castern gate for the

barbose, But the sentiael,' rejoined Mitthew. 'How will we escape his seeing us.'

That difficulty is obviated too,' said Clifford, he

our interest, -I have bribed him to silence. All this is good, so far,' returned Staples, 'and by the Mass cunningly devised, but, lastly, what dost thou propose to do, finally with the booty-how dispose of it,

and avoid detection.' I have negotiated with the commissary of the Duke of Somerset's troops without the city; he is sadly in want of provisions, and will not care whence they come nor how obtained, so he but gets them. The Duke's purveyor hath agreed to give a round price which his master has sanctioned,-and right glad too, to be supplied, for there have been but short commons at the camp of

Staples testified his approbation of his patron's arrangements by amapproving look at that worthy as he lifted the tankard of ale to his lips, and after having drank, was proceeding to launch forth into enconiums on the excellent skill and foresight by him displayed, when his intended eulogium was interrupted by a succession of peculiar and significant taps on the outside of the lattice. Matthew started up hastily exclaiming as he did so. 'By Saint Mary that is Father Peter's signal! He is here right early! but pious Peter was never a laggard, when a good piece of work is to be done, and going to the door, he withdrew the bars, and presently returned, ushering into the presence of the Lancastrian officer, the distinguished individual, who had, during the previous converention received such flattering commendation from him-

The new comer was a short, fat man of an oily aspect, and enveloped in a sort of half monkish robe large and loose, which completely shrouded from observation his bead was a cowt, the covering for that portion of the body which was generally worn by monks and friars in or what right such an one has to expect originality. (1) that period and country. As he advanced to greet the Lancastrian, introduced by Staples, the light fell on his countenance, exhibiting a face of resplendent hue, betokening its owner's fondness for good liquor, defended by an ample nose, of the same color, and the whole set the authors which he mentions, but have never yet heard off, by a pair of small twinkling gray eyes, in which blended an odd mixture of roguery, craft, cunning and humor. Round his middly was a girdle made of cord lication of a few of the pilfered extracts in your next paper, as from your familiarity with the works of the different authors. Courier. **Danvers**

SATURDAY MORNING, MARCH 6, 1847.

ANNUAL TOWN MEETINGS:

The Annual Town Meeting was holden on Monday last at the Village Hall, in North Danvers, where it is understood all the meetings for town business will be held the present year. Moses Black, jr., was chosen Moderator, and Dr. Joseph Shed unanimously re-elected Town Clerk: Most of the officers usually chosen by hand vote were elected and the county Treasurer, Town Collector, and that important and dignified board called the Fish Committee, were ballotted for. A financial Comthere are other anthentic writings relating to his characmittee was also chosen of which Lewis Allen, Esq. is ter, extant, we are ignorant of the fact. chairman, to which was referred several of the most important subjects contained in the Warrant, a report upon which will be presented at the adjournment

In the affernoon the Town Treasurer and the several boards of Selectmen and Assessors, Firewards and Overseers of the Poor were ballotted for, and the following gentlemen were chosen.

Selectmen .- Lewis Allen. Wingate Merrill, Nath'! Pope, Wm. Dodge jr., one vacancy.

Firewards .- Jeremiah L. Kimball, Simeon Putnam. Stephen H. Granville, Stephen F. Reed, Perley Tapley, John Dodge, John V. Stevens, Wm. H. Little, Philip

L. Osborn, Francis Baker, Nath'i P. C. Patterson. Mr.

F. Baker, hus since declined, leaving one vacancy in Overseers of the Poor .- Levi Preston, Wingate Merrill, Sam'l P. Fowler.

Town Treasurer .- R. S. Daniels.

Coellctor of Taxes .- William Walcott.

It will be seen that there is one vacancy in the board of Selectmen and Assessors, which, together with any vacancies that muy happen in other offices, will be filled at the adjournment on the 1st Monday of April. At that meeting the School Committee will be chosen and the Report of the present Committee presented to the citizens. The recommendations of the Finance Committee says in reference to the lecture of that week, "His subon the important subjects committed to them will also be acted upon. The experience of the post year, as presented in the full and lucid Statement of the Auditors

of knowing that the town debt is diminishing instead of diversifies the evening's outertainment, and which are as

It appears from the Report, that the diminution of the increasing. low. debt. the last year, amounts to more than \$3000. This is truly a gratifying result, when we consider that he measures of retrenchment then adopted, will not be ully feltuatil the second year. We may therefore confidently hope that if the same amount is raised, and a judicious economy practised this year, we may look for a much reater diminution in the next Aulitor's Report.

The present balance against the Town, as stated in the Report, is \$25.500 00. But as \$9,220 00 of this amount is the Town School Fund which the town hires of itself, the actual debt of the town might very properly be stated t \$16,000, and when this sum is paid, the town will have to other creditor but the Trustees having the care of its wn money. We think it unfortunate that when the School Fund was established, the amount was not fixed at of any particular bestowal, any place to conceal old the even sum of \$10,000 and we hope some plan will be recommended by the Finance Committee by which it may ing deformity." be gradually increased until it reaches that amount.

THE SOUTH READING RAILROAD.

The evidence is now all before the Committee on the Salem and Lowell Railroad, and Mr. Russell in behalf of he basex Railroad, made his closing argument against it yesterday morning. Mr. Curtis yesterday afternoon made constitutional argument against that part of it from S. Reading to Lowell, and Mr. Hopkinson advocates the Jaques route, from Wilmington to the latter road, which is fivored by the latter corporation. It is probable that Mr. Derby closed the case last evening, in favor of the petition. The counsel for the road claim that there is sufficient business between Salem and Lowell, to warrant the construction of the road, without the aid of the large amount of business which will find its way over the road to Boston and which does not legitimately belong to any road now chartered. It is useless to conjecture what will be the fate of the petition as two other conflicting lines emain to have a hearing before the Committee, before they make up their report. The friends of the project, however, are sanguine of its success.

It is expected that the Ballard Vale route will next have a hearing before the Committee, after which the Malden route will be presented by the petitioners.

MR. HUDSON'S LECTURES.

The following communication in regard to the above ectures and the opinions which we have expressed concerning them, we have replied to in the notes which are annexed. We would remark in the onset, that our correspondent seems to have misunderstood our meaning in many instances, and has made the erroneous impressions which he has thus received, the ground-work of protracted argument on subjects which it was not and never will be our intention to introduce,—we mean the abstract question of Theology:—

Mr. Editor-We have read with mingled feelings of regret and surprise some of the articles in your paper upon Mr. Hudson, the lecturer on Shakspeare. A severe on Mr. Rudson, the rectified on Shakaspears. A severe constaught is made upon him, because you and your correspondent do not think him original; and yet, in your article of last week, you tell your readers that he does not pretend to originality of thought, and quote an extract from a writer in the Democratic Review of 1845 under gorments, and reached nearly to his feet; on his to prove it. If this be true, we are too obtuse in our mental perception to discover the justice, or the proprie ty of any person's finding fault with him on that account

"Optics sharp, it needs I ween,

To see what is not to be seen." You intimate, however, that he uses "borrowed thoughts," and your correspondent goes so far as to accuse him openly of plagiarism. We have read some of him utter a sentence from any one of them for which he did not give due credit. If the charge against Mr. H be true, we should like to see it substantiated by the pubferent authors, we presume you can do it with very little labor. The "proof in defence of this position," me time, and which was intended by them as a receptable have not yet seen "adduced" and until it is done, it pious and charitable. In his right hand father Peter be troubled with serious doubts on the subject. Indeed, which was shod with iron tapering off to a point;—a formidable wespon, and which was doubtless relied on by
him as a means of defense rather than support. This
that this is in granter sentences from Heraud and South y would
be read with much interest. (2) That Mr. H. has carefully studied all the best commentators on Shakspeare
we have no doubt; and it would be nothing less than the favorite companion of his walks, pious Peter deposited most consummate conceit in him, or any one else to give carefully, affectionately on the table as if it were a child lectures upon the works of the great dramatist without as he approached to bestow his fatherly greetings on the good one to illustrate this. You suppose that some person announces, that on a certain evening he will give a lecture upon the mind of Jesus of Nazareth, and obtains respectable and promiscuous audience, and then occupies most of the time appropriated to the lecture in reading them St. Paul's epistles, or St. Matthew's, St. Mark's, or St. John's Gospels, &c., and ask, would not his audience be disappointed? We reply, that if with the author of the Chicago. imposters," &c. we certainly think they would be. But if they concurred in the general belief that these men were the intimate and bosom companions of Jesus, and wrote of him as they "were moved by the Holy Ghost Indeed, we know not from what other source any ideas respecting Jesus of Nazareth can be obtained.

Perhaps, however, you would expect originality of Perhaps, however, you would expect originality of thought and conception upon the mind of Jesus. But we ask, would not anything original upon it, be fabrication? must it not be, of necessity? How can any thing new he written upon it consistent with truth? True, there are those who write and any things about the Savior, dishelleving those great commentators upon his life and doctrines; but is this any thing less than infidelity towards his aggred higgaphers? And can that be rey towards his sacred biographers? And can that be regarded as any better than a vain, impious self-conceit which urges them to promulgate their own original ideas of Jesus in the place of those which the Apostles

What, may we ask, is your criterion of originality? Must a man to be original, be one who has never heard or read the thoughts of others? (4) The unsophisticated savage would hardly come up to such a criterion, and to hear lectures not quite so original. But is not Mr. H. original in all that a man can be in consistency with truth upon such a subject. We think that no one who has heard him can have a doubt upon it. Your editorial of Jan. 2, says of him, "Notwithstanding the lecture was two hours long, he retained the fixed attention of the audience to its close. This may be owing to the marked peculiarity of his manner, as well as to the originality and power of his descriptions and criticisms."—
It would seem from this, that at that time, at least, the suspicion flashed across even your own mind, that Mr. H. was original. (5) And your editorial of Jan. 23, ject was old King Lear, and it was treated with all that ject was old King Lear, and it was treated with an any flattery to Mr. keen perception of the character and knowledge of the any flattery to Mr. design of the author of the play, together with the penamer, but simply enliarity of style and manner of the speaker which makes

Safe as dead men,' replied the worthy Matthew, I shows that the system of retrenchment us well as that of this lectures so irresistably attractive. In the article **The distinguish the present day. On the contrary he where the income exceeds the expenditure and our rade; have thou no fears, fair Sir, of pious Peter, as we have a gratification, when paying in their taxes. ting these quotations together we can but think with your and in our paper of Feb. 30, we remarked, concerning correspondent of last week, that there is an inconsistency his lecture of that week, that Mr. Hudson avoided in in the different positions you have assumed. It is true, hat a person has a right to be inconsistent upon such a subject if he chooses to be, but we think his an independence more to be alarmed at, than coveted. (6)

Another charge brought against Mr. H. is that he "abuses the gifts which he does possess, and the subject that he handles with them." This may be true, but we think the instances you have adduced fail to prove it. The views which he has expressed of the poem of Festus, are similar to those that have been uttered by others, far superior to him and to the author of Festus, in talent. In the expression of these opinions he is found in good company. (7) And how far his representation of Byron's works is from the truth, we are willing those should judge who have read his writings. Of "Childe Harold," the best peem perhaps that he ever wrote, Robert Hall remarked, that he "never could wade more than half way through it; he took no pleasure in dissect-ing deformity." If this could be said of "Childe Harold" what shall be said of Don Juan! We are sorry to see that purity of heart and taste which led the ecturer to condemn the obscene writings of Byron, charged upon him as a fault. (8) It speeks not well

"The gun well aimed, at duck or plover,

Bears wide, and kicks its owner over."

Still another charge brought against Mr. H. is that he idicules the sentimentalists and transcendentalists of the Of this crime none are perhaps more guilty than hakspeare himself, and from his day to this, they have ever been considered fair game for any writer or speaker to level his shafts of wit at, and oftentimes decked with a Shakspearean feather. This is the first time we ever heard of such a course being fault with. (9) But the rankest of Mr. H.'s offences is, that in connection with hakspeare's sublime and beautiful exemplifications of the precepts of the Bible, he expresses his own unqualidetestation of those who entertain the principles of a Hume, a Bolingbroke, a Gibbon, a Voltaire, a Paine, or Volney, let them wear what livery they may. Such a charge might have found abettors in France during the 'reign of terror' when Infidelity reigned supreme, in the land of the Pilgrims, the land of christian princi-ples, where the Bible with its inspired truths and glorious evelations is held sacred, it is, to say the least, a very singular one. (10)

1. Our correspondent is greatly mistaken in his interpretation of our remarks in this particular. We find no fault with Mr. Hudson because his ideas were not original, in his lecture on the Mind of Shakspeare, but as one of our correspondents, had decided before he had read the authors which had been specified, that Mr. Hudson did not quote from them, we thought it conclusive evidence when we brought the testimony of Mr. Hudson himself, who does not claim for himself what had heen claimed for him, viz:-originality of thought. This proof we still consider sufficient to establish our assertion.

2. We think this request, unreasonable, because near ly a month has elapsed since the delivery of of the lecture, and having no notes and nothing but our memory to guide us, we cannot, of course be expected to quote passages from his lecture and then compare them with the writings of other authors on the same subject. If, owevet, our correspendent will obtain for us the manuscript of the lecture, we think we shall be able to satisfy him, if we cannot we have only to say of this as of many other subjects of which he treats.

'To subdue th' unconquerable mind, To make one reason have the same effect Upon all apprehensions; to force this, Or that man, just to think, as thou and I do; Impossible! unless souls were alike

In all, which differ now like human faces. 3. Here again our correspondent has misrepresented John's, St. Mark's gospels, and occasionally aims a thrust at some political or moral movement, which does not suit his fancy, would not his audience be disappointed? From this evidently harmless supposition, our correspondent has found a text for a miniature theologica sermon, which is entirely uncalled for in anything we have said. It might perhaps surprise everybody that any could discover new beauties in the mind of the Savior, or should he advance any original thoughts concerning Jesus, an audience might regard him as an infidel, notther of the 'Diegesis,' or some others, they regarded the Evangelists and Apostles as 'uninspired designing men, impartial hearer could but be disappointed, if he could not find in such a subject, food enough to satisfy the intellectual appetites of his audience, without introducing in any manner, his own private political or moral preferenwe see not on what grounds they could object to truths ces. Now we say of Mr. Hudson, respecting his lecture drawn from such a source to illustrate the subject of the on the "Mind of Shakspeare." It matters not whether thing worse than egotistical to attempt to write upon the mind of the Savior, without the greatest familiarity and mind of the Savior, without the greatest familiarity, and, new said on this subject, or whether they considered the we might almost say, daily intercourse with their writ- effort above his abilities, still they had good reason to be If disappointed that he did not when he announced his lectures on Shakspeare, mention that they were a compila-

tion of borrowed thoughts clothed in language of his own selection, and that the evening's entertainments would be thickly interspersed with foreign digressions malicious threats, and foolish jests, aimed at those who Gonal Com blur lu their opinions and sontiments.

4. The definition of original, as applied to our subject we understand to mean nothing more or less than "the possession of new ideas" which Mr. Hudson does not claim to in his lectures on Shakspeare, as will be seen by the extract from the Democratic Review, which we have before quoted.

5. There is a wide difference between 'originality of description' and 'originality of ideas.' A savage may understand the effects of the sun's rays, and describe would it not be interesting to hear such a savage gabble over his original ideas of Shakspeare's mind and genius? sions, and yet never have dreamed of the nature of the limits suit some, but we confess that we should prefer sions, and yet never have dreamed of the nature of the producing agency Mr. H. may have been original in his description of the subject of that lecture, and yet when he attempted to write on the Mind of Shakspeare, he may have undertaken a task, he had not the ability to

6. It is true, we consider Mr. H. possesses a knowledge and keen perception of the design of the author in this play. It would be passing strange if he should not, and yet we do not see that our remarks there had anything with those subsequent concerning the 'orignality of ideas' on the Mind of Shakspeare. We did not mean

6. In our paper of Jan. 2d, we remarked concerning

priests of a false-phi-?an-thro-py.

this lecture all attempts to ridicule other men's opinions conscienciousness, or genius.' Now did our correspondent ever imagine there was inconsistency in the remarks we have just quotod. We think not, and yet one would suppose from his article that what we had said as our opinion concerning one lecture of Mr. H., we should be expected to sustain and repeat, in regard to every other lecture he should deliver till his death. Neither did we mean to be understood as saying that every private impression which our former correspondent received was similar to our own, but simply that such part of his comnurication as referred to his general manner and impudence during his lectures, was correct. We thought that Mr H. in his lecture on the 'Mind of Shakspeare,' labored very hard to offend those who differed from him on matters of private opinion, and was altogether too sancy to escape without a little cuffing.

7. Our correspondent defends the virulent and unfair attuck of Mr. Hudson upon the poem of Festus, by saying that his views are similar to those of other men of talent. and that he is therefore found in good company. Who this good company may be, we have yet to learn; we know not of another instance in which a writer of any notoriety has indulged in such gross abuse of the poem. Although it may be that people of taste and talent may have been prejudiced against the work by the difference of their sentiments, and thence led to deny its literary merits, we doubt exceedingly whether it is in the power of any one to exhibit such an array of disinterested perfied convictions of the truths of inspiration, and utter sons of talent against Festus, as we can present in its favor, in the names of Lord Francis Egerton, James Montgomery, Ebenezer Elliott, R. H. Horne, Sir E. L. Bulwer, W. Harrison Ainsworth, Mrs. S. C. Hall, Mrs Mary Howitt, &c. 8. What we disliked in Mr. Hudson's representations

of Byron's works, was the spirit of wholesale and unsparing denunciation of whatever Mr. H. disapprovesa distinguishing characteristic of this lecturer, and strikingly exemplified in his illiberal criticism upon Festus. We are not agoing to deny the immorality in some o the poems of Byron, but we do dislike to see him wronged in this particular by the most unfair exaggeration. Our correspondent quotes a remark of Robert Hall, in relation to Byron's Childe Harold, to the effect that he never could wade more than half way through it; he took no pleasure in dissecting deformity.' The natural nference from the tone of our correspondent's remarks, we think is, that he agrees with this opinion. But will he contend that the opinion of Robert Hall is his own? Or has he quoted it merely to 'serve a turn'? It is our opinion that however blinded by prejudice or natural insensibility Robert Hall may have been to the beauty of Childe Harold, our correspondent would not in his better coments consider it any compliment to his good taste in poetry, were we to charge him with such stupidity .--Did he ever find the slightest difficulty in 'wading half way through' Childe Harold? However different from some of its sentiments may be his own, has he not perused it with refined delight, and expressed the highest admiration of its sublimity? In wandering with the Childe among the scenes of his pilgrimage, and listening to the lofty reflections they awakened, was he ever disturbed in his admiration of the 'fine frenzy' of Byron, by Ruilroad. It begins and ends, and will run to qualms of conscience about the dissection of such de formity? If not, why then quote approvingly a remark as, and we are somewhat disappointed to find that he is so opposed to his own opinions—so discreditable to the no better a copyist. Our illustration was in substance a poet? Has not our correspondent in spite of his 'holy ollows:-Suppose a person who had made the life and horror' of Byron, managed to 'wade through' a part of character of the Savior his chief study and admiration Don Juan itself—the worst part in point of obscenity, The route is also the best route from Salem to for years, announces on a certain evening that he will as it is the best in a literary point of view? We do not give a lecture on the "Mind of Jesus of Nazareth," and intend to find fault with our correspondent for gratifying construction, and consequently a cheap route. obtains a respectable and promiscuous audience, and then his taste for poetry where he pleases—he doubtless found through a country which will furnish more pro-

9. It matters not whether Shakspeare was guilty of attacking transcendentalists or not. We know nothing of names or sects in this matter, nor whom our correspondent has christened or specified by his term. We do say that if Mr Hudson or any other lecturer before a promiscuous audience who have not been informed by him of his intention attacks anybody's opinions or any sect or person should have the presumption to suppose that he schism, when it is entirely foreign to the subject which he has proposed to speak upon, does great injustice to his hearers, and the public. It matters not whether the overbearing impudence of a majority has sanctioned it or

> 10. Here again our correspondent has wandered into what seems to us foreign ground. We have not mentioned, neither is it within our province, to discuss the propriety or duty of Faith in the Inspiration of the Bible. or the beauty of its precepts. Neither do we wish to discuss the accuracy of the sentiments entertained by the authors he has mentioned, but we will say, that if there was or was not in the audience which attended the lecture of Mr. H. on 'the Mind of Shakspeare,' any person who entertained similar views to those ascribed to the authors which our correspondent has named, or even a Jew or Mahometan, he had NO RIGHT to pronounce or denounce them as insincere or false, nor could such an expression of his opinion be reasonably expected of him, in connection with

The communication in reply to 'Veritas,' will appear

SINGULAR ACCIDENT. On Saturday last at Norwich a workman in Allen & Tuber's pistol manufactory had arranged some 20 or 30 pistols, heavily loaded this route, needing Railroad accommodation for approaching them with a lighted match, a spark of Reading is truly represented as one of our fire accidentally communicated to the train with the New England villages-the location of the pistols. At that moment the board on which the pistols were arranged fell over, and as they exploded, the balls prosperity, creating a domand for lumber, were scattered promiscuously—some flying about the shop, and other entering the room over head, through the floor. Strange to say, no one was killed, or seriously boarding, &c., was properly remembered, injured .- [New London Advocate

We understand that the fortune in England, which the Chases have been looking after for some time, has slipped through their fingers. The matter was in chancery, and the decree was, that in default of male heirs the real estate would fall to the crown, and the personal property to the heirs of Lady Townley, who maried a Lawrence. Some of the anxious heirs reside in town. [Nushua Oasis.

The Governor, with the advice and consent of the any flattery to Mr. H. for his peculiarity of style and Council, has appointed Thursday, the 8th day of April manner, but simply that his clownish pranks made him next, to be observed as a day of Puble Fasting. Humili- others of Salem, remonstate against the same ation and Prayer,

At a meeting of the citizens of North Danver t the Universalist Meeting House, on Sunday ex

Rev. J. W. Hanson then offered the following ble and resolution, which was unanimously adopte Whereas:-The steamer Sarah Sands, in her arrival from Europe, brought to our ears sorrowful of intense suffering and death by Hunger, cause cond failure of the potato crop, in different parts rope, and especially in Ireland, which tidings hav painfully confirmed by the subsequent arrival Cambria, last evening, and whereas, we ha confidence that we are able to alleviate in some me the dreadful suffering which prevails in Ireland whereas, we believe that any contribution we shoul would be safely and immediately transmitted t who are in want, and that it would benefit and them, therefore,

Resolved, That while our hearts are solem gratefully impressed with a sense of God's good pouring temporal alundance into our own laps, sorrow and pity for our brethren across the waters isited with famine, and we will extend the sympathy to them, and in some degree reliev vants, by giving them out of the abundance wh

Voted,-That a Committee be raised for the of raising subscription for the benefit of the suff England and Ireland.

The following gentlemen were then chosen ee:-Eben Hunt, A. R. Porter, Moses Black, ter Wait, Henry Fowler, S. P. Fowler, N. S. H. L. Pope, Samuel Preston, Moses W. Putna M. P. Braman, Nath'l Pope, Nathan Tapley Putnam, Otis Putnam:

mitted to cross any highway, turnpike, or townway, upo

the same grade therewith, to erect suitable gates at ev

at all times, to open and close the same.

ery such crossing, and keep an agent stationed thereat

This motion prevailed, and if made io apply, in every

practicable case, to old corporations as well as new, will

neet with general favor, although many friends of the

new projects regard it as rather onerous upon them .-

Mr. Giles, of Boston, suggested vesting a Committee of

the Executive Council with the discretion contemplated.

The hearing upon the Salem and Lowell Railroad has

been continued, and much testimony put in. Prof

Hitchcock's Geological Report was quoted in commen-

dation of Danvers and Lynnfield granite; and a letter

attesting the good qualities of the ice in Humphries

Pond was read from Frederick Tudor, Esq., the 'Ice'

King' and pioneer merchant-prince in the truffic in this

intensely native' commodity. Many intelligent witnesse

attest to the advantages of this route to Salem and vicini-

ty, as well as to Lowell and to the intermediate locali-

ies. In addition to the lumber, bricks, granite, ice &c.,

mentioned before, there appeared much heavy truffic in

The North Reading route comes up next for a hear-

your vicinity, as calculated to accomplish the business

both of the Essex and Lowell Railroads. A very favor-

through North Reading and Ballard Vale, making the

shortest route to the New City, with the easiest grades.

This would have to avoid N. Danvers, leaving them

giving North Andover a branch to the New City .-

Should the Essex Road adopt this line, these towns

might well say, this is not the entertainment to which

paragraph now to snow with what justice the person who was in the Department of State when these 300 newspapers in its pay were thus attacking the men of peace, now sets up for the character of pacificator!

[Mr. Calhoun. Does he intend to say that I ever wrote such a letter? Mr. Benton. I read it. I say nothing.
Mr. Calhoun. I never wrote such a letter as that!—
Mr. Benton. I have not said so
Mr. Calhoun. I take this occasion to say that I never exercised the slightest influence over that paper. I never er er er er er er

was a subscriber to it, and I very raraly read it. was a subscriber to it, and I very raraly read it.

Mr. Benton. It was the work of one of the organs of
the administration, not John Jones; and the instruction
was followed by three hundred newspapers in the pay of the Department of State.]

The rumor of the capture of Cassius M. Clay by the Mexicans is confirmed by late news.

Fate of the Wilmot Proviso.

Doings in Congress .- The proceedings of Mondny were full of interest, especially in the Senate, and more especially at the nocturnal part of the session; for that body re-assembled 6 o'clock, after the dinner recess, and sat until far in the morning. Three important measures were accomplished. The tea and coffee tax was killed again in the House; in the Senate the Wilmot proviso was rejected, and the three million bill without the proviso, was passed.

The House of Representaives, on Wednesday night passed the Three Million Bill without the Wilmot provise, by a vote of 115 to 42. Also, an amendment to the Sub-Treasury act.

The Senate refused to create a General-in Chief.

RAILROAD MEETING AT SAUGUS.

A large meeting of the friends of the Danvers and Malden Railroad, was held at Saugus on Monday evening last Sewell Boardman, Esq, Representative of the town in the Legislature, was chosen Chairman, who opened the meeting with some excellent remarks upon the claims of the project. He was followed by Mr-Wm. D. Northend, of Danvers, Messrs. James M. Usher and J. Webster, of Lynn, and Messrs. E. Pranker, Newhall, and others, of Saugus. The following Resolution, proposed by Mr Newhall, was unan mously

coordings and 6.127s, will be of meatenable beach in developing the resources of Saugus, and in bringing their water power into greater use, and will afford the only opportanity they will probably ever have, to get Railroad accommodations into the city of Boston. ing, and is looked upon quite favorably by many, from

The meeting was very large and enthusiastic, and showed the great interest which the town of Saugus feels able route from South Danvers is suggested, running in the success of this project. [Salem Gazette.

THE ATLANTIC'S BELL-We notice that the bel which hung on the wreck of this unfortunate steamer, merely a branch, and entirely neglecting Middleton, and and is to be placed on the "Floating Church of the Holy Comforer," at the foot of Dey street, is for public exhiba iton.-[N. Y.

THE DIFFERENCE-While we are supplying moror less of food to almost every part of Europe, says the North Andover was the author of the original enterprise Newburyport Herald, and immense quantities to Ireland, to the New City, and that the important interests of Scotland, and France, many people bave probable North Danvers were brought materially to bear in its forgotten that it is only ten years since we were importing grain in very considerable quantities from the regions of the Danube and the Black Sea. In 1836 the price of Wheat in Great Britain was only a dollar a bushel, and Coburn. on the continent of Europe it averaged less than seventyfive cents, while at the same time in New York it was sold at \$5,25 n bushel.

CERTIFICATES.

From Dr. Join C. Warra. of Buston.

Having had occasion to observe, that same persons at flicted with Hernia, having suffered much from the want of skilful working in accommodating Truspes to the percularities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Fester, to supply the deficiency occasioned by the death of Mr. Beath.

After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

From Dr. Greene, Boston.

Str: Please sent as one given they have given very good satisfaction, better than any other pills which and ny other pills which as short time they we have had no of skilful working in our market. I think in a short time they we have have in our market. I think in a short time they we have in our market. I think in a short time they we have in our market. Str: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good, satisfaction, better than the control of the co

Sir: Itransmit to you an account of my case for publication, believing it to be my duty. I have been contined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston The sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account. I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

From Dr. Robburs, Rozbury.

Since the death of Mr. John Beath, I have used, in preference to all other Trusses those made by Mr. J. F. Foster, of Boston.

P. G. ROBBINS, M. D. Boston, April 27th, 1846.

The undersigned is familiar with the ability of Mr. J. F. Foster, to munifacture trusses of the valious kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favorably compare with that of other artists.

L. V. C. SMITH,
Editor of the Boston Medical and Surgical Journal.

Sir: Itransmit to you at account on heaving it to be my duty. I have been publication, believing it to be my duty. I have been publication, believing it to be my duty. I have been publication, believing it to be my duty. I have been publication, believing it to be my duty. I have been publication, believing it to be my duty. I have been publication, believing it to be my duty. I have been publication, believing it to be my duty. I have been publication, believing it to be my duty. I have been publication, believing it to be my duty. I have been publication, believing it to be my duty. I have been publication, believing it to be my duty. I have been publication, believing it to be my duty. I have been publication, believing it he has undefined with the Rheumatism nearly the whole win ter, have had some of the best physicians of Boston and could get nething that would relieve me more han temporarily. I heard of the wonderful virtues for Loran few leading that would relieve me more han temporarily. I heard of the wonderful virt

the brain or vital organs. My pains were violent—all medicines recommended did no good. At last, I tried LORRAINE'S VEGETABLE PILLS, which gave mmediate relief, and have entirely cured me.

that I could scarcely get my breath. * * * * It is a pleasure to feel well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr Lorraine's Pills. J. BROOKS. lose of Dr Lorraine's Pills.

WM. ARCHER, Ja.

TO EVERY VIOLIN PLAYER! THE AMERICAN VIOLINIST. This splen-HE AMERICAN VIOLINIST. This splendid instruction Book for the Violin has already passed through two editions—it is without doubt by far the most thorough work for the Violin ever published in this country. The Evening Traveller thus speaks of it:

"1. P. Jewett & Co., have just published a complete system for the Violin by J. F. Hanks, in a handsome quarto of over a hundred pages. It is probably the most complete werk of the kind in print. The sheets have been, corrected with laborious care by an accomplished violinist, and the utmost pains taken to make the work perfect. In the appendix will be found the whole of Octob celebrated and now very rare, treatise on the construction, preserve, ton, repair and improvement of the violin."

Published and for sale, wholesale and retail, by JNO.

Poetrn.

FOR LOVE IS STRONG AS DEATH. From 'The Reliquary,' by Bernard and Lucy Barton They err who deem love's brightest hour In blooming youth is known; Its purest tenderest, holiest power In later life is shown: When passions chastened and subdued To riper years are given; And earth and earthly things are viewed In light that breaks from Heaven.

It is not in the flush of youth, Or days of cloudless mirth, We feel the tenderness and truth Of love's devoted worth; Life then is like a tranquil stream Which flows in sunshine bright, And objects mirror'd in it seem To share its sparkling light.

'Tis when the how ing winds arise, And life is like the ocean, Whose mountain billows brave the skies Lash'd by the storm's commotion: When lightning cleaves the murky cloud And thunder peals around us, Tis then we feel our spirits bowed, By loucliness around us.

Oh! then, as to the seaman's sight The beacon's trembling ray Surpasses far the lustre bright Of Summer's cloudless day: E'en such to tried and wounded hearts In manhood's darker years, The gentle light true love imparts 'Mid sorrows, cares and fears.

Its beams on minds of joy bereft Their fresh'ning brightness fling, And shows that life has something left To which their hopes may cling; It steals upon the sick at heart, The desolate in soul, To bid their doubts and foars depart, And point a brighter goal.

If such be love's triumphant power-O'er spirits touched by time, Oh! who shall doubt its purest hour Of happiness sublime? In youth 'tis like the meteor's gleam Which dazzles and sweeps by; In after life ils splenders seem Link'd with eternity!

Miscellany.

FOR THE COURIER.

The Opening of the Granary. A TALE OF THE FIFTEENTH CENTURY.

CONTINUED. CHAPTER V.

*A good even to you, fair sir,' he cried, 'and our Lady's benison be on ye, the worthy Matthew I have alrendy saluted, but I will include him in the blessing, for here sir captain are the trinkets, you were kindly pleased to order,' taking a bunch of newly made keys from the pouch aforestid, and gravely handing them to Clifford, like one who had faithfully fulfilled his contract and they may meet your expectations and he found able and worthy to unlock the strong doors of the rich man-the oppressor who withholdeth his food from the poor-who hath heaped his garner to bursting like him in sacred text, and said, 'soul take thine ease, thou hast wealth tations of his visitor and invited him to take a stool beside the fire while Staples, who had listened with admirblaze by piling on a fresh supply of fuel.

'Hast thou supped, fither Peter,' asked Matthew after an interval of a few minutes, during which that person had been recovering from the effects of the cold night

Happening to turn his bead while there, he saw during the whole of his discourse. But not the slightest east people, called at the Chinese Museum, in this city,

means of quenching pious Peter's thirst.

for father Peter after his chill travel.'

a smack of the lips, and praises of the vintage, returned the deprivation no longer. th cup to Staples, and announced to the Lanca strian that he was ready for deliberation on business in contemrious arrangements for his criminal design, with which retrospective character on the individual in question .- er Meg.' Peter Boltwood, known by his present associates, under the several cognomens of a pious Peter,' and 'father Peter, ' had formerly been a monk of Saint Mary's abbey, but in consequence of divers uncanonical pranks, and irregular courses, among which, was an undue fondness for strong drinks accompanied with noisy and profune difference, the result of the coming contest between the revellings and carouses partaken with lewd roysterers without the monastic walls, (an exposure to the world the good brethren could not wink ut.) he had, in full convocation, of a Chapter of the order, been salemnly 'uncowled,' that is, stripped of his religious character and functions, and reduced to the condition of a layman .-When the politic brethren had thus publicly repudiated their fallen brother who had so disgraced the cloth, they | ges.' ejected him from the sacred walls which had long been his abode, banishing him from the pale of the church forever. With anathema and excommunication invoked on his head, Brother Peter departed, caring but little for his expulsion, for that event now removed the only barrier which had hitherto stood in the way of his jovinl propensities. It was not indeed, without sorrow, and not until after repeated admonitions that his clerical companions had resorted to this last resource, for Brother Peter had been a very useful inmate of the abbay, on account of his ingenious turn of mind, being the constructor of many a necessary utensil and tool for the abbey garden and the establishment generally. But the brotherhood saw the absolute need of casting out the living stain on their order, and consequently, had no other remedy but his sacrifice for saving their repu ation .-Father Peter, indifferent as we have said, to what had befullen him, left the abbey with a merry swagger, and rather as one who escapes from a prison, than a person paired to the disreputable quarters of the city and form-

A GOOD STORY.

The following excellent story is told of Mr. Sheenf, grocer in Portsmouth, N. H.

It appears that a man had purchased some wool from

he appeared to expect, upon which he exclaimed-

'O, no,' said the other, 'you may be sure you've not for I counted them with you.

'Well, well we won't dispute the matter - it is easily tried,' said Mr. S. putting the bag into the scale again .-There!' said he, 'I told you so-knew I was rightmade a mistake of nearly twenty pounds; however, if Hamburg, I will whip you as sure as I live.' you don't want the whole you needn't have it-I'll take part of it out!'

'No no!'said the other, staying the hands of Mr S. on their way to the strings of the bag, 'I guess I'll take the whole.

And this he did, paying for his rescality by re-

[From the Western Continent.]

How the Man Whipped the Preacher.

Nor many years ago, the Rev. Mr.---, a native of Baltimore, was stationed by the Conference at Augusta, Georgia, where, by his exalted piety, zealous devotion to the Christian cause, and uniform cheerfulness will long continue to remember him with sentiments of fate with as good grace as possible. Summoning all the his logical method of reasoning, never failed to interest step brining him nearer to his antagonist, who with flashand impress the minds of his hearers; but the old gentle- ed face and eyes fixed upon him, was in the act of draws entertain a higher reverence for the sanctuary in which ed till within a single pace, when he halted for a second, they worship, than for the feelings of any who dared to and, placing a letter in the hands of the preacher, passprofune it by indecorous conduct; and, quaint and harsh ed on, without attering a word. ns it seemed to the thoughtless affenders, he permitted none to interrupt the services, or deport the market we ampecomingly in his church, with impunity.

It was his custom from time to time, whenever a travelling preacher chanced to be present to fill his place to extend the sphere of his usefulness by preaching in the neighborhood wherever he could obtain a congregation. of secresy. Of Margaret he had no fears, on account On one of these occasions, he had gone to fulfil an afterneon appointment in Hamburg, on the opposite side of her love and gratitude to her protector who had opened the river from Augusta, where, at that time, there was his doors as an asylum for her orphan head. Neither did no regular preaching. He had ascended the pulpit, and was earnestly addressing a very respectful and attentive one of the benches in a conspiucous part of the room sition, he extended his person at full length upon the

'My friend ' said he, in the hlandest tone, 'get up .-Sit up in your sent as you should-You would not deport

The eyes of all were directed upon the delinquent. who read in every countenance an approval of the minister's rebuke.

He rose from his position-sat erect, with a crimsoned face, for a few minutes, and then left the house.

The parson went on with his discourse. When the services were over, he received the thanks and congratman whom he had rebuked for his improper conduct. 'Stop, Mr. ----,' said he, 'I want' to have a talk

with you.' The preacher turned, smiling, to hear what he had

'You have insulted me, sir,' said the men, with exome agitation, and I did promise to whip you on sight but as you have given out that you will preach here next Sunday, and in consideration that you are an old man, I

'For what?' inquired Mr.----Why, for insulting me in the manner you did, before

verybody. My dear sir, I can do no such thing. I cannot apologize for doing what I conceived to be my duty.'

But you must, sir; and I now give you notice, tha f you don't apologize for insulting me, to the congregation next Sunday-if you don't make the apology as public as the insult was-preacher as you are, I'll give you a thrashing.'

'Tut, tut,-you would not do any thing so rash. ou-

I will!-so help me-

'Stop, my friend-make no rash promises,' said the preacher-'I did not desire to insult you, or wound your house of God.'

Well, you come here next Sunday and preach without making an apology, and you know what to depend It is well known, however, that a law never was enacupon,' replied the man, as he turned away.

him, which had been weighed and paid for, and preacher was there. The insulted auditor was there thus the statute became inoperative. A daring fellow

ed Mr. ____ as before.

Well, sir,' said he, 'you did not make the apology which I required of you.'

'No; my friend; I told you that I could not. I feel apology to appease your feelings, I would acknowledge Why, bless me, I must have reckoned the weight that I had done wrong, which would be falsifying myself. I would do any proper thing to serve you; but as I said before, I can make no such apology.

Well, sir, you need not think to put me off in this way. I will permit no man to insult me-and I now tell you once more, that if you don't apologize to me for the insult last Sunday, the next time you preach at

1 hope you may live to form better resolutions, my friend said the smiling parson; but you require of me what I cannot do, even to avoid a whipping.'

They parted-Mr. - with a polite bow, and the man with fierce threats and violent gestures.

On the following Sunday, the preacher was punctual ceiving skim milk cheese, or tap rock, at the price of to his appointment. As on the former occasion, the belligerent individual was in his place, an attentive listener to the sermon. The meeting was an extremely interesting one, and did not break up until later than usual.

This time the man did not accest him, nor did Mr. - see him again for several days.

About a week after the last meeting, as Parson . was passing down Broad street, he saw the man who religiously promised him a whipping, approaching him on the same side of the street. He readily divined the purund kindliness of disposition, he made many friends, who pose of his visit to Augusta, and determined to meet his veneration and esteem. His eloquence, and especially fortitude, he pursued his course without faltering, each nan was of that old-fashioned school of preachers who ing something from his coat pocket. The man approach-

'Is it possible he means to challenge me?' involuntarily mused the astonished clergeman, as he paused to open

His suprise may be imagined, when on opening it, he read as follows:

'HAMBURG, S. C., April 10. 183-

Respected Sir, -Enclosed you will find \$50 a part of which I have collected from your Hamburg friends. will continue to visit us whenever your pastoral energy ments will permit, I remain, Gratefully yours,

'I would have no objection,' said the old gentleman, after relating the circumstance to us in his good humored way, 'to take such a flogging every now and then.'-He did continue his pastoral visits to Hamburg, anacdote above related is one_of the numerous proofs which might be given of the good

he effected, by his bold, zealous and uncompromising ministration of the Word.

INDICATIONS OF A GOOD COW.

When a heifer has arrived at the age of one year and a half or two years, a good judge will be able to determine pretty accurately wether she will be worth keeping particularly if she is with calf. The first and most important indication is large udder; for if this is not capecious the cow can never be great for milk.

The next point is, good teats, well set from eachother. These and the udder should be of a yellow, cast for a vellow, or a mahogany color, is a good indication that the milk will be rich. It is a good sign in a heifer to have the skin about the udder loose and flabby ; for if it is light and slick there will be a want of material to form the udder; it can never be capacious enough to hold a large mess. As to the general form of the animal, it is less impor-

tant, for we often find the most ill looking animal giving the largest mess of milk. Yet it is important that she have a good broad chest, for here are the lungs; and capacious lungs are indicative of health and hardiness. A small head, small horns, a straight back, short legs.

bright eye, a small and yellow nose, a yellow circle about the eye, are all indications of a good cow. No. man can determine with certainty what kind of a cow a young heifer will make. But those who have for a long time paid attention to the subject and have rerepeatedly called into exercise their faculties of judging, will be able to determine pretty well whether a heifer is worth trying:

If stock is to be purchased from the country it is bette to buy heifers than cows. Buy such as have never been tried, and you stand a chance to possess the best; but if you buy cows that have been milked one summer you must give a high price for them if they are superior cattle. [Maine Cultivator.

Patent Medicine Law in Maine. - A late law in the state of Maine requires that the composition, and profeelings unnecessarily—but you must not expect me to portion of each article of the composition, of every paapologize for doing my duty as a faithful steward of the tent medicine offered for sale shall be printed on a label and pasted on the bottle, package, &c., containing it, under penalties that would make a common pedlar wince. ted which a Yankee could not evade. DANVERS AND MALDEN RAILROAD

The hearing of the petitioners for the above road, commenced on Thursday afternoon. The case was oponed by W. D. Northend, Esq., of this town. The committee will probably be engaged for several days in hearing the evidence which will be presented in behalf of the netition, after which Hon. Rufus Choate will make the closing argument in behalf of the petitioners. The three petitions, viz:-the South Reading, North Reading and the Malden, will then be fairly before the committee, and it is to be presumed that they will speedily prepare their report concerning each and all of them .-Till that report is made up, all decisions as to the fate of either project, are but conjectures.

Board of Firewards .- The new Board we understand, met on Friday evening of last week, and after organizing, made choice of Mr. Jeremiah L. Kimball, as Chief Engineer. In our notice of the election of Firewards last week, we accidently omitted the name of Daniel Osborn, Esq.

We are indebted to Hon. D. P. King, for copies of several speeches on the Mexican War, delivered in the House of Representatives.

We understand that the Governor has appointed W. D. Northend, Eag., of this town, a Justice of the Peace for the county of Essex.

cliusetts License Law is constitutional.

The election of County Commissioners is to take place on the first Monday in April.

Hon. DANIEL P. KING and Hon. Amos ABBOTT, Representatives in Congress from the 2d and 3d Mass. Districts, returned to their respective homes

The Mexicans who killed Lieut. Miller, of the Ohio the roadside.

APPOINTMENTS, -We find the following among the late appointments:

William P. Pierce, of Salem, Massachusetts, to be con-

sul of the United States, for the port of Macao. the State of Massachusetts.

Daniel Foster, Surveyor and Inspector of the Revenue for the port of Beverly, in the State of Massachusetts.

There is a dreadful Evil frowning yet in the Presidential chair, to be sure, but it is a relief that anxiety on another point is allayed. There is hardly a class in the whole union but has some particular reason for rejoicing at the termination of this Congress. The Slaveholder may rejoice, for although it dared not, as it threatened, level the entrenchments about his 'peculiar instruments,' it has not now the poor power of threatening; the laborer town, take place this month, and several of the principal schools have already passed the ordeal with credit to joy that his beverage is yet to be untaxed; the matrons however with indignation at the presumption of rulers who would dare to weaken her cups, and indicating the attainments of the pupils under the direction of the plainly that had the unjust proposition passed, there teacher should also take place at a different time. By would have been a tempest in the teapot; Santa Anna, too will rejoice at the prospect of getting from his friend Polk a little cash, to feed and clothe his naked and starving legions, and set up himself comfortably in business In short, innumerable advantages to almost as large diversity of people, will result from the demise of the late the evening, when the parents and friends of the pupils | Congress. Like the killed of Sampson, the good deeds

Among the most important acts of the late session were the following, as we gather from the summaries

The Light House Bill. A bill for reorganizing the Indian Department, (said to be one of the few good meas-ion I entertain upon the institution of slavery itself. I ures of the session; it appropriates \$20,000 for presents have no opinion which I wish to conceal upon any quespresent and witnessing the effects of these school exhibitions in Districts No. 1 and 11. We are convinced that no one could attend such meetings without coming away with feelings of increased devotion to the cause of common school instruction. The manner with which the Gen. stating in substance that the S. Reading road would bet-SLAVERY, BY A SOUTHENER. Hon. Reverdy ter accommodate the business between Danvers and Bosmany more (here as well as amongst our neighborson, the distinguished Whig Senator from the State ton and would be more likely to be built than the Mald-be cleansed from this foul poliction. We but sp en. He makes these statements, the first two of which honest conviction of our heart when we say, that as follows:-

1. That there is no reasonable ground to believe that a charter will ever be obtained for a Railroad from Danvers through Lynn and Malden to Boston.

2. If a charter should be obtained, that there is easonable ground to believe that it would ever be built.

How perfectly conclusive these statements are, so conclusive that they need no evidence. There are some people in the world so conceited and opinionated that to the Indians, and \$5000 for scaterials relating to Indians who are in history. Money is to be kent from Indians who are author believes it himself or not. Perhaps the writer in the Gazette is at least cousin to that class, for if he knows so much of Railroad matters as he pretends to, he knows that independent of the greater amount of business and travel over the Malden road, that passengers and freight can be carried cheaper to Boston over the Malden road than over the South Reading Road. This

We will suppose the road to be constructed to Malden costs \$100,000 more than to Reading, the interest in favor of Reading will be \$6,000 per annum. There will be two miles more to be run on the Reading than on the Malden road, which will make in favor of the Malden at least \$3000. That road will have to pay the Boston and Maine road at least \$10,000 per aunum more than the Malden, which makes \$10,000 in favor of Malden. This makes \$7,000 per annum in favor of the Malden in annnal expenses, to say nothing of the Lynn and Saugus travel, and yet the sapient correspondent of the Gazette is sure the Reading road would be built and the

If the writer would deal more in facts and less in conclusions, he would be more likely to satisfy his readers

> FOR THE COURIER. "RADICALISM OF SHAKSPEARE.

Mr. Editor-From your known willingness to admit to the columns of the Courier, communications on both sides of a controverted subject, we are emboldened to equest space enough for a short review of "Veritas," writer in your paper of Feb. 27, whose strained arbalist discharged a formidable bolt at the head of the poor unfortunate lecturer on Shakspeare—Mr. Hudson.

We should hardly have thought the game sufficient, to tempt this intellectual Ajax down "to do battle on the subject of course to proper regulation, as did plain of Ono."

"Veritas" starts with the proposal to cite a few pasages from the works of Shakspeare, to prove that their States upon this subject, showing great discre author was a "radicalist," like our modern reformers, formerly a member of a church of the old school, had one who "thought more of philanthrophy than what is policy upon which this restriction was based, s

der to bestow a few "criminating or vituperative re- that the Professor would suffer no practical inco marks" upon Mr. H. who, "whether his opinions be until his naturalization should take place, as no Mr. Robert Owen publishes in the Washington right or wrong, is certainly entitled to decent and courte- the Commonwealth could interfere between him

ers, they shall be colonized in some territory set apart for ly lugging in puns, humorous conceits and digressive in favor of the poor and illiterate who might baboon to win notoriety, and acting more of the monkey Constitution so as to hold our State and President than of the man."

With all these choice flowers of rhetoric does "Veritas," tessellate the exordium of his short communication, labor and expense, attendant upon holding tw "which would otherwise be unsymmetrical or inelegant sive elections within one week every four years in its structure or proportions."

Having given birth to these offsprings of "benevolence," which carol and curvet under his pen, with wonderful grace and dignity, the way is now open to exhibit the first Monday in November. Mr. Hood, to the reader some of Shakspeare's "anti-aristocratic also pertinently advised the alteration as a prev nations of instice."

This is attempted first, by quoting an extract from the play "Merry Wives of Windsor," in which it is very obviously the design of the comedian, to hold up to rid- pediency of establishing one or more State As cule the character of a country justice, who se qualifications for the office which he filled, were indicated by the name he bore-"Shallow."

y, a memi et of a estate and the House

Among the permanent lobby members of the Legislature, for many years, there is no one so conspicuous as Gabriel H. Thompson-he having demonstrated, to his own satisfaction, that he has solved the difficult, and to others impracticable task of establishing the quadrature of the circle. He commenced at an early day his application for pecuniary sid from the State, and has followed it up to the present time, with a pertinacity and zeal worthy of a successful cause. Though finding it extremely difficult, latterly, to get his subject even before a we think, deserves but little credit. committee, the old gentleman never tires, but has purfounding all those committees whom he has had the good fortune to appear before. This year the House referred his petition to the Committee on Education, but the Senhis petition to the Committee on Education, but the Senthern, they can be of no further service to the Town as at a non-concurred, and the subject has been referred to a Fire Company, after the present year. a special joint committee, of which Hon. James Gregory, of the Senate, is chairman, and upon which is Elijah W. Upton, Esq., of Danvers, of the House.

There have been some additional petitions received lately in favor of the Danvers and Malden case, making in all, over 5,000 legal voters, besides those of 262 ladies of Danvers, together with the vote of that town and

The Annual Railroad Reports have just been distributed, and make a pamphlet of 120 pages. On the Eastern, the whole number of miles run have been, passenger trains, 201, 626; freight and other trains, 51,426whole number of passengers, 786,756. Tons of merchandise, 38,013 3-4. Income from passengers, \$310, 061 14; from freight, \$46,099 25; mnils, rents, &c., \$15,178 22; net earnings, \$208,534 04. The only accident reported is that of the girl injured at the Wenham and Hamilton Depot in November.

THE ATTORNEY GENERAL BILL was killed on Thursday in the House of Representatives, by a vote of 135 nays, to 84 yeas, after an amendment. had been adopted, which reduced the salary to \$2000 peramum.

OPERATIONS AGAINST VERA CRAZ. Of General Scott's position and purposes some information-authentic, as alleged-is given in the New York Courier of Monday morning, which publishes the fullowing letter:

POINT ISABEL, February 14, 1847. 'The General (Scott) is waiting most anxiously for transport and ordnance stores from N. Orleans, to move at once down to Gulf coast. General Worth, with 2000regulars, is also here, and the movemeet to take place is as follows:

· As soon as the transports get here, and they are houly expected, the troops are to embark for Tampico; they will be joined by Generals PATTERSON, TWIGGS, SHIELDS and PILLOW, with about 5,000 more; all will then sail for the Island of Labos, 60 miles south of Tampico, were they will find a part of the volunteers lately called out. The whole force will then number about 12,000, perhaps 13,000, and there the general will organize the command, and then sail for Antonio Lizardo, where he will find our fleet. It will escort him to the Island of Sacrifios about 5 miles from Vera Cruz, and about three and a half from the main land. He will disembark the army at this island; and under cover of the guns of the mayy, will land the troops, or rather transport them in surf boats to the main shore. Here he expects to meet SANTA ANNA with all the troops he can musto meet Santa Anna with all the troops he can mus-rates, as at any other store. Also, all kinds of School ter, say 30,000 or 40,000; and with well-appointed, but small number of 13,000 men he means to whip the 40,-000 Mexicans!-then capture the city of Vera Cruz,the navy of course co-operating in the attack upon

All this information is declared by the writer of the letter to have been obtained direct from General Scott himself, that officer finding it useless to affect secrecy, as Santa Anna is perfectly well informed of his plans and intentions.

HASTE MAKES WASTE. In the hurry of the last day, s proceedings of Congress, the bill for the relief of the heirs of John Paul Jones, which was passed by both Houses, was dropped on the floor of the Senate, sell every discription of Books, Stationers and both Houses, was dropped on the floor of the Senate, while on its way, with others, to receive the signature FANCY GOODS, at the Lowest prices, at Wholesale of the President. It was not discovered till it was too and Retail. late for the President to sign it, and therefore failed to

MESMERISM VS. CAYENNE PEPPER.

An amusing trial is now progressing at New York. It seems that in the course of a lecture on mesmerism, delivered in that city by Mr. Sunderland, a very amiable young lady was "put to sleep," and the experiments were going smoothly on, when a very roguish, skeptical rascal of a doctor placed some cayenne pepper on the lips of the sleeping woman. She immediately bounced out of her sleep and her chair at the same time, and gave the doctor striking proofs of being wide awake .-gave the doctor striking proofs of being wide awake.— the principal travelling routes, ect. Just rec'd at the Mr. Sunderland finally succeeded in exciting her organ of Bookstore of J. P. JEWETT & CO, mch 13 benevolence to such an extent, that her combativeness was overcome and her fury left her. The suit was brought against the doctor on a charge of assault and brought against the doctor on a charge of assault and out Semitones, from 1 to \$15, a fine assortment. For battery. In the course of the examination Dr. Reese, a sale at the Essex County Book and Music Establishment, witness, said he considered the test used by his brother opposite the Mansion House. physician a very mild one. His plan has been to say in a determined voice, that he was going to put some boiling water on the patient, but ju every case, the sleeping subject awoke before he had time to make the experiment. The case has not yet been decided.

BOSTON MARKET-Thursday Afternoon, March 11. Cotton—Prices without change; sales today 200 bales Provisions—Sales of 50 bbls mess Pork at \$16; 25 do clear \$18; prime \$13,50; Western mess Beef \$13,4 mos. Flour—The transactions are quite light; Genesee common brands, \$7,25; Ohio, Michigan and Troy \$7,-18 3-4, cash. Corn—The market is rather firmer.—Southern yellow flat sells moderately at 91 v 92c; white Suc; Northern yellow round, at the depot, at 97 a 98c, cash. Sugar—Sales of 100 bbls Brazil to the trade at 8 3-8c per lb, 6 nios.—Boston Atlas.

GRAVITY OF BREAKFAST.

Whether breakfast is the most serious and silent meal because it is first, or because it is the soberest it is difficult to say; but it does generally pass without much talk that is worth recording. Punsters very seldom pun at breakfast, and the narrators of long winded stories are at that time more sparing of their tales. There is then seldom any argumentative discussion, or any play of wit. Breakfast is altogether a matter of business, an affair of life and death, because if people did not break their fast, they could not live. Dinner is quite another thing; that is more a matter of pleasure than of business; and they who speak of the pleasures of the table, and they who speak of the pleasures of the table,

Committee begin to report leave to withdraw upon similar applications, since the decision upon Prof. Tatlock's A man may dine with Duke Humphrey five days in the week, but it is a much more serious matter to breakfast with Duke Humphrey.

WAR NEWS.

The Boston Times of yesterday, publishes a report of rumored engagement between Gen. Taylor and Santa. The report says the conflict was long and severe, but the Mexicans were at last driven from the field, and that there was great loss on both sides. Qen. Arista is stated to have been amongsi the wounded. The account,

committee, the old gentleman never tires, but has pursued his cause with an almost sleepless vigilance; and it is more than insinuated that he has succeeded in confounding all those committees whom he has had the good satisfied with the Fire Ward attached to the Engine, the numer in which he has been forced upon the Company, and more especially, the manner in which he has treated

Voted, that the Standing Committee, dispose of the property of the Company at private sale, or Auction, as they may think proper.

Remember in all cases that you are not deceived by thing that appear to be facts.

EMEMBER also, that, Legaine's Vegetable

Pills have in their composition two of the most valuable medicines in the world, viz: Sarsaparilia and

Str: Please send us one gross of Lorraine's rills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever; but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable cer theates from our citizens.

C E K F I F I C A I E S.

From Dr. John C. Warren, of Boston.

Having half occasion to observe, that some persons affected with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the percularities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.

After some months of observation of his work, I am satisfaction for these instruments, and ingenious in accommodation.

Respectfully yours,

E. MASON.

Chelsea. Jan-3d, 1844

Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winard coald get be thing that would relieve me more han tempororily. I heard of the wonderful virtues for Lorraine's Pills, I nad no faith whatever, but I took them, and it is a solemn fact that when I had taken but eight pills! my Rheumatism had entirely left me, and I have remained well ever since.

Respectfully yours,

E. MASON.

Edd that Mr. Fuster is well acquainted with the manufacture of these instruments, and ungenious in accommedating them to the variety of cases which occur. I feel myself cailed upon to recommend him to my professional but them, and to the public, as a purson well fitted to their wants in regard to these important articles.

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted. left me, and I have remained well ever since.

N. B. I never took more than one pill at a time N. B. I never took me...
And that on going to bed.
Yours respectfully,
W. M. HALSTAL

Inable to raise the Hands to the Head!

Sir—For three years, Scrolula had produced such ffect upon my constitution, that I was unable to aise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the hair or wild erears. the brain or vital organs. My pains were violentall medicines recommended did no good. At last, I tried LORRAINE'S VEGETABLE PILLS, which gave mmediate relief, and have entirely cured me. Respecifully, your ob't serv't,
JAMES CODSON, Esq.

Bath, Maine. July 16th, 1844,

day that I was cured immediately upon taking one dose of Dr LORRAINE'S PILLS. J. BROOKS.

umilar letters to the above, but believing the above extracts will serve for useful purposes for the present

New England Office and General Depot, No 10 Brattle Square, Boston. Lynn, Dec. 17th, 1813

Sir; I have sold all the pills I last had of you Improved Air-Tight, double cylinder; please send another lot immediately. The sale of Also, the various patterns of Air-Tight, with or without Lorraine's vegetable Pills is rapidly on the increase-they are becoming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One iact I have noticed, that no one that has used them result have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed; a great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lor carely with the proper many other cases. raine's Pills!! I might name many other cases rating. Pills! I might name many other cases and any order in this line will be promptly attended to, and broken Paper, for \$1 a ream—with an extensive astime.

MUTUAL LIFE INSURANCE.

MUTUAL LIFE INSURANCE.

The subscriber has 32.1137.1.1.1 a 3.31t or D11v3 and viciuity, of the New England Mutual Life Insurance Company. This Company is formed upon the surest foundation. Its rates are based upon the latest and best observations of the decrements of life, according to the experience of the oldest of the English Companie. It is the most carefully managed of any of the kind in the country, and has been thus far remarkably successful.

Since commencing, February 1st, 1844, to April 1st, 1846, has issued 936 policies.

The amonats from 200 to \$10 000 each.

Net fund accumulated (owing to the favorable turn of risks thus far) \$39,500 besides guarantee capital.

Surplus to be refunded to members at the end of every five years from Detember, 1843.

Directors—Willard Phillips, Robert Hooper, William Parsons, Charles P. Curris, Francis C. Lowell, James Read, George W. Kulin, William W. Stone, R. B. Forbes, Peter Wainwright, Thomas A. Dexier, Otis Tufts.

President—Willard Phillips.

Sec'y—Jonathan Amory.

A person in his thritieth year in order to seenre one hundred dollars to his family at his decease, pays annually. during his life, \$2 23; or he pays \$22 80 to insure \$1000.

Any one in the 24th year of his age, who needs a credit of \$500 for three years, to begin husmess, where the only obstacle to his obtaining the credit is the uncertainty of life, may obtain the same by paying annually, for that period, \$5.15. Or if he needs \$5,000, he gets the credit by paying annually.

A creditor may frequently give himself additional secur-

of, \$5.15. Or if he needs \$5,000, he gets the credit by paying annualty, 51,50.

A creditor may frequently give himself additional security for his debt by insuring his debtor's life.

Onc. while he is solvent, may secure a provision for his family on his decease, though he may die insolvent.

Life insurance is betten appreciated by the community, with every day, and it cannot be long hefore its benefits will be as generally acknowledged as those of fire insurance are now ance are now.

Blank forms of application, tables of rates, and any additional information will be given on application to

DANVERS, (Mass.,) SATURDAY MORNING, MARCH 20, 1847.

NUMBER 52

DANVERS COURIER: PUBLISHED EVERY SATURDAY MORNING, IN LUNT'S BUILDING,—UNDER ASHLAND HALL, At One Dollar and Fifty cents a year, IN ADVANCE.

Single copies five cents each.

ADVERTISEMENTS inserted on very favora

GEO. R. CARLTON, Editor.

BOOK, FANCY AND JOB PRINTING Books, Pamphlets, Cards, Ball Tickets, Billets, Circulars, Show Bills, Deeds, Labels, Blanks, all kinds, Anction Bills, Hand Bills, Billheads, Catalogues, Bank Checks, Bills of Latling, etc., etc., excented at short notice, and on the lowest terms.

Miscellann.

FOR THE COURIER.

The Opening of the Granary. A TALE OF THE FIFTEENTH CENTURY.

> CONCLUDED. CHAPTER VI.

'Holy saints and martyrs! blessed angels and apostles! of the highest too. Whew! what a blast was there; hear it rour and rumble, sweeping and tearing along over the house tops. Mass! the demons of the tempest are abroad this night with a vengeance, I would be right loth to wager a flagon of choice Canarics, that the storm will not descend anon, in all its fury; 'tis lucky we have a shelter from its wrath.'

The above ejaculation proceeded from pious Peter, and was addressed to his companion, Mathew Staples, as it; if the gram merchants will not let the people have thry both stood, concealed in a dark nook, beneath an archway, at the entrance of the lune before mentioned in this history, which led to Roger Greene's abode.

"Tis all the better for our enterprize, is the weather such a time as I would have chosen could I have had the making on' .. We shall not be likely to be disturbed in our job; the saints grant though, that if its going to ter of rejoicing, son Richard, that there are dealers in rain it may come down speedily, and be over, before we begin the work. Yes, by the rood 'tis a glorious night; tions; these have sold bread in large quantities and at there will not be many walking forth for pleasure in it

'It is chilling to one's blood though, to stand here stock still like a graven image, waiting for the laggard captain,' observed Peter, 'but, the saints be pri ised, I forget not my flusk of sack when I left the roof of mine host of the 'Mug and trencher,' I will e'en take a pull at it.'

Have a care; let the cups be scanty now; we need clear heads when business like ours is in hand,' said Matthew warningly to his associate.

'A truce to your caution' retorted pious Peter, 'my head is well seasoned. I trow! it would be a sad pity, an it were not after so many years practice,' saying which, father Peter tucked his quarter staff under his arm, and thrusting his haud into his bosom, drew forth a portly wicker bottle, which uncorking, he applied to his lips and ong and hearty swig, then proffered the same to his comrade who notwithstanding his admonitions in referance to temperance, did not refuse to take a very decent pull therat and then restored the bottle to its owner.

'And when saw you, master Cliford last,' asked Peter; By my troth he seemes to be wondcrous slack in keeping his appointments; at what time did he promise you to

'At the ninth hour at furthest,' rejoined Staples. 'I par-• ted with him at twilight, and he went then to arrange with the sentinel at the gate, to be at that part of his rounds at the proper moment, so that we should not be delayed in our egress from the city. After that, he was to repair to the Monk's cave, in Hornsey wood, where the booty is to be hidden for the present, to remove the stones and rubbish out of the way, and ascertain beside if the cavern has been visited by any one; though small fear there is of that; the fools dread the Monk's ghost too much to venture that way, by day or night.'

'Heaven forefend!' said pious Peter, crossing himself with edifying fervor, for the ci devant monk shared the superstition of the age,' a ghost saidst thou? and how came he a ghost? I mean, how came the ghost there; I mean what made the monk a ghost, and when did it :happen that the ghost become a ghost?"

Staples smiled scornfully, as he replied to his companion whose trepidation caused his toughe so to stagger for he himself was a hardened ruffian and feared nothing.

'Why, I am not much in the mood for story telling in brief. Many years ago the old cavern we are speaking a monk, in fact, but a spy in the garb of one, being a about the work straightway. By laboring diligently I of, was the aboue for a season, of a monk-who was not secret agent of one of the factions at that time, who was think I can finish it before morning—the alderman must appointed by his leaders to reside in the cave, and get not be disappointed, for he has been a good customer a intelligence of the doings in York, the people of which long time. Shortly after the father and son separated, belonged to a party, that was opposed to him. After a the young man to set about his task, and his parent to time, his correspondence with the traitors in the city proceed homeward. Hardly had the retreating footsteps was found ont, and he was set upon and slain one night died away in silence, when the tower clock, from its airy by his enemies at the door of his cave. Ever since, at height, rung out ten solemn notes on the night air. intervals, the people say, his ghost walks about in Hornsey wood; some said they have seen him,' added Staples with a sneer.

Pious Peter's forebodings in reference to a coming storm, were verified even sooner than he expected. During the foregoing conversation, the sky had assumed a color of the most inky blackness, and so compact was the mighty pall that formed one vast blot over all cloud could be seen—all blended, from the zenith to the night, and now let us do the job without further delay; horizon in equal intense gloom,

Scarcely was Matthew's legend closed, when a poal after it, and then several vivid flashes of lightning fol- tance, when they struck asideinto another narrowstreet, lowed; a rushing was heard through the air, for the sombrous mass above was rent asunder, and then the rain descended in torrents. At that instant, the skulking pair heard the tread of running feet approaching-them, and, in their hiding place, they saw by the dim increase of the three darted quickly across the read, and stood in the ere they had scarcely secreted themselves more securely dash into the same shelter.

"Tis the young springald Richard Berney,' said Stamoment round one of the stone abutments that sustained the arch; the same, who set upon us so unexpectedly on the night when the captain and I carried off pretty mistress Margaret, and gave the captain such a grievous I judge to be his father.'

After enjoining father Peter to silence, Matthew bent his ear to listen to the conversation which had begun between the coppersmith and his parent, for it was indeed them who had sought refuge from the storm. But he was unable to catch distinctly the first words, which appeared to be, in effect, mutual congratulations on their but the night is of the blackest, and the wind somewhat providential retreat; but just then, the wind sunk con siderably, being one of the intervals of the storm, and Staples was enabled to hear more audibly the dialogue which the father and son held together.

'And where hadst thou been, father, when I met the at the turning,' asked Richard of his parent.

I had been up yonder at the Trade's Hall, where a neeting has been held to devise measures for the relief of the suffering poor of the city,-but no good came of their stock at moderate rates, I know not what remedy there can be. There are some hopes, however, that the Bishop's eloquent plendings may have some good effects. The bishop of Norwich, who hath just come into the Father Peter,' returned Staples in a grnff whisper, 'and city, is a good man, and spoke right sharply to the merchants, about extortioners and others, citing holy text in proof of the punishment that awaits them. It is a matthe town, who needed not the worthy prolate's admonilow profits, to their glory be it said, and the distress has neen lightened in consequence. Would there were more such to follow the good example.'

Richard made a suitable reply to his father's remarks. and then the elder Berney continued:

But I have learned in the street, since the meeting has been broken up, tidings whereat I am inexpressibly delighted; indeed, it is in the mouth of every one, for the multitude as soon as they got the cry, took it up in carnest, and have spread it from corner to corner, all over the city. The saints grant that the intelligence may

'And what are these good news?' asked the son.

Briefly thus,' said his father, 'that our foreign merchants, resident in Spain, hearing of our calamities, were about sending a fleet of vessels laden with corn to our relief—the harvest there has been very abundant. This news was brought to-night, by master Gorman, who hath just returned to London, where the story was rife, and he added that the ships were expected every hour when much as he can and direct it hither.'

Richard testified his satisfaction at the tidings, after which his father approached the entrance of the arch, and look forth. 'The rain hath ceased,' said he; 'the clouds are broken and rolling away in huge masses northward; I can already see the stars dimly twinkling through the light gaps in the sky; we may safely go on I think,whither goest thon, son?'

'I was bound to the workshop, when I met you, father. 'And that minds me of a thing, which the news of this night has well nigh banished from mine head. Hast thou finished the ornamenting of the soup dish, thou wert making for alderman Purcell?

'Not yet,' said Richard, 'I can complete it in one more

It must be done to-night,' returned his futher; the aldorman sent his servant with a message to me, at eventide, saying that the vessel must be ready early to-morrow morning, for master Purcell, his son cometh of uge, then, and the alderman is to make a great feast for the occasion: I marvel that people can think of feastings and junketings at such a time as this, when war is without now, but to satisfy thy curiosity, I will sum up the tale the walls and famine within,' and here the old coppersmith gave utterance to an indignant groan.

Since that is the case, answered the youth, I will go

There struck the hour,' said Staples, to his comrade We may now expect the captain.' 'Saint Martin be praised, ejaculated father Peter,'

am verily benumbed.' At that moment a stealthy, gliding foot was heard and the Laucastrian joined his confederates.

'All is prepared,' whispered he, 'the carts and barows are in readiness at the places: the storm has clearthe firmament, that not the slightest portion of a separate ed away, opportunely—I was fearful 'twould last all we cannot be too speedy.'

a single clap without any prolongation of sound or echo of Roger Greene, following it however but a short disand thence into another, and, after a series of sinuous windings, which need not be detailed in full, covertly approached the rear door, of the store house, which the merchant fondly hoped was secret. After casting cautious looks around, and seeing that all was still and silent, light which the broken veil above let down, two persons shadow of the building, and then Staples withdrawing his lantern from nader his garments, lighted it by means the place, whither they conveyed their booty; so, waitof a flint and steel; then shutting the slide, all but a litples in a whisper to his comrade, after he had peeped a tle space, turned the streak of light on the look of the door, wherein the captain inserted a key selected from his bunch, and the entrance not being barred within, easily gained admittance. Their keys gave them ready access through several rooms, after they had ascended knock on the crown as well night finished him—the other the staircase, until they finally attained the chamber that held the object of their plunder.

'Holy saints! what goodly spoil is here,' cried pious Pcter as he surveyed with greedy eyes the sacks of grain before him. What a rich Egyptian is this master Greeno! -but Pcter's extatic outpouring was cut short by Clifford, who sternly checked him, for the monk's voice was exalted in his admiration.

'Be silent on your life,' said hc, 'you will betray us by your thoughtlessness, and let us commence our task else we have much ado to get all the sack conveyed to the cave, before the day breaks.' The Lancastrian then proceeded to arrange the division of labor by which they should act, and having settled this, they left the building the sucks of grain from the cart. in company and repaired to a low shed near by, in which were hidden several barraws. In further pursu- father Peter, as, with his companions, he shortly emergance of their plans, explained by Clifford, Staples and ed from the cavern. Peter took each a barrow, and then returned to the storehouse to begin the work of removal, while their leader repaired to the walls, which were but a short distance found. off, where he found the sentinel whom he had corrupted, with a horse and cart in readiness. It was not long before Staples and Peter arrived with the first instalment of the booty, which was quickly transfered to the vehicle, and then the Lancastrian mounting the seat, drove off to essary to follow in detail the successful progress of the obbers in their nefarious enterprize, to describe the enhusinstic zeal of pious Peter, in the performance of his share, and how he paused occasionally in his labors to wipe the sweat from his fat face, engendered by his unwonted, but grateful toil, and soluce himself by an application to his bottle, to depict the exertions of his cooler companion, and his graphlings at being saddled with father Peter, by the captain, with the most laborious portion of the task, to attend the Lancastrian himself in his department.

We return to Richard Berney, and follow his fortunes after he parted with his father at the archway. The coppersmith soon reached his workshop, where he immediately applied himself with all diligence to the completion of the soup dish, laboring with such good will and energy that the vessel was finished long before morning. Having ended his task, Richard took his club and locking the workshop, departed, taking his way homeward. When he gained the arch which fronted the lane leading to go to London, and await their arrival, and purchase as and them the dark outline of the merchant's mansion, the way from the mouth of the cave, and then hastily remering of a light for a second, at one of the upper lattices, succeeded by instant darkness. He knew that it could not be Roger himself who had taken that time to visit his hoard, for he had but a short time before, left him helpless on his sick bed.

'It must be robbers, who have discovered, and broken nto the granary,' said the coppersmith to himself, divining at once the true state of the case. Being satisfied of the correctness of his surmises, Richard resolved to advance cautiously towards the storehouse, near enough to observe the proceedings of the depredators, and find out their numbers, intending to attack them, if they were not too numerous for his single, unaided arm. Acting on this impulse, and grasping his quarter staff in a stronger clench, the coppersmith approached stealthily, and fortunately reached unperceived the shadow of a building opposite the granary. Here he ensconced himself for further espial, and to deliberate what course next to take. The idea of raising an alarm was not to be thought of, nor had he cutertained it for a moment; it would have given the robbers a chance to escape, and moreover, drawn countless other depredators with which the city swarmed-made desperate by the disresses of the time.

He had not long been concealed, and had time for the orming of no scheme to thwart the robbers if they should prove too many, when he heard the sound of fect lescending the stairs; the door opened, and Staples with his two companions, (for the sentinel had joined them during the night) appeared, each bearing on his shoulder a sack, which was carried to the barrows that stood in a dark angle of the building where Richard had not observed them. The three robbers then took up their several loads, and proceeded towards the city gate, and the coppersmith, who did not care to risk an encounter with the three, two of whom he saw were armed with swords, conjecturing that they were all who were in the granary, entered it hastily, with his weapon ready in case of surprise, darted up the flight of stairs, reached the store room and glanced in. It was empty. He hurricd down again and out of the building, taking the course the thieves pursued, yet with us little noise as possible,

the two were confederates. But the coppersmith, although brave, was less dispos

ed then ever to attack the party, now that there were four to one; and besides he was desirous of discovering ing until they were far enough ahead, he left his concealment by the wall, and followed on in their track, keeping near enough not to lose them, yet not so close ln their vicinty as to be in danger of revealing himself .-Dogging their course in this method, the unsuspected spy soon entered the gloomy shadows of Hornsey Wood -a circumstance of great satisfaction to him, as it gave him, better facilities for observing their proceedings, and for remaining himself unseen. Gliding from bush to bush beside them, through the coppice, therefore, while the robbers kept the wheel track, the coppersmith, bore them company, until the farmer emerged into a small, open piece of ground, without tree or shrub, and, crossing it, halted at the other side, where a high, cliffy mass of rocks, towering many feet into the air, cast back its frowning shade on the sward. At the base of this ledge, Richard saw a cavity, which was revealed to him by the light of a lantern, swinging from a root in the rock above, into which the robbers immediately entered, with

'Holy saints! but 'tis a dreary spot and darksome,' said

'Aye,' said Staples, 'the spy who lived here, had a choice shelter to hatch his plots in; a better could not be

This reference to Matthew's tale, under the arch, avakened at once, Peter's superstitions fears, and his teeth chattered as he cried in a voice rendered husky byhis alarm

Saint Martin shield us, and preseve us! and grant that the ghost's monk, I mean the monk's ghost, I would deposite it in the cave, at Hornsey wood. It is not nee say the spy's ghost, may not appear before us, and whisk us over the cliff, neck and heels, for our intrusion, and pious Peter began crossing himself with great zeal.'

'A truce to this folly,' said Clifford, 'there is far more danger from the living than the dead, and now I bethink me of something which ought to have been done before The granary must be locked up and left as we found it to delay as long as possible the discovery of our work.

Here, take the keys, Mathew, and go do it; and you fartin (to the sentinel) go back with the cart, and put it together with the barrows whence they were taken .-Be speedy, both Father Peter and I will tarry for you herc. Staples and his companion, accordingly departed on the fulfilment of their respective commissions.

Richard concealed near by, in the brushwood, lost no word of the above dialogue; he saw with joy the division of the party, and having learned the place of the grain's deposite, was about to rush forth and attack the remaining two, when the voice of father Peter arrested his purpose for a moment.

By the mass, sir cuptain, but I am right glad, the joh to Roger's house, his thoughts naturally were turned is ended, for I am grievously forespent with heat and thitherward, for that was the abode also of Margaret; labor; and Peter here took off his monkish cloak and his eyes following the direction of his mind, rested for a hood, rolled them up, and laid them on the ground, a litgranary. What was his surprise to see the faint glim- when confronted with enemies of earthly mould, he was afraid of the discultedied spirit of Staples' legend, and dared not be alone for an instant.

'Came into the cave,' said the captain to the trembling victim of unreal fears. I have a bottle of wine, there, for thee, Father Peter, 'twill restore thy strength chant imparted to him his business with him, Master and courage.' Peter ob yed with alacrity the summons. A suddon iden then occurred to the coppersmith by which he might get rid of Peter, and make the chances more equal between the Lancastrian and himself, for he was esolved to attack the former at any hazard. Clifford in the fray, he thought was too much, if ne could manage as well as not to prevent it, which he was satisfied he could do by the method just suggested to his mind.— depreciating effect on the prices. As soon as the pair entered the cavern, Richard darted from his hiding place, and seizing on Peter's garments, vanced. Roger's sleep was early broken; and he had quickly donned them and then retreated to his shelter, and awaited the coming forth of the two, hoping that they would appear before Staples and the other arrived, Hopton was annuunced and speedily admitted to his bedsoon enough for him to finish the contest, with the Lancastrian, after which he designed (proving the victor) to come for the keys of your store house. I must first cry deal with the rest. He had not waited above a minute the sale, at the Cross, and market place, I suppose, and or two, when Peter and Clifford came out, the latter much then I shall be ready to sell at whatsoever house it seem cheered apparently by his visit to the cave. Richard oth fit to you to name.' Master Hopton was a precise then stalked solemnly, and slowly forth, with his club and formal man, who liked to do things in a straight forhidden under his dress, and raising his hand, cried in a ward manner, and his speech was unnecessary, for Roger deep, sepulchral tone,

'Ye sacriligious wretches, wherefore have ye thus invaded my spirit's resting place? Hence! Begone!---Father Peter turned for an instant his horror-stricken, affrighted gaze on the apparation (as he conceived) of the departed tenant of the cave, and then, with a yell of mortal terror, fled as fust as his quivering limbs could carry him. The Lancastrian stood irresolute whether to stand or fly, though he was evidently meditating the latter, when the coppersunith threw off his robe and rushed upon him, crying out. 'Villian defend thyself; I scorn to take thee at vantage; draw thy weapon!' Clifford yielded but a moment to his surprise at seeing the artisan before him, and, unsheathing his rapier, with equal impet- was heard, blending with the cries, shouts and other

No more was said, and the robbers took their way and keeping on the darkiest side of the way reached the cosity closed with his antagonist. Not a word was spoke noiseless down the lane that led to the doomed granary eastern gate, just as the Lancastrian, accompanied by en. For some time the young copporamith had much him through the body. The Laucastrian fought with the most deadly intent, juspired by hate and the necessity of ist, whom he had, indeed, suspected before, when he cutting off the spy, who had discovered the hiding place saw Staples come out of the granary, for he knew that and the blind impetuousness of his fury, it was, that defeated his object. Being more bent on the destruction of his enemy, than to guard his own person, he incautiously exposed his head, when the artisan, taking advantage of the opportunity, bostowed a blow thereon, which, alighted upon the left temple of the hapless soldier, stretched him dead at his feet. At the very instant that Clifford fell, the coppersmith humself was laid senseless beside him, from another blow dealt by the strong arm of Mat-

thew Staples. Bring bither the lantern, Martin, said Staples to the cutinel, who had just come up, there is a spy met with his deserts; would I had been sooner; it was brought, and Matthew bent over the bodies, and inspected them .-Ha, 'tis young Berney, how came he here I marvel,

But he has slain our leader; the captain is dead of a crity,' and so also is the coppersmith, and where is father Peter, I trow!

But Stuples busical himself no longer then, in conjecures as to the origin of the catastrophe, for the daylight was increasing, and he was fearful that people might be passing that way anon; so, with a brief direction to Martin to assist him, they here the dend body of Clifford and the senseless one of Richard Berney to a part of the coppice screened from sight of any passers by, intending at night to dispose of them by burial, then after covering the aperture of the cave with brushwood, made their hasty way to the city, to seek out Father Peter, and arrange together, the time and manner of conveying the grain to the troops, as Clifford had intended,

CHAPTER VII.

While the nefarious abstraction of Roger Greene's hoarded property, recorded in the last chapter, was in progress, that individual lay slumbering in his hed, in blissful ignorance of those transactions, so vitally conerning his pecuniary weal. We speak advisedly in saying that the merchant, slumbered though on the eve of the consumunation of his long cherished hopes; for na. ture was exhausted, and the cares and anxieties he had endured so long, together with his prostrating illness, had sunk him beneath their ponderous weight,

The criminal sleeps on the night before execution, and so, also, perforce did Roger, on the night which was to usher in the day of the opening of the granary. 'Ye, though he slept, his drenns took up the subject of his waking thoughts, and made his slumbers restless. Not one of the countless throng of airy funtusies, however, which flitted round the sick man's couch, whispered in his ear, descriptions of the scenes of want and woe and famine, they saw as in shadowy wing, they, darkling swept the city. No, they told of bright, red gold poured freely forth, in glad exchange for means of life; so well they painted this, that Roger heard plainer than if nwake, the twinkling flow of coin, (to him blest music) into his coffers. So passed the happy night.

But we must go back a little in point of time. Roger, having satisfied himself, (unwillingly) that he should not pe able to attend to the sale, in pers sickness, and resolving no longer to delay it, had on the afternoon previous, sent a message to master Hopton, a grocer of the city, in councction with whom, he had performed, at times, speculations of various sorts, with divers other business, and in whom, he had trust and confidence. This individual, the merchant had fixed npan, to entrust with the disposal of the grain, subject, however to his (Roger's) instructions. The worthy grocer, in compliance with the summons, repaired to Roger's abode and was hugely astonished when the mer-Hopton consented to the agency, and soon after took his leave, having exacted from Roger, in requital of his services, a percentage, whereat, the merchant was inexpressibly grieved. But there was no help for it; the sale must take place, and could not be postponed; for had a sword, while Richard's weapon was merely a the merchant had heard of the Spanish supplies, and quarter staff, this disparity, with the addition of Peter though the news was generally discredited in consequence of later intelligence from London, which contradicted the report, he was fearful that it might have a

We return to the current time, to which we have adscarcely finished the light repast, which the affectionate care of Margaret had prepared for him, when master side, 'Give you good morrow, friend Roger; I have had not only expected his visit, but had appointed it, and the keys had been lying by his bedside, in readiness all night.

After a brief conversation between the two, in whi: he excited tones of Roger's voice proclaimed his interest, master Hopton took the keys and departed to exeente the first part of his duty. It was not long before he listening expectant merchant, whose feelings were strained to the highest teusion, became aware that this had been done; his eager eyes had scarcely turned for a moment from the lane that led to the granury, so rapt were his senses in the coming events, of which that was to be the scene. Auon the limrying tramp of many fect

'What mean those shouts and cries?' asked the mer chant in quivering tones. 'Do thon look forth, Margaret, and see what hath happened; mine eyes are dimmed fever, which has weakened them.')

taking) of frantic, savage exultation.

broken before her gentle efforts were put in requisition

All at once, there arose from the neighborhood of the

almost have wakened the dead to life and animation.-

Roger started bolt upright in his bed, and while a name-

Margaret did as directed, and presently replied, 'I know not what has taken place to move them thus, but the attempt, not without secret satisfaction, both at his the people seem to be beside themselves with joy: they throw their caps and clubs into the air; see, even the ing the day, he and his associate became informed of lame swing their crutches over their heads, and old paralytic men try to dance as though for gladness. Holy saints, what may this portend. But hither comes master Hopton, running the crowd, hooting and yelling, and pointing this way. Some are departing, shouting as they retire; but master Hopton will tell us.' At this moment the individual in question burst into the room, his countenance exhibiting dismay and excitement. Roger Greece city when he fled in such terror from the ficticious appa-money. So there it is. Im so flustrated I dont know rot articulate a word, while the grocer paused, endeavoring from York, with such amazing swiftness, as fear only to summon up courage to make the dread announcement, could impart, and tarried not, except at short intervals of that faltered on his tongue. 'Speak man,' cried Marga- rest, until he had put a wide extent of country between as not to wote in North Danvis. What a muss that face of her uncle, Speak and tell us in a word, what frighted him. He finally paused at a little village, in his hath chanced; see you not that this horrible suspense is way, and after making the most careful enquiries, and killing him! Thus adjured, master Hopton at length receiving the satisfactory information, that ghosts, gob_ found voice. 'Oh, master Greene, and you mistress lins, and spirits were unknown to the townsmen, fixed Margaret, the saint give you both strength to bear the evil news-in a word,' seeing that the merchant was writhing in torment, 'the granary has been robbed!! a visitation from the other world, produced a wholesme Not a sack is left, within the building.' Hopton stopped abruptly, and gazed in silent terror at the sick man, and devoted himself thereafter to the industrious fabricawhose eyes still rivetted upon his own, lost their expression of intelligence, and changed rapidly to a dull stony glance. Still they sunk not from the face of the appalled grocer till after a slight shivering of the body had taken place, a pendulous vibration, and then without a groan the merchant fell back DEAD.

A shriek rang through the room, as Margaret cast herself frantically on the body of her kinsman and gave way to a passionate out burst of grief and sorrow. 'Oh, he is dead, he is dead!' she cried in heart piercing tone; the cruel tidings have slain him. My benefactor and more than father. Oh, he was ever kind and gentle to me, though the world did call him harsh and grasping, and here her choking sobs stifled further utterance. She heeded not when the grocer, roused from his trance of therein the legend of THE OPENING OF THE GRAN- tor of the Wenham Lake fee to supply them with such stupefaction, essayed some disjointed, trembling expressiens meant for consolation; neither did she heed the opening door, without, the quick approaching steps, and sudden appearance of Richard Berney, pale and ghastly, in the room. We shall not attempt to describe the grief Friday last in what has been termed 'the Vanzandt Ohio and anguish of the coppersmith, at the scene before him, the consequences of his fatal absence, as he had too much reason to think, after master Hopton, in answer to abduct, or escape with slaves, not sustained. his burried questions, explained the circumstances in detail. 'A few minutes earlier, and I might perhaps have Van Zandt being the defendant in the Court below, and saved him,' cried Richard, passionately, as he gazed plaintiff on the appeal. Jones, a citizen of Kentucky, with weeping eyes, on the face of the departed merchant bronght his action against Van Zandt in the U. S but I made what haste my weakness would permit, Circuit Court for Ohio, to recover a penalty of \$500 for though alas in vain, and, in reply to Hopton, who was harboring and concealing the the slave of Jones. naturally surprised at this observation, Richard related Judgment was given in the Circuit Court against Van the events of the proceeding night to the grocer, for Mar- Zandt, who moved for a new trial. The Judges of the garet was too much absorbed in sorrow to pay attention Circuit Court were divded in opinion, and the case to what was passing. As we are already acquainted case came into the Supreme Court on certificate of that with a part of the cappersmith's adventures, we take up division. There were some points of form allege, as the thread of his narrative, when he had arrived at the grounds of the motion for a new trial, but the main point where we left him, in the last chapter.

I know not, but when I came to myself, my wound had before the Supreme Court by Senator Morehead, for stiffened, occasioning me exquisite pain which was what defendant in error, and Mr W. H. Steward for the recalled me to consciousness, in all probability. A cru- plaintiff in error. The decision goes to establish el thirst also tormented me, with its imperious cravings; the constitutionality of the act of 1793. I felt convinced that I could not long survive without help and that speedy, and summoned all my strength to

noises of a promiscuous multitude. On, on, poured the raise a feeble shout in hopes that some one might be living tide, of various elements, some to buy, with ser- passing within hearing. But all my attempts were for some time in vain; the sounds died in my throat, at least to steal if opportunity served, and many to beg from the did not penetrate beyond the covert in which Hay. I SATURDAY MORNING. MARCH 20, 1847. gave up at lest, exhausted, and tried to resign myself to my fate, when just at that moment, I heard with joy, the noise of approaching feet along the path near which I was sheltered. I exerted my voice for one last effort the town, by the proposed annexation of some of our and fortunately succeeded in attracting the attention of most respectable inhabitants to Salem; and that every the person who was coming, who proved to be a peas-body is surprised that a Legislative Committee should ant, going to his labor. He found me, and after I had re- favor this measure, against the wishes of the town, withen with famine, hobbled along at their best speed to join lated in few words the events of the past night, harried out any corresponding equivalent therefor. Yours till deth. DOROTHY WILCOM. P. S. I have just come home from neighbor Carlow's and such a time! She says we ought to be set off and then her husband will be an Alderman or a common something, (I forget what) and her boy Johnny may grow gittin up a partition agin it, and that shows how much they wants us. Then agin he says its more poplar to be a citizen than to he a townzen and the latter is werry wulgar. Thats what the Curlows says, but massy on us Widder Hornbean that lives in Danvis tells me Salem is anawful place, where they murder the rich old men in their beds, and midnight sendames set fire to the barns and woodhouses in broad day light. Besides all this, she says Salem is a sceport and its war time now, and the what to do-

up-a-long to have all South Danvis sot off on to Salem so Scott, Taylor, Patterson and Butler, to be recalled. as not to wote in North Danvis. What a muss that will make! The Aldermen and watchmen and measles declaration, that having searched the laws of the U. States for my desire to give him a little fatherly for precedent or authority, he finds none which will allow ing his school-boy style, which evinces a people will all go to meeting in Salem. Danvis Bank bills will be all counterfits because there wont be any Danvis bank, and the buildings will all burn down thats inspred at the Danvis Insurance Office and the little children be all burnt up in their beds! I in worried to deth tant General, in order that there be no hindrance to the and narvy as a wizzerd. Then there is a new inwisible Comet to be seen in the sky and something always happens after it. I'm all topsy turvy and cant write any more. Send your next letter to Salem, but dont rite any thing that you dont want the folks at Washington to be peeking into, because we may not have to move to Salem after all owing to the governer's wetoe. Good by Sukey and come and see me when I live any where, for I dont live nowhere now being in a state of wibration and oncertainty.

A NEW ENTERPRISE. We understand that three of our citizens at the Plains Messrs. Jos. W. Ropes, W. L. Weston, and Henry T. Ropes have lately formed themselves into a company for the purpose of opening a trade in ice on a somewhat exquantity as they may need. One of the Company-Hen_ ry T. Ropes Esq., sailed for Liverpool recently, with the intention after his arrival at that place, to proceed to France, and some other countries on the continent, and acquaint himself with such facts concerning the trade in slave case. The judgment of the Court was affirmed and this commodity as he may be able, and should he discover, as it is anticipated he will, that a successful business can be carried on, he will establish the necessary depots, by the erection of suitable buildings, and the Company will immediately despatch cargoes of the purest quality of Ice from Wenham Lake.

We have received a communication from a wellTwo days march from this place, we travelled fifteen shrend statences, we see one of the greatest e miles through a hamock, composed entirely of lemon his genius—his exquisite faculty for delinest We have received a communication from a welldeleterious effects resulting from the use of water which is procured from wells by lead pipe, or in any way conveyed by, or comes in contact with lead. As there are several long extracts attached to the article, from a recent publication on the subject, we cannot publish the communication this week, but will with pleasure give it an insertion in our next number, as we shall then, not be so cramped for room.

The Court of Common Pleas is now in session in Salem-Judge Ward on the Bench. The jurors from this town are Charles E. Brown and

Francis Dodge. Messrs. Lewis Allen and Samuel Preston are grand urors from Danvers fer 1847.

DANVERS AND MALDEN ROAD.

The examination on the Malden case is progressing and we understand the petitioners expect to get in all their evidence by Monday. The Eastern Railroad will then occupy some 3 or 4 days, when Mr. Choate will close for 28th of February One Atacha, s the petitioners. The evidence is said to have come in missioner, has returned from Mex very well, so far, in favor of the project; and a reasonably received at Vera Cruz and M able hope is indulged in that the charter will be granted. The number of petitioners thus far we understand is nearly 5,500 besides the petitions of some 1500 ladies. Of the male petitioners there are 690 from Danversover 1700 from Lynn-307 from Sangus-191 from Malden, 1145 from Boston-451 from Salem.

A correspondent of the Salem Gazette suggests the wife, dressed the wound, and used such other resterative of the prever of the petition be granted, it would only the candidates for County Commissioners. hun to place Col. Benton in command of the army in Mexico.

Mr Benton responds to this with all due courtesy, by informing that he has sent in his resignation to the Adjummediate appointment of a successor to take his clooked behind the glass; he would then

The following is a copy of a letter addressed by a native of this town, to his mother. The writer has been for some years connected with the United States Army,

and is now engaged in the Mexican War:-

Tampico, Mexico, Feb. 19, 1847. Dear Mother—I embrace this opportunity of sending you a few lines, to inform you of my "whereabouts" and the state of my licalth. I am well, though we have had pretty hard times since I last wrote. We have had no fighting, except a few skirmishes, which happened on the roads near the mountains. Since we first left Monterey, we have marched nearly six hundred miles. Tampico is the most beautiful place I have seen since we came into Mexico. There are a great number of French, English, and Americans residing here, and the weather is as warm at present, as it is at the north in the month of July. We have a plenty of all kinds of fruit, such as oranges, lemons, plantains, bananas, &c. There are at present, here, about twelve thousand troops, and shiplat present, here, about twelve thousand troops, and snip-loads are landing every day. Gen. Scott is at Brazos, Santiago with three thousand Regulars; they will be here in a few days, and we shall then start for Vera Cruz, where I expect will be a tremendous battle, and a great many lives lost. If we take that place, we shall next march for the capitol, and I think the Mexicans will then be satisfied. We are encamped about two miles from the town, on a hill near Panuco river Gen. Twiggs commands our division at present, which includes the first, second, third and seventh regiments, besides the igiment of riflemen.

On the route from Monterey, we passed a great many Mexican towns, the people resembling Indians more than anything else, and most of them were nearly naked.—
Two days march from this place, we travelled fifteen trees; the ground was covered with the finest kind of fruit, with nobody to disturb it. The trees were filled with birds of the most beautiful plumage; parrots, paroquets, and red birds of all kinds were to be seen in great

I have not time to write more now. Perhaps I shall not have a chance to write again before we start. If I should live to see Vera Cruz taken, I will give you all the par-what were Shakspeare's real, sober convic

To the second se

son's conservative admirers, if it be true that he opposes theoretically and practically, among other "radical" reforms of this ago, the Temperance movement? Is it a Lynn who, on Friday, petitioned in favor of that road. fact that he ridicales the idea of the tee-total pledge?— In application his adherence to the "good old-fashiooed ideas," do they mean to commend him, in this respect?

No harm at all in merely asking questions.

With a few finre "radical" quotations from Shakspeare, I will now, Mr. Editor, bid your correspondent "good morning."

"Wilt thou draw near the nature of the gods? Draw near them then in being merciful: Sweet mercy is nobility's true badge." [Titus Andronicus, Act 1.

"O, that estates, degrees, and offices, Were not deriv'd corruptly! and that clear honor Were purhchas'd by the merit of the wearer! How many then should cover, that stand bare? How many be commanded that command? How much low peasantry would then be glean'd From the true seed of honor? and how much honor Picked from the chaff and ruin of the times, To be new varnish'd?"

[Merchant of Venice, Act I. "But mercy is above the sceptre'd sway. It is enthroned in the hearts of kings. It is an attribute to God himself; And earthly power doth then show likest God's When mercy seasons justice." [Ibid, Act III. "The varer action is

In virtue than in vengeance: they being penitent, The sole drift of my purpose doth extend Not a frown further." [Tempest, Act V. "Who by repentance is not satisfied, Is nor of heaven, nor earth."

[Two Gentlemen of Verona, Act IV.

"From lowest place when virtuous things proceed, The place is dignified by the doer's deed: Where great additions swell, and virtue none, It is a dropsied honor: good alone Is good, without a name; vileness is so: The property by what it is should go, Not by the titte."

[All's Well that ends Well, Act II.

Massachusetts Legislature. Correspondence of the Register.

Buston, March 13, 1847.

The hearing upon the Eliah Parker petition for a Railroad from Danvers through North Reading, &c, has that the officers been finished this week by C. T. Russell, Esq, who summed up the case on Friday forenoun. In addition to the through lusiness to Lowell and Lawrence, which this determines the chair for the foreners and ed to be printed. route propose to accommodate, their first survey contenting plated insiding only from N. Dinvers by Tupley's Mills in Danvers, and the Paper Mill in Middleton; at the same time furnishing fee from Martin's Pand, of good quality, as they allege, and upon which they produced some demonstrative proof, notwithstanding others testified quality, as they allege, and upon which they produced some demonstrative proof, notwithstanding others testified to the brandy color of the water in said pand. It also appeared that there are forests of wood now growing in the vicinity of N. Reading, which, if this road were built would be sufficiently enhanced in value to alone pay the cost of bailding it. Gramite, &c., is likewise relied upon as furnishing business; and a new element has entered into this case, in the shape of a Soap-Stone Quarry, which, however, as its opponents allege, is of too hard a nature to succeed in soap-ing the committee. The other survey starts from S. Danvers and proceeds direct to North Reading, and, as far as mere science is concerned appears the most feasible roate. E. II. Derly, Esq., opposed this grant, both in behalf in the Salem and Lowell project, as well as for the friends of the chartered line of the Essex Road. He here strongly against the want of the Essex Road. He here strongly against the want of the content of the c of the Essex Road. He here strongly against the want of local business upon its line, and contended that to complete the present line of the Essex road, and also to build all the road asked for by T P Pingre, &c, between Salem and Lowell, would only require four miles more to be built than by the proposed N. Reading rante. In addition to the heavy business at each terminas of the Essex. tion to the heavy business at each terminus of the Essex road, he also contended strongly for the interests of New tian to the heavy business at each terminus of the Essex road, he also contended strongly for the interests of New Mills in Danvers, that being the nearest tide water to the new city; and likewise urged the important business of N. Andover—also the claims of Middleton, as well as the incidental benefits of this route to Topsfield, Boxford, the Board of Fireward shows that the Fireward complete the presentation of Firewards shows that the Fireward complete the presentation of Firewards shows that the Fireward complete the presentation of Firewards shows that the Fireward complete the presentation of Firewards shows that the Fireward complete the presentation of Firewards shows that the Fireward complete the presentation of Firewards shows that the Fireward complete the presentation of Firewards shows that the Fireward complete the presentation of Firewards shows that the Fireward complete the presentation of Firewards shows that the Fireward complete the presentation of Firewards shows that the Fireward complete the fir incidental benefits of this route to Tolsheid, Boxford, Georgetown, &c. As to distances, it appears that the comparative calculations heretofore may have extended to Andover Bridge, where the Dam of the Essex company is located; and consequently all the factories and basiness will extend below the Dam—hence giving the present chartered route of the Essex road the advantage of running from one mile to one mile and a half through of running from one mile to one mile and a half through and it may be well for the Town to take the subject into and it may be well for the Town to take the subject into and it may be well for the Town to take the subject into and it may be well for the Town to take the subject into and it may be well for the Town to take the subject into and it may be well for the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the contract of the Town to take the subject into a contract of the Town to take the subject into a contract of the Town to take the co to Andover Bridge, pany is located; and consequently an the analysis located; and consequently an the business will extend below the Dam—hence giving the present chartered runte of the Essex road the advantage of running from one mile to one mile and a half through the city, and along by all its survey. Many intelligent friends of the various projects have been heard in testing and otherwise upon these subjects, and many and otherwise upon these subjects, and many and otherwise upon these subjects, and many friends of the Essex road would like the complete their friends of the Essex road would like the complete their friends of the Essex road would like the complete their friends of the Essex road would like the complete their friends of the Essex road would like the complete their friends of the Essex road would like the complete their friends of the Essex road would like the complete their friends of the Essex road would like the complete their friends of the Essex road would like the complete their friends of the Essex road would like the complete their friends of the Essex road would like the complete their friends of the Essex road would like the complete their friends of the Company.

N. P. C. PATTERSON,

Fireward attached to No. 8 Engine, April, 1846.

March 15, 1847.

The Essex Railroad Company have contracted with The Essex Railroad Company have contracted with the Eastern Railroad Company for a loan of \$100,000, and have, in addition, \$175,000 actually subscribed; and there are, as the friends of that route allege, contractors enough ready to build the halance of the road, and take sufficient stock, with the additional amount pledged on Friday, to secure the whole \$385,000 needed. The Danvers and Malden case was opened by Wm.

D. Northend, Esq., on Thursday alternoon, and the hearing continued on Friday, whence it was pustponed until Wednesday next. Mr. Northend went back to the original efforts for an Eastern Railroad, contending that the true line upon which such a road should have been huilt was where the people and husiness were located, which would o'clock have been along the old travelled stage road to Boston. and somewhat as this proposed route runs. But the originators of the Eastern road, in consequence of the inducements and advantages held out to them at East Boston, saw fit entirely to avoid and abandon the interests now represented here, and located their road accordingly, and these petitioners, including over 5,000 legal voters, and the decisive vote of all the towns interested, now ask for those Railroad accommodations to which it has ask for those Raurona accommodations to which it has always been admitted they were entitled—and that, too without having to be subjected to the annoyance and inconvenience of a ferry, or a most obnoxions entrance into Boston. The constitutional right of the Legislature to charter a road directly along side of, and parallel to, the Eastern Railroad, through its whole route, was contended for to its fall extent, alleging, in confirmation of this point, that the Eastern Railroad, fearing its wrong location at the ontset asked for a clause in its charter restricting the building of any road parallel thereto, which was then positively refused. The general policy of legislation in regard to rival bridges, thrupikes, &c., was concisely and comprehensively presented, showing that whenever the Legislature deemed the public convenience to require any such grant, they had always allowed it, whatever the effect night be on others, especially where the new grant was an improvement upon the old, as in Railroads over Transpikes—Bridges over Ferries: which latter would especially apply in this case, as this petition asks a permanent communication with as this petition asks a permanent communication with absolute the inconvenience, interruptions and delays of a ferry. The confessedly important interests of Sangus in this babalf. The confessed accommodation to West Lynn, and the vital interests of Sangus in this babalf. The confessed accommodation to West Lynn, and the vital interests of Sangus in this babalf. The confessed accommodation to the confesse accommodation accommodation to the confesse accommodation to the confesse accommodation to the confesse accommodation to the confesse accommo of Danvers were initingly presented, as well as the indicated accommodation to West Lynn, and the vital interests of Saugus in this hehalf. Testimony from some of the most intelligent friends of this route, in Dan-

critical, bigoted sectarist. He was a free, glad, genial, fresh, natural, true man—untrammelled by creed or tyrannical custom, and warshipping none but God. He recognized ga odness and ruligian nat mily in a long phizand in doleful, measured words, and monkish gloom, but in all free, out-welling, generous impulses of human naturo—in innocent anuaements, as well as in formal devotion—in the rosy laugh of chiblhood and the baoyancy of guileless youth—in any and in every employment, not tainted with moral impurity. I fancy be would have youthed to trip it on "the light fantastic toe," without stopping to ask leave of priest or deacen! Thank God for Shakspeare! May be be understood by those who chuckle at the higuity and slang of the saucy chup who has indertaken to be his lecturing expositor.

Mr. Editor, before I coaclude, I wish to ask Mr Hadsoo's conservative admirers, if it be true that he opposes this project, as hereto-face, and are represented by N. J. Lord, Esq.

There is much interest, of course, lelt in your vicinity upon these questions, and this recurs in some quarters to he protect of the many interest, of course, lelt in your vicinity upon these questions, and the nest regard to age or sex—an incident illustrative of which occurred in the evening train of cars an Thorsday, when several of those most deeply interested, including President Neal, were so the attention of an intelligent lady, who sat in their immediate vicinity, so tinch that she passed all the department of the particular and satisfactions. and faithfully carried out. But the best of the joke is that she proved to be a friend of the Danvers and Malden re- road, and may have been one of the 1,085 ladies of

> In the House of Representatives on Thursday, Mr. S. Shepard, from the Joint Sectial Committee, to which was referred sundry petitions for altering of the laws relating to the sale of spiritness liquors, made a detailed report, accompanied by a bill relating to the sale of intoxicating liquors, the provisions of which are as follows:

Be it enacted, &c. Be it enacted, &c.

Section 1. Every person who shall have been convicted of any violation of the 47th chapter of the Revised Statutes, after the passage of this act, and shall thereafter be guilty of a similar offence, shall apon conviction thereof, in addition to the penalties provided in said 47th chapter, be punished by imprisonment in the county jail, not less than ten days, nor more than sixty days, and for any subtequent conviction of a tike offence, shall be imprisoned as aforesaid, not less than thirty days, nor more than nine-ty days, nor more than nine-

requent conviction of a tike offence, shall he imprisoned as aforesaid, not less than thirty days, nor more than nine-ty days.

Sec. 2. Every person who shall, without being licensed therefore according to law, sell in less quantity than twenty-eight gallons, and that delivered and carried away all at one time, any ale, porter, strong beer, cider, or any other intexicating liquor, shall, on conviction thereof, be subjected to the henalties pravided in the 47th chapter of the Revised Statutes, and lu the first section of this act. Sec. 3. The County Commissioners may license for each city and town in their respective counties, as many discreet persons, of good moral character, as they may deem it necessary, to be retailers of wine oriother prirituous liquors, to be used in the arts or for medical purposes only, and the Mayor and Aldermen of the City of Boston may in like manner and for the like purposes, license such persons as retailers for the City of Boston, and the Selectmen of the towns of Nantucket, Chelsea, and North Chelsea, may also, in like manner and for life purposes, license such persons as retailers for the respective towns; provided that the number of persons so licensed shall not excoed one for each town containing, by the last census, not more than two thousand inhabitants; two for each town containing over two thousand and not more than five thousand and not more than ten thousand inhabitants; and four for each city and town containing more than ten thousand inhabitants; provided, however, that the tunts; and four for each city and town containing more than ten thousand inhabitants; provided, however that the Mayor and Alderman may license such number of persons not execeding two for each ward in said city, as they may

deem necessary.

Sec. 4. The County Comissioners, Mayor and Aldermen, and Selectmen aforesaid, shall establish such reasonable regulations and restrictions, relating to the sale of wine and other spritnous liquors in their respective jurisdictions, by the persons licensed as aforesaid, as in their judgement may be best adapted to promote the public good.

Sec. 5. All licenses granted under this act, shall expire on the first day of April in each year; provided, however that the officers hereby authorized to grant the same, shall have power to revoke any such license, whenever in their opinion the public interest shall require it.

The report and bill were laid upon the table, and order

The petition of Lewis Allen and others, against the annexation of a part of Danvers to Salem, was presented.

Remember in all cases that you are not deceived by thing

that appear to be facts.

PEMEMBER also, that, Lorraine's Vegetable Pills have in their composition two of the most valuable medicines in the world, viz: Sarsaparilla and Fomasoes. These two articles need no praise, neither do the celebrated Lorraine' Pills, when they have

Portland, Me., Nov. 7th, 1843
Str: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have hall no will take the place of others. We have had no fault found with them whatever; but, on the contra ry, they have been praised loudly. I think we could have quite a number of highly respectable cer lificates from our citizens. Respectfully yours,

E. MASON.

Chelsea. Jan-3d, 1844 Sir: Itransmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physiciens of Boston and could get nothing that would relieve me more han temporarily. I heard of the wonderful virtues f Lorraine's Pills, I nad no faith whatever, but it took them, and it is a solemn fact that when I had taken but eight pills ! my Rheumatism had entirely

left me, and I have remained well ever since.

N. B. F never took more than one pill at a time oing to bed.
Yours respectfully,
W. M. HALSTAL and that on going to bed.

Inable to raise the Hands to the Head! Sir-For three years, Scrofula had produced such effect upon my constitution, that I was unable to raise my hand; the bones were in different places destroyed by ulcertion, and I feared it might reach the brain or vital organs. My pains were violent—all medicines recommended did no good. At last, I tried LORRAINE'S VEGETABLE PILLS, which

gave mmediate relief, and have entirely cured me. Respecifully, your ob't serv't, JAMES CODSON, Esq. Bath, Maine. July 16th, 1844,

A severe pain, in both sides cured !!

Lowell, Mass., }

Sir;—For the last few months I have been afflicad with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * It is a pleasure to feet well,—but a much greater one to day that I was cured immediately upon taking one dose of Dr Lorraine's Pills. J. BROOKS.

Sir: I could fill the whole of the Sentinel with similar letters to the above, but believing the above extracts will serve for useful purposes for the present

New England Office and General Depot, No 10 Brattle Square, Boston.

Lynn, Dec. 17th, 1843
Sir; I have sold all the pills I last had of you please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase they are becoming very popular. I sell more and more every day. As a curative medicines and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lor raine's Pills!! I might name many other cases

ABDOMINAL SUPPORTERS. NEW ENGLAND TRUSS MANUFACTORY, BOSTON, MASS.

JAMES FREDERICK FOSTER

From Dr. John C. Warren, of Boston.

Having had occasion to observe, that some persons afficted with Hernia, having suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath.—

After some months of observation of his work. I am satisthe deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel myself called upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene Easton.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in tneir application.

The benefit of such instruments is often lost, in consecutive the state of the company of the property of the p

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robbins, Rozbury.

Since the death of Mr. John Beath, I have used, in preference to all other Trusses those made by Mr. J. F. Foster, of Boston.

P. G. ROBBINS, M. D,

Boston. April 27th, 1846.

Boston, April 27th, 1846.

The undersigned is familiar with the ability of Mr. J.
F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favora bly compare with that of other artists.

J.V. C: SMITH;

Editor of the Boston Medical and Surgical Journal.

TO EVERY VIOLIN PLAYER!

THE AMERICAN VIOLINIST. This splendid instruction Book for the Violin has afready passed through two editions—it is without doubt by far the most thorough work for the Violin ever published in this country. The Evening Traveller thus speaks of it:

"J. P. Jewett & Co, have just published a complete system for the Violin by J. F. Hanks, in a handsome quarto, of over a hundred pages. It is probably the most complete work of the kind in print. The sheets have been corrected with laborious care by an accomplished violinist, and the utmost pains taken to make the work perfect. In the appendix will be found the whole of Otto's celebrated, and now very rare, treatise on the construction, preserva.

and now very rare, treatise on the construction, preserva-tion, repair and improvement of the violin."

Poetrn.

From the Boston Star. STANZAS. Written on the blank teaf of Daniel P. King's Speech against Slavery and War.

Brave man, good man, true man, go boldly on; Sustain our country's honor and her laws; For her good service hast thou nobly done, And won the meed of well deserved applause.

Millions of hearts are with thee in the fight Which thou art waging with dark slavery's band; Contend for truth, for freedom and for right, And peace again may bless Columbia's land!

Hearts such as thine are wanting at this hour, The flood of dark ambition's tide to stay; When lust of fame, of conquest, and of power, Have led so many erring minds astray.

He is the traitor, who, in times of danger, Dare not speak out his honest soul's conviction; And only he to manly thought a stranger Would lay on free born speech a dark restriction!

What are our chartered liberties if we Are bound for life to slavery's iron car? Where is the spirit of the blood bought free? The Helot's abject fate were better far.

It is most painful, in this world of jars, That we should be the sport of selfish things; 'The fault, dear Brutus, is not in our sturs, But in ourselves that we are underlings.

O, for the coming of that glorious time, By Ancient bards in prophecy foretold, When men of peace, endowed with views sublime, Benignant rule our happy realms shall hold.

"I TURN TO THEE IN TIME OF NEED." BY THOMAS HAYNES BAYLEY.

I turn to thee in time of need, And never turn in vain: I see thy fond and fearless smile And hope revives again. It gives me strength to struggle on, Whate'er the strife may be-And if again my courage fails, Again I turn to thee.

Thy timid beauty charmed me first-I breathed a lover's vow-But little thought to find the friend Whose strength sustains me now; I deemed thee made for summer skies But in the stormy sea, Deserted by all other friends, Dear love, I turn to thee!

Should e'er some keener sorrow throw A shadow o'er thy mind-And should I, thoughtless, breathe to thee One word that is unkind-Forgive it, love; -thy smile will set My better feelings free, And with a look of boundless love, I still shall turn to thee!

> GIVE ME THE HAND. BY GOODWIN BARNBY.

Give me the hand that is warm, kind and ready; Give me the clasp that is calm, true, and steady; Give me the hand that will never deceive me; Give me its grasp that I aye may believe thee. Soft is the palm of the delicate woman! Hard is the hand of the rough sturdy yeoman! Soft palm or hard hand, it matters not-never! Give me the grasp that is friendly forever.

Give me the hand that is true as a brother: Give me the hand that has harm'd not another; Give me the hand that has never foreswore it; Give me its grasp that I aye may adore it. Lovely the palm of the fair blue-yein'd maiden! Horny the hand of the workman o'erladen! Lovely or ugly, it matters not-never! Give the grasp that is friendly forever.

Give me the grasp that is honest and hearty, Free as the breeze, and unshackled by party; Let friendship give me the grasps that become her, Close as the twine of the vines of the sammer, Give me the hand that is true as a brother; Give me the hand that has wrong'd not another; Soft palm, or hard hand, it matters not-never! Give me the grasp that is friendly forever,

Miscellany.

How the world mended with Timothy Cossington.

BY MARY HOWITT.

Timothy Cossington was a village tailor; he was a poor man in every sense of the word, and the proverb of enough in his case, for nine such as him would never have made up such a man as Mr. Giles Heavysides. Mr. Giles, or Farmer Heavysides, as he was called, was a great man in many ways. In person he was as one of hisfat bullocks; Timothy was as lean and shrivelled as a last year's hemlock stalk by the brook-side. Farmer Heavyside's voice was strong and deep, and came forth from his capacious chest like the bellowing of a bull, he had a deal to say on all occasions, and had a confident, self-satisfied way with him. Timothy had a small, weathealth bring home a loaf at night. cracked voice, that never seemed able to raise itself above a thin whisper; and to which his timid spirit had so forcibly a sense of his own slender gifts, that he shrunk sticks. One blessing of a tin-kettle is that it soon boils. from speaking or putting himself forward in any way .-- | The full, florid complexion, and round, moony face of the farmer made a strange contrast to the ashy paleness and for sugar and butter,—milk was out of the question—and hollow checked, lanky-haired shahby sort of face of the the fragment of the loaf, and now stood with the little poor tailor; but after all, in no one particular was the brawn ten-pot, with a broken spout, in her hand, ready difference between them so striking as in their limb .- to pour in the water the moment it boiled. Thus she Stant and strong, and in the goodliest proportion, were stand, watching the jecking of her father's whole hady the legs of Farmer Heavysides. Standing or walking as he plucked out his needle, when, all unconscious to you were sure his legs would never fail him, and his herself, the corner of her aprinc caught fire, and before large, firmly-planted feet presented hase sufficient for the she was aware she was all in a blaze. Her scream made support of his ample budy. He was truly a well endow- Timothy look up from his work, and the next moment, ed man in comparison with poor Timothy; he was one spite of his poor, weak legs, he was on the floor. The of nature's favorite children, whilst Timothy had found girl in her terror, rushed to the bed on which her mather her a hard sten-mother! Timothy had an unsteady sten, and a shambling sort of gait, which was occasioned by his was covered with a coarse woolen rag, and this extinrug, thin, shapeless legs, having an inveterate tendency guished the flame. Her clathes, however, were all to turn in at the knees, so much so, indeed, as almost to burnt from one side, and her arm and neck sadly scorchwrap one or the other at that joint. Walking was not a ed. convenient or pleasant exercise to him at any time, and

was the victim of ridicale if of nothing else. Ente seemed to have formed the farmer and tailor as two opposites. The farmer was fat, rich, stern, and the parish overseer; the tailor half-starved, puor, meck, and now and then in need of parish pay. The gruff, bud voice, and overbearing way of the farmer, when the poor went for relief, was but of very little consequence to most of them. They looked upon parish pay as their right, and they had it regardless of the manner in which it was dealt out to them. But who can describe the ear, the sinking of heart, the feeling that he would as when after weeks of hard shift, nothing was left for him heart, and he made every effort to get forward. but to ask a little relief from the parish! Had he been ridden wife and sickly daughter, and he could not bear his poor shaking knees bore him to the parish committeemoment when the burly overseer was out of humor, and wanted to be going, and then told his story in such a weak, frightened, and confused manner, that the farmer encouraging word would have been the making of Timothy, but kindness and encouragement he did not get .-Puor Fellow, what humiliation was his! He cried many mer Heavysides! a time as he went home with the miserable parish dole | affection was a strong thing in his heart, and for the sake my knees may'ut hank?' of his wife and child he was obliged to subject himself again and again to the same suffering.

greatest misfortune that could happen to him, was that

it, for then his fate was inevitable, down he came, and

there wer one person in the parish that he seared above Stop, I'll keep him off." another, it was Mr. Giles Heavysides.

'I would as soon meet his big bull as him; any day,' house-door, he preferred going half-a-mile round, diffi- ed offcult as walking was to him, rather than run the risk of seeing him.

Gruff and stern, however, as farmer Heavysides seemed to be, he was not naturally a hard-hearted man .-He assumed, as many a parish-officer does, a cold, unfeeling manner towards the poor, believing that thereby made it no casy or pleasant thing for the poor to apply his impatience. He had no difficulty about anything, and low. he could not understand how any man whose cause was bonest need have any fear. If the farmer, however, voice, seeing him about to proceed; and Timothy did as setting and all the stacking and tying up that can be could have looked down into the poor fellew's heart, and he was bid. The next moment the farmer had drawn contrived. have seen its deep, patient affection for his sufferers at Timothy into the house. God help the man!' said he home, his own brave stout heart would have honored to himself, and then shouted into his kitchen. him; could be have seen the rejoicing there was in the

ed him to make hing a whole suit of clothes. But the sorry afterwards for his harshness and impatience towards him, poor Timothy was sure the very next time to make him sin in the same way again.

But things when they get to the very worst mend. -so it was with Timothy Cassington

It happened one dull, cold March afternoon, that Timothy was sitting on his hoard over a small jub of tailoring. He was warking very hard, for he wished to finish more especially as he knew he should be paid then for his work, and he wanted to bring home a few necessaries from the village. He was nevry in a small way over his work, and pulled out his needle to the tune of some old song that he was tweedling to himself.

Put the kettle on Sally,' said the bedridden wife to the sickly daughter, 'and get father a dish of tea; there's bread enough, may be, for us-all to have a snack, and

Sally filled the little tin kettle, and put it on the fire, which she had coaxed into a blaze by the help of a few Sally set out three odd cups and saucers on the little round stand, and the treacle-put which was to serve both lay, and threw herself upon it. Fortunately, the hed

There was an end of the tea; there was an end of running was next to an imposibility, especially as any ogi- finishing the work that night; there was nothing now to tation occasioned such a trembling weakness in his legs, be done but for Timothy to hasten with all his speed to that his knees would seem to become, as it were, en- the parish doctor for same burn-salve or something,' to tangled, and threw him down. Poor Timothy! The allay the agony of the poor girl. For this time Timothy did not hesitate to take the shortest way to the dector .his knees should thus entangle. or 'hank,' as he called With misery at his heart, tears chasing each other down his hollow cheeks, and a ten-fold feebleness in his knees, he took the road up the farmer's fields, shambling on wards like a man who dreams of running rather than runs in reality. Scarcely had he reached the middle of the large meadow in which stood the large farm house. when a sound reached his ears, which for the moment drave every other thought from his mind, and that was the law bellowing of the farmer's bull. He turned his head round in the direction whence the sound preceded and there in his inexpressible horror, he beheld the huge monster coming on at a sure pace, with low bellowings, and his head to the ground. Timuthy felt as if he soon die as go for parish relief in the soul of poor Timothy, should die; a little prayer dictated by terror, was in his

The large red-faced farmer was sitting all this time in a lone man, he certainly would have died rather than the north of the house, within ten yards of the path by ask for aid so hardly dealt out to him; but he had a bed- which the tailor must go. There was a pipe in his month, o ming of ale before him on a round table, and Heavysides wiped her eyes. 'Timothy,' said she, 'you to see them perish before his face, so his trembling heart the newspaper which he had been reading in one hand. armed itself with what courage it could command, and Nothing could be more comfortable, body and mind, than the farmer at that moment; his ale was good, his room, where he always needestly waited to the very last pipe was good, and he had seen nothing in the newspaper to disturb his equaintaity. He was sitting there in a sort of pleasant reverie, when the sound of the bull reached his ears. That, however, did not trouble him, was sure to get into a passion of impatience, and assail for he did not consider the bull dangerous, when at once him with some expression of contempt or anger. A kind the feeble terrified figure of poor Timothy have in sight. As Timothy had approached the house, he had the power left for just one thought-what if he should see Far-

The farmer, seeing Timothy, started from his sent, in his pocket, and wished that he was dead and buried, and cried, 'Whither away so fast, Timothy?' But Timoand vowed that they would all three of them die to- thy, in the height, of his terror, kept wildly struggling on, fit before; and from that day poor Timothy never needed of which is given by the inventor as follows:gether, rather than he would again ask for rollef. But and exclaiming to himself, the bull! the bull! Pray, God,

At the sight of the tailor's frenzied terror, the farme dashed forward, and seizing him by the collar, cried, The consequence, however, of all this was, that if Stop madman, it's thy running that makes the bull run!

Timothy turned and looked wildly and speechlessly at the farmer; the farmer, meantime, was gazing at the said Timothy; and though the direct road to the parish bull, which at sight of him, had stopped where he was doctor, to whom he was often obliged to go on account and then giving a low, short hellow, and tearing up the of his poor invalids at home, lay past the farmer's ground with one horn, wheeled round, and slowly stalk-

> The farmer now turned and demanded from Timothy the cause of his haste.

'I'm going for the doctor-our Sally's badly burned! aid he, not able to articulate more.

These words, the piteons tone in which they were uthe fulfilled his office more faithfully, inasumch as he tered, and the chauce of his knees having 'hanked' on so momentous an occasion, touched the heart of the natu to him. Besides this, poor Timothy's feeble, irresolute, rally compassionate farmer. He saw at once, as if by a confused way of telling even the simplest story excited magic touch, the hard and pitable fate of the poor fel-

'Stop, Timothy?' said he, in his strong resolute

Dolly! Nancy! some of you wenches tell the misses as to let not two of them touch each other. Fill in with out.

self had been sitting a few moments' before. Timothy, farmer knew nothing of all this, and though he often was spite of his harry to be gone, laid his hands on the back of the chair, for he seemed to want support, he was so surprised at the farmer's manner, and the next moment only still more increased his surprise.

'Jack,' said the farmer, to a big strong lad in a carter's frock, who just then came up the meadow with a fork on his shualder, 'run down to the doctor as fast as your legs will carry you, and tell him from me to go tu Timothy Cossington's with all his hurn-salves and it in daylight, that he might take it home in the evening, things, for there's somebody nearly burnt to death ground, will keep the earth moist and light through the

> Timothy cried like a child; he dropped at once into the chair, he never felt so weak before in all his life .-And this was Farmer Heavysides! And, now Mrs. Heavysides, who was reckoned quite a grand body, was standing there in her black silk gown and scarlet shawl, and her hasband was telling her all poor Timothy's trou-

'Lord help them poor souls!' said she, and then, turning to Timothy she told him that he had done quite right to come to them in his distress, that he had, and that she would go down this very minute to see what she could do for them.

Timothy wanted to say that he had not made any application to them for help-that he never could have hought of such a thing, and that he was quite confounded, and taken by surprise by all this kindness-but he could not, for the life of him, say one word.

The farmer in the meantime, was acting like a ser vant to him; in the twinkling of an eye he hustled into the kitchen, and fetched out a piece of cold ment and a loaf and told Dolly to fetch some ale, and set a plate and knife and fork hefore him, and laid a great slice of meat on his plate.

'Come, take a monthful, man,' said he, 'it will put hit of life into thee!"

Lord liless you, sir, I couldn't eat a bit for the world! said Timothy; and he spoke the truth; for though he had been very hungry an honr before, when ten was talked of, he had now no power of cating left, and that more groin amazement at the farmer's unexpected kindness, than from his own private troubles.

Well, may be you can eat a bit for supper,' said Mrs. Heavysides, who now came in with her her bonnet and cloak on, and making a sign to Dolly, who likewise had her bonnet and shawl on, the cold meat and the loaf lisappeared into a lacgeish hasket, which Dolly was evidently going to carry with her.

Bless the Lord!' said poor Timothy at last, who had equiced all his strength to prevent himself from solibing pland, bless the Lord that he has found me friends at

The farmer wiped his eyes. Nothing in this world could have astonished Timathy so much as that there should be tears of pity in thuse eyes: he never dreamt of such a thing even then,-but there they were, neverthe-

Timothy walked down the large meadow again, and passed the ball, (which Dolly had frightened away with a hedge-stake,) by the side of the farmer's wife. He had dropped behind her, as near as he thought was becoming at first, but she insisted upon it that he should walk by her, and as they went along he poured out quite un consciously all the troubles of his full simple heart. Mrs ought to have told us this before; my husband has a hasty, stern way with him, but he is the best hearted man a the world. We'll see what we can do for you. You shall have all our mending, and if you can toake a suit I dire say Heavysides will employ you.'

Timothy saw in idea a full suit for the bulky furmer ying in progress on his hoard the very idea of it caused ray of hope to dawn on his soul, and he actually smil-

'If I ever should have that honor,' began Timothy, amazed of his own fluency, 'you should see haw well I should do them!

The poor tailor had that honor; the farmer announced to parish relief.

SETTING FRUIT TREES.

It is now time to make calculations about grafting trees and setting out new orchords.

Apple trees and pour trees may be taken up soon after the frost is out, but we advise not to set them till the earth has grown warm and is dry enough to crumble when you spread out the roots. If they are kept in a cool place the roots covered with earth, the setting may be delayed till May, or till the leaf is ready to put furth.

People are not setting orchards every year, and there fore they forget to adopt the best modes of setting. Be careful not to mangle the roots on taking a tree up; if any roots are broken, cut them off and leave a smooth end; the little fibres will start better from this than from a

It is not necessary to dig a deep hole to set trees in .-We are inclined to shudder when we see the roots of a tree buried deep in the cold earth. People bury deep to keep the roots from drying up and to give support to the tree. But a lot of old sticks of hay will guard your young tree both from winds and drought, better than deep

Set your tree no deeper than it stood in the nurserylet a how hold it upright while you spread the roots out so the sleigh upset and then, says he I found them att

house when a little job of tailoring came in—mending or to come here! Sit you down, Timothy; then said he good mould, such as you find in the garden, or in a cornamism. The would have sent to him at once, and order-pushing towards him the strong chair, on which he him-field that was made rich, but place no kind of manure. in contact with the roots. Place the manure on the surface if any where, and this with your hay or straw will support the tree, and keep the earth moist through the heat of summer. There should be a good forkful of hay or straw around each tree. Strawy manure from the cow yard will answer, if you have no other strawy

If your old hay or straw is so dry or light as to be in danger of blowing away, place flat stones on it and keep them there. You will find that a fork-full of hay, on ploughed summer: and that no grass or weeds will be found obstructing the extension of the roots. If matter has not become rotten in October, hanl it back to prevent the harboring of mice at the root of the tree.

Peat muck is a good article to be placed about a tree in a dry soil. If it has been dug the previous year, some of it may be mixed with the mould that comes in contact with the routs Muck, fresh from the meadow may be placed on the surface around the tree.

No grass or weeds ought to be permitted to grow within six feet of the tree the first year, and you must soon extend your cultivation ten feet each way if you would have your young trees flouish, and not be covered with lice and moss .- Muss, Ploughman.

SINGULAR ADVENTURE OF AN OX.

As Mr Samuel Smith, butcher, of Lisherton street, Salisbury, which is the greatest thoroughfare in the whole borough, was driving through this passage to the slaughter house, two oxen, which he had purchased of Mr Benjafield, from the neighborhood of Shaftesbury, one of them, which weighed unwards of forty four score very coolly turned round at the bottom of the passage actually ascended the staircase, a flight of about twenty stairs, and then deliberately walked into the dining-room! As soon as he got there, frighteanl, probably, at his novel position, he began tossing the chairs and tables in every direction. The canfined spet, the rattling of the broken furniture, the noise of the assembled multitude in the street below, enraged the animal. To get him down stairs was impossible. However, for this purpose man named Young, and his drover severally ascended a ladder which was placed against the window in the street. Mr Young first mustered up courage, but no sooner did the animal catch sight of him than he dashed towards him and the panes of glass flew in every direction.

It was a market day, and the usual crowd in the road was greatly increased. The drover next ascended the ladder, and forced his long stick through the broken pines. This had no other effect than further enraging the beast, Mr Smith then went to the top of the lauding with a view of shutting the dining-room door, but no sooner did the infuriated animal see him than he darted at him, which obliged Mr Smith to make a rapid retroat down .-What to do seemed a question that puzzled every one, and the only thing to be seriously feared was that he woold suddenly dash through the window into the street and, perhaps on some vehicle and passengers passing, To despatch him on the spot seemed to be the only alternative. For this purpose Mr Carp, a butcher and farmer, of Milford, produced two carbines, which he well loaded with hall.

At this time the sensation in street was very great for the safety of passengers, as it was feared that, if the firing was insiferful, the minut would be still more and more enraged. A deep silence therefore ensuel. Mr Carp took time and every precaution, and at length fired. -The ox jumped on all fours, and then fell dead. The legs of the animal were then tied, and he was dragged down stairs into the saughter-house without any injury to human life. Mr Smith's loss, owning to the injury Jone to his furniture, including the total destruction of a new ofa and carpet, must be many pounds. The ball penetroted the brain. [Shelbourne (England) Journal,

LAMP WITHOUT A WICK.

Few will hesitate to admit, that, if a lamp can be of constructed as to support a clear flame without the us: of any wick whatever, it must be an important invention; the whole parish that he never had had such an excellent and such is the principle of an invention, a description

"The fluid to be burnt is put into any suitable reservoir for holding it. This reservoir is placed above, and a little one side of the point where it is to be burnt. From this resovoir, there is to be a pipe, which is to preject dawnwards and turned or bent out horizontal. At the end of this pipe there is to be a short glass tube set in .-the top of this tube is enlarged into a cup-like form, and sets up perpendicular in it. The pipe which this is set into has a faucet valve in it, the same as in a gas pipe, This valve is to open and close the connection between the reservoir and glass tube. When the fluid is to be hunt, the valve is opened to allow the fluid to pass. through it into the glass tube, up to its surface .--It is now to be closed until the fluid in the tube is fired, when it is opened enough to allow it to pass through as fast as it will burn without smoking. By turning the valve, it regulates the passage of the fluid to give more or less light, as in a gas pipe valve. The shape of the cup part of the tube may be of any suitable form, to, give the air a free chance to combine with or support the combustion of the burning fluid, and of a size snited to the amount of light required.

A wag says, that once on a journey he was put into a stage sleigh with a dozen or more of passengers, not one of whom he knew; but on turning a short corner.

SATURDAY MORNING. MARCH 27, 1847.

OUR SECOND YEAR.

With this number we close the second volume of the Courier. In making our acknowledgments to our patrons for the degree of favor extended to us, we feel that it may be proper to say a word in relation to the past management and future course of the paper. It has always been our intention to present to our readers as great a variety of matter as was consistent with our limited space, and to collect and promulgate as much of a local character as would make our journal peculiarly a Danvers paper, devoted to the interests of the town, its history, its internal affairs, its prosperity and improvement. We have endeavored to adhere firmly to the political course suggested at the time of the establishment of the paper, and to advocate our political opinions in such a manner as not to give just cause of offence to our opponents, the names of some of whom we find on our list of subscribers, to whom we attribute the honorable motive of being willing to help sustain an independent press in the town for the benefit it may be to the place, aside from its political bearing. It has also been our design to avoid every thing like offensive personality whether in our editorials or by our correspondents. If, however, we have erred in this respect through strong provocation, we sincerely and heartily regret it and hope it may not be remembered against us. We hold no feelings of hostility or ill-will toward any person living, and wish to live in harmony and kindness with all. With regard to what pipe, such as is frequently used for convenience sake in belief continue to do so. may be communicated by correspondents, although the conducting the water to different parts of a tenement. editor of a paper is not expected to be held responsible for An instance which has recently happened and come to be found in the knowledge of the action of water, and of with which they operate. With this the constituon has one else shall prove to the contrary. all their views, we admit that for any insults and personalities in which they may indulge, it is his duty to be strictly on his guard. But with the best intentions on his part. it is possible that he may be imposed upon by an artful writer who conceals his motive under evasive language, and a wrong is committed on a worthy citizen by some worthless anonymous scribbler. To guard in future against any such occurence, it is our intention to require a responsible name to all communications containing statements not fully in accordance with the general course of the ordinary domestic purposes in the family, was ob-

With regard to the future, we hope to be able to retain the approbation and support of those who have attended us in any part of our career, and we should very much regret to part with any name whose familiar appearance on onr subscription book weekly gladdens our heart with its mediately relieved from the violen pains which had fre- in small and invisible particles, requiring long repose to promised support to our enterprise. We have no promises to make in relation to the character of the paper in future, only that it will be under the same management and have the same assistance as in times past, and every exertion will be made to increase its influence and usefulness We do not intend to be drawn into any discussions on controverted questions not legitimately belonging to a political paper, and upon which an honest difference of opinion exists in our community. Such discussions we shall in future leave exclusively to our correspondents.

In our endeavors to give satisfaction to the public, we do not of course expect to please every body. There is a class of readers, who are generally not subscribers, that delight in fault finding and are always seeking after canses of disaffection. A newspaper must be a very dull affair indeed which is so conducted that this unreasonable class cannot find oceasion of complaint. They will torture the most innocent statement into an outrageous libel, and find treason in every paragraph. The, only way for an editor to avoid their criticisms would be to issue his sheet with four blank pages, leaving it to these captious commentators to fill the space with their own wise cogitations.

COUNTY COMMISSIONERS

We publish in another column the list of candidates nominated at the Convention held in Salem, on Thursday last, to be supported for the above office. This convention was composed of delegates from thirteen towns in the county, representing no party or sect but men of duties of the office and who had at heart and would in every possible way support and advance the good morals perance will contrive some method of bringing the offenof the community. Such we think is the character of der to justice before a great while. [Lawrence Messenthe men nominated, and ought in our opinion to be ger. supported unanimously by the voters of the County, unless it can be shown that any of the candidates are not competent to discharge the duties which may be reasonably expected of them.

Of course there are many individuals who have friends chosen to the office, some of whom perhaps would be as acceptable to the community as the candidates nominated, but it would be well, we think if private interests personal preferences and trifling objections in cases like these were for the time forgotten, and a unanimity of of feeling manifested which would secure the election of the candidates nominated by a Convention, representing put on and take off the paper. the interests and feelings of the whole county-a list composed of men from the north, south, east and western portions of the county, selected from the Whig, Democratic and Liberty Parties, and all of them Tem

We have been induced to make these remarks the more especially because of the notice which we publish in another column, by request,-which proposes a Convention of the friends of Temperance, to be held at Ipswwich, to nominate a Board of Temperance Commission ers.' This movement had its origin with some of the relatives of one of the present Board, and was resorted to because his name was not placed on the list of candidates presented to the Convention at Salem, by the nominating committee, which committee was composed of notice which we have published was handed to us in the Convention, while the delegates were marking for candidates, by one of the relatives of Mr. Kimball of Ipswich, and of course before it was known who would be the candidates selected by the Convention, or whether they were Temperance men or not.

We can but hope then, that this and all similar calls for Conventions will be disregarded, especially when it is remembered that the privilege of choosing these officers by the people is confined to two elections, after which the friction matches. These dangerons conveniences require Governor has the power of appointing Commissioners to fill any vacancies that may exist. Our only desire is that good and competent men will be chosen, and we are satisfied that without the combined efforts of men of different parties and interests no choice can possibly be

We are requested to state that OTIS MUDGE, Esq., declines being considered a candidate for re-election to the Board of School Committee.

The puts a terrible power into the hands of the people; cotton, hemp, paper, &c., being so suddenly and cheaply converted into engines of destruction.

Flour is selling in Havanna as \$18 per barrel.

MICHIEVOUS MICE.—From circumstances since discovered, says the Salem Gazette, it appears that the ecent fire in the house of D. A. Neal, Esq., was unquestionably occasioned by the action of mice upon much care, to prevent their becoming 'incendiaries.'

The new law to regulate the carriage of passengers in merchant vessels prohibits the master from receiving on board a greater number of passengers than one for every fourteen clear superficial feet of deck; if the vessel is to pass within the tropics the proportion is one passenger to twenty feet of deck. The penalty for a violation of this law is a fine of \$50 for each passenger above the number of the chemical action of agents on the body. Lead belongs to that class of agents called points.

FOR THE COURIER. COUNTY COMMISSIONERS.

We are very glad to see the name of John I. BAKER. Esq., of Beverly, on the list of regularly nominated Candidates for County Commissioners. Mr. Baker is a man
who has had much experience, and is eminently qualified for the variable of the effice. He has fied for the responsible duties of the office. He has of effecting and producing those chemical changes, in held various town offices, and has for several years very ably represented the town of Beverly in the State Leg-We think no better selection could be made We say this without any reflection on the individual or the resent board whose place he is nominated to supply.-We think it very much better for the County that one new candidate should be selected every 3 or 6 years, so as always to have on the board into men of experience. think the nomination of the Convention, which we understand was a large one, was the best that could be flammation, and casting off the dead, by the irring parts.

made, and we trust the candidates being selected from In general, a great shrivelling of the parts to which the

ly disease may be germinating in their constitutions.

This is not the place, nor am I the person to enter into a detail account of the symptoms of disease assually atributed to lead. Perhaps the time has not yet arrived that the usual form under which we are accustomed to usual way, the types are 'made up' in sections of a large reason to believe that a vast many cases of rheumatic have occurred, which can be attributed only to the effect none of these, were the slightest marks of disease visible

on dissection. Nor was paralysis an accompanying evil. Medical books contain records enough of the effects of it is said that each occupant of a stall can sell out his lead, to warrant the conclusion, that it is a frequent cause of disease and death. That its use is not always, in all persons, followed by evil, is to be found in the fac Rev. S. K. Lathrop, Pastor of the Brattle street own face. The countenance may not be so ill-favored Church in Boston, lately remaked in the course of a los to forbid the hope, that possibly it may be, by some chemical action.

What is the constitution, upon whose firmness we re-

pose our trust, that lead is harmless? The constitution is only a greater or less degree, of vital force. Life is the vital force, manifested under the control of a higher influence; the nervous influence it may be, too spiritual for the cognizance of our senses. The vital force is cognizable by its effects, as are the effects of electricity magnetism, light, heat. The vital force is as much power or agent, as is either of these. All agents act chemically on the tissues of the animal body living, as they would upon dead matter. Their agency is limited and controlled by the vital force. If that is strong, so much less is their action. One man differs from not be much less is their action. One man differs from another as a horse, for instance, differs from a man. A hors may take daily, for weeks several grains of arsenic, without other effect than a softer and more silky skin. a difference in degree In this sense of the constitution, only, of that agent called the vital force, it is found by experience, that the young, the delicate, soonest succumb, under the effects of lead drank in their daily drink, and like the dews of heaven, decending on all, the gentlest and fairest, first feel the chill, which soon

sons, the inorganic or mineral poisons. This class is distinguished from others, by this circumstance, that owing to the great tendency to unite chemically with the tissues of the body, they rarely pass into the circulation. These poisons unite with, and form a part of the living the amiable author so much, and thrown structure. The effect of this combination is, the total destruction in the part where it takes place, of the power which mere life, unattended by nervous influence, consists; or in other words, poisons, by combining with the whose creed is love, we never should he tissues, destroy their organic life.

strong, then combination takes place only in a small de-In others, this destruction of the substance occurs and is followed as a burn on the skin would be, by inpoison is applied, takes place. In other cases, the com-bination not totally destroying, but only impeding the bealthy functions, goes on quietly for years, each year adding its force to the preceding, yet leaving no visible trace in the parts, its action, till finally the whole system Mr. Editor—Is it not too bad, that water—the substi- becomes so combined with the poison, that death ensues. tute for Alcaholic liquor as a drink, the genuine wine of In the case of lead, the poison once combined with the life when pure, should be in these temperance times, so tissue, is re-dissolved by an excess of the poison, and frequently poisoned by pumping or drawing it through the parts are thus affected, with a general softening and much sickness and suffering suspected if not demonstra- have been supposed to have died from the effects of

All mineral poisons act only when in solution, or are Mercury, or corrosive sublimate, arsenic, lead, tin, zinc, copper. These all belong to the same class—they all operate alike-they differ only in the degree of force nothing to do. Their difference in this respect is manifested as well on the dead as the living body. The though surrounded by living parts, as if it were cut out common minds, through the medium of go of the body. Chemical combination takes place in our words, and simple perspicuous language definite proportion, and hence when it is considered that all the animal tissues, have, what chemistry calls, very high combining numbers, and the metals very low, it is easily seen how a very small proportion of the last may son alluded in one of his lectures, whose l destroy a very large proportion of the first. About one grain of lead will completely neutralize and destroy vitality in one ounce of flesh or blood. How small a portion then, will impede the healthy functions of the body!

The mineral poisons then, all acting by uniform laws, the difference in their effects depends not upon constitution but upon their own inherent nature. ence amounts to this, that some operate at once like a hot iron, others only sear, without destroying the complete vitality of the part. They combine only slowly. This is the case, I suppose with lead. It is one of the poisons which from the smallness of its dose, and large dilution, I suppose enters the circulation. It graduall impedes the action of whatever part it combines with, bringing on disease, with a long train of anomalous symp toms till finally, before the cause has been suspected, and while the sufferer is still under the daily influence of that cause, the deposited lead begins to be re-dissolved,

Who may presume then, considering the chemical action of lead on the human system, that his constitution is safe? Such presumption is indiscreet.

Those who have been unwittingly drinking daily, the seeds of disease, whose power is thus unfolded by chemcommunicated throughout the pipe by the act of pumping | ical laws, I trust will not allow themselves to indulge in any unnecessary fears. It were much to be lamented nine influence. Two remedies may be proposed, one acting wholly on chemical principles, the other on the The last is, abstain at once principle of common sense. from the use of lead water. The first is, drink daily for sometime a small portion of sugared water, rendered by oil of vitriol. This will decomsour as lemonade, pose the compound of lead, with the tissues, with which it may come in contact, and form a perfectly insoluble

FOR THE COURIER. PUBLIC SCHOOLS.

As the appropriation for the support of these institutions. amounts to more than any other item of expenditure in by the arrival of the Hibernia at Boston, the town; and as there seems to be a desire to sustain last, from England:the well established character that our Schools have acquired; -it is worthy of consideration whether the appropriation of \$3 for each scholar between the ages of 4 and 16, is as much as ought to be made? Without The imports, especially of breadstuffs, have from want of accurate observation, to write even a brief doubt such an appropriation will sustain such schools as sive, and would no doubt, have continued history of such disease. It may however, be stated, have usually been kept in the several districts. If we prevalence of easterly winds, which check are contest to remain stationary, while other towns a- of homeward bound ships. round are exerting their utmost energies, to co-operate belly ache, purging and comiting are not unfrequently wit in the distinguishing trait of the age, the advance of the system of common school instruction, then so be it -But if we are disposed to go on improving, then somecylinder, one revolution of which brings off four legible and spasmodic and nervous disease, a general breaking thing more will be required to be done. Is there a man printed sheets. The fastest press before known in this bare occurred, which can be attributed or leave to the great deep of life, in town, who has a family of children to be educated, have occurred, which can be attributed only to the effect of small, daily doses of lead. This disease, with general similarity of symptoms has sometimes pervaded whole four flyers, and works as rapidly as they can possibly be put on and take off the paper.

The fassest press denote known in this have occurred, which can be attributed only to the effect of small, daily doses of lead. This disease, with general similarity of symptoms has sometimes pervaded whole families, and with a fatality, second only to cholera.—Out of nine persons, four died; the others were saved by removing from the cause. It produced death in from twenty-four hours after the attack, to four months. In going children would cheerfully pay this sum. Those who have no children can better afford to pay it, than those would not exceed ninepence a week for the instruction of who have many. To what better purpose can they apply their income?

This town stands No. 53, in the last Catalogue of appropriations, of the towns of the Commonwealth. That is, there are fifty-two other towns which contribute more to a scholar, than Danvers. There are probably not more than twenty towns which are better able to contribute liberally than Danvers. I would not be the advocate of extravagance, in this or any other expenditure .-But in regard to common school education until our it is not in the capacity of a physician, but of a chemist, that your committee have requested my opinion, I beg leave to confine my remarks on the effects of lead, to its mies, I do believe, liberatity of expenditure is enlight mies, I do believe, liberatity of expenditure is enlight-A PARENT. ened economy.

P. S. I make these suggestions, in the belief that this question will be agitated at our next town meeting. If any one entertains views different from what are above expressed, I should be glad to hear them. And if they can give good reasons for the faith that it is in them I will cheerfully yield assent.

A story is going the rounds of the papers that a consumptive officer in the East Indies was crawling about his grounds one day, and accidentally went into a shed where a man had been bottling some wine, and at the moment of his master's entrance had melted some rosin to seal corks with. It could not be otherwise than that those within the room should inhale the the smoke aris- state of his health prevents his removal to ing from the rosin. To the surprise of the afflicted one, confessor, Dr. Milley, left Dublin, by ex his respiration became free and unobstructed, and it in- tend him in London, where he now remains stantly occurred to him that the relief he experienced was plaint is stated to be water on the chest a produced by his having inhaled the resinous smoke. Massachusetts Legislature.

Correspondence of the Salem Register.

Charters have been reported for the Quincy Branch Railroad, the Wier Branch Railroad, the Providence Warren and Fall River Railroad, the Pittsfield and Stockbridge Railroad, and to authorize the Fitchburg Railroad to extend into Boston and erect Depots there.

This latter grant should be carefully considered, especially by the legislators of your County, as well as all others who have occasion to enter the city over Warren Bridge. As this route crosses the avenue which leads direct from said bridge to Haymarkot Square, at even grade therewith, it will necessfully greatly interfere with the present travel through this average of the content of the remore of a but the present travel through this average of the content of the remore of a but the present travel through this average of the content of the remore of a but the present travel through this average of the content of the remore of a but the present travel through this average of the content of the remore of the remove of the content o grade therewith, it will necessify greatly interfere with the present travel through this avonue; and altho' the Fitchburg Co. propose to obviate this, in part, by the creation of a new avenue to said Square, yet the distance will thereby be increased, and the communication rendered less direct; and that, too, thro' avenues to some extent more contracted in width than at present. But if it appears that 'the greatest good of the greatest number' it appears that 'the greatest good of the greatest number' requires this grant, then all must submit.

The Resolve providing for amending the Constitution?

and Pedlars, providing that any citizen of this Commonwealth might peddle, free of license, 'the agricultural products of any of the United States, or the manufactures of this Commonwealth, unless conposed in whole or in part, of wool or cotton-fruits-provisions-fuel-Books-pamphlets and newspapers.' Licenses are retained upon all else, the price of the State licenses being \$100 per aunum-while the County licenses are extended to cover the same trade of the town licenses of last year; and the price of Essex County is flixed at \$25 00. Town licenses are to be granted as heretofore and the penalty of \$200 00 is affixed to all violations of this act, recoverable for the benefit of the complainant-

The report of the committee, refusing to charter the town of Lawrence, has again been recommitted in the House, with instructions to report such charters. It is understood that this action of the House is in accordance with the views of three out of seven who constitute the Committee on Towns.

ous compound, in which the imaginative Danvers Cou_ rier has been dealing lately, has not yet been testified to, although it may be entertained to offset the poetry of the Eastern road.) Mr. Choate is expected to argue this case next week, although from his engagements, he has been able to appear but seldom in the hearing, the examination having been thus far principally and most creditably conducted by Mr. Northend.

The Jacques route, connecting the Pingree line with the Lowell road at Wilmington, will be considered, beforc the committee report upon the various routes in your

The Resolve appropriating \$10,000 for the better accommodation of the furisonsly instane at Worcester, underwent a searching investation on Tuesday. Mr.

Wise, which Heaven forbid, they are to be detained, and will again receive those fortunate enough to escape the conflict, on board. By Sunday next, I presume, if nothing occurs, the grand battle, which is to decide the fate of Mexico, will be fought. Crowninshield made a pretty thorough speech on this occasion, characterized with all his usual ability, and demonstrating the original error of allowing this establishment to grow up to its present enormous size, accomodating 360 patients-almost a small township in itself; while the true policy should have been to have erected more Institutions, of a reasonable size, and thus have promoted economy, and science also. Upon motion of Mr Sargent, of Cambridge, the Resolves were modified so as to appropriate \$6,000, and the balance of the Johnnot fund, amounting to about \$4,000 more, and in this shape passed. The bare mention of this fund is olution was not fully known. sufficient to arouse any Essex County man, who would necessarily respond to the severe but just remarks of Mr. Lord, of Salem, upon the pervision of this fund by the Commonwealth, amounting, as some members far away from Essex County avowed, after hearing Mr. Lord's statement, almost to piracy. A recapitulation of the circumstance connected with that fund may not be inappro-

It seems that George Johannot first made his will setting apart certain estate 'for the purpose of purchasing if no one will give it, a piece of land in Salem, or the vicinity, whereon to erect, and have ample ground for other purposes, a stone or brick building, with slated roofs, and as nearly fire proof as may be, calculated for a Lunatic Hospital, for the reception of the insane of Essex County, in the first instance; to be extended to other places whenever the funds will admit.' He also gave his wife, Martha, authority to alter his will: and she, fearing that, if the whole sum was spent in building it might be a long while before the intended subjects would reap any disirable benefits and, knowing that our State then possessed what was termed a model institution at Worchester, and also deeming that Massachusetts was reputed an honorable State, requiring of all her citizens an exact fulfilment of all their obligations, and facilitating all the laudable purposes of all within her borders-with these understandings, Mrs J. adopts the following mode of fulfilling the will of her husband. in the language of her own last will and testament, in which she devised: 'the residue of the estate to the trustees of the State Lunatic Hospital at Worcester, and their successors forever, upon the special trust and confidence that they shall invest the same and expened the annual income thereof, or so much as shall be necessal ry for the relief and support of such poor insane persons as may, from time to time, be committed to said Hospital from the several towns in the County of Essex, and who may, in the judgment of the trustees, be unable to support themselves therein; and if, from any cause whatever the foregoing devise for the benefit of such poor insane annual income thereof, or so much as shall be necessa-

account of the distress existing in a district in Leinster, State, and the same has been swallowed up by the with an inhabitant of which I subsequently had some Mammoth at Worcester. These resolves, it should be conversation. And though that account alleged the deaths remembered, covered much more room in the Statute of forty persons by starvation, he assured me that these book than would a few simple lines, confirmatory of the

> On Wednesday, the Senate passed the bill allowing the Fitchburg Railroud to enter Boston.

WAR NEWS.

A statement has been published in many of the papers that an attack had been made upon Gen. Taylor's army by Santa Anna with 20,000 men. This report was received by way of New Orleans and has not yet been directly confirmed or contradicted. The Editor of the N. Y. Com. Advertiser says:

The latest edition of the New York Express says: We see no reason to believe that Gen. Taylor had The Resolve providing for amending the Constitution, so that our State elections may hereafter be held on the Tuesday succeeding the first Monday in November, has passed the House by a vote of 139 to 5.

On Suturday, a bill was reported relative to Hawkers, On Saturday, a bill was reported relative to Hawkers, paper at New Orleans, we know, that Santa Anna had Pedlars, providing that any citizen of this Common-

to he sent by the Tula pass. We have seen letters, of a late date, from Saltillo, (from a regular officer, to be sure—and who may, there-fore, have prejudices.) which says; Much of the volunteer force under General Taylor is a complete mob, disobedient and umlisciplined.' And another account says:

Taylor is more in despair at his own command than from the force of the cnemy.' The order of the War Department forbids the publication of these letters, or we this notice. would quote from them more freely.

Now such a force may be admirable in entrenched

defence; but on a retreat, a wretched protection. If Santa Anna has forced the Rinconada pass, his artillery can be brought to bear upon Monterey. By the Tula pass, under Urrea, there may be certainly 12 pieces now in Gen, Taylor's rear.

We do not agree says the Salem Gazette, with the Express, in dishelieving that Taylor may have made good his retreat to Monterey, but can find no reason to doubt that a severe and bloody struggle has taken place, in which Santa Anna has repaid the stupendous folly of Mr, Polk, in restoring him to command of the Mexican The Danvers and Malden case is still in hearing.—
Several petitions have lately appeared in nid thereof, and all the substantial testimony of last year, as to freight and passengers, has been put in. (The new saponace—

ATTACK ON VERA CRUZ, It is reported that the American troops have left the island of Lobos. The whole force, when Gen. Scott arrived, on the 21st ult. was 6000

A letter from Lobos of February 28, contains the following programme of the plan of attack upon Vera Cruz.

I have just seen the plan of attack. We concentrate at the island of Auton Lizardo, and already the ships are moving off with troops. Among the fleet are ordnance ships, horse ships, wagon ships, &c. &c., and indeed all sorts of transports Auton Lizardo is about thirty miles from Vera Cruz, and as soon as possible after landing the line of March for Vera Cruz, will be commenced by landing as upon the main land in small boats. If successful in the attack, the transports are to be discharged—if otherwise, which Heaven forbid, they are to be detained, and will again receive those fortunate enough to escape the A letter from Lobos of February 28, contains the fol-

BY MAGNETIC TELEGRAPH.

New York, Thursday, 10. P. M.
No News from the Army. We have dates from Tampico to the 3th inst. All the troops had sailed for the island of Lobos. It was reported at Tampico that Gen.
Taylor had retreated from Agua Nueva to Saltillo, and thence to Monterey, without a battle, which is believed, notwithstanding other reports. All the Mexicans say that Santa Anna defeated Gen. Taylor at Agua Nueva.

There has been a revelution to the city of Mexicans. Santa Anna defeated Gen. Taylor at Agua Nueva.

There has been a revolution in the city of Mexico, headed by the clergy and national guards. Gomez Farias was deposed and Salas made President. The revolutionists proclaimed for restoration of true Iderative principles. The troops at Jalisco deserted. A portion of La Vega's command, which were ordered to go to Vera Cruz were concerned in the revolution. The result of the revolution was not fully known.

The late Sir John Sinclair left thirty eight feet of children—three sons and three daughters.

The eldest daughter of Col Benton was married on Thursday evening, at Washington, to a Mr Jones, formerly of New Orleans. There was a large company. and President Polk gave the bride to her husband.

FOR THE COURIER.

Mr. Editor—In your paper of Saturday last is a communication signed by the Fireward attached to engine No. 8, in which he says some explanation is necessary of the resulution adopted by the Company belonging to that Engine, March 8th. 1847. First the manner in which the Engine, March 8th. 1847. First the manner in which the Fireward attached to that Engine has been forced upon them. We should have supposed he would have understood our meaning, although the Board of Firewards might take it as a reflection on their conduct which was far from our intention. The resolve, to convey the exact meaning of the Campany, should read—wich the manner in which he has forced himself upon the Company, and we think he will not want any explanhtion of this when he recollects the manner in which the former Fireward attached to that Engine was dropped from the last year's tached to that Engine was dropped from the last year's ticket. A man who the company all respected and were completely satisfied with.

completely satisfied with.

Again he says, "the records of the Clerk of the Board of Firewards shows, &c." This poor attempt to throw dust in the eyes of the public does not amount to much, when in the eyes of the pulmic does not amount to much, when it is remembered that most of the present company have belonged to the Engine ever since it had a Company; and when it was found, last April, that Mr. P. was attached to the engine, for the ensuing year, it was the intention of the Company to leave, and they were prevented from doing so mainly by having Mr. Reith attached to the engine,—a member of the Board of Firewards, chosen from the

Company.

Again, he says, the especial treatment complained of, is a compliance with the regulations required of Firewards. We would ask if the regulations required of him wards. wards. We would ask if the regulations required of him after having stopped the engine, (contrary to the printed By-Laws of the Board) on the occasion of a fire at Marblehead, to use the following language:—"Hold on; don't start another inch, I am not going to have you go over to

Distress.—A correspondent of the London Atlas writes concerning the actual state of the country at the present time:

There are many districts in Ireland in which it would be most difficult for the most ardent fancy to heighten by words the distress that exists. But one cannot help see in the Irish correspondent of the Daily News, as to the tendency of the newspapers here to represent every cottage in Ireland as a perfect 'Ugolino's dangean.' It is not long since there was inserted in the newspapers and their successors, in trust, for the Commonwealth of Massachusetts, to be used and improved for the maintenance of insane persons and for the benefit of the Institution.

This latter clause proved too great a temptation for a majority of the Legislature of 1841; and notwithstanding in the first instance, the Senate stood out against such injustice, selfishness finally triumphed, and resolves were not long since there was inserted in the newspapers and their successors, is then the had got something through, that he had heen try-like two years. That he bathed Company under the hound to C town to take the subject into consideration. &c. He has taken pretty good care to put that out of their power for this year at least. We think the thoughts of this nodest candidate for Fireward, when going to the last Town Meeting, with his pockets crammed with votes to ensure his own election, must have been something like the flowing:—I shall be closted by the ansought suffrages of my fellow citizens, for I have got the documents in my pocket. As to a Supervisory Committee, we would suggest whether it would not be better to elect him Lieut. General of the whole, and let him Benton like, throw all the rest overboard at once. This dropping them one at a time is slow business.

A Member of Engine Co. No. 8, Approbated April, 1846.

MARRIAGES.

In Salem, Mr. JACOB BACON, of Gloucester, to Miss Abdy Webber of Salem. Mr. Charles H. Stanford to Miss Marha M. Ball. In Boston, by Rev. Mr. Peabody, Rev. Octavius B Frouinneham, Paster of the North Church, in Salein, to Miss Caroline E. Curtis, daughter of Caleb Curtis, Esq., of Boston.

DEATHS. In this town, on Sunday last, Mrs. Many, wife of Jan

Voodward, aged 25. March 20th, Georgiana, only daughter of George A.

Ind Eliza Brock, aged 3 months and 15 days.

"It died before the infant sonl

Had ever burned with wrong desire,
Had ever sporned at heaven's control,

Or ever quenched its sacred fire.

It died to sin, to wee and cure :

Yet for a moment felt the rad;
Yet for a moment felt the rad;
Then, springing on the viewless air,
Spread its light wings and soared to God."
March 24th, JANES WILLIAM, only son of Eben and A.
Eustls, aged 16 years and 4 months. Funorol this afernoon, at 3 o'clock. Friends and relatives are invited
attend.

TEMPERANCE CONVENTION. A Convention for the nomination of a Temperature Board of County Commissioners will be held at IPS WICH, on WEDNESDAY, March 31, at 11 o'clock,

has had ten years experience in the business. CERTIFICATES.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Boston.

I have sent many patients to be fixed with Trusses and Abdominal Supporters, by James F. Fester, and he has unformly given tail satisfaction in their application.

The benefit of such instruments is often lost, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account, I am in the habit of sanding patients to Mr. Feeter, confidently believing the first of sanding patients to Mr.

na properly fitting them; on this account, I am in the many it of sending patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

H. B. C. GREENE, M. D.

From Dr. Robbins, Roxlury.

Since the death of Mr. John Beath, I have used. in preference to all other Trusses those made by Mr. J. F. Foster, of Boston.

P. G. ROBBINS, M. D.,

Rossian April 27th, 1846.

Beston, April 27th, 1849.

The undersigned is familiar with the ability of Mr. J.
F. Foster to manufacture trusses of the various kinds of

Editor of the Boston Medical and Surgicel Journal. THE subscriber has supplied himself with a

Lirge assortment of

STOVES,

o the latest and most improved construction, among which are the following patterns of

COOKING STOVES: COURTAGESTOVES:

Knichterbocker, an entirely new pattern, having the agency for Essex Co.. he will sell at wholesale or retail. This Stove, for economy in tesaonsumption of fuel, and laborsaving, in the usual necessary domestic purposes for which a cocking-stove is used, is not equalled by any now in use The Boston Air-Ti h', an entirely new pattern, which is said to be an excellent stove.

Rathnarm.

But now

ay that I was cured immediately upon taking one of Dr Lorname's Pills. J. BROOKS.

Sir. I could M the whole of the Sential with miler letters to the above, but believing the above stracts will serve for useful purposes for the present only for the serve of the serve of the serve of the serve of the present of the serve of the se PARLOR, STOVES, among which are the following:

Utter's Air-Tight Coal Stoves, Eagle, a new and elegant pattern Column:

ovens;
Also, various styles of Cylinder and Box Stores.

The above stoves will be sold as low as they can be purchased at any establishment in the county.

Any pattern of Stove which may be wanted, which he may not have on hand, will be furnished to order at short amine them.

Call and examine for vourselves.

He also keeps constantly on hand and for sale, a larg tock of manufactured

TO EVERY VIOLIN PLAYER!

THE AMERICAN VIOLINIST. This splenLidid instruction Book for the Violin has already passed through two editions—it is without doubt by lar the most thorough work for the Violin ever published in this country. The Evening Traveller thus speaks of it:

"J. P. Jewett & Co, have just published a complete system for the Violin by J. F. Hanks, in a handsome quarto, of over a hundred pages. It is probably the most complete work of the kind in print. The shrets have been corrected with laborious care by an accomplished violinist and the utmost pains taken to make the work perfect. It is probably the Game of States, or who'll be F. Cards. Game of States, or who'll be F. Characteristics, by Mrs Tuthill. Master I bis papil. Young Traveller. Punch's Destiny. Game of Heroes. Bohen Girl. Game of Kings. Cards of the M.
